

Student Evaluation Results - Semester 1, 2010/11

Student-evaluations of all Michaelmas-term undergraduate modules in the School took place just before Christmas. One of the questions on the evaluation form was “Overall I found this module ...” with the options of 1, excellent; 2, very good; 3, average; 4, poor; 5, very poor.

In order to recognize good teaching within our School, the School executive has taken a decision to circulate the names of the modules and lecturers of the ‘top 3 most highly ranked modules’ within each Department based on this question. Philosophy requested that their results remain unpublished.

Economics		Number of Respondents	Response Rate	Average Rating	Lecturer
EC3050	Investment Analysis	64	34%	1.55	Eleanor Denny
EC3030	European Economy	82	23%	1.61	John O'Hagan
