

POSTER GUIDELINES

The posters will be on display throughout the day on either Tuesday 18th June or Wednesday 19th June, including lunch and coffee breaks. There will also be a dedicated time on each day of the conference, when authors will have the opportunity to stand by their posters and interact with conference delegates.

Mounting and arranging materials

- Each author will be assigned an A0 size (841 x 1189 mm) poster space (landscape).
- Posters will be mounted using white tac, which will be provided.
- Use of one large sheet of paper is preferred.
- The abstract title, authors and affiliations should be indicated in a heading at the top of your poster.
- Lettering for the title line should be at least 2.5 cm high. **Please use an appropriately-sized font throughout.**
- PowerPoint can be used to produce clear posters and most universities have poster printing services.

Illustrations and layout

- Keep visual materials simple and clear.
- For clarity, graphs, charts, tables and pictures should be used to communicate information where possible.
- You may also like to consider providing a handout or preparing a sign-up sheet for delegates who request additional information.
