Visa requirements

EU Citizens

Citizens of the EU or Schengen member states may cross the Polish border on the basis of a valid travel document (passport/ identity card).

Non-EU Citizens

Citizens of countries other than member states of the EU, Norway, Iceland, Liechtenstein and Switzerland, may cross the external borders of the EU, including Polish borders provided they:

- hold a valid transport document
- hold a valid visa, in the event when it is obligatory
- justify the purpose and conditions of their intended stay and prove they have sufficient means of subsistence for the planned stay and for a return journey to their country of origin or that they are capable to obtain such means lawfully
- have an appropriate travel medical insurance

You must apply for the visa from the Polish Embassy in your country of residence, providing the letter of invitation from the Jagiellonian University in Kraków. You should apply for visa in advance as the issuing procedures can last several weeks.

Schengen visa

Poland is a Member State of the Schengen Area. Receiving a short-stay Schengen visa (marked with a **C** symbol) allows a foreigner to enter the Polish territory and to travel freely within the Schengen Area. This type of visa gives its holder the right to spend up to 90 days within the Schengen Area within the period of six months. The period is calculated from the first entry. If you plan to spend less than 90 days in Poland, you should apply for this type of visa.

National visa

If you plan to spend more than 90 days (at least 91) in Poland, then you should apply for a long-stay Polish national visa (marked with a **D** symbol). Such visas are issued for a period no longer than a year and allow its holder to move within the territory of other Schengen states for up to three months within a half-year period.

Health care in Poland

If you are a EU/ EFTA and you have the European Health Insurance Card (EHIC) then you are entitled to receive free health care services. Using your card you can go directly to a General Practitioner.

Citizens of the EU/ EFTA who are not insured in their country of origin or students from countries outside the EU/EFTA should purchase insurance before they arrive in Poland or purchase insurance in the **Polish National Health Fund** (Narodowy Fundusz Zdrowia – NFZ). The monthly cost of such insurance for students is around 40 PLN (9 EUR). Foreigners insured in NFZ, are treated equally to Polish citizens and have the same access to health care benefits and the financing of these benefits.

Persons without health insurance coverage in Poland or any other member state of the EU/ EFTA, may – as a general rule – use health benefits for a fee. In the event of presenting an appropriate health insurance policy (for example the policy required for the Schengen visa), a facility offering medical assistance may settle the costs directly with the insurer.

All students who hold the Card of the Pole or documented adherence to the Polish nation may be insured free of charge at the JU. These persons need to contact the Office for Student Affairs. The Card of the Pole entitles its holder to benefit from a free treatment in the facilities of the National Health Fund only in cases of emergency.

Exchange students are obliged to hold a proper insurance policy (health, accidents, medical costs) covering their whole stay in Poland. The University will not be liable for any costs covering medical treatment etc.

Student ID Card

A student ID card confirms your student status at the Jagiellonian University in Kraków. You will need the card to access university libraries and to benefit from discount on public transport. Student ID cards for exchange students are issued by the International Mobility Students Office. Students carrying out internships are not entitled to receive a student ID card.

In order to obtain a Student ID card you need to:

- pay a fee in the amount of 17 PLN via bank transfer to the account number available in your USOSweb, in the tab 'payments'. The transfer can be done in every post office or bank. Paying in euro is not advised as the amount of transferred money may not equal to 17 PLN which will result in the prolongation of the issue of the card until the exact amount will be paid.
- provide a passport photo (it cannot be a scan or copy)

The card can be collected approximately a week after the payment has been settled.

At the end of the semester, you need to extend the validity of the student ID card in the ISMO. Student ID cards are not extended automatically.

Duplicate Student ID Card

In case of loss of your card, you need to contact the ISMO to issue a duplicate. The cost is 25,50 PLN (6 EUR). The fee should be transferred to the bank account number available in your USOSweb.

The **Jagiellonian Library** is the central library of the university and one of two national deposit libraries that contain all titles published in Poland. Exchange students may benefit from the collection of books and manuscripts of the Jagiellonian Library. The Jagiellonian Library has a study room in which you may read and study and prepare for classes and exams. In order to register at the library, visit the main building. The registration fee is 10 PLN (2 EUR).

Exchange students may order books to the library's reading room or borrow them home. To register you need to bring the following documents:

- ID Card (students from the EU- ID card or passport, students from outside the EU- passport)

Grading system

At the Jagiellonian University, exams and courses are assessed according to the following scale:

- Very good – 5,0
- Good plus – 4,5
- Good – 4,0
- Satisfactory plus – 3,5
- Satisfactory – 3,0
- Fail – 2,0

Zaliczenie (non-graded pass) and Niezaliczenie (fail)

At the JU not all classes are assessed by a written or oral examination. Some lecturers require students to perform other forms of activity to pass their classes, for example to actively participate in classes or to prepare a presentation. If the given subject is not assessed by an exam, the following grades may be awarded:

- ZAL – zaliczenie – student has passed their classes, no grade has been awarded as it was not required by the lecturer
- ZAL z oceną – non-graded pass with a grade – student has passed their classes and has been awarded a grade as it has been required by the lecturer
- NZAL – niezaliczenie – student has not passed their classes, no grade has been awarded

ECTS

ECTS points are awarded to students for completion of a subject prescribed in the study programme when a student fulfilled requirements concerning acquiring of the assumed learning outcomes. One ECTS point corresponds to learning outcomes which require from a student on average 25-30 hours of work, while the number of student's hours of work includes classes organized by the university according to the study programme, as well as student's individual work.

Exams

Exams (written and oral) are taken by students in two examination periods during the winter and summer term. During each term there are two exam sessions: the first session and a resit exam session, during which there are no classes. Often students may take a 'zero' exam that is an exam which is held before the start of an examination period, usually failing this type of exam has no consequences for the student. The lecturer decides whether to organize a 'zero' exam.

Students who have failed their exams in the first examination session, may sit a second exam during the resit examination period, the dates are usually settled by the lecturers.

After you have passed an exam the grade will be recorded by the academic teacher in your USOSweb account. If you have failed an exam, you will not receive ECTS points for the respective subject.

Plagiarism

Some academic teachers may ask students to submit written papers during the academic year. Therefore, please keep in mind that plagiarism is strictly forbidden at the JU and results in fail. The following things are considered as plagiarism:

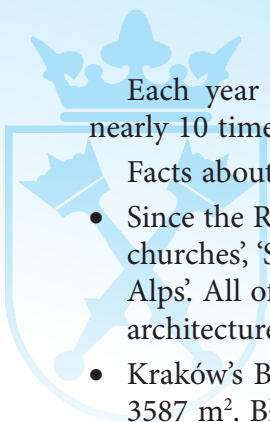

- turning in someone else's work as your own
- copying words or ideas from someone else without giving credit
- failing to put a quotation in quotation marks
- giving incorrect information about the source of a quotation
- changing words but copying the sentence structure of a source without giving credit
- copying so many words or ideas from a source that it makes up the majority of your work, whether you give credit or not

Extension the duration of the mobility

If you have applied for the winter semester but you would like to extend your stay for the whole academic year, then you should contact your home Erasmus+ coordinator and your departmental Erasmus+ coordinator at the JU. Your home Erasmus+ coordinator should notify the International Students Mobility Office that you are also nominated for the summer semester. Then, ISMO will prepare an acceptance letter for the second semester.
