Postgraduate Research
at Trinity College Dublin, the University of Dublin

Trinity is recognised as one of the world’s leading research-intensive universities and its research continues to address issues of global, societal and economic importance.

Applying for a Masters by Research or PhD at Trinity

As a truly international university, we welcome applications from prospective postgraduate students globally and we hope you will consider choosing Trinity for your postgraduate research.

1. Find a Potential Academic Supervisor
Once you have identified your research area, the next step is to make contact with academic staff in relevant fields and identify a potential supervisor: www.tcd.ie/research

2. Make Contact with Potential Academic Supervisor
Contact potential academic supervisors with a brief research proposal or idea, demonstrating your interest and relevant experience in the research area. If an academic staff member is willing to support your application for a PhD position, they will direct you to the school’s online application page. Please note that some schools at Trinity have specific guidelines for applying for a PhD position. It is important to check the Schools’ webpage for any additional information at: www.tcd.ie/courses/postgraduate/postgraduate-research

3. Submit your Application
You will need to submit your application by following the guidelines given to you by your potential supervisor. Your application will need to include a detailed research proposal, as well as transcripts, proof of English proficiency, CV and any other relevant document. Your application is then reviewed by the relevant School. The Dean of Graduate Studies conducts the final review and issues approval subsequent to meeting all criteria.

4. Explore Funding Opportunities
Once you find an academic willing to supervise your research, they will be best placed to advise you of relevant funding opportunities through Irish and European funding agencies. Additionally, you may also:
— Contact scholarship awarding bodies in your home country for possible PhD funding options.
— Review Trinity’s postgraduate awards which are available only to students intending to register for full-time higher research degrees (i.e. PhD). www.tcd.ie/study/international/scholarships/postgraduate
— Contact the Regional Manager for your country for information on other opportunities: www.tcd.ie/global/people/#Recruitment

The option to study by distance is available to students who are interested in undertaking a structured PhD programme under the supervision of our world class research talent and to access our unrivalled academic resources, but who are not in a position to be resident in Dublin for the duration of their studies.
