## Advancing the use of African languages in education

BAQONDE is collaborative project between European and South African Higher Education Institutions to facilitate and promote the use of indigenous African languages as mediums of instruction in tertiary education. Co-funded by the EU's ERASMUS+ Capacity Building in Higher Education programme, BAQONDE aims to guarantee a more (linguistically) inclusive and legitimate access to Higher Education by means of a coordinated inter-institutional strategy that seeks to train lecturers in the use of innovative multilingual teaching methodologies, develop new materials to both train teachers and teach multilingually, and establish a collaborative network of African Language Development Units among SA partners.
