Trinity College Dublin, the University of Dublin is committed to inspiring the next generation of global citizens and leaders. Ranked 1st in Ireland and 81st in the world, Trinity continues to promote research, foster innovation, and ensure students are at the heart of everything we do.

MARY ROBINSON
Former President of Ireland, United Nations High Commissioner for Human Rights and Trinity Alumna

Nobody can go back and start a new beginning, but anyone can start today and make a new ending.

Trinity College Dublin

Ireland’s Leading University

Welcome from the Dean of Graduate Studies

Trinity College Dublin, the University of Dublin is Ireland’s leading university, ranked 81st in the world*. Our professors with whom you will work are inspiring thought leaders in their fields. Our facilities combine the unique charisma of an age-old university campus with 21st century teaching, learning and research opportunities.

Our postgraduate students, drawn from all parts of the globe, continually inspire us with their diversity, commitment and academic contributions. Our graduates are outstanding and are held in high esteem by employers. As global citizens they continue to create and drive our future, both nationally and internationally.

We look forward to welcoming you into this vibrant, scholarly community, where you will be challenged to fulfil your potential, both academically and personally in your postgraduate study.

Professor Martine Smith
Dean of Graduate Studies, Trinity College Dublin, the University of Dublin

* QS World University Rankings 2024.
**Why Choose Trinity?**

---

**WORLD-CLASS EDUCATION**

Trinity College Dublin, the University of Dublin is Ireland’s top-ranked university and 81st in the world (QS World University Rankings 2024). Our professors lead their fields, contributing to research and academic teaching with real-world impact. Trinity offers a wide range of postgraduate courses across 24 Schools. Find out more at: [www.tcd.ie/courses/postgraduate](http://www.tcd.ie/courses/postgraduate)

---

**ICONIC LOCATION**

Trinity is situated on a beautiful campus in the heart of Dublin’s centre, close to the national transport hub and international airport. The campus blends modern and traditional facilities, including the country’s largest research library, the historic Book of Kells, and the innovative Trinity Business School. Find out more at: [www.tcd.ie/study/international/visit](http://www.tcd.ie/study/international/visit)

---

**GRADUATE CAREER OPPORTUNITIES**

Ireland is a hub for global employers, including Facebook, Google, Microsoft, and Pfizer – and they are part of Trinity’s network of 500 enterprise partners. Trinity is also ranked 91st in the world for graduate employability (QS World Employability Rankings 2022) and our students are sought after in many industries. Find out more at: [www.tcd.ie/study/international/why-trinity/careers.php](http://www.tcd.ie/study/international/why-trinity/careers.php)

---

**ADDRESSING SOCIETAL CHALLENGES**

Our university is committed to making society more equitable through the work of its esteemed academics and students. Trinity leads initiatives across Dublin and Ireland, while its global reach gives forward-looking thinkers access to the resources needed to have a positive impact on our planet. Find out more at: [www.tcd.ie/research](http://www.tcd.ie/research)

---

**INTERNATIONAL REACH**

As the 16th most international university in the world (Times Higher Education Ranking 2023), Trinity has students from 126 nationalities – a truly diverse and global campus. Find out more at: [www.tcd.ie/study/international/why-trinity/careers.php](http://www.tcd.ie/study/international/why-trinity/careers.php)

---

**REPUTATION FOR RESEARCH AND TEACHING EXCELLENCE**

Trinity is Ireland’s leading university and recognised internationally as a research innovator. We a member of the League of European Research Universities (LERU), leading institutions uniting global experts across all disciplines for forward-looking and impactful research that inspires our students, within the curriculum and into their postgraduate careers. Find out more at: [www.tcd.ie/study/international/why-trinity/research.php](http://www.tcd.ie/study/international/why-trinity/research.php)

Trinity College Dublin, the University of Dublin is Ireland’s top-ranked university and 81st in the world (QS World University Rankings 2024). Our professors lead their fields, contributing to research and academic teaching with real-world impact. Trinity offers a wide range of postgraduate courses across 24 Schools. Find out more at: [www.tcd.ie/courses/postgraduate](http://www.tcd.ie/courses/postgraduate)

---

**Mollie Kramer**

M.Phil. International History graduate from the US

I chose to study at Trinity because of the International History programme and the amazing faculty in it. The International History department is made up of remarkable scholars and brilliant professors, who have made my time at Trinity so engaging and productive, and I’ve gained not only knowledge but perspective from interacting with them.

---

**Nicko de Guzman**

M.Phil. Digital Humanities and Culture graduate from the Philippines

Trinity was easily a top choice for me when I decided to take my Master’s degree in Ireland. Not only did the university have very high rankings in every field of study, but what was important to me as an international student was the diversity of the student and faculty. Digital Humanities as a course is really accommodating for people with different backgrounds to come together to learn. Digital Humanities taught me how the spirit of collaboration is valuable and that trying to arrive at an understanding between two seemingly different worlds is better than not trying at all.

STUDENT SUPPORTS

Trinity is committed to giving its students access to all support services needed, addressing a range of administrative and academic learning, IT, personal health and wellbeing, and accommodation issues. Other supports include the Careers Service and an Alumni Career Network for support after graduation. Find out more at: www.tcd.ie/students/supports-services

DISTINGUISHED ALUMNI

Over four centuries, Trinity graduates have led on the world stage; famed authors, from Oscar Wilde to Samuel Beckett, Nobel prize-winners, including Ernest Walton, and Irish presidents, such as Mary Robinson, have attended Trinity or taught here. Today, our alumni network features 139,000 alumni across all industries. Find out more at: www.tcd.ie/alumni/community/students

STUDENT LIFE

Trinity offers an unparalleled university experience, with almost 170 sports clubs and societies led by students, for students. These are among the most robust and active in the country, while course-specific social events are arranged for you to get to know your new classmates. Find out more at: www.tcd.ie/students/clubs-societies

LEADING LEARNING FACILITIES

Trinity’s recently opened, state-of-the-art Business School joins the array of learning suites on campus, alongside the university’s famous library – home to seven million print volumes and historic collections. Trinity has also announced plans to expand existing facilities to include a new Law School and the E3 Learning Foundry. Learn more at: www.tcd.ie/maps

Clara Iribarne
M.Phil. Gender and Women’s Studies graduate from Argentina

Studying in Trinity was an outstanding experience, not only because of the academic excellence, but also because you have the opportunity to meet and engage with like-minded people from all around the world.

Employability and Careers

At Trinity we work closely with industry to ensure our programmes produce graduates ready for employment in their chosen sector. Many global technology, engineering, and pharmaceutical enterprises are located in Dublin, while the city also has a vibrant arts and creative scene.

The Trinity Careers Service links you with these companies through careers fairs and events held throughout the year. Find out more at: www.tcd.ie/careers/events/careers-fairs.php

We also help you explore your career options and ambitions through:

› CV advice and interview preparation;
› interactive employability skills workshops;
› one-to-one guidance with experienced careers experts; and
› employability awards and leadership programmes.

Our online MyCareer system helps students explore job opportunities and on-campus careers events. You can also meet and be inspired by our Trinity alumni now employed in a range of sectors. Start planning your career journey at: www.tcd.ie/careers/students/options/index.php

STAY BACK WORK PERMIT FOR INTERNATIONAL STUDENTS

Students from outside the European Union (EU) with permission to undertake postgraduate study in Ireland are entitled to take up casual employment, defined as up to 20 hours part-time work per week or full-time work during vacation periods.

To encourage talented, skilled graduates to pursue careers in Ireland, nationals from outside the EU are permitted to remain in Ireland for an additional period of 12-24 months after receipt of results of their final examinations as part of the Third Level Graduate Scheme. See more at: www.inis.gov.ie

Students from the EU are free to take up employment under standard EU free movement of labour regulations. However, mixing employment with study can be challenging, and it is recommended that students possess the financial resources to complete their chosen academic course.

Siddharth Sheshadri
M.Sc. Computer Science graduate from India, Data Scientist at Optum

The field of Data Science always interested me and on reading further about the brilliant faculty in the university online, I decided to pursue a Master’s programme here. I chose to specialise in Data Science, and feel it is one of the best decisions I ever took.
Accommodation at Trinity

Many postgraduate students find accommodation in shared houses or self-catering apartments. Houses and apartments vary in price, depending on size, facilities, and location. The Students’ Union offers a useful Accommodation Advisory Service. Find out more at: www.tcdsuaccommodation.org

A limited number of students may be housed in Trinity’s recommended accommodation close to the university. For further details see: www.tcd.ie/accommodation

The earlier you begin searching for accommodation, the more options you will have in a suitable location and price range.

Tara Turner-Heaney
Professional Master’s of Education graduate from Ireland

I chose to study at Trinity because of the endless possibilities that Trinity gives you, both in terms of future job opportunities and world-renowned education. The amazing lecturers are experts in their field and I also chose to study here because of the strong sense of community that Trinity has to offer. I also love the history of this college and am able to walk in the footsteps of many famous and inspiring alumni, such as Mary Robinson.

If I had to describe Trinity in three words they would be: friendly, supportive and renowned.

Ireland has the 3rd highest quality of life in the world
United Nations Human Development Index 2022
Trinity’s day nursery caters for children aged three months up to four and a half years old. There is a fee for this service, and you can find out more at: www.tcd.ie/about/services/daynursery

IT SERVICES
As a Trinity student, you have access to hundreds of computers across campus, secure Wi-Fi, a Trinity Gmail account, and e-learning resources on the Blackboard Learn system. Learn more at: www.tcd.ie/itservices/students

LIBRARY
Trinity has the largest research library in Ireland, with seven million printed volumes, nearly 500,000 electronic books, 80,000 electronic journals, and an extensive collection of maps, printed music, and manuscripts. Check these out at: www.tcd.ie/library

DISABILITY SERVICE
The Student Disability Service works closely with academic staff, tutors, administrators and other support services to meet the requirements of students with any disability, see: www.tcd.ie/disability

Non-EU students are not entitled to free national health services in Ireland, and are advised to obtain or extend private health insurance cover before leaving their home country. Private health insurance is also available in Ireland and the student health service can advise you on your options, for more see: www.tcd.ie/study/international/arriving-in-ireland/health-insurance

Anastasija Walsh
M.Sc. Immunotherapeutics graduate from Ireland
I chose Trinity primarily due its reputation. Trinity is Ireland’s top university and I thought it would look great on my CV and that the education would be the best out of all Irish universities. I chose my degree because of the reputation of the school of Immunology. We have some of the best immunologists in the country including Luke O’Neill and Kingston Mills, and I knew I would be in good hands.
Postgraduate Research at Trinity

Trinity is recognised as one of the world’s leading research-intensive universities and its research continues to address issues of global, societal and economic importance.

Trinity has research strengths that span the Arts, Humanities and Social Sciences, STEM and Health Sciences, a spectrum that is mirrored by our broad range of taught postgraduate courses and research opportunities at Master’s and doctorate level.

Meabh Hughes
Geology Ph.D. graduate from Ireland

Being guided by experts and colleagues, meeting and learning from accomplished researchers from other universities, as well as from Trinity, is an opportunity I am glad I didn’t let pass me by. The energising academic environment is enhanced by the informal coffee mornings and lunchtime talks.

Postgraduate Research Students

Applying for a Master’s by Research or Ph.D. at Trinity

As a truly international university, we welcome applications from prospective postgraduate students across the globe and we hope you will choose Trinity for your Ph.D. research programme.

Here are four steps to help on your journey towards starting postgraduate research at Trinity:

1. Find a Potential Academic Supervisor

   First, explore Trinity’s research areas and determine your subject of interest. The university offers opportunities for innovative postgraduate projects across a range of research groups and centres. Find out more at: www.tcd.ie/research/themes

   The next step is to contact the academic staff relevant to your field and identify a potential supervisor. You can find our research staff at: www.tcd.ie/research/people

2. Make Contact with Potential Academic Supervisor

   Once you have found potential academic supervisors, contact them with a brief research proposal, demonstrating your interest and relevant experience in the research area.

   If an academic is willing to support your Ph.D. application, they will direct you to the relevant school’s online application page. Some Trinity schools have specific application guidelines, so please check each school’s requirements at: www.tcd.ie/courses/postgraduate/postgraduate-research

3. Submit your Application

   Submit your application following the guidelines provided by your potential supervisor. Your application must include a detailed research proposal, as well as academic transcripts, proof of English proficiency, a CV and any other relevant documents.

   Your application is then reviewed by the relevant school. The Dean of Graduate Studies conducts the final review and will issue approval for the Ph.D. if you have met all criteria.

4. Explore Funding Opportunities

   Once you find an academic willing to supervise your research, they will advise you of relevant funding opportunities through Irish and European funding agencies. You may also:

   › Contact scholarship awarding bodies in your home country for possible Ph.D. funding.

   › Trinity offers postgraduate awards available only to students registering for full-time higher research degrees, such as Ph.Ds. Find out more at: www.tcd.ie/study/postgraduate/scholarships-funding

   › Contact the Regional Manager for your country for information on other funding opportunities. Details of these staff can be found at: www.tcd.ie/study/country

Trinity is the first and only Irish university to join the prestigious ranks of the League of European Research Universities (LERU).
POSTGRADUATE ADMISSION REQUIREMENTS
Postgraduate study at Trinity is academically challenging and all courses have high entry requirements.

To qualify for admission to a degree course at the university, applicants will need to:

› Hold at least a 2.1 honours degree from an Irish university or equivalent result from a university in another country.

› Display a high level of competence in the English language in one of the examination systems recognised by Trinity.

For details of English language requirements please, see page 24.

Full details are available at: www.tcd.ie/study/apply/admission-requirements/postgraduate

For more information on admission requirements for your country of origin, learn more at: www.tcd.ie/study/country

Trinity is top 50 in the world for English Language and Literature, Nursing, and Pharmacy and Pharmacology.

QS World Rankings 2023

Le Dung (Jimmy) Mai
M.Sc. Environmental Sciences graduate from Vietnam

My time at Trinity certainly laid a concrete foundation for my future career in Environmental Science. During my studies, I always felt supported by the professors who were very accessible and helpful. I have also made so many new friends who are not only Irish but also from all over the world.
VISA REQUIREMENTS

If you are a citizen of the European Union (EU), you do not need a visa to enter and live in Ireland.

Some, but not all, non-EU/EEA students require an entry visa for Ireland. Visa-required non-EU students should contact their nearest Irish Embassy or Consulate for details on visa requirements. We advise students to apply for their entry visa early as they can take up to 8-10 weeks to process. To check if you need a visa, please visit the Irish Naturalisation and Immigration Service (INIS) at: www.inis.gov.ie/en/INIS/pages/check-irish-visa

All non-EU students, whether visa-required or not, must register with the INIS for permission to remain in the state. Students must show their offer letter from Trinity at airport immigration, where they will receive a temporary stamp in their passport allowing them to enter Ireland. They must then register with the INIS within the time limit specified on their temporary stamp to gain a student visa.

All non-EU, fee-paying students must pay full tuition fees prior to registration. For more about visa requirements, learn more at: www.tcd.ie/study/international/before-arrival/visaimmigrations

ENGLISH LANGUAGE REQUIREMENTS

All applicants whose first language is not English and who have not been educated through the medium of English must present one of the following qualifications in the English language:

- IELTS: Grade 6.5 overall;
- TOEFL: 88 internet-based, 570 paper-based, 230 computer-based;
- University of Cambridge Advanced or Proficiency Certificate: Grade C or better;
- Pearson Test of English (Academic) – PTE Academic: A minimum score of 63 (with no section score below 59);
- Duolingo English Test: A minimum overall score of 120/160 with no section score below 105; or
- Trinity’s Centre for English Language Learning/Teaching’s Pre-Master’s Pathway: An award certificate with a minimum 2.1 overall.

The Pre-Master’s Pathway Programme is an academic English course for international students with conditional offers for postgraduate study at Trinity. Passing the programme means you meet Trinity’s English language requirement and can progress to your postgraduate course without retaking IELTS or any other exam.

Some programmes may require higher scores than listed above. You can determine your specific course’s English language requirements at: www.tcd.ie/courses/postgraduate

Yi-Ying Chou
(M.Sc.) Mental Health graduate from Taiwan

Trinity College Dublin is recognised internationally as Ireland’s leading university. I found my course to be academically challenging and very rewarding. Studying at Trinity can provide a great opportunity to further increase your working opportunities in Ireland and abroad. In addition, my professors were compassionate and caring and committed to ensuring that all international students have a wonderful learning experience.
Ranked first in Ireland and seventh globally for Entrepreneurship (Eduniversal 2022), this programme equips students with specialist knowledge and the practical ability to start or support new businesses.

Students will learn how to excel in starting new ventures, supporting and financing enterprise or utilizing an entrepreneurial mindset and approach in existing enterprises seeking growth. Designed for those with an entrepreneurial mindset, the programme is unique in addressing ethical behaviour as well as the wellbeing of the entrepreneur amid the stressful nature of new enterprise development.

This M.Sc. course is 90 credits delivered over one academic year. The taught modules total 60 credits. Students also complete a business plan or company research project which accounts for a further 30 credits, to be eligible for the award of the degree.

Students will undertake a business plan or company research project, individually or in groups, instead of the standard dissertation.

Career opportunities
Entrepreneurship graduates can establish a new venture or gain employment across various industries including finance and venture capitalism, IT, telecommunications, social media, retail, tourism, pharmaceutical, healthcare, education, government, and social enterprise.

Admissions requirements
Applicants are required to possess a minimum 2.1 honours degree or international equivalent. They should also have two academic referees (applicants with work experience can instead provide one academic and one professional referee).

Applicants whose first language is not English and were not educated in the language will also need to complete an English competency exam (in line with Trinity’s postgraduate English language requirements, see Page 24).

The M.Sc. in Digital Marketing Strategy is designed to provide students with the knowledge and tools required to become a highly skilled digital marketing strategist. Students will learn about digital design, the user experience, and how to plan and implement digital strategies.

The course focuses on how different companies do business in a digital world, coupled with a strong industry and partnership approach. A variety of leading digital companies are represented by expert guest speakers and faculty, including multinational companies such as Google, Facebook, HubSpot and Microsoft. With the European headquarters of these companies situated nearby, students have the opportunity to visit them on company trips and learn how to master specific platforms such as Google Ads, Analytics, Facebook Insights and HubSpot tools.

This M.Sc. course is 90 credits delivered over one academic year. The taught modules total 60 credits. Students also complete a substantial research project, which accounts for a further 30 credits, to be eligible for consideration for the award of the degree.

Career opportunities
A comprehensive overview of the digital ecosystem, this programme is an excellent foundation for a career working across many industries including technology, retail, consulting, manufacturing and pharma biotech. Recent employers of our alumni include Google, Accenture, eBay and Glanbia.

Admissions requirements
Applicants are required to possess a minimum 2.1 honours degree or international equivalent. They should also have two academic referees (applicants with work experience can instead provide one academic and one professional referee).

Applicants whose first language is not English and were not educated in the language will also need to complete an English competency exam (in line with Trinity’s postgraduate English language requirements, see Page 24).
This programme is designed to help students develop the necessary skills to excel in their chosen finance career. Highly interactive lessons will provoke discussion and provide opportunities to develop presentation skills, deal with real-life case studies and work in group assignments. Delivered by expert faculty and finance practitioners, students receive in-depth training in analytical and practical skills. Students will take part in trading simulations and learn about portfolio management, private equity, venture capital and treasury management. A core module in Sustainable Finance is delivered in the first term, which is then further developed across all modules, as well as an elective module in Business Ethics, reflecting our business school strategy of ‘Business for Good’.

This M.Sc. course is 90 credits delivered over one academic year. Taught modules comprise 60 credits. Students also complete a dissertation which accounts for a further 30 credits, to be eligible for consideration for the award of the degree.

**Career opportunities**

Many students build professional connections during their studies and go on to work in the financial sector, consulting firms, social enterprises, governmental organisations, academia, and in global companies such as Deloitte, KPMG, Statestreet, EY and PwC.

**Admissions requirements**

Applicants are required to possess a minimum 2.1 honours degree or international equivalent. They should also have two academic referees (applicants with work experience can instead provide one academic and one professional referee).

Applicants whose first language is not English and were not educated in the language will also need to complete an English language competency exam (in line with Trinity’s postgraduate English language requirements, see Page 24).

The Executive M.B.A. is a two-year part-time programme aimed at professionals who wish to enhance their business acumen and leadership skills. The programme is designed to complement all undergraduate disciplines. Students will gain a solid grounding in the principles and practices of management. Through a mix of practical learning, interactive discussion, expert industry speakers and case studies, students will learn to critically analyse real strategic business issues and develop their own leadership style.

The M.Sc. in Marketing is designed to equip students with all the relevant skills required for a successful career in marketing. With a blend of traditional and contemporary thinking, we ensure that our students understand the building blocks of ‘how to market’ in the 21st century.

Analytical and practice-based training is delivered by expert faculty and executives from top multinationals, such as Google and Microsoft. This programme focuses on marketing strategy, branding, digital communication, consumer behaviour as well as developing the skills in entrepreneurship, marketing and society, advertising management, and data analytics required for graduates to excel in their careers.

This M.Sc. course is 90 credits delivered over one academic year. Taught modules total 60 credits. Students also complete a substantial research project, which accounts for a further 30 credits, to be eligible for the award of the degree.

This one-year full-time course offers 11 core taught modules and a company consultancy project equipping students with the management skills necessary to succeed in today’s globalised business environment. The consultancy project allows students to apply their knowledge by working with companies in a specialised area.

Career opportunities
This programme provides an excellent platform for previously non-business graduates looking to change direction and industry. The top employment sectors for graduates of this course are consulting, technology, financial services and media/entertainment. Recent employers include Deloitte, KPMG, Accenture, and EY.

Admissions requirements
Applicants are required to possess a minimum 2:1 honours degree or international equivalent. They should also have two academic referees (applicants with work experience can instead provide one academic and one professional referee).

Admissions requirements
Applicants are required to possess a minimum 2:1 honours degree or international equivalent. They should also have two academic referees (applicants with work experience can instead provide one academic and one professional referee).

Applicants whose first language is not English and were not educated in the language will also need to complete an English competency exam (in line with Trinity’s postgraduate English language requirements, see Page 24).

The Trinity M.B.A. offers participants a rigorous, experiential and transformative education, preparing future leaders for the challenges of tomorrow. The programme’s project-based approach encourages tutorial discussion and debate, as well as bringing participants inside businesses to unlock leadership potential and build global networks.

Whether you want to fast-track your current career trajectory, or pivot in a new direction, the Trinity M.B.A. sets out a learning journey that helps students to maximise their potential. The M.B.A. is designed to develop today’s business leaders, boosting their careers and the performance of their organisations. Our global community of students learn real-world management techniques from leading researchers and high-performance business executives.

Trinity Business School offers three globally recognised programmes:

- The full-time M.B.A. lasts one year and is designed to accelerate your career or pivot industry.
- The Executive M.B.A. is a two-year part-time programme including a major impact in your current role or career transition.
- The Flexible Executive M.B.A. is a two year part-time programme allowing learners to deliver professional transformation.

You will learn about all functional areas of business and study elective modules in areas such as leadership and cross-cultural management. You will have the opportunity to undertake three company projects, each tackling specific strategic enterprise issues.

Career opportunities
The intensive project-based Trinity M.B.A. is designed to create unique and global leaders, allowing graduates to accelerate their current career path to occupy top positions in world-renowned companies or transition to a new industry.

Admissions requirements
Applicants are required to possess a minimum 2:1 honours degree or international equivalent. They should also have two academic referees (applicants with work experience can instead provide one academic and one professional referee).

Applicants whose first language is not English and were not educated in the language will also need to complete an English competency exam (in line with Trinity’s postgraduate English language requirements, see Page 24).
Jane Madden
Playwriting (M.F.A.)

I chose the M.F.A. because I wanted to learn how to finesse my writing and develop an approach that was more considered. This course encourages you to question, interrogate and think carefully about what you are writing. One of the best things about the course is there are so many other people studying different disciplines, so you graduate with a ready-made theatre company with lots of people who can help stage your work.
School of Creative Arts (Drama, Film and Music)

Screen Studies (M.Phil.)

**DURATION**
1 year full-time, 2 years part-time

**COURSE DIRECTOR**
Assistant Professor Paula Quigley

**EMAIL**
quigley@tcd.ie

**CLOSING DATE**
30th June 2024

**WATCH COURSE VIDEO**

**MODULE DETAILS**
The M.Phil. in Screen Studies allows students to develop the skills required to work successfully for a range of different screens in a critically informed and creative context, supported by the latest developments in gaming and digital content.

- At every step your progress will be informed by an emphasis on critical thinking and creative practice. In addition, the course develops key transferable skills required for postgraduate study. These include research preparation, time management and presentation skills.
- The course objective is to prepare screenwriters who can adapt to an industry that recreates itself regularly around technological advances.

The programme comprises 60 ECTS of taught modules and a 30 ECTS research component. Research projects can be a screenplay or a critical project reflection of 3,500-4,000 words on an area of interest: feature film, television, on-demand broadcast, documentary, or adaptation.

**Career opportunities**
This course prepares students for a variety of careers in Screenwriting. Our graduates have also pursued careers in marketing, arts administration, as well as further research.

**Admission requirements**
Candidates should have a good honours Bachelor’s degree at 2.1 level (‘B’, average 3.2 or above for North American students) or equivalent qualification with a minimum IELTS score of 6.5 with no individual band below 6. Applicants must include a 5-10 page sample of their creative writing in their application.

**MODULE DETAILS**
The Master in Education is designed for learners who wish to develop their knowledge and practice in specific areas of education. It also fosters a critical understanding of educational research, policy and practice and promote the ability to participate effectively in the advancement of knowledge.

The programme is suitable for educational professionals, including teachers, and for individuals in related fields. Graduates in fields such as history, psychology, administration, language, mathematics or science who wish to relate their particular field of practice to education, will also be considered.

- M.Ed. students register on one of the twelve strands of the programme, which are:
  - Drama in Education
  - Early Intervention
  - Critical Perspective on Education
  - Higher Education
  - Language Education
  - Leadership and Policy in Education
  - Mathematics Education
  - Music in Education
  - Positive Behaviour Management
  - Science Education
  - Diversity and Inclusion
  - Psychology of Education
  - Psychology of Education

**Career opportunities**
This course covers a wide range of academic disciplines and prepares graduates for a career in teaching. Our graduates have also pursued careers in both the public and private sectors, including school counselling, careers guidance, curriculum development, publishing, and HR.

**Admission requirements**
Applicants are normally expected to hold a good honours degree (2.1) and have at least two years’ experience in the field of education (or similar). In order to complete the application, the applicant will require electronic copies of their undergraduate degree transcripts, the email addresses of two academic referees, and an up-to-date CV.
The M.Phil. in Creative Writing is based in the Trinity Oscar Wilde Centre for Irish Writing, 21 Westland Row, the birthplace of Oscar Wilde. Our faculty includes some of Ireland’s leading contemporary writers, including Eoin McNamee, Deirdre Madden and Kevin Power, Harry Clifton and Carlo Gebler. Each year the Centre also plays host to visiting Writer Fellows, who in recent years have included Claire Keegan and Colette Bryce. Distinguished alumni of the programme include Chris Binchy and Sean Ó Rielly. Nicole Flattery and Lisa Harding have emerged as exciting new talents in the past few years. This course is intended for students who are seriously committed to writing, are practising, or are prospective authors, and who wish to develop their writing within the framework of a university course and in the context of an Irish literary milieu.

Career opportunities

Many graduates have careers in areas such as editing, publishing, arts management, journalism, curating, teaching, librarianship, and academia.

Admission requirements

Applicants should have a good honours degree (at least an upper second or a GPA of at least 3.3). A sample of the candidate’s own critical writing (3,000-5,000 words) is also required.

The course offers an exploration of Irish writing in English from the late seventeenth century to the present. Trinity has educated many important writers, from Jonathan Swift to Samuel Beckett to Eavan Boland to Anne Enright. It has also long led the way in the teaching and researching of Ireland’s literature. Amid a diverse and dynamic community of students and scholars, this course will allow you to gain a thorough grounding in the field of Irish writing, from canonical figures such as Maria Edgeworth and James Joyce to contemporary critical debates around gender, sexuality, class and race. The centrepiece of the course is the core ‘Perspectives in Irish Writing’ module. Running across two semesters, it introduces students to the multiple contexts in which Irish writing in English has developed from the late seventeenth century through to the present. It also considers the literary history and reception of Irish writing, covering the main critical narratives and debates, as well as revisions of the Irish literary field as regards questions of gender, sexuality, class and race.

Career opportunities

Graduates have gone into careers in education, the arts and culture sector, media, the arts and culture sector, librarianship, publishing, journalism, broadcasting, public relations, social work, the civil service and management. Many graduates have also gone on to become successful writers.

Admission requirements

Applicants should hold a university degree or equivalent qualification (at least an upper second or equivalent, GPA of at least 3.3). In addition, applicants must submit a portfolio of recent creative work. The portfolio of sample work should include no more than 3,000 words of prose (short stories, excerpts from a novel or drama) or six to eight poems.

The study of literature is never just one thing. Modern literary culture is diverse, exciting, complex and rich. The course offers graduates in English and related disciplines (such as History, Art History and Modern Languages) the opportunity to explore over two centuries of anglophone writing and literary history. You will be introduced to key texts, authors and ideas from the nineteenth century through to the contemporary moment. You will shape your own distinct programme of study through a variety of option modules. You will also undertake a substantial piece of independent research in the form of a dissertation.

At Trinity you will join a supportive and dynamic community of students, scholars, and writers in a world-leading English department right at the heart of one of the world’s great literary cities. You will also have access to the outstanding library and archival collections of our world-famous copyright library, which could form the basis for your own fundamental research.

Career opportunities

This programme teaches valuable transferable skills, such as being able to present ideas clearly and persuasively, and to find, absorb and analyse complex concepts. Our graduates have gone into careers in education, the arts and culture sector, librarianship, publishing, journalism, broadcasting, public relations, social work, the civil service and management. Many alumni have become successful writers. This Master’s also provides a solid platform for advancing to doctoral research.

Admission requirements

Applicants should have an honours Bachelor’s degree (at least of upper-second class standard or GPA of 3.3) or equivalent qualification in a relevant subject (such as English, History, Art History, Irish Studies, Modern Languages).
The M.Phil. in Early Modern History offers well-qualified graduates in History, the Humanities and the Social Sciences an introduction to research in the political, social, cultural and religious history of Ireland, Britain and Europe across the early modern period. This one-year course (or two years part-time) is designed to introduce students to a wide range of issues in, and approaches to, early modern history. It also provides students with training in research methods and skills. The course is built around Trinity Library’s unparalleled resources for the period from the Reformation to the French Revolution. The course may also serve as an introduction to graduate study for students intending to pursue doctoral studies.

The core module for this course is From Reform to Revolution: Cultural Change and Political Conflict in Early Modern Europe. Students also choose two major of study, one in each term. Students complete a dissertation based on their own primary research.

Career opportunities
The M.Phil. helps prepare graduates for a wide variety of careers including in the museum and heritage sectors, libraries and archives, public policy and administration, archaeology, law, teaching, and media. It also provides invaluable training in research for those planning to pursue a career in research.

Admission requirements
Applicants should normally have at least an upper second class (2.1) honours Bachelor’s degree or equivalent (for example, GPA of 3.3) in a relevant area. Knowledge of Greek or Latin is not required, but students hoping to pursue a research degree in fields where the written record provides our main sources will be strongly encouraged to acquire language skills in the course.

Since places on the course are limited, applicants may be interviewed or asked to submit a writing sample for assessment.

The M.Phil. in Environmental History offers an advanced qualification to graduates in History, Political Science, History of Ideas, Cultural Studies or similar. This course gives students a firm understanding of the interplay of, and feedbacks between, nature and culture over time. This programme has a strong methodological focus, including training in digital humanities technologies, mixed (quantitative-qualitative) methods and innovative assessment design, supplemented by an optional self-financed field trip to Iceland.

This course trains students in methods and themes that are directly relevant to the professional workplace at a time when there is an increasing awareness of the need to include the competencies and insights of the humanities in understanding and addressing environmental issues, not least climate change. Training in critical thinking and mixed methods research skills will open up students’ career perspectives in the public sector, media, private consultancies and NGOs, as well as being an excellent entry point for doctoral studies.

Career opportunities
Training in critical thinking and mixed methods research skills will expand students’ career perspectives in the public sector, media, private consultancies, and NGOs, as well as being an excellent entry point for doctoral studies and a research career.

Admission requirements
Relevant preparatory courses include NQF Level-8 courses in the Humanities (History, Political Science, History of Ideas, Cultural Studies or similar) and the Natural Sciences (Environmental Sciences, Geography, Ecology, Biology or similar). Applicants should normally have at least an upper second class (2.1) honours Bachelor’s degree or equivalent (for example, GPA of 3.3) in a relevant discipline or specialisation.

The M.Phil. in Gender and Women’s Studies provides a critical understanding of the current scholarship on the position and representation of gender in society. Drawing on insights and perspectives from a number of academic fields within the Humanities and Social Sciences, the course is both interdisciplinary and multidisciplinary. Its students acquire a deep understanding of the cultural contexts in which theories of gender are produced, performed and negotiated and an ability to use primary source material as well as critical theories and scholarship. The course also honed the sort of analytical, written, and verbal communication skills that are highly valued and effective in a many different careers.

All students take the core modules Gender Theories, and Representation of Gender in Society. Drawing on insights and perspectives from a number of academic fields within the Humanities and Social Sciences, the course is both interdisciplinary and multidisciplinary. Its students acquire a deep understanding of the cultural contexts in which theories of gender are produced, performed and negotiated and an ability to use primary source material as well as critical theories and scholarship. The course also honed the sort of analytical, written, and verbal communication skills that are highly valued and effective in a many different careers.

Career opportunities
The M.Phil. helps prepare graduates for careers in NGOs, public policy and administration, teaching, media and communications. It also provides invaluable training in research for those planning to pursue a doctorate and/or career in research.

Admission requirements
Applicants should normally have at least an upper second class (2.1) honours Bachelor’s degree or equivalent (for example, GPA of 3.3) in a relevant area. Since places on the course are limited, applicants may be interviewed or asked to submit a writing sample for assessment.
History of Art and Architecture (M.Phil./P.Grad.Dip.)

**DURATION**
- 1 year full-time (EU and non-EU students),
- 2 years part-time (EU/UK/EUA students only)

**COURSE DIRECTOR** Dr. Anna McSweeney

**EMAIL** arhist@tcd.ie

**CLOSING DATE** 28th June 2024

The M.Phil. in History of Art and Architecture offers graduates the opportunity to undertake advanced study in the history of art and architecture in Ireland. Students choose four elective modules that offer detailed engagement with periods and media. Students can choose to follow an Irish art strand throughout their M.Phil. or to pick more widely from the diverse selection of modules. A central element of the course is a taught module in research methods that explores the principal sources and methodologies applicable to advanced study in the history of art. Students undertake a substantial research dissertation of 15,000-20,000 words on a selected subject.

**Career opportunities**
The M.Phil. provides a strong foundation in art-historical skills and methodologies. It prepares graduates for careers in the gallery, museum and heritage sectors, libraries and archives, public policy and administration, teaching, media, public relations, publishing, and art practice. The course will also enrich professional knowledge and skills, stimulate lateral thinking, and spur innovation. It also provides invaluable research training for those planning to pursue a doctorate and/or career in research.

**Admission requirements**
Applicants should normally have at least an upper second class (2:1) honours Bachelor’s degree or equivalent (for example, GPA of 3.3) in a relevant area. An undergraduate degree in art history is preferable but not essential. Since places on the course are limited, applicants may be interviewed or asked to submit a writing sample for assessment. In your application, we are interested to hear about why you want to study for this degree in Ireland, so please reflect this in your submission.

International History (M.Phil.)

**DURATION**
- 1 year full-time (EU and non-EU students),
- 2 years part-time (EU/UK/EUA students only)

**COURSE DIRECTOR** Dr. Molly Pucci

**EMAIL** puccim@tcd.ie

**CLOSING DATE** 31st May 2024

The M.Phil. in International History offers students the chance to pursue historical research outside the boundaries of the nation state. Students will be trained in transnational, comparative, and international approaches to history and have the opportunity to study foreign languages, cultures, and societies. Possible topics of focus include the movement of culture, people, and ideas across national boundaries and issues such as imperialism, globalisation, social movements, and the roots of international war and conflict.

Throughout the course, students will be encouraged to reflect on the historical roots of current issues that cross national boundaries such as the refugee crisis, the spread of radical politics, security and intelligence services, the international economy, and other critical issues.

The course consists of six modules. The two mandatory modules include a year-long, core module on International History: Methods and Themes and an International History Skills Seminar. Three elective modules can be selected from a range of specialities, including continental European, Irish, Chinese, U.S., and environmental history. Students can also study a foreign language or an additional module in International History Methods. The final module is the capstone project, a dissertation based on independent research on a topic in international history.

**Career opportunities**
The M.Phil. helps prepare graduates for a wide variety of careers including in the museum and heritage sectors, politics, libraries and archives, public policy and administration, teaching, media. It also provides invaluable training in research for those planning to pursue a doctorate and/or career in research.

**Admission requirements**
Preferred applicants will have an undergraduate study background in history and interest in exploring the field of history from a diversity of national and international perspectives.

Sarah Myers

Medieval Studies (M.Phil.)

**DURATION**
- 1 year full-time (EU and non-EU students),
- 2 years part-time (EU/UK/EUA students only)

**COURSE DIRECTOR** Dr. Peter Crooks

**EMAIL** pcrooks@tcd.ie

**CLOSING DATE** 31st May 2024

Engaged with the formative period of Western culture, Trinity’s M.Phil. in Medieval Studies equips students with the critical skills needed for in-depth work on medieval texts, sources, and artefacts, and provides an introduction to what different disciplinary methods offer the medievalist while permitting students to specialise in particular approaches in accordance with their interests.

The teaching on the programme takes full advantage of Trinity’s world-leading holdings of medieval manuscripts and other artefacts, as well as those of other Dublin institutions and opportunities available for students to explore the built remains of medieval Ireland.

The course offers students the choice of three strands: History, Language and Literature; and Culture and Civilisation. All students take three core modules: Sources for Medieval Studies I and II and Introduction to Medieval Books and Documents as well as a dissertation.

**Career opportunities**
The M.Phil. helps prepare graduates for a variety of careers in the museum and heritage sectors, libraries and archives, publishing, law, public policy and administration, archaeology, teaching, and the media. It also provides invaluable training in research for those planning to pursue a doctorate and/or career in research.

**Admission requirements**
Applicants should normally have at least an upper second class (2:1) honours Bachelor’s degree or equivalent (for example, GPA of 3.3) in a relevant area. Since places on the course are limited, applicants may be interviewed or asked to submit a writing sample for assessment.
Modern Irish History (M.Phil.)

DURATION
1 year full-time
(EU and non-EU students),
2 years part-time
(EU/UK/EUA students only)

COURSE DIRECTOR
Dr. Carole Holohan

EMAIL
holohaca@tcd.ie

CLOSING DATE
31st May 2024

The M.Phil. in Modern Irish History introduces well-qualified Humanities or Social Sciences graduates to research in modern Irish history, to the problems currently addressed by historians and to the methods they apply to study of the subject. Drawing on the current interests of staff, the course is based on the rich resources of Trinity’s library and of the adjacent Dublin libraries and archives. 

The course comprises three main elements. A number of research training modules focus on the range of approaches, technologies and resources available to researchers in modern Irish history. In addition students take special subject modules in each term covering a range of specialised themes from the seventeenth to twentieth centuries. Students write a dissertation on any area of modern Irish history.

Career opportunities
About a quarter of M.Phil. graduates have done doctoral studies and research careers in Ireland, Europe or North America, while others have embarked on further professional training as lawyers, teachers, librarians, counsellors and archivists. Some are public servants, and others work in business/service industries.

Admission requirements
Applicants should normally have at least an upper second class (2.1) honours Bachelor’s degree or equivalent (for example, GPA of 3.3) in a relevant area. Since places on the course are limited, applicants may be interviewed or asked to submit a writing sample for assessment.

Public History and Cultural Heritage (M.Phil.)

DURATION
1 year full-time
(EU and non-EU students),
2 years part-time
(EU/UK/EUA students only)

COURSE DIRECTOR
Dr. Georgina Laragy

EMAIL
laragy@tcd.ie

CLOSING DATE
31st May 2024

The M.Phil. course in Public History and Cultural Heritage is designed to provide students with a rigorous grounding in public history and to prepare high-calibre graduates in a unique and thorough fashion for the management of cultural heritage. We define ‘public history’ and ‘cultural heritage’ broadly.

The course involves analysis of cultural memory, its construction, reception and loss, and study of the public status and consumption of history in modern society. The course also surveys the more concrete questions involved in the conservation, presentation and communication of the physical heritage of past cultures, particularly where interpretation and meaning are contested.

The course is taught in collaboration with Dublin’s leading cultural institution. In recent years participating bodies have included Dublin City Gallery, Dublin City Library and Archive; Hugh Lane Gallery; The Little Museum of Dublin; Marsh’s Library; the National Gallery of Ireland; the National Library of Ireland; the National Museum of Ireland; and St Patrick’s Cathedral.

Career opportunities
The M.Phil. helps prepare graduates for careers in the museum and heritage sectors, libraries and archives, public policy and administration, teaching, and the media. It also provides invaluable training in research for those planning to pursue a doctorate and/or career in research.

Admission requirements
Applicants should normally have at least an upper second class (2.1) honours Bachelor’s degree or equivalent (for example, GPA of 3.3) in a relevant area. Since places on the course are limited, applicants may be interviewed or asked to submit a writing sample for assessment.

Applied Intercultural Communications (M.Phil./P.Grad.Dip.)

DURATION
1 year full-time

COURSE DIRECTOR
Dr. Theophile Munyangeyo

EMAIL
cbg@tcd.ie

CLOSING DATE
30th June 2024

The Applied Intercultural Communications programme is delivered by the Centre for Global Intercultural Communications at Trinity.

The programmes will provide participants with novel perspectives and methods for effective intercultural communication at work, strategic partnerships, inclusive leadership and global engagement. This will be of interest to organisations and individuals wishing to further develop their skills, careers and business opportunities by applying intercultural communication methods to succeed in multicultural contexts. Our flexible course delivery—through full time, part time and multiple entry route options—enables students to develop intercultural communication skills to engage with diverse audiences.

Career opportunities
This course prepares graduates for communication, global relations, and leadership roles in creative industries, media and publishing, consultancy, education, government agencies, public administration, environmental products and services, human resources, and management and business services.

Admission requirements
Applicants must provide:
› A minimum 2.1 honours class degree from an Irish university or an international equivalent in a relevant subject.
› A writing sample, to demonstrate their ability to write in an academic tone.
› Two academic referees.
› An IELTS score of at least 6.5 in each category, if candidates are not native English speakers and have not completed a degree through the English language.

Previous region-specific knowledge and additional foreign language skills are not required.

Comparative Literature (M.Phil./P.Grad.Dip.)

DURATION
1 year full-time

COURSE DIRECTOR
Dr. Peter Arnds

EMAIL
arndsp@tcd.ie

CLOSING DATE
28th June 2024

This M.Phil. course is designed to provide an understanding of Comparative Literature as a subject of study and a critical practice. The core modules provide the theoretical and methodological basis for comparing texts of various genres and artefacts of different media at an advanced level.

Optional modules enable the further development of these competencies and offer opportunities to develop and apply this knowledge and these skills to a range of primary texts from a wide range of languages, cultures, epochs and other contexts.

The course consists of two core modules taken by all students (Theory and Methodology and Moving between Cultures), two options from the range offered in a given year, and a dissertation of 15,000-20,000 words whose theme and approach should be comparable.

Career opportunities
Graduates have pursued careers in publishing, editing, project management, cultural outreach, research, as well as academia.

Admission requirements
Applicants must provide:
› A minimum 2.1 honours class degree (GPA of at least 3.3) from an Irish university or an international equivalent in a relevant area.
› A writing sample of no more than 2,500 words, to demonstrate their ability to write in an academic tone.
› Two academic referees.
› An IELTS score of at least 6.5 in each category, if candidates are not native English speakers and have not completed a degree through the English language. Trinity prefers IELTS qualifications, but will accept alternatives provided by international organisations such as TOEFL.

The School of Histories and Humanities offers a range of postgraduate programmes that cater to a variety of interests and career goals. These programmes are designed to provide students with a solid foundation in their chosen field, whether it be Modern Irish History, Public History and Cultural Heritage, or Intercultural Communications. Each programme is structured to reflect the diverse needs of students and to prepare them for a range of career opportunities.
Many of the biggest questions in our world today can only be answered by drawing on knowledge of both culture and technology. Trinity’s M.Phil. in Digital Humanities and Culture prepares its students to take on these questions in a wide variety of contexts, whether they want to deepen their understanding of humanities subjects through data mining and visualisation; explore the virtual transmission of culture and heritage by and beyond museums, libraries and archives; or join the movement to make technology development more humane.

The Digital Humanities and Culture programme attracts students from a various backgrounds. Many have studied Humanities disciplines before. Others are practitioners in the cultural heritage sector or creative industries who would like to sharpen their approach to technology through the application of models from the digital humanities. The degree also attracts researchers with a background in computer science or software engineering, for whom the course can satisfy a desire to deepen their understanding of the user. This variety of perspectives within the student body makes for richer intellectual interactions.

Career opportunities
This course prepares graduates for careers in project management, cultural outreach, NGO activities, exhibition creation, media and communications, data management, research, and humane technology management.

Admission requirements
Applicants must provide:
- A minimum 2.1 honours degree (GPA of 3.3) from an Irish university or an international equivalent in a relevant subject (usually in the Humanities field).
- A writing sample of no more than 2,500 words, to demonstrate their ability to write in an academic tone.
- Two academic referees.
- A personal statement giving Trinity your reasons for applying to this programme and why you are suitable for the course.
- An IELTS score of at least 6.5 in each category, if candidates are not native English speakers and have not completed a degree through the English language. Trinity prefers the IELTS qualification, but will accept alternative tests provided by global organisations such as TOEFL.

Exploring and analysing questions of identity as they have unfolded and continue to unfold in Europe, this course will equip students with the critical tools and real-life experience to understand the complex and varied challenges posed by shifting notions of identity and their very real consequences.

If you wish to explore and analyse questions of identity in Europe, this programme is for you. It will equip you with the critical tools and real-life experience to understand the complex and varied challenges posed by shifting notions of identity and their very real consequences.

Our flexible course delivery, both full time and part time, will enable you to develop your communication skills for engagements with diverse audiences and competitive advantage in global job market.

Career opportunities
As our graduate, you will be equipped with interdisciplinary and intercultural competences, strong critical analysis ability, advanced research and presentation skills, and will be highly sought in a range of industries.

Recent graduates have pursued a range of opportunities in cultural outreach and policy, diplomacy, international and non-governmental organisations, journalism, project management, creative and cultural industries, media and public relations, museum curation, and academia.

Admission requirements
Applicants must provide:
- A minimum 2.1 honours degree (GPA of 3.3) from an Irish university or an international equivalent in a relevant subject (usually in the Humanities field).
- A writing sample of no more than 2,500 words, to demonstrate their ability to write in an academic tone.
- Two academic referees.
- A personal statement giving Trinity your reasons for applying to this programme and why you are suitable for the course.
- An IELTS score of at least 6.5 in each category, if candidates are not native English speakers and have not completed a degree through the English language. Trinity prefers IELTS qualifications, but will accept alternatives provided by global organisations such as TOEFL.

The M.Phil. in Literary Translation equips you with the skill to apply translation theory to your literary translation practice in creative and original ways. You will craft a unique portfolio of translations under the guidance of academic and professional mentors.

This programme equips you with the skill to apply translation theory to translation practice. You will craft a unique portfolio of translations under the guidance of academic and professional mentors. You will take part in team projects simulating industry realities, and you will be trained in specialist translation tools.

Our students are taught by translation theorists and language specialists with a range of research interests. They also have contact with practicing translators through our Literary Translator in Residence Scheme, and busy events programme.

Career opportunities
There is a strong and growing demand for highly trained translators with the creativity and linguistic prowess to create aesthetically appealing work. Such translators are already sought out not only in the field of literature, but also in the private and public sector, in international organisations, media, and education. We have close ties with many such organisations, and give our students regular opportunities to interact with them.

We organise workshops with our industry partners throughout the year, and offer a long list of opportunities to network and collaborate from the beginning until the end of the degree.

Admission requirements
Applicants must provide:
- A minimum 2.1 honours class degree (GPA of 3.3) from an Irish university or an international equivalent in a relevant subject.
- A writing sample of no more than 2,500 words, to demonstrate their ability to write in an academic tone.
- Two academic referees.
- A demonstrable working knowledge of two or more languages. This is assessed through our “Stage 1 Document”, which requires you to submit the languages you intend to work with, a personal statement, and a sample translation.
- An IELTS score of at least 6.5 in each category, if candidates are not native English speakers and have not completed a degree through the English language. Trinity prefers the IELTS qualification, but will accept alternative tests provided by international organisations such as TOEFL.
The M.Phil. in Middle East in a Global Context is designed for students who hold a degree in any discipline and are interested in studying the region of the Middle East, its histories, cultures, politics and (optionally) language.

This Master’s programme provides a foundation in the methods and disciplines relevant to the study of the Middle East. It provides intensive training in several fields of knowledge through a combination of online lectures, seminars, tutorials and essay writing, allowing you to develop research and writing skills with training in theoretical and methodological approaches.

The M.Phil. consists of four core modules and two optional modules. You also complete a dissertation on a subject chosen by you in consultation with your supervisor.

Career opportunities

This course will give you the cultural fluency and competence sought by employers, including in the fields of journalism, enterprise and industry, education, NGOs, political and diplomatic career pathways, global relations, and policy making.

You will also acquire critical analysis skills you will apply in essay writing and independent academic research throughout your study and in your career. You may also study the Arabic language or an introduction to Turkish within your programme. Advanced linguistics abilities and intercultural communications skills will give you a competitive advantage in the job market.

Admission requirements

No prior languages knowledge is required, and Arabic can be studied from beginners’ level. Applicants should normally have a second class (2:1) honours Bachelor’s degree or equivalent. Applicants are asked to submit a writing sample for assessment, and may be invited for online interview.

Candidates who are not native English speakers and have not completed a degree through the English language must provide an IELTS score of at least 6.5 in each category. Trinity prefers the IELTS qualification, but will accept alternative tests provided by international organisations such as TOEFL.

Intellectual Property and Technology Law (LL.M.)

The programme provides graduates with a knowledge base and the core tools to use in future research or in their practice as intellectual property and IT lawyers.

On programme you will study the inter-relationships between law, science and technology. These modules cover the substantive, policy, and practical elements of IP and IT law within European and global contexts.

Module offerings may include Data Protection, Cyber Security Law, Copyright Law, Trademark and Design Law and many more. Students may also choose up to two modules from the wide array offered on the LL.M. (General) ranging from Aviation Law to Human Rights Law to Islamic Law.

Career opportunities

This Master’s programme provides graduates with a knowledge base and the core tools to use in future research or in their practice as intellectual property and IT lawyers.

The School of Law at Trinity is a strategic partner of the ‘Pan-European Seal’ Professional Traineeship Program. Students of the LL.M. can apply to take part in this paid traineeship with the European Intellectual Property Office and the European Patent Office.

Admission requirements

Applications are invited from graduates who hold a Bachelor’s in Law or a law-based interdisciplinary programme. Applications will also be considered from exceptional graduates in related disciplines in the Arts, Humanities, and Social Sciences who can demonstrate their studies have fully prepared them for the LL.M. Admission to Trinity’s LL.M. programmes is at the absolute discretion of the School of Law, which will decide on admissions with regard to a range of academic criteria, including the quality of the individual application and the objectives of ensuring a diverse LL.M. Class of the highest possible academic calibre.

We advise students to apply for the course as early as possible as admission is competitive. The programme is subject to early closure.

With the increased globalisation of the last twenty years and, even earlier, with the rise to prominence of the international human rights movement, there has been the impetus for students of all nationalities towards studying areas of law with a broad international and comparative focus. This programme will allow students to engage meaningfully in comparative legal research using mature comparative law methodology and to develop flexibility, adaptability and independence in order to engage productively with a changing, social, cultural and international environment.

The LL.M. (International and Comparative Law) aims to promote critical analysis of, and reflection on, different aspects of international law and comparative law. Students on this programme are examined in six modules and will also complete a research dissertation.

Career opportunities

This course equips students with the expertise, skills and attributes which are valuable across a range of careers, within and beyond the legal profession, nationally and globally. Graduates have pursued careers in human rights organisations, government institutions, and more specialised areas based on their specific module and dissertation topic choices.

Admission requirements

Applications are invited from graduates who hold a Bachelor’s in Law or a law-based interdisciplinary programme. Applications will also be considered from exceptional graduates in related disciplines in the Arts, Humanities, and Social Sciences who can demonstrate their studies have fully prepared them for the LL.M. Admission to Trinity’s LL.M. programmes is at the absolute discretion of the School of Law, which will decide on admissions with regard to a range of academic criteria, including the quality of the individual application and the objectives of ensuring a diverse LL.M. Class of the highest possible academic calibre.

We advise students to apply for the course as early as possible as admission is competitive. The programme is subject to early closure.
**International and European Business Law (LL.M.)**

**DURATION** 1 year full-time  
**COURSE DIRECTOR** Professor Blanaid Clarke  
**EMAIL** law.postgraduate@tcd.ie  
**CLOSING DATE** 31st May 2024  

The LL.M [International and European Business Law](http://example.com) is designed for graduates who wish to specialise in business law with a view to pursuing their research interests in this field or in preparing to work in busy international commercial firms or legal practice across the globe. This programme will enable students to gain invaluable specialist knowledge from expert professors. They will develop skills to critically analyse the interplay between law and social change in a variety of different contexts within international and business law and conduct effective and targeted research in case law, legislation and academic legal commentary in areas pertaining to international and business law.

**Career opportunities**  
This programme equips students with the expertise, skills and attributes valuable across a wide range of careers, both within and beyond the legal profession, nationally and internationally. Graduates have pursued careers in banking, compliance, aviation, trade law, and government agencies, among others.

**Admission requirements**  
Applications are invited from graduates who hold a Bachelor's in Law or a law-based interdisciplinary programme. Applications will also be considered from exceptional graduates in related disciplines in the Arts, Humanities, and Social Sciences who can demonstrate their studies have fully prepared them for the LL.M.

Admission to Trinity’s LL.M programmes is at the absolute discretion of the School of Law, which will decide on admissions with regard to a range of academic criteria, including the quality of the individual application and the objectives of ensuring a diverse LL.M. class of the highest possible academic calibre.

We advise students to apply for the course as early as possible as admission is competitive. The programme is subject to early closure.

**Law and Finance (M.Sc.)**

**DURATION** 1 year full-time  
**COURSE DIRECTOR** Dr. Jenny Berrill  
**EMAIL** law.postgraduate@tcd.ie  
**CLOSING DATE** 31st May 2024  

Interdisciplinary study at the postgraduate level is widely recognised as a highly desirable attribute for employers. The M.Sc. in Law and Finance offers an advanced qualification to graduates in business, economics or law.

The course will develop the students’ skills to apply theory to practice, solve business problems and help organisations to continuously grow and improve their performance across these disciplines. The course is structured to include the foundational and advanced material needed to build students’ knowledge and understanding of law and finance, provide students with the capacity to embrace current and future changes such as financial regulation, EU law and financial innovation, and develop both students’ technical skills in understanding financial and legal concepts and analytic skills to apply these skills.

**Career opportunities**  
Interdisciplinary study at postgraduate level is recognised as a highly desirable attribute for employers. Graduates can gain employment in a range of roles within the financial services and legal sectors, and are well placed to tackle business challenges with an understanding of both the legal and financial aspects, which is crucially important to organisations operating in an increasingly dynamic and complex world.

**Admission requirements**  
An undergraduate honours Bachelor’s degree of 2.1 grade or higher in Business, Economics or Law. Applicants must also provide two academic references, a professional CV, a recognised certificate of English Language Competency if English is not your first language (in line with the School of Law’s requirements), as well as degree transcripts.

We strongly advise students to apply for this programme as early as possible as admission to the course will be very competitive. The programme is subject to early closure as a result.

**Laws (LL.M.)**

**DURATION** 1 year full-time  
**COURSE DIRECTOR** Professor Blanaid Clarke  
**EMAIL** law.postgraduate@tcd.ie  
**CLOSING DATE** 31st May 2024  

Our flagship LL.M programme offers students the opportunity for postgraduate study where they can select modules from a substantial list of modules covering the disparate branches of law. Students can focus on public law or private law modules or may take a selection of both. This programme will enable students to develop the skills to use appropriate legal theories, doctrines and concepts to identify, formulate, analyse and solve legal problems within national and international contexts and identify, evaluate and synthesise jurisprudential theories and concepts at a level appropriate to Master’s graduates.

The LL.M degree seeks to promote critical analysis of, and reflection on, different aspects of national, European and international law. Students will complete six modules and a research dissertation.

**Career opportunities**  
This course broadens and deepens students’ knowledge of the law, further developing their research skills and significantly enhancing their career prospects both within the legal profession and elsewhere.

**Admission requirements**  
Applications are invited from graduates who hold a Bachelor’s in Law or a law-based interdisciplinary programme. Applications will also be considered from exceptional graduates in related disciplines in the Arts, Humanities, and Social Sciences who can demonstrate their studies have fully prepared them for the LL.M.

Admission to Trinity’s LL.M programmes is at the absolute discretion of the School of Law which will decide on admissions with regard to a range of academic criteria, including the quality of the individual application and the objectives of ensuring a diverse LL.M. class of the highest possible academic calibre.

We advise students to apply for the course as early as possible as admission is competitive. The programme is subject to early closure.

---

**Emma Carroll**  
**Laws (LL.M.)**

Reading a taught LL.M at Trinity was a life-enhancing experience. The modules were topical and varied, taught by enthusiastic and attentive academics. The atmosphere of Trinity’s incredibly beautiful and historic campus was always vibrant and social. The LL.M. course gave me the opportunity to enhance my expertise from a global perspective, particularly in respect of the EU legal system. Balancing intensive study with friendship and conversation is vital to academic success and Trinity was readily able to offer this to international students. Studying at Trinity was a rewarding experience and I would recommend it to anyone looking to gain an internationally respected qualification, while enjoying everything that Ireland has to offer.
Linguistics (M.Phil.)

Linguistics is the systematic study of human language. It has its roots in antiquity, though the twentieth century saw an explosion of research and the development of new theories and approaches. Linguistics has become an exciting and vigorous area of study, with strong connections to many fields including psychology, sociology, anthropology, cognitive science, computer science, and philosophy. The M.Phil. in Linguistics has core modules in Describing Grammar, Describing Meaning, Describing the Sounds of Languages, and Laboratory Phonetics and Phonology.

Career opportunities

Our alumni have followed various career paths in the professions named above, with many opting to pursue research at a higher level. For some, Ph.D. research has led to an academic career.

Admission requirements

Applicants should have a good honours degree (at least an upper second or equivalent; GPA of at least 3.2). Previous knowledge of applied linguistics is not required, but graduates with language teaching experience are preferred.

Applicants whose first language is not English and who have not been educated in the English language must meet Trinity’s requirements for English language proficiency. The minimum acceptable IELTS score is 6.5 (with no band below 6). Trinity will also accept an equivalents in other approved English language proficiency tests. Students whose first language is not English are encouraged to attend our preparatory Summer course.

Applicants must also provide a personal statement explaining their motivation for applying to this programme.

Applied Linguistics (M.Phil.)

The M.Phil. in Applied Linguistics is aimed at teachers of second and foreign languages. The discipline of applied linguistics investigates a range of issues around language in contemporary society. Among these, the most prominent issues — and the central topics of the M.Phil. in Applied Linguistics — are those surrounding second and foreign language education. It is often said that globalisation has made the learning of additional languages an essential goal in education, but in truth, language learning has been important in most places at most times.

Career opportunities

Graduates have followed various career paths in language education and other language professions, in roles such as linguistics researcher, interpreter, business consultant and language programme manager. Many have opted to pursue Ph.D. research, which has led to professional academic employment.

Admission requirements

Applicants must also provide a personal statement explaining their motivation for applying to this programme.

Chinese Studies (M.Phil.)

Chinese Studies is a multidisciplinary field of study, drawing upon and integrating disciplines such as history, linguistics, politics, social policy, cultural studies and translation studies. The course focuses on China today and China over the last century. This course offers a unique and vibrant educational experience which equips its students to be global citizens. The M.Phil. programme offers the opportunity to engage with key aspects of contemporary China, including its political and economic landscape, modern history, society, popular culture and language. Given China’s economic impact and international reach, this course equips its graduates to engage deeply with contemporary China. The multidisciplinary nature of the course can accommodate students from a wide range of backgrounds.

Career opportunities

Our graduates are in high demand and have pursued a wide range of careers including business and industry, communications, public affairs, diplomacy, and arts and heritage, at the UN, at multinational corporations, and in local government. Graduates have also pursued further academic research. The university offers a bespoke careers service for all students, and our students in Chinese Studies are assigned a dedicated careers consultant.

Admission requirements

Applicants should hold a Bachelor’s degree (minimum 2.1, or a GPA of 3.5, or equivalent from another country) from a recognised university. A background in Arts, Humanities and Social Sciences is helpful but not a requirement. Applicants must also satisfy Trinity’s English language proficiency requirements.

The M.Phil. in Chinese Studies doesn’t require any specific prior knowledge of Chinese history, culture, or language.

Clinical Speech and Language Studies (M.Sc.)

The aims of the course are to provide qualified Speech and Language Therapists with opportunities to advance their academic knowledge and professional practice skills with specific clinical populations. These courses provide additional specialist qualifications to already qualified Speech and Language Therapists and do not serve as initial qualifications to practice as a Speech and Language Therapist.

During the M.Sc. course, students must complete a minimum of 80 hours clinical work in their chosen specialist area. Students who take the dysphagia specialist strand and who have not completed a qualifying course in dysphagia will have to complete additional preparatory work. These students must have at least 40 of the required 80 clinical hours supervised by Speech and Language Therapists recognised by the Department of Clinical Speech and Language Studies at Trinity.

Career opportunities

Graduates of this course have gone on to become expert clinicians in their field and to administer clinical practices. Other graduates have also continued to run research studies in their chosen clinical specialist area and pursued further education and academic research.

Admission requirements

Applicants should hold at least 2.1 Honours degree in Clinical Speech and Language Studies or an equivalent qualification in Speech and Language Therapy. Candidates who are not native English speakers and have not completed a degree through the English language must provide an IELTS score of at least 6.5 in each category. Trinity prefers the IELTS qualification, but will accept alternative tests provided by global organisations.

Students will be required to undergo Garda Vetting, you can learn more at: www.tcd.ie/students/orientation/undergraduates/garda-vetting.php
The M.Phil. in English Language Teaching is aimed at both new and experienced teachers of English as a foreign or second language. The course will give practising teachers the opportunity to explore current issues in ELT, and to deepen their understanding of the theoretical and practical concerns that underlie their teaching in TESOL and other settings.

The English Language Teaching programme benefits in particular from Trinity’s involvement in the development and implementation of two Council of Europe tools critical in the current debate about language learning, teaching and assessment worldwide: the Common European Framework of Reference for Languages and the European Language Portfolio. These tools are relevant in English language teaching, including TESOL environments.

**Career opportunities**

Aimed at both new and experienced teachers of English as a foreign or second language, this course supports an integrated approach to English language teaching that balances theory with practice and enhances teachers’ career options.

**Admission requirements**

Applicants should have a good Honours degree (at least an upper second or equivalent; GPA of at least 3.2). Previous knowledge of applied linguistics is not required, but graduates with language teaching experience are preferred.

Applicants whose first language is not English and who have not been educated in the English language must meet Trinity’s requirements regarding English language proficiency. The minimum acceptable IELTS score is 6.5 (with no band below 6). Trinity will also accept an equivalent in other approved English language proficiency tests. Students whose first language is not English are encouraged to attend our preparatory Summer course.

Applicants must also provide a personal statement explaining their motivation for applying to this programme.

Speech processing is the science concerned with how speech communication works: how speech is produced by the speaker and understood by the listener. It is also concerned with how these processes can be analysed and modelled, and with how these models can be used to develop technologies that also produce and understand speech (synthetic voices, speech recognisers). The science and technology involved are fundamental to the understanding and remediation of disordered speech. The science of speech is thus at the intersection of many disciplines, particularly linguistics, psychology, acoustics and engineering.

**Career opportunities**

Our alumni have followed various career paths, with many opting to pursue research at a higher level (getting involved in research projects in the Phonetics and Speech Lab), with the computational linguists in Trinity’s School of Computer Science and Statistics, and in other leading institutions across the globe. Some have also used this course as a foundation to enter Speech Therapy programmes.

**Admission requirements**

Applicants should have a good Honours degree (at least an upper second or equivalent; GPA of at least 3.2). Previous knowledge of applied linguistics is not required, but graduates with language teaching experience are preferred.

Applicants whose first language is not English and who have not been educated in the English language must meet Trinity’s requirements for English language proficiency. The minimum acceptable IELTS score is 6.5 (with no band below 6). Trinity will also accept an equivalent in other approved English language proficiency tests. Students whose first language is not English are encouraged to attend our preparatory Summer course.

Applicants must also provide a personal statement explaining their motivation for applying to this programme.

This is an intensive full-time course which aims to ensure that students become efficient in the practical application of the principles of applied behaviour analysis, with particular regard to persons with autism and other developmental disabilities and/or children and adolescents in care or special programmes, and/or those clients presenting learning and/or behavioural challenges in school. The content of this course focuses on behavioural theory and application.

**Career opportunities**

Formal classes run from mid-September to late May and are normally held one day every week. Additionally, students meet with a Board Certified Behaviour Analyst (BCBA) for 1-2 hours every other week from October to September. Dissertation research is initiated during Year 2 and finalised during the summer. Placement practice in behaviour analysis must be facilitated by an external BCBA. Students receive continuous assessment and feedback through their regular supervision sessions and participation in class activities. Placement practice is also reported at intermediate and end points during the year. Students must maintain a portfolio of their work throughout the course.

**Career opportunities**

Graduates can become leaders in the developing Applied Behaviour Analysis field of service, both internationally and in Ireland, and/or gain a desire for future academic study. Graduates will be able to work in educational and clinical settings serving diverse populations, such as students with learning difficulties, persons with autism and other developmental disabilities and/or children and adolescents in care or special programmes, and/or those clients presenting learning and/or behavioural challenges in school.

**Admission requirements**

Applicants will normally be required to hold a 2.1 Honours degree in Psychology or a related field from a recognised third-level institution.

Students will be required to undergo Garda Vetting, you can learn more at: www.tcd.ie/students/orientation/undergraduates/garda-vetting.php
This course provides an intensive and systematic programme of training, equipping each student to meet the challenges facing clinical psychology and to make a unique contribution to the Irish Health Services. The course is structured so that the academic teaching typically takes place in term time for one and a half days per week. In addition, each placement is preceded by a teaching block of approximately four weeks duration. Students complete six clinical placements during the course, each of approximately five months duration. Research training is continuous across the programme.

Students of the course are employed by an approved health care provider and graduates are required to complete an additional three-year contract of employment with their sponsoring service provider.

Career opportunities
The course aims to train students so that they will be equipped to function as independent career-grade clinical psychologists in the Irish health service under appropriate supervision. A number of graduates also go on to further clinical research.

Admission requirements
Requirements include a primary honours degree in Psychology with at least an upper second-class award (2.1) or equivalent. Good research skills and relevant experience are essential. Candidates are required to hold graduate basis for registration with the Psychological Society of Ireland.

Students will need a full and valid driving licence.

Students will be required to undergo Garda Vetting, you can learn more at: www.tcd.ie/students/orientation/undergraduates/garda-vetting.php

I thoroughly enjoyed my three years on the programme. I particularly enjoyed the fact that the course immerses trainees in therapeutic modalities such as psychodynamic, systemic, and cognitive behavioural to name just a few. The teaching staff are approachable, helpful and enthusiastic, actively encouraging personal and professional reflection and development. I would recommend this clinical programme to anyone interested in pursuing a career in clinical psychology. regional studies and take a more diverse and interdisciplinary approach to my writing.

Jessica Russell- Carroll
Clinical Psychology (D.Clin.Psych.)

This intensive full-time course provides professional training in Counselling Psychology and is accredited by the Psychological Society of Ireland. The main objectives of the course are to allow students to obtain a level of postgraduate academic and research performance appropriate for the award of a doctoral qualification, to progress this academic and research performance through the practice of Counselling Psychology, and to acquire professional knowledge and skills. The course emphasises the scientist-practitioner model of training and research-informed practice. The scientist-practitioner model is fostered through research classes and work on the research dissertation. Students are informed on a variety of research strategies and learn to critically evaluate the strengths and weaknesses of different methodologies.

Career opportunities
Graduates of this course are qualified counselling psychologists, skilled to conduct mental health assessments and therapy with individuals, couples, families and groups. Graduates have pursued careers as counselling psychologists in a variety of settings, including within the Health Service Executive; the National Counselling Service, refugee and asylum seekers services; autism support services; voluntary agencies; hospitals; third-level student counselling; and private practices. Graduates have also pursued further academic Ph.D. research.

Admission requirements
Applicants will be required to hold at least a minimum of an upper second class honours degree (2:1) in psychology or its equivalent from a recognised university course, which confers eligibility for graduate registration with the Psychological Society of Ireland or equivalent professional body in the case of overseas applicants. Students will be required to undergo Garda Vetting, you can learn more at: www.tcd.ie/students/orientation/undergraduates/garda-vetting.php
Psychology (H.Dip.) – Psychology Conversion Course

DURATION: 2 years full-time

COURSE DIRECTOR: Dr. Jean Quigley

EMAIL: psychoconv@tcd.ie

CLOSING DATE: 31st March 2024

WATCH COURSE VIDEO

MODULE DETAILS

This course provides a pre-professional qualification in psychology and confers eligibility for graduate membership of the Psychological Society of Ireland (PSI). It allows a student to proceed to postgraduate study, including higher degrees by research, and to specialise in an area of professional psychology. It is a two year full-time course based on lectures, tutorials, laboratory classes and research projects.

Students will cover the following areas of psychology: biological basis of behaviour; cognitive psychology; research design; qualitative and quantitative methods; developmental and lifespan psychology; social psychology; and personality and individual differences.

Students are evaluated by course work throughout the year, by written examination papers at the end of each semester, and by research project in the second year.

Career opportunities

This course provides a rigorous and comprehensive primary training to prepare students to take the next step towards a career in or using the discipline of psychology.

Admission requirements

Candidates for admission to the Higher Diploma in Psychology must hold a primary degree, in any discipline with at least an upper second-class honours. Applicants whose first language is not English and who have not been educated in the English language must meet Trinity's requirements for English language proficiency. The minimum acceptable IELTS score is 6.5 (with no band below 6). Trinity will also accept an equivalent in other approved English language proficiency tests.

Students will be required to undergo Garda Vetting, you can learn more at: www.tcd.ie/students/orientation/undergraduates/garda-vetting.php

Global Mental Health (M.Sc.)

DURATION: 1 year full-time, 2 years part-time

COURSE DIRECTOR: Dr. Tania Bosqui

EMAIL: bosquit@tcd.ie

CLOSING DATE: 30th June 2024

WATCH COURSE VIDEO

MODULE DETAILS

Based in the Trinity Centre for Global Health, an interdisciplinary centre co-located across the Schools of Psychology and Medicine, the Master’s in Global Mental Health is taught programme offering an in-depth, critical exploration of global mental health.

Students enrolled on the M.Sc. Global Mental Health will receive extensive theoretical and practical training on programming within Mental Health and Psychosocial Support (MHPSS), delivered in collaboration with international and non-governmental humanitarian organisations. Students will also receive advanced training in global mental health research, including qualitative and quantitative methodologies, as well as research ethics. The Master’s in Global Mental Health offers a comprehensive programme suitable for those pursuing a career in global mental health research, mental health and psychosocial programming, project management, or policy.

Career opportunities

The course provides students with opportunities for professional development, including the building of knowledge and skills related to assessment and treatment of mental health difficulties; health system equity and emergency response; a critical analysis of definitions and measurements of mental health and treatment outcomes within cultural context, ethical consideration for practice and research; and practical mental health and psychosocial support skills.

Graduates pursue careers in global mental health research, mental health and psychosocial programming, project management, and policy, among a variety of other fields related to global mental health issues.

Admission requirements

Applicants will be expected to have an Honours Bachelor’s degree at 2:1 or above, in a global health-related and/or psychology/cognitive area from a recognised university. Applicants should also have international experience, a strong interest in global mental health, and meet Trinity’s English language proficiency requirements.

Christian Theology (M.Phil./P.Grad.Dip.)

DURATION: 1 year full-time, 2 years part-time

COURSE DIRECTOR: Professor Michael Kirwan

EMAIL: srpostgrad@tcd.ie

CLOSING DATE: 31st July 2024

WATCH COURSE VIDEO

MODULE DETAILS

This Christian Theology programme provides students with the opportunity to gain in-depth knowledge of core issues in Christian theology and to develop skills of critical thinking in relation to them. Students are introduced to historical scholarship and to rigorous contemporary theological investigation. The focus on theological studies of the highest academic standing prepares students to contribute to public debates on theological issues in contemporary societies.

Students study three core modules, three optional modules and write a 15,000-20,000 word dissertation.

For teachers of religious education, this course provides an excellent opportunity to explore theological issues at a deeper level. While the M.Phil. is designed to be complete in itself, it can serve as preparation for those wishing to proceed to further research in the field. Students will learn research skills, as well as analytic, written and verbal communication skills. These are highly valued and effective in a great variety of careers.

Career opportunities

For teachers of religious education, this course provides an excellent opportunity to explore theological issues at a deeper level, so benefiting them and their students. Students will learn research skills, as well as analytic, written, and verbal communication skills that are highly valued and effective in a variety of careers.

Admission requirements

Applicants should normally have an upper second class Honours Bachelor’s degree, or 3.2 G.P.A. or equivalent, from a recognised university. Applicants not meeting these requirements may be considered at the discretion of the Dean of Graduate Studies.

Conflict Resolution and Reconciliation (M.Phil.)

DURATION: 1 year full-time, 2 years part-time

COURSE DIRECTOR: Professor David Mitchell

EMAIL: srpostgrad@tcd.ie

CLOSING DATE: 31st July 2024

WATCH COURSE VIDEO

MODULE DETAILS

This course is based in Belfast, Northern Ireland reflecting the School and Trinity’s commitment to cross-border education. The city provides a unique backdrop for the M.Phil., allowing students to immerse themselves in a society grappling with the challenges of, and opportunities for, conflict transformation. It offers an inter-disciplinary approach to the challenges of political and social reconciliation in the aftermath of violent conflict.

Graduates are equipped for work with local and international organisations, and gain transferable skills for a wide variety of careers, including mediation, diplomacy, policy, advocacy, journalism, teaching, and ministry, as well as Ph.D. research.

Student will study one core module: Research Skills and a selection of optional modules such as: Conflict and Peace in Northern Ireland; Conflict Transformation; Foundations of Conflict Resolution Research; Dynamics of Reconciliation; Contemporary Conflict and Peacemaking; Global Perspectives; Mediation and Peacebuilding Skills; Community Learning and Reflective Practice. Modules offered include weekly classes taught by Trinity in Belfast, as well as one week intensive programmes.

Career opportunities

Our graduates find employment in a wide range of careers, such as conflict resolution and mediation, peacebuilding, human rights, international development, NGOs and the non-profit sector, advocacy and activism, the public sector and government, diplomacy, the United Nations and international organisations, research, teaching, journalism, academia and law.

Admission requirements

Applicants should normally have an honours degree at second class level or GPA 3.2 or equivalent, from a recognised university. Students not meeting these criteria may be considered at the discretion of the Dean of Graduate Studies.
### Contextual Theologies and Interfaith Relations (M.Phil.)

This course focuses on the practical and theoretical possibilities posed by intercultural dialogue, and on the challenges of sustaining communities in which the praxis of peace and reconciliation with others is given concrete embodiment. This course provides an excellent opportunity to explore theological issues through the lens of inter- and intra-faith relations.

Lecturers draw on a wide range of critically engaging scholarly perspectives, including those of contextual, ecumenical and interreligious theologies; liberation/ feminist/ queer/ peace theologies; historical theology and theological anthropology; Buddhist, Hindu, Islamic and Jewish studies; critical theories (postcolonial and postmodern); politics; sociology; and ethics.

**Career opportunities**
Graduates of this course can go on to further education and academic research. Graduates will learn research skills, as well as analytic, written, and verbal communication skills that are highly valued and effective in a great variety of careers.

**Admission requirements**
Applicants should normally have an honours degree at second class level or GPA 3.2 or equivalent, from a recognised university. Students not meeting these criteria may be considered at the discretion of the Dean of Graduate Studies.

International Peace Studies examines the sources of war and armed conflict and suggests methods of preventing and resolving them through peacebuilding. The course combines perspectives from international relations, ethics and conflict resolution to reflect critically upon the range of social, political and economic issues associated with peace and political violence.

Students are required to take the two core modules: the Politics of Peace and Conflict, and Research Methods.

Students also take four modules from the following:
- Armed Conflict, Peace-building and Development.
- The United Nations and Conflict Resolution.
- Gender, War and Peace.
- Gender Theories.
- Forced Displacement, Conflict and Peacebuilding.
- Religion, Conflict and Peace in International Relations.
- NGOs in Theory and Practice Internship.

**Career opportunities**
Our graduates find employment in a range of careers, such as: conflict resolution and mediation, peacebuilding, human rights, international development, NGOs and the non-profit sector, advocacy and activism, the public sector and government, diplomacy, the United Nations and international organisations, research, teaching, journalism, academia and law.

**Admission requirements**
Applicants should normally have an honours degree at second class level or GPA 3.2 or equivalent, from a recognised university. Students not meeting these criteria may be considered at the discretion of the Dean of Graduate Studies.

The Applied Social Data Science programme will provide you with a competitive edge in the rapidly expanding job market for data scientists. You will acquire valuable skills which are sought after in the high productivity sectors, including information technology, consulting, financial services, risk-assessment, logistics, as well as positions in government, NGOs and academia. You will also become fluent in two very popular (and demanded) programming languages, R and Python.

A unique trait of the Applied Social Data Science programme is that it combines rigorous training in methods from computer science and statistics with social science research skills. There is high demand for social scientists who can apply machine learning and statistical methods for data-driven solutions to challenges faced by governments, political groups, and civil organisations.

**Career opportunities**
In this course you will acquire valuable skills which are sought after in the high productivity sectors, including information technology, consulting, financial services, risk-assessment, logistics, as well as positions in government, NGOs and academia.

There is high demand for social scientists who can apply machine learning and statistical methods for data-driven solutions to challenges faced by governments, political groups, and civil organisations. For instance, political organisations seek employees who can use computational approaches to analyse large-scale digitised collections of political communication, including social media feeds of elected officials, transcripts of parliamentary debates, and government agency press releases. Government agencies seek employees with experience in applying statistical forecasting methods to predict international conflict, terrorism, and disease outbreaks. Non-profit organisations are keen to hire people who can apply machine learning and natural language processing methods to help create data-driven solutions for disabled people.

**Admission requirements**
Applicants will be expected to hold an upper second class honours (2:1) degree or higher from an established university. GPAs scores of at least 3.3, or equivalent, is expected from international applicants. A background in a social science discipline or computer science, statistics, or other related discipline will be an advantage but is not required.
Comparative Social Change (M.Sc.)

**DURATION**
1 year full-time

**COURSE DIRECTOR**
Professor Daniel Faas

daniel.faas@tcd.ie

**CLOSING DATE**
31st July 2024

---

This course has a significant international dimension drawing on the rich and informative experiences of other EU member states, North America, the four Asian Tigers, plus the BRIC countries, particularly Brazil, China and India. In addition, the course provides advanced training in conceptualising, designing and conducting comparative research across countries and the role that this can play in policy development. It provides students with both the theoretical frameworks and practical research skills necessary to understand the processes and pressing issues presented by global social change. It aims to show students how everyday experience and practices are shaped by broader social and economic processes.

Policy-relevant and practice-based components, such as fieldwork projects, add an extra dimension to the Master’s programme which have been designed to contribute to the training and employability of the next generation of researchers.

**Career opportunities**

Students receive academic training in social change issues, such as gender, education and the labour market, which can be applied to real-world problems. This training has the potential to open career opportunities in fields such as advocacy, the media and communications. Furthermore, policy-relevant and practice-based components, such as fieldwork projects, have been designed to contribute to the training and employability of the next generation of researchers.

**Admission requirements**

Candidates should normally have achieved an upper second-class honours degree (2.1) or equivalent, preferably with a social sciences component and excellent academic references. GPAs of at least 3.0, or equivalent, will be expected from international applicants.

All applicants whose first language is not English or who have not been educated through the medium of English will need to show evidence of English language competency. GPA scores of at least 3.3, or equivalent, is expected from applicants. A background in a social science will be an advantage but not a necessity.

---

Economics (M.Sc.)

**DURATION**
1 year full-time, 2 years part-time

**COURSE DIRECTOR**
Dr. Selim Gulesci

economics@tcd.ie

**CLOSING DATE**
31st July 2024

---

The M.Sc. in Economics aims to provide well-qualified graduates in economics and related disciplines with the training required to work as economists in the public, private and non-profit sectors or to enter Ph.D. programmes in economics. The course focuses on the technical skills needed to undertake economic research and emphasises active and problem-based learning to ensure mastery of the required skills.

The course has two strands. The first is a general entry strand and the second is a strand that focuses on International Development. While the required mix of modules varies across the two, the structure and timing of both is the same and both lead to an M.Sc. qualification.

All students on all strands must take an intensive preliminary course in mathematics and statistics at the start of the first semester, while the second semester starts with a Research Methods course.

**Career opportunities**

A significant number of graduates go on to study for a Ph.D. at leading universities around the world such as Boston University, New York University, Oxford, University of Queensland, Stanford University and Trinity. Our graduates are also highly sought after by private sector employers in banking, finance and consulting. Many of our graduates also go on to pursue successful careers in government, multinational organisations, and non-governmental organisations that value the analytical and problem-solving skills our graduates possess.

**Admission requirements**

Candidates should normally hold at least an upper second-class honours degree (2.1) or equivalent, with a significant quantitative component, most commonly single or joint honours Economics degrees.

---

International Politics (M.Sc.)

**DURATION**
1 year full-time, 2 years part-time

**COURSE DIRECTOR**
Noah Buckley

**EMAIL**
polgrad@tcd.ie

**CLOSING DATE**
28th June 2024

---

The M.Sc. in International Politics course enables students to develop the abilities to assess the major theories of international relations and to formulate policy relevant research questions in the field. Students will learn to design and conduct their own research using relevant social scientific theories and methods. They will also develop the skills to communicate research effectively in a variety of forms.

The M.Sc. in International Politics consists of four compulsory modules, four elective (half) modules and a dissertation. Compulsory modules include: International Politics; International Conflict; Research Design; and Introduction to Quantitative Research Methods.

Elective modules vary from year to year, and can include: Global Justice; State and Society in the Developing World; Russian Politics under Putin; The Political Economy of International Development; Varieties of Authoritarianism; Interviews in Political Science; Environmental Politics; Economic Inequality and Democracy; Violence and Political Order; European Union Policy Making; and Political Illiberalism.

**Career opportunities**

The course aims to provide students with the necessary skills for a range of research-related careers, as well as careers in other areas. It is suitable for students who wish to progress to doctoral research, or to pursue careers in applied policy research, the civil service, international organisations, non-governmental organisations, or the media.

**Admission requirements**

Candidates should have achieved an upper second-class (2.1) honour degree or higher from an established university. GPA scores of at least 3.3, or equivalent, is expected from international applicants. A background in a social science will be an advantage but not a necessity.

---

Conor McKinnon

International Politics (M.Sc.)

The M.Sc. in International Politics is one of a kind. The curriculum is thoughtfully designed. It progresses logically – first, with classes that have a familiar feel to undergraduate work, and eventually, to the fundamentals of social sciences research design and finally to producing original research independently. Trinity’s campus location in Dublin could not be better.
Philosophy (M.Phil.)

DURATION: 1 year full-time, 2 years part-time

COURSE DIRECTOR: Dr. Lilian Alweiss

EMAIL: philosophy@tcd.ie

CLOSING DATE: 31st July 2024

Watch Course Video

Module Details

The M.Phil. in Philosophy offers the foundation for advanced research in philosophy. Students are given in-depth courses in philosophical methodology, core areas of contemporary philosophy, the Anglo-American and Modern European traditions and the application of contemporary scholarship to key historical figures.

The course incorporates both taught and research components. Students take six mandatory taught modules and write a 15,000 word dissertation. Taught modules can include:

- Introduction to Philosophical Research.
- Modern European Philosophy.
- Metaphysics.
- Ethics.
- Ancient Philosophy.
- Development of Analytic Philosophy.

Career opportunities (bold)

Philosophy graduates find that their ability to be analytical, to question assumptions and to be innovative thinkers opens opportunities in fields as varied as teaching, journalism, media, advertising, law, finance and technology. The M.Phil. is also relevant for students interested in pursuing further academic research.

Admission requirements

An undergraduate degree at 2.1 or above (or equivalent) in philosophy is normal requirement, but applicants who can demonstrate a strong philosophy component in their degree in a different discipline will be considered on a case by case basis.
Immunology (M.Sc.)

DURATION 1 year full-time

COURSE DIRECTORS Professor Cliona O’Farrelly
Dr. Nigel Stevenson

EMAIL msc.immunology@tcd.ie

CLOSING DATE 31st July 2024

This M.Sc. in Immunology includes study of immunological processes and mechanism, how they contribute to disease and how they might be manipulated therapeutically. By focusing on the molecules, cells, organs and genes of the immune system, their interaction and how they are activated and regulated, students will develop a deep understanding of the pathological processes underpinning immune mediated disease and how they might be controlled. From a practical perspective the course involves in-depth instruction in modern methodologies used in immunology/biomedical research, including the fundamentals of molecular and cellular biology. Students will also be trained in experimental design, data handling and basic research skills.

The following modules are mandatory, and make up the taught components of the course: Basic Immunology; Immunological Technologies; Communicating Science and Critical Analysis; Immunogenetics; Microbe Detection and Evasion; Clinical Immunology; Parasite Immunology; Tumour Immunology; Global Infectious Diseases; Immunotherapeutics and Product Development. In addition, students will undertake a research project, conducted in one of the Immunology groups located within or affiliated to The School of Biochemistry and Immunology and will be required to submit a dissertation.

Career opportunities
Graduates of this course have pursued careers in academic research, medicine and the pharmaceutical industry for which a thorough grounding in immunology, immune-mediated pathogenic mechanisms and immunotherapy is required.

Admission requirements
Applicants must provide the following:
- A strong work ethic and the resolve to engage with a demanding but rewarding programme.

Immunotherapeutics (M.Sc.)

DURATION 1 year full-time

COURSE DIRECTORS Professor Cliona O’Farrelly
Assistant Professor Jerrard Hayes

EMAIL immunotherapeutics.msc@tcd.ie

CLOSING DATE 31st July 2024

This one-year Master’s course in Immunotherapeutics is an innovative and multidisciplinary postgraduate degree taught by leading academics in the field of Immunology and guest speakers from the biopharma industry.

Students will learn about the immune system in cancer, autoimmunity, infection and neurodegeneration and how cutting-edge immunotherapies are revolutionising the treatment of life-threatening and debilitating diseases. This course also includes the study of exciting technologies of DNA/RNA vaccines, antibody, stem cell and CAR T-cell therapies, as well as immune checkpoint blockade.

A key component of the course is the six-month industry placement to be completed by each student in collaboration with an academic staff member.

Career opportunities
To date, Immunotherapeutics graduates have a 100% employment rate in careers such as R&D, communications, sales, marketing and regulatory affairs.

The M.Sc. in Immunotherapeutics has a strong industry and entrepreneurial focus and is designed in collaboration with the Irish biopharma industry. This provides graduates with analytical, innovation, communication and teamwork skills required for a successful career or further academic research.

Admission requirements
Applicants must provide the following:
- An upper second-class (2.1) honours degree grade or higher from a reputable university, in Immunology, Biochemistry or a related subject.
- At least one year of postgraduate study in a related biological discipline.
- A strong work ethic and the resolve to engage with a demanding but rewarding programme.

Computer Science – Augmented and Virtual Reality (M.Sc.)

DURATION 1 year full-time

COURSE DIRECTOR Professor Doug Leith

EMAIL postgraduate@scss.tcd.ie

CLOSING DATE 31st July 2024

The M.Sc. in Computer Science (Augmented & Virtual Reality) equips students with the theoretical and practical knowledge to enable them to participate in the design and development of the technology that underpins the fast moving video game market and the wider industries of interactive entertainment, new media and communication.

Career opportunities
Our graduates are in high demand for R&D positions in leading multinationals and startups alike. Previous graduates now work for games or visual effects companies, while others work in broader areas involving computer vision, computer graphics or digital applications. Companies where our alumni have been employed include: NVIDIA, Unity Technologies, Huawei, Volograms, The Foundry and Tencent Games.

Graduates have also gone on to further postgraduate research in funded Ph.D. positions at Trinity or other universities, in Ireland and abroad.

Admission requirements
Applicants must provide the following:
- An upper second-class (2.1) honours degree grade or higher from a reputable university, in Computing or related discipline.
- A strong work ethic and the resolve to engage with a demanding but rewarding programme.

Computer Science – Data Science (M.Sc.)

DURATION 1 year full-time

COURSE DIRECTOR Dr. John Dingliana

EMAIL postgraduate@scss.tcd.ie

CLOSING DATE 31st January 2024

Data Science or Big Data has become a hugely important topic in recent years, finding applications in healthcare, finance, transportation, smart cities and elsewhere. In this strand, Trinity’s leading experts in this field will guide you through how to gather and store data using Internet of Things and cloud computing technologies, process it (using advanced statistics and techniques such as machine learning) and deliver new insights and knowledge from the data.

Career opportunities
We expect our graduates to be in high demand for technical positions in leading multinationals and startup companies alike. All major IT companies, from Google to Facebook to Amazon, employ large teams of data scientists. Another important career path is management consulting with companies such as Accenture, McKinsey & Company and PwC.

There will also be opportunities to progress to Ph.D. study, with funded positions available locally.

Admission requirements
Applicants must provide the following:
- An upper second-class (2.1) honours degree grade or higher from a reputable university, in Computing or related discipline.
- A strong work ethic and the resolve to engage with a demanding but rewarding programme.

School of Biochemistry and Immunology

School of Computer Science and Statistics
The Future Networked Systems strand deals with how things become smart and connected as software systems are more and more embedded in our everyday environments, from mobile social networking to managing city resources such as road traffic. Dealing with such large-scale, cyber-physical and distributed systems requires novel approaches that address timeliness, safety, privacy and scale challenges. The strand builds on research activity within the CONNECT national research centre and a long history of innovation and start-up companies at the school.

Career opportunities
Our graduates are in high demand for high-end R&D positions within leading multinationals and start-up alike. Previous graduates have gone on to work in software engineering, fintech and other computing-related companies including Facebook, Microsoft, Amazon, Oracle, Jaguar Land Rover, Citibank and Genesys. Graduates have also gone on to further postgraduate research in funded Ph.D. positions at Trinity or other universities, in Ireland and abroad.

Admission requirements
Applicants must provide the following:
- An upper second-class (2.1) honours degree grade or higher from a reputable university, in Computing or related discipline.
- All applicants whose first language is not English or who have not been educated through the English language will need to present evidence of competency.
- Proven programming competence. All candidates will have to complete a programming test in C, C++, or Java before being offered a place on the course. Some modules on the course may also require programming in Python and other languages.
- A strong work ethic and the resolve to engage with a demanding but rewarding programme.

The M.Sc. in Computer Science (Intelligent Systems strand) focuses on smart, interactive web applications and systems, which are becoming an integral part of our daily lives at home, in the workplace, and in social interaction. Designing and building these systems requires expertise in artificial intelligence, human language understanding and generation, web systems and applications, data analytics and knowledge engineering. This strand is closely linked to the school’s research groups involved in the ADAPT centre for digital content technology.

Career opportunities
There are employment opportunities in internet-based services, financial services, and mobile communication companies. Students will also benefit from the comprehensive research networks in both the School of Computer Science and Statistics, and the ADAPT national research centre. Graduates will be suited to careers in companies such as Google, Facebook, Amazon, LinkedIn, Microsoft, IBM, PayPal, Symantec, eBay and SAP.

Admission requirements
Applicants must provide the following:
- An upper second-class (2.1) honours degree grade or higher from a reputable university, in Computing or related discipline.
- All applicants whose first language is not English or who have not been educated through the English language will need to present evidence of competency.
- Proven programming competence. All candidates will have to complete a programming test in C, C++, or Java before being offered a place on the course. Some modules on the course may also require programming in Python and other languages.
- A strong work ethic and the resolve to engage with a demanding but rewarding programme.

The course is designed to help students learn how to design, develop and understand digital media applications and content on existing and emerging platforms. The course covers the programming languages and applications used in digital media, a range of design techniques (graphic design, interactive design, UI/UX design, game design) as well as approaches to content creation in a range of modalities (moving image, audio, sensor technologies). In addition to practical skills, the course also covers critical thinking around digital media, giving the students the ability to situate works and ideas in relevant cultural contexts.

Career opportunities
This course has more than 500 graduates working in the digital media and related sectors, nationally and overseas. The M.Sc. in Interactive Digital Media enables graduates to work in roles across the digital media sector, including design, content, development, analysis, research, and entrepreneurship.

Admission requirements
A 2.1 (80-89%) or higher from a reputable university is required, although exceptions can be made on the basis of considerable professional and/or creative experience. Students are accepted from a wide range of disciplines, ranging from computer science and engineering to the arts, humanities and design.

All applicants whose first language is not English or who have not been educated through the English language will need to present evidence of competency.
The M.Sc. in Biomedical Engineering provides an advanced training and education to the next generation of biomedical engineers. Biomedical Engineering is considered as the application of engineering principles to advance healthcare and medicine. Some of the most exciting work in biomedical engineering today takes place at the intersection of the biological, physical, chemical, engineering and digital disciplines, making significant impacts on human healthcare.

Career opportunities
Our course prepares graduates employable in the medical device industry in Ireland and overseas. Our graduate biomedical engineers design and manufacture medical devices with leading companies, including Medtronic, Boston Scientific, Johnson & Johnson, and Schivo Group, Carl Zeiss Meditec and Stryker.

Many pursued further research at Trinity, other leading universities such as Stanford and Harvard, as well as in hospital and clinical environments, such as in the regulatory practice of medical devices with the Irish Medicine’s Board.

Admission requirements
Applicants must hold a minimum of an upper second-class honours degree (2.1) or higher in engineering, biomedical technology, or a cognate discipline. Shortlisted candidates will be invited for an online interview with the Course Director. Outcomes of the interviews will be made known to candidates who will be invited for an online interview with the Course Director.

Applicants must hold a minimum of an upper second-class honours degree (2.1), or higher, in engineering, science, computing, statistics, mathematics or a related discipline. Well-qualified candidates or industry professionals from other disciplines who have sufficient knowledge of computational aspects of engineering and science may also be considered.

The M.Sc in Biomedical Engineering brings students to exciting new developments in biomedical engineering today, ranging from development of new materials for use in cardiac therapeutics, designing innovative next generation medical devices, in silico design and modelling, to growing and regenerating new tissues for tissue replacement and in vitro disease modelling.

The M.Sc. in Biomedical Engineering brings students to exciting new developments in biomedical engineering today, ranging from development of new materials for use in cardiac therapeutics, designing innovative next generation medical devices, in silico design and modelling, to growing and regenerating new tissues for tissue replacement and in vitro disease modelling.

Well-qualified candidates or industry professionals from other disciplines who have sufficient knowledge of computational aspects of engineering and science may also be considered.

The programme provides graduates with specialist understanding in one of the following areas: Environmental Engineering; Structural and Geotechnical Engineering; Transport Engineering; or Sustainable Energy Engineering.

This course is accredited by Engineers’ Ireland, a member of the European Network for Accreditation of Engineering Education and the Washington Accord, and thus recognised by countries including China, India, the UK and the US.

The course is suitable for those interested in pursuing a career in engineering, in particular environmental, structural and geotechnical, transport, or sustainable energy engineering. It is also suitable for individuals working in the industry who wish to enhance their working knowledge.

Career opportunities
Graduates have gained employment opportunities with private sector firms and county councils such as RPS Group, Arup, Jones Engineering Group and Dublin County Council. Students can also choose to pursue further study. In previous years, our graduates received offers to go on to doctoral research at international leading universities such as Trinity, Imperial College London, and University College London.

Admission requirements
The minimum entry criteria are an upper second-class (2.1) honours degree (or equivalent) in engineering or a related discipline. Relevant industrial experience may be taken into account in allocating places, where the course is oversubscribed.
A personal statement addressing why you would like to do the programme.

Musical/compositional/artistic and/or technological ability

Formal musical knowledge – ideally level 5/6.

Module details

Academic and/or professional references.

Career opportunities

Graduates bring deep disciplinary knowledge and problem-solving expertise to any problem they are presented with.

Our graduates pursue careers in R&D and in high-tech sectors such as medical devices and aerospace. Companies where our alumni are employed include Diageo, Stryker, Pfizer, Jones Engineering, and GE Healthcare.

Graduates also pursue further postgraduate research in Ph.D. positions at Trinity or other universities, in Ireland and abroad.

Admission requirements

Admission is normally restricted to graduates with an upper second-class (2:1) honours degree, or higher, in engineering, science, computing, statistics, mathematics or a related discipline. Well-qualified candidates or industry professionals from other disciplines with sufficient engineering and science knowledge may also be considered.

The M.Sc. in Mechanical Engineering addresses advanced topics over a wide range of Mechanical and Manufacturing Engineering subjects. Within the M.Sc., there are numerous module options and an excellent opportunity to engage in topical research with leading research groups within the School of Engineering.

An important part of the M.Sc. programme is a research dissertation, which directly builds on some of the content of the modules. Themed areas include advanced manufacturing, materials, fluid mechanics and automation design. Students may also follow the Zero Carbon Technology option with a focus on technology to achieve the transformation to low-carbon energy and transport. The Zero Carbon Technology strand will cover power, transport and resources with related business and planning options.

Biodiversity and Conservation (M.Sc.)

DURATION 1 year full-time

COURSE DIRECTOR Dr. Nicholas Payne

EMAIL paynen@tcd.ie

CLOSING DATE 28th June 2024

MODULE DETAILS

This programme provides students with a sound theoretical and practical grounding in the science of biological diversity and its conservation. The programme is taught in modules, and these are grouped into theoretical components, practical research skills, and modules dealing with individual desk-based and experimental research projects. The course is taught through a variety of methods – lectures, practical classes, field-based learning, guided reading and discussion groups and web-based methods. A variety of assessment procedures are used – essay writing, oral presentations, web-based tests, examinations and dissertations. The approach is to develop a high degree of independent thinking and academic excellence in students completing the course.

Following successful completion of the taught part of the course, students embark on a closely supervised research project of approximately three months duration, intended to expand the skills and knowledge base acquired in earlier modules.

Career opportunities

The programme provides in-depth training for those looking to further their career in biodiversity and conservation, including in international non-governmental organisations (NGOs), government departments and environmental consultancies. Graduates can also pursue further postgraduate research.

Admission requirements

Applicants should hold at least an upper second-class (2:1) honours degree — or an equivalent qualification — in a science subject that includes significant components of botany, zoology or a relevant life science. Candidates with relevant, and significant, experience as professional practitioners in biodiversity management or policy may be accepted with lower qualifications.

The Master's in Development Practice is part of a global network with a Secretariat at the United Nations Sustainable Development Solutions Network with offices at Columbia University in New York (and was the only programme to receive seed funding in Europe in the first round).

This course is part of the only global educational network of its kind, involving more than 30 universities across all continents.

Students are encouraged to spend up to three months completing cross-disciplinary fieldwork in a developing location. To date, students have undertaken fieldwork in Rwanda, Tanzania, Uganda, Sierra Leone, Senegal, Brazil, Malawi, India, USA, Vietnam and Madagascar.

Career opportunities

The course enables students to pursue their career interests in international development. Graduates are in high demand from international organisations such as the Global Business Initiative on Human Rights, Economics and Social Research Institute, World Food Programme (UN), US Environmental Protection Agency (EPA), Washington DC, Oxam, United Nations Global Impact, PwC Inland, Trócaire, New York League of Conservation Voters, KPMG, and Bord Bia.

Admission requirements

Applicants must have:

- Achieved a first or upper second-class honours degree (3.5 GPA equivalent) awarded by a reputable university or third-level institution, or a recognised awarding body (such as the NCEA).
- At least three years of appropriate employment, if degree requirements aren't met.
- A recognised professional qualification obtained through examinations (having spent at least four years in study) and, in addition, have been employed for at least two years in the work of their profession, if the first two requirements aren't met.

MODULE DETAILS

The CHARM EU Master’s in Global Challenges for Sustainability offers a unique international learning opportunity. CHARM-EU students will have the chance to address the pressing need for sustainability in a transdisciplinary and challenge-based environment. This international programme will employ innovative pedagogical approaches and mechanisms to engage staff and students of diverse backgrounds and disciplines to facilitate, foster and enhance the links between education, research and innovation.

Delivered full-time over 18 months, the delivery of the course will incorporate flexible, blended and hybrid formats. The Master’s degree is accredited and jointly awarded by the five CHARM-EU partner universities: University of Barcelona, Trinity College Dublin, Utrecht University, Eötvös Loránd University and University of Montpellier.

Career opportunities

The Master’s programme supports student employability, professional-specific competencies, and academic career progression. The Master’s strengthens these aspects through identifying multiple career pathways, aligning learning outcomes to business and civil society stakeholder needs, and fostering of a broad industry-ready skillset.

Admission requirements

Applicants must hold at least a Bachelor’s degree or recognised equivalent. In the case of students with a French Licence, they will need an additional 30 ECTS for admission.

English language certification at C1 level is necessary for admission. Students with B2 level will be considered in conjunction with other admission criteria but must attain C1 level before programme registration.

Applicants must complete the relevant forms and upload the required documents on the University of Barcelona admission portal.

You can find the required documents on the Charm EU website at: www.charm-eu.eu/masters/globalchallenges/documents

MODULE DETAILS

The CHARM-EU Master’s in Global Challenges for Sustainability is an international, innovative, flexible, inclusive programme with a challenge-driven, research-based curriculum, enabling transdisciplinary approaches, addressing global societal challenges and skills shortages and focusing on reconciling humanity with the planet.
Evidence of English language competency, for applicants

**MODULE DETAILS**

Two academic references, or reference letters from industry

**Their Bachelor's degree.**

Graduates have gone on to do further research in a range of environmental related disciplines. Graduates from the course have pursued their interests in environmental sciences throughout the world.

**Career opportunities**

Previous graduates of this M.Sc. course have been employed by a range of agencies involved in environmental protection, as environmental consultants and in local government. Many graduates have gone on to do further research in a range of environmentally related disciplines. Graduates from the course have pursued their interests in environmental sciences throughout the world.

**Admission requirements**

Applicants must provide:

- Their Bachelor's degree.
- Evidence of English language competency, for applicants whose first language is not English or who have not been educated through the English language.
- Two academic references, or reference letters from industry for candidates who left academia several years ago.

Projects for smart cities involve the regeneration of existing urban areas as well as the creation of large new settlements, and have a major positive impact on the many environmental, social, economic and weather systems that underpin the planet. Meanwhile, and with a strong overlap with smart city initiatives, cities around the world are reacting to broader environmental challenges, such as climate change through measures aimed at developing sustainable solutions. The global scale of such challenges has been recognised within the Sustainable Development Goals (SDG’s) under the heading of ‘Sustainable Cities and Communities’. Here, the promotion of safe, inclusive and sustainable cities is outlined as a central pillar of creating a sustainable urban future.

Graduates of the programme have come from a variety of backgrounds, including computer science, zoology, geography, marketing, and architecture. The course is designed to allow students to develop new skills while also focusing on fields of particular interest, such as urban governance, city sustainability, fieldwork, and a short placement.

**Career opportunities**

This course is designed to meet the learning needs of students who want to enter an expansive but demanding employment market, preparing them for professional work in institutions and public or private companies involved in smart city planning, as well as urban sustainability initiatives.

**Admission requirements**

Applicants will be expected to have an upper second-class (2.1) honours Bachelor degree or above, in a social science or science-based course such as Engineering, Sociology, Computer Science, Economics, and Geography.

Applications may be interviewed or asked to submit a written sample for assessment. Non-standard applicants may be considered by the Dean of Graduate Studies in exceptional circumstances based on workplace experience or other relevant criteria.

Applications may be interviewed or asked to submit a written sample for assessment. Non-standard applicants may be considered by the Dean of Graduate Studies in exceptional circumstances based on workplace experience or other relevant criteria.

This programme aims to provide students with a science, engineering or other appropriate background, with a broad knowledge and experience of the science and application of both conventional and sustainable energy technologies. The connection between physics, chemistry, earth science and economics determines how energy is utilised, the environmental consequences of its use, and in turn determines many government policies across the globe. A working understanding of each of these areas is necessary for students inspired to pursue a career in the energy sector, or for those interested in communicating or managing the environmental impact of the world’s energy use, such as climate change.

**Career opportunities**

Graduates of the Energy Science programme have knowledge and skills directly applicable to a host of energy orientated industries, including, power generation and distribution, electronics, automotive, aviation, construction, and oil and gas. For graduates interested in academic research, the societal pursuit of clean and secure energy is at the heart of the research agenda of every major country.

**Admission requirements**

This M.Sc. is suitable for graduates who have achieved an upper second-class (2.1) honours degree or the international equivalent in either physical sciences or engineering. However, applications from similarly qualified candidates from other disciplines are welcome if they can demonstrate a sufficient level of knowledge or interest in Energy Science.

**MODULE DETAILS**

Graduates will be uniquely placed to work across the quantum science and technology sector as well as related areas of industry. For those interested in pursuing academic research, the School hosts many internationally recognised academics in quantum research. Graduates will also be eligible to pursue further study in other universities currently working in this and related fields.

**Admission requirements**

Applicants will be expected to have an honours Bachelor’s degree at 2.1 or above in a physics, mathematics, computer science or engineering degree (or equivalent). Applicants with lower than a 2.1 will be considered on a case-by-case basis by the Dean of Graduate Studies. In case of heavy competition for places or concerns regarding a particular applicant’s suitability, applicants may be interviewed online.
Admission requirements
Applicants will be considered only if they have held a primary dental qualification for at least two years. The MF/D/MJDF or equivalent is mandatory. Normally, up to 12 months should have been spent working in hospital practice.

All applicants whose first language is not English or who have not been educated through the English language will need to present evidence of English language competency. Minimum requirements are an IELTS score of 7 or TOEFL score of 230 computer-based, 570 paper-based, 88 internet-based across all, or an equivalent from a recognised organisation.

Students will be required to undergo Garda Vetting, you can learn more at: www.tcd.ie/students/orientation/undergraduates/garda-vetting.php

Admission requirements
Applicants are expected to have achieved a minimum of an upper second-class (2.1) degree in a health or social care related discipline, and will have at least three years’ professional experience.

Other applications may be considered in exceptional circumstances, based on work experience. In the case of applicants with no professional experience, a submission may be considered by the course committee where the student can secure placement for the duration of the course and the course committee are satisfied the student will adequately benefit from completing the course.

CLOSING DATE
31st July 2024
### Biomedical Sciences (Intercalated) (M.Sc.)

**DURATION** 1 year full-time

**COURSE DIRECTOR** Dr. Henry Windle

**EMAIL** hjwindle@tcd.ie

**CLOSING DATE** 31st July 2024

This postgraduate programme is aimed at healthcare professionals from a wide range of backgrounds, including medicine, nursing and allied healthcare disciplines, who are involved in the provision of care to cancer patients. It offers an evidence-based approach to the management of physical and psychosocial issues that arise in cancer survivorship. Cancer survivorship is recognised as a distinct period within the cancer continuum that commences at diagnosis and continues through until the end of life.

This course is delivered by a multidisciplinary academic team and examines the physical and psychosocial sequelae of cancer and its treatment on cancer survivors and provides students with the knowledge and skills to apply evidence-based practice to cancer survivorship care. For the first time the National Cancer Survivorship Programme under the 2017-2026 National Cancer Strategy places cancer survivorship at the heart of the Irish cancer agenda, therefore this course suits healthcare professionals who wish to upskill in the evaluation, development and implementation of cancer survivorship care.

**Career opportunities**

Graduates have pursued medical and biomedical research as well as careers in areas including global research laboratories, government agencies and the private sector.

**Admission requirements**

Admission is restricted to undergraduate students in Year 3 (and occasionally Year 4) in Trinity's School of Medicine. At this point, students will have qualified for a B.A. which is normally awarded when the students are conferred with their final M.B. The intercalated Master's will also be conferred then.

The course is coordinated through the Department of Clinical Medicine, Trinity, St James Hospital Dublin. All references provided must be from Trinity academics.

### Cancer Survivorship (M.Sc./P.Grad.Dip.)

**DURATION** 1 year full-time, 2 years part-time

**COURSE DIRECTOR** Professor Deirdre Connolly

**EMAIL** msccancersurv@tcd.ie

**CLOSING DATE** 31st July 2024

### Clinical Exercise (P.Grad.Dip./P.Grad.Cert.) (Online)

**DURATION** P.Grad.Dip. 1 year full-time, 2 years part-time

**COURSE DIRECTOR** Professor John Gormley

**EMAIL** clinicalexercise@tcd.ie

**CLOSING DATE** 31st July 2024

The Clinical Exercise programme enables clinicians to prescribe exercise as a disease preventative and treatment modality in a safe, effective, and scientific manner. Material covered on this course includes how to accurately assess activity and fitness, and apply this knowledge for the safe and effective prescription of exercise. Research presented will help students to understand the role of exercise in the prevention and treatment of disease, while case scenarios and group discussions will help apply this knowledge to patients with various pathologies.

The programme will be delivered online and address how physical activity and exercise can become an integral part of patient prescription. In recent years evidence has emerged on the role of exercise as a treatment for those with depression, anxiety, cognitive impairment, rheumatic diseases and other conditions where exercise was not traditionally considered beneficial.

This course in Clinical Exercise has been specifically designed to provide healthcare professionals with the necessary knowledge and skills to become confident at individually prescribing exercise to people with various pathologies.

**Career opportunities**

Graduates of this course have gone on to work in the health sector, in public and private hospitals, community health, occupational rehabilitation, private clinic, sport and further education or research.

**Admission requirements**

Applicants should have a primary degree at a minimum upper second-class (2.1) level in the health sciences. Applicants with other primary degrees will be considered on a case-by-case basis. Other applicants may be considered in exceptional circumstances based on workplace experience.

Students for whom English is not their first language or who have not been educated through English are required to submit an IELTS grade 6.5 overall (each band of the IELTS must have a minimum score of 6.5).

**CLOSING DATE** 31st May 2024

**EMAIL** dennans@tcd.ie

**COURSE DIRECTOR** Professor Suzanne Dennan

**MODULE DETAILS**

The M.Sc. in Diagnostic Radiography is aimed at graduates with a science or healthcare related undergraduate degree that wish to pursue a career in diagnostic radiography. The course, which is approved by CORLI, is designed to provide high quality academic education and practical training to enable graduates to practice safely and independently as diagnostic radiographers.

Students will spend the majority of the summer period in clinical placement, developing the required practical radiography skills.

**Career opportunities**

The programme will equip diagnostic radiography graduates with the necessary technical and professional skills required to meet the demands of a constantly evolving profession.

**Admission requirements**

Prospective students will be graduates with a science or healthcare related undergraduate degree (at a minimum upper second-class, or 2.1 level). Graduates from other disciplines may also be considered, and, in exceptional circumstances, applicants with relevant workplace experience who lack the necessary third-level qualifications.

Shortlisted applicants will be invited for interview and assessed based on individual motivations, communications skills, academic achievements, and knowledge of diagnostic radiography.

Students will be required to undergo Garda Vetting, you can learn more at: www.tcd.ie/students/orientation/undergraduates/garda-vetting.php
Entrepreneurship of Smart Medicines (M.Sc.)

DURATION: 1 year full-time

COURSE DIRECTOR: Professor Kumlesh K. Dev

EMAIL: devk@tcd.ie

CLOSING DATE: 31st July 2024

This M.Sc. in Entrepreneurship of Smart Medicines is ideally suited for entrepreneurs, business sector specialists, venture consultants and professionals. Students will undertake five taught modules and a research project. Taught modules include:

- Biology for the Entrepreneur Scientific.
- Transformation of an Entrepreneur.
- Disease Indications & the Market I.
- Indications & the Market II.
- Drug Development - The classics of large Pharma.
- Drug Development - Innovators and Disruptors.
- Clinical Development.
- Regulators and Manufacturers.
- Medical Devices & Biopharmaceuticals.
- Product & Company Licensing, Mergers & Valuations.
- Enterprise Development – Startups.
- Enterprise Development – IP and Leadership.

This course is designed to provide a new language to those coming from a non-biology background in drug discovery and pharmaceutical development.

Career opportunities

Designed to bridge the gap between business and biology, this course trains, converts and upskills the ‘biologist-to-business’ and ‘business-to-biologist’, opening the door to careers in drug development, biotech, pharma and commercialisation.

Admission requirements

Applicants will be expected to have an honours bachelor degree at upper second-class (2.1) or above, in science, health sciences, and/or business.

Applicants with other primary degrees will be considered. Other applicants without a primary degree may be considered in exceptional circumstances based on workplace experience.

Genomic Medicine (M.Sc.)

DURATION: 1 year full-time, 2 years part-time

COURSE DIRECTOR: Professor Ross McManus

EMAIL: rmcmanus@tcd.ie

CLOSING DATE: 31st July 2024

This M.Sc. offers a state of the art date overview of the emerging field of Genomic Medicine which is increasingly impacting on the conduct of medical practice and life science research, leading to the era of personalised medicine. The course aims to provide participants with the knowledge and skills to generate, evaluate and apply genomic data, covering analytical, technological and biomedical aspects. Understanding the importance of genomic variation and its impact on biology, opens up the possibility of advanced diagnostics and precision treatments, as well as an improved fundamental understanding of disease mechanisms and the effects of environmental exposures. Such developments will in turn lead to further, more specific therapeutic vistas.

This M.Sc. will include multi-disciplinary training on a wide range of topics from genomics and cell biology, to analytical techniques and medical applications catering from basic to advanced levels. Optional modules will allow participants to tailor the programme to best suit their state of knowledge and professional aspirations.

Career opportunities

The course provides participants with the knowledge and skills to generate, evaluate and apply genomic data, covering analytical, technological and biomedical aspects. Graduates have upskilled in the area of genomic medicine and have pursued an array of academic, clinical and industrial career paths.

Admission requirements

The programme is open to graduates that hold a professional degree at upper second-class (2.1) level or equivalent. Ideally this qualification will be from a medicine, nursing, or general science background, but graduates from other degrees will be assessed on an individual basis. Relevant professional experience will also be taken into account.

Global Health (M.Sc.)

DURATION: 1 year full-time

COURSE DIRECTOR: Dr. Meg Ryan

EMAIL: global.health@tcd.ie

CLOSING DATE: 30th June 2024

This innovative and successful programme, run by the Trinity Centre for Global Health, aims to provide graduates with a greater appreciation of the global interconnectedness of health problems and to equip them with a range of analytical and methodological skills to address the challenges of global health. The programme adopts a multidisciplinary approach that integrates health and social science perspectives to analyse, design, implement and evaluate health programmes within a global context.

Global health is an attempt to address health problems and issues that transcend national boundaries, and are informed by the circumstances and experiences of countries in differing contexts. The underlying assumption is that the world’s health problems are shared and are best tackled by cooperative action and the sharing of innovative solutions.

The M.Sc. in Global Health augments traditional approaches to public and international health by bringing together perspectives and insights from a range of health and social sciences in understanding and resolving the challenges of global health.

Career opportunities

Graduates pursue leadership positions in global health research, policy and practice, among a variety of other fields related to global health issues.

Admission requirements

Applicants are required to complete an online application and provide some of the following documents:

- A personal statement stating your interest in global health issues, why you wish to participate in the course, prior global health experience, and your career aspirations.
- A professional CV.
- Two references, with at least one from a contact in academia.
- Copies of certificates of English language competence (for applicants whose native language is not English or who have not been taught at university in the English language).
This programme has been designed for graduates from a healthcare background. Through research-lead teaching and experiential learning, students will build a detailed, critical and practical understanding of issues in innovation and, in particular, the adoption of innovation within the healthcare landscape. The programme will hold interest for those in the Irish healthcare sector whether front-line management in the Health Service Executive, in the established pharmaceutical/medical devices industry, to entrepreneurs and institutional supporters of high-potential startups.

The Postgraduate Diploma in Healthcare Innovation is taught full-time, over one year and comprises of eight taught modules - six foundation modules, and two practical modules including workshops and a project. The course offers a fundamental grounding in key subjects such as design thinking and embedding a culture of innovation, process innovation, lean thinking and social innovation, healthcare, innovation and leadership. The Project modules will plan, with a view to implementation, an innovative solution applicable to each participant's workplace.

Admission requirements
Applicants are expected to hold an undergraduate bachelor degree with an upper second-class (2.1) grade or higher. Experience of working in the healthcare sector is required. Applicants whose first language is not English and who have achieved at least an upper second-class (2.1) honours undergraduate degree or above from an Irish university or equivalent result from a university in another country. This degree should be in a related professional or academic discipline, including Medicine, Nursing, Allied Health, Management, Social Sciences or Health Sciences.

Applicants without professional or academic experience in this field, but who have demonstrable and substantial experience and/or learning more generally, please contact the Course Director.

The Health Policy Management programme equips learners with vital knowledge, skills and tools for understanding, researching and working in complex health and social care systems. From reforming and managing health systems, to implementing organisational, technological and digital innovations, course participants acquire a detailed theoretical and practical understanding of major health system challenges and developments – and how to address them.

The course is taught through an interdisciplinary curriculum underpinned by the principle of evidence-informed policy and practice, with high levels of student participation and peer-learning.

This Master's programme is suitable for healthcare professionals (such as doctors, nurses, allied healthcare providers, facility managers, and public administrators) as well as recent health and social sciences graduates.

Career opportunities
The Health Policy Management course will equip learners with the knowledge and skillset to have a successful career in health systems, policy, and management. The foundational learning is transferrable across roles in research, health systems, and policy development and management, allowing graduates to pursue a range of mid- to senior-level opportunities in managerial, leadership or research-related roles in both the public and private sectors.

Admission requirements
Applicants need to hold at least an upper second-class (2.1) honours undergraduate degree or above from an Irish university or equivalent result from a university in another country. This degree should be in a related professional or academic discipline, including Medicine, Nursing, Allied Health, Management, Social Sciences or Health Sciences.

Applicants without professional or academic experience in this field, but who have demonstrable and substantial experience and/or learning more generally, please contact the Course Director.

The course aims to provide students with an understanding of the molecular basis of human disease and its implications for the practice of clinical medicine and research in the life sciences. The course will ensure that students from all disciplines have the skills necessary to conduct research and critically evaluate the scientific and medical literature.

The M.Sc. in Molecular consists of lectures on cellular biology and molecular genetics as they apply generally to normal cell and tissue function and more specifically to disease processes such as cancer; immune dysfunction, and diseases with an inherited component. The course content includes molecular signalling and therapeutic genetics, molecular and population genetics, nanoscience, neurobiology and advanced diagnostics and therapeutics.

Career opportunities
The programme aims to provide candidates with a cutting-edge overview of the field of molecular medicine, and graduates have gone on to careers in the life sciences industry, research, academia and medicine.

Admission requirements
Applicants should hold the minimum of an upper second-class (2.1) honours bachelor degree or equivalent in a biological science; a clinical science such as medicine, dentistry or veterinary; a pharmaceutical science such as pharmacy; or another science-related area.

Other appropriate professional or industrial experience will be taken into account. Candidates may be interviewed to assess their suitability at the discretion of the course co-ordinators.

Neuroscience is a discipline concerned with the scientific study of the nervous system in health and disease. Research in the neurosciences is of considerable clinical impact considering the debilitating and costly effects of neurological and psychiatric disease. In this regard, a major goal of modern neuroscience research is to elucidate the underlying causes (genetic or environmental) of major brain diseases, and to produce more effective treatments for major psychiatric disorders such as schizophrenia and depression, and neurological disorders such as multiple sclerosis, Parkinson’s disease, Alzheimer’s disease, motor neuron disease and epilepsy. Improved treatment strategies for brain disorders relies entirely on increased understanding gained from research which integrates molecular, cellular and clinical aspects of disease.

Since its foundation, the M.Sc. in Neuroscience has taught more than 300 students, who have come from academic backgrounds including neuroscience, physiology, pharmacology, chemistry, medicine and others. The course is ideal for students wishing to extend their specialised knowledge, and those who want to convert from their original degree discipline.

Career opportunities
The course will equip participants with the skills necessary to progress into a career in biomedical, pharmaceutical or neuropsychological research. Graduates have pursued medical and health-related degrees, direct entry into research labs, as well as Ph.D. research across the world, from Ireland to Australia.

Admission requirements
To be eligible for admission, candidates must hold a third level qualification, ideally in Biological Sciences, Neuroscience, Pharmacology, Physiology, Biochemistry, Allied Health Sciences, Medicine or a related discipline. Applicants should have achieved at least an upper second-class (2.1) honours bachelor degree or its equivalent.
The aim of this M.Sc. course is to allow participants further their career progression in musculoskeletal and sports and exercise medicine by enhancing basic background knowledge in anatomy, exercise physiology, sports and exercise science; and, in addition develop high quality practical and critical thinking skills in musculoskeletal assessment, rehabilitation, exercise testing and training prescription in health and disease.

Career opportunities

This course is designed to produce leaders in sports medicine. Graduates have pursued diverse careers in multi-disciplinary roles in different sports and physical activity and population health.

Admission requirements

The programme is open to graduates from medicine, physiotherapy and others sports science related disciplines. Applicants require an NFQ Level 8 degree at an upper second-class (2.1) honours or equivalent.

There are a limited number of places on offer to certified athletic training therapists (Ireland, the US and Canada only) and sports rehabilitation therapists (UK). Applicants should also provide references and meet Trinity’s English language requirements.

This M.Sc. programme in Translational Oncology will provide high-quality training for basic scientists and clinicians in the theoretical and practical aspects of the causes and treatment of cancer. A major focus of the programme is the cellular and molecular basis of cancer. The course also covers the scientific and clinical challenges pertinent to the management of site specific cancers, and all aspects of cancer treatment from standard therapies to ‘individualised’ molecular targeted and immune-based therapies. This innovative M.Sc. programme in Translational Oncology is aimed at scientists and doctors who wish to: develop their research skills, broaden their expertise in oncology, develop advanced knowledge in specific areas of scientific, translational and clinical oncology.

Career opportunities

This course has had a post-graduation employment rate above 92% in its last four years. Careers our graduates pursued span further research (including Ph.D. study) and employment in hospitals, universities and medical centres. A significant number of students have also secured positions in pharmaceutical and clinical trial companies.

Admission requirements

This M.Sc. programme in Translational Oncology is open to candidates with qualifications in science, medicine, or a related discipline. Applicants must hold an upper second-class (2.1) degree. Medical graduates must have a M.B., B.Ch., B.A.O. or equivalent from a recognised medical school. All applicants should provide two academic or clinical references. Applicants should also provide two references and meet Trinity’s English language requirements.

This interdisciplinary course will develop and strengthen the skills, competencies and knowledge of students, thus enabling them to promote and develop excellence in the delivery of care for people with an intellectual disability. Students will explore the physical health, policy and complex care needs of people with intellectual disabilities.

The course will prepare them as leaders in quality and person-centred care for people with intellectual disabilities as they age. The Trinity Centre for and Intellectual Disability hosts IDS-TILDA, the world leading longitudinal research initiative focused on ageing and intellectual disability, the most complete multidisciplinary body of research in this field, directly informing policy and practice to enhance the lives of older people with intellectual disability. This new Interdisciplinary M.Sc. will be underpinned by research emanating from the IDS-TILDA study.

Career opportunities

This course prepares graduates to promote and develop excellence in the delivery of person-centred care for ageing people with an intellectual disability in a wide range of medical and non-medical settings.

Admission requirements

Applicants must hold an upper second-class (2.1) degree, ideally in a science or medical-related discipline. In exceptional circumstances, applicants may be able to satisfy the selection committee that they have the academic ability to successfully complete the programme despite having achieved a lower or unrelated qualification.

Candidates should be registered with their relevant professions’ regulatory body, where applicable.

All applicants whose first language is not English or who have not been educated through the English language must meet Trinity’s English language requirements.

Students will be required to undergo Garda Vetting, you can learn more at: www.tcd.ie/students/orientation/undergraduates/garda-vetting.php

Admission requirements

Applicants for the programme must satisfy the following criteria:

› Be selected at interview by the Children’s Health Ireland (CHI) committee.
› Be on at least one of the following divisions of the register as held by The Nursing and Midwifery Board of Ireland: General Nursing, Psychiatric Nursing and Intellectual Disability Nursing.
› Be on the active register as held by The Nursing and Midwifery Board of Ireland.
› Have at least six months of full-time, post-registration clinical nursing experience.
› Have relevant academic undergraduate qualifications which satisfy admission requirements.

All applicants whose first language is not English or who have not been educated through the English language must meet Trinity’s English language requirements.

Students will be required to undergo Garda Vetting, you can learn more at: www.tcd.ie/students/orientation/undergraduates/garda-vetting.php
Community Health (M.Sc./P.Grad.Dip.)

DURATION M.Sc. 1 year full-time or 2 years part-time
P.Grad.Dip./P.Grad.Cert. 1 year part-time

COURSE DIRECTOR Dr. Eimear McGlinchey

EMAIL pgt.nursing.midw@tcd.ie

CLOSING DATE 30th June 2024

The aim of this course is to enable students from across a broad spectrum of professional backgrounds to gain a grounded understanding of the core principles of public health and their application to the practice of community healthcare and to increase graduates’ employability in community health practice. The course is suitable for people who are currently either working in, or intend to work in community health and who are seeking an enhanced qualification for their career advancement.

Career opportunities

This course prepares graduates from the nursing, medicine, occupational therapy, social work, psychotherapy, chaplaincy sector to specialise in the field of dementia with dementia-specific knowledge, skills and values to promote excellence in the area of dementia care practice.

Admission requirements

Applicants will be required to hold an upper second-class (2.1) grade in a relevant degree in the applicant’s field of practice.

Students will be required to undergo Garda Vetting, you can learn more at: www.tcd.ie/students/orientation/undergraduates/garda-vetting.php

Mental Health (M.Sc.)

DURATION M.Sc. 1 year full-time or 2 years part-time
P.Grad.Dip./P.Grad.Cert. 1 year part-time

COURSE DIRECTOR Dr. John Dinsmore

EMAIL pgt.nursing.midw@tcd.ie

CLOSING DATE 30th June 2024

This course is run in partnership with the National Forensic Mental Health Service to enhance the collaboration between disciplines working with individuals with mental health issues. Our students come from a variety of professions: nursing, medicine, occupational therapy, social work, An Garda Síochána, legal, psychology, probation and prison services.

Career opportunities

As a graduate, you can expect that the specialist knowledge you acquire during this programme, combined with your existing knowledge, will prepare you for leadership or enhanced roles in advanced clinical practice, policy development, education, social work, criminal justice, or research and further education.

Admission requirements

Candidates should hold an upper second-class (2.1) honours degree in a relevant discipline, or otherwise satisfy the selection panel they have the ability to complete the course in the case of holding a lower qualification. Applicants are required to already be working in the mental health field.

In the case of the Child, Adolescent and Family strand, applicants must be working in child, adolescent and family mental health service and have a minimum of one year’s recent experience, as well as Garda clearance for working with children and adolescents.

All applicants whose first language is not English or who have not been educated through the English language must meet Trinity’s English language requirements.

Students will be required to undergo Garda Vetting, you can learn more at: www.tcd.ie/students/orientation/undergraduates/garda-vetting.php

Naime Kelly

Mental Health (M.Sc.)

I was looking for a course that would take me out of psychology counselling/psychotherapy and show me what else was happening in the broader landscape of mental health. It has been great to learn about the lecturers’ research, in particular important areas in the work of suicide and suicide prevention.
Midwifery (H.Dip.)

DURATION 18 months full-time

COURSE DIRECTORS Dr. Vivienne Brady Dr. Deirdre O’Malley

EMAIL pgt.nursing.midw@tcd.ie

CLOSING DATE 31st November 2024

Midwifery Practice and Leadership (M.Sc.)

DURATION 1 year full-time, 2 years part-time

COURSE DIRECTOR Dr. Mary Mooney

EMAIL pgt.nursing.midw@tcd.ie

CLOSING DATE 30th June 2024

The course is designed to develop midwives with the knowledge, skills and attributes necessary to become competent, analytical and reflective practitioners, enabling them to provide care that benefits women and their families. The course will consist of the following modules:

› Foundation Skills for Midwifery Practice and Sharing the Woman’s Experience;
› Health Promotion and Infant Feeding;
› Clinical Practice 1 (1-3);
› Clinical Practice 2 (4-7);
› Core Midwifery Practice and Adaptation in Pregnancy;
› Midwifery Practice: Pathophysiology and Unexpected Outcomes of Pregnancy and Childbirth;
› Midwifery Research: Evidence for Midwifery Practice.

Career opportunities

Upon successful completion of the programme, the midwifery graduates will be able to provide competent, safe midwifery care autonomously for women and their families; recognise and promote and support lifestyle choices that enhance the health and wellbeing of women, their families and the wider community.

Admission requirements

Only candidates who have attended an application interview may apply for the course. All applicants whose first language is not English or who have not been educated through the English language must meet Trinity’s English language requirements. Students will be required to undergo Garda Vetting, you can learn more at: www.tcd.ie/students/orientation/undergraduates/garda-vetting.php

The aim of this course is to strengthen the knowledge and skills of participants. The course covers the theory of practice, education, administration and research, and commences with one full study week followed by one study day per week or the equivalent throughout the academic year. There is a written assessment associated with each module of the course.

The course will provide midwives with a thorough understanding of midwifery theory, practice, education, management and research. By developing and building on subjects undertaken at degree level, graduates of this course will possess the skills necessary for advancing knowledge, initiating and encouraging innovation, and leading and developing midwifery practice.

Career opportunities

The course will provide midwives with a thorough understanding of midwifery theory, practice, education, management and research. By building on subjects undertaken at undergraduate level, this course teaches the skills necessary for advancing knowledge, initiating and encouraging innovation, and leading and developing midwifery practice.

Admission requirements

› Registration as a midwife with the Nursing and Midwifery Board of Ireland
› A minimum of one year full-time recent clinical midwifery practice or equivalent since registration as a midwife
› An honours degree in midwifery or a related discipline or equivalent professional and academic qualification

Students will be required to undergo Garda Vetting, you can learn more at: www.tcd.ie/students/orientation/undergraduates/garda-vetting.php

The programme enables registered nurses to acquire the sophisticated knowledge, skills and decision-making abilities necessary to practice in dynamic healthcare environments. It is intended that graduates of this programme will be equipped to become leaders in their respective disciplines and to enhance nursing practice through their advanced research and critical thinking skills. On completion of this course participants will be able to:

› Strengthen and develop their expertise in their area of practice through the use of enhanced knowledge, reflective skills and research-based practice.
› Devise, implement, and evaluate methods for improving the quality of nursing care and/or nurse education provided in Ireland.
› Exercise administrative and intellectual leadership in their profession and the disciplines contained within.

Career opportunities

The M.Sc. in Nursing – Child Health and Wellbeing is intended that graduates of this programme will be equipped to become leaders in their respective disciplines and to enhance nursing practice through their advanced research and critical thinking skills. On completion of this course participants will be able to:

› Strengthen and develop their expertise in their area of practice through the use of enhanced knowledge, reflective skills and research-based practice.
› Devise, implement, and evaluate methods for improving the quality of nursing care and/or nurse education provided in Ireland.
› Exercise administrative and intellectual leadership in their profession and the disciplines contained within.

Admission requirements

Applicants must hold at least an upper second-class (2.1) honours degree in nursing or a related discipline or equivalent professional and academic qualification. They must also hold current registration as a nurse with the Nursing and Midwifery Board of Ireland, or, in the case of international applicants (for theory-only learning strands), be registered as a professional nurse in their own country. All applicants whose first language is not English or who have not been educated through the English language must meet Trinity’s English language requirements. Students will be required to undergo Garda Vetting, you can learn more at: www.tcd.ie/students/orientation/undergraduates/garda-vetting.php

The aim of the M.Sc. in Nursing – Child Health and Wellbeing is to strengthen and develop the knowledge, skills, competencies and attributes of the participants, thus enabling them to fulfill their highest potential in the personal, professional and practice arena of children’s health. The course will provide advanced study in research methods, the theoretical and practical aspects of management, clinical practice and leadership and child health perspectives as well as contemporary issues in child health and wellbeing. It is anticipated that graduates of this course, in applying their learning, will be enabled to promote and develop excellence in children’s illness, child health and wellbeing in primary, secondary and tertiary health care services.

Career opportunities

This programme leads graduates towards careers in healthcare consulting, research, and specialist nursing in a childcare setting. This includes positions in advanced practice, clinical nurse specialist roles, administration, nurse consultant, nurse educator, and research nurse.

Admission requirements

Applicants must hold at least an upper second-class (2.1) honours degree in nursing or a related discipline or equivalent professional and academic qualification. They must also hold current registration as a nurse with the Nursing and Midwifery Board of Ireland, or, in the case of international applicants (for theory-only learning strands), be registered as a professional nurse in their own country. All applicants whose first language is not English or who have not been educated through the English language must meet Trinity’s English language requirements. Students will be required to undergo Garda Vetting, you can learn more at: www.tcd.ie/students/orientation/undergraduates/garda-vetting.php
Pharmaceutical Sciences (M.Sc./P.Grad.Dip.)

DURATION 1 year full-time

COURSE DIRECTOR Dr. Maria Jose Santos-Martinez
Dr. Eduardo Ruiz-Hernandez

EMAIL griffio@tcd.ie

CLOSING DATE 28th June 2024

The M.Sc. in Pharmaceutical Sciences is an integrated multidisciplinary course addressing fundamental and applied aspects of drug and drug product discovery, development, production and analysis. The programme will prepare candidates for research careers in academia and industry in pharmaceutical R&D as well as will create an awareness of issues and approaches relevant to the key pharmaceutical manufacturing sector in Ireland.

This course consists of lectures, workshops, presentations and laboratory work. Formal classes are normally held two days every week with the remaining time available to students for self-directed studies, writing tutor marked assignments, preparing laboratory reports and presentations. Students proceeding to a Master’s degree will be required to undertake a research project and present a detailed scientific report.

Career opportunities

This course will prepare candidates for careers in pharmaceutical research relevant to academic and manufacturing sectors, as well as create an awareness of issues and approaches relevant to the key pharmaceutical manufacturing sector in Ireland. Graduates have enjoyed successful careers in manufacturing, in R&D and in regulatory affairs.

Admission requirements

Applicants are sought from holders of an upper second-class (2.1) honours degrees in a relevant science disciplines, including Pharmacy, Chemistry, Analytical Chemistry, Microbiology, Biochemistry, or Pharmacology, or other appropriate programmes, such as Medicine or Veterinary. Equivalent primary and/or postgraduate qualifications are considered, particularly with relevant professional experience.

Applications will be evaluated by the Course Director in consultation with the Course Committee and Dean of Graduate Studies as appropriate.

From Graduate of Hospital Pharmacy (M.Sc.)

I have found that the Trinity Master’s in Hospital Pharmacy has provided me with an extensive education in all areas of hospital pharmacy. I feel that the course is unique in that it provides face-to-face interaction with lecturers, which worked really well for me in terms of understanding and affording the opportunity to ask questions. I particularly appreciated the confidence I gained in my daily work, as I put into practice the up-to-date knowledge base that was delivered to the highest standard from experienced lecturers. The structure of the course allows for the development of a comprehensive set of skills both academic and practical, which have definitely stood to me in my career today.

### School of Dental Science

#### Clinical Dental Technology (P.Grad.Dip.)
- **DURATION**: 18 months part-time
- **CONTACT**: Dr. Brendan Grufferty
- **EMAIL**: postgrad.admin@dental.tcd.ie
- **CLOSING DATE**: 31st July 2024

#### Conscious Sedation in Dentistry (P.Grad.Dip.)
- **DURATION**: 18 months part-time
- **CONTACT**: Dr. Mary Clarke, Dr. Alison Dougall
- **EMAIL**: postgrad.admin@dental.tcd.ie
- **CLOSING DATE**: 31st July 2024

#### Dental Surgery (D.Ch.Dent.) Special Care Dentistry
- **DURATION**: 5 years part-time
- **CONTACT**: Dr. Alison Dougall
- **EMAIL**: postgrad.admin@dental.tcd.ie
- **CLOSING DATE**: 31st July 2024

#### Dental Surgery (D.Ch.Dent.) Dental Public Health
- **DURATION**: 5 years part-time
- **CONTACT**: Associate Professor Brett Duane
- **EMAIL**: postgrad.admin@dental.tcd.ie
- **CLOSING DATE**: 31st July 2024

#### Orofacial Pain (P.Grad.Cert.)
- **DURATION**: 1 year part-time
- **CONTACT**: Dr. Michael O'Sullivan
- **EMAIL**: postgrad.admin@dental.tcd.ie
- **CLOSING DATE**: 31st July 2024

### School of Medicine

#### Addiction Recovery (M.Sc./P.Grad.Dip.)
- **DURATION**: 2 years part-time
- **CONTACT**: Professor Joe Barry
- **EMAIL**: joeberry@tcd.ie
- **CLOSING DATE**: 31st July 2024

#### Advanced Ageing and Frailty Studies (P.Grad.Cert.)
- **DURATION**: 1 year part-time
- **CONTACT**: Professor Nollaig Bourke
- **EMAIL**: romeroor@tcd.ie
- **CLOSING DATE**: 30th June 2024

#### Advanced Radiation Therapy Practice – Clinical Practice (Online) (P.Grad.Cert./P.Grad.Dip.)
- **DURATION**: 1 year part-time (online)
- **CONTACT**: Dr. Anita O’Donovan
- **EMAIL**: pgradrt@tcd.ie
- **CLOSING DATE**: 31st July 2024

#### Advanced Radiation Therapy Practice – Treatment Planning (Online) (P.Grad.Cert./P.Grad.Dip.)
- **DURATION**: 1 year part-time (online)
- **CONTACT**: Dr. Anita O’Donovan
- **EMAIL**: pgradrt@tcd.ie
- **CLOSING DATE**: 31st July 2024

#### Cancer Survivorship (M.Sc./P.Grad.Dip.)
- **DURATION**: 2 years part-time
- **CONTACT**: Associate Professor Deirdre Connolly
- **EMAIL**: mscancersurv@tcd.ie
- **CLOSING DATE**: 31st July 2024

#### Clinical Chemistry (M.Sc./P.Grad.Dip.)
- **DURATION**: 2 years part-time
- **CONTACT**: Dr. Gerard Boran
- **EMAIL**: clinchem@tcd.ie
- **CLOSING DATE**: 28th June 2024

#### Clinical Exercise (Online) (P.Grad.Dip.)
- **DURATION**: 2 years part-time (online)
- **CONTACT**: Professor John Gormley
- **EMAIL**: clinicalexercise@tcd.ie
- **CLOSING DATE**: 31st July 2024

#### Clinical Exercise (Online) (P.Grad.Cert.)
- **DURATION**: 1 year part-time (online)
- **CONTACT**: Professor John Gormley
- **EMAIL**: clinicalexercise@tcd.ie
- **CLOSING DATE**: 31st July 2024
