- Specialist Practice – Renal (P.Grad.Cert.)

**Pharmacy and Pharmaceutical Sciences**
- Hospital Pharmacy (M.Sc.)
- Pharmaceutical Manufacturing Technology (M.Sc.)
Trinity College Dublin

Ireland’s Leading University
Welcome from the Dean of Graduate Studies

Trinity College Dublin, the University of Dublin is Ireland’s leading university, ranked 98th in the world*. Our professors with whom you will work are inspiring thought-leaders in their fields. Our facilities combine the unique charisma of an age-old university campus with 21st century teaching, learning and research opportunities.

Our postgraduate students, drawn from all parts of the globe, continually inspire us with their diversity, commitment and academic contributions. Our graduates are outstanding and are held in high esteem by employers.

As global citizens they continue to create and drive our future, both nationally and internationally.

We look forward to welcoming you into this vibrant, scholarly community, where you will be challenged to fulfil your potential, both academically and personally in your postgraduate study.

Professor Martine Smith
Dean of Graduate Studies, Trinity College Dublin, the University of Dublin

* QS World University Rankings 2023.

Ireland’s top ranked university, and ranked 98th in the world
QS World University Rankings 2023
Why Choose Trinity?

WORLD CLASS EDUCATION
Trinity College Dublin, the University of Dublin is Ireland’s top ranked university, and ranked 98th in the world (QS World University Rankings 2023).

EMPLOYABILITY AND CAREERS
Ireland is a hub for international employers including Facebook, Twitter, Google, LinkedIn, Accenture, PwC and AIG to name but a few. Trinity is ranked 91st in the world for graduate employability (QS World Employability Rankings 2022) and 1st in Europe for producing Entrepreneurs for the 7th year in a row (Pitchbook Universities Report 2021).

REPUTATION FOR RESEARCH AND TEACHING EXCELLENCE
Trinity is Ireland’s leading university, recognised internationally for excellence in education and research, and most importantly, our graduates are held in high esteem by employers worldwide.

Trinity is a member of the League of European Research Universities (LERU), Europe’s leading network of research intensive universities and brings together global experts across all disciplines to offer an exceptional educational experience centred on a research-inspired curriculum.

INTERNATIONAL REACH
Trinity is ranked as the 12th most international university in the world (Times Higher Education Ranking 2022). Trinity has students and staff from 116 different nationalities on campus, making it a truly diverse and international campus.

Trinity is the 12th most international University in the world
Times Higher Education Ranking 2023

Mollie Kramer
M.Phil. International History graduate from the US

I chose to study at Trinity because of the International History programme and the amazing faculty in it. The International History department is made up of remarkable scholars and brilliant professors, who have made my time at Trinity so engaging and productive, and I’ve gained not only knowledge but perspective from interacting with them.
LOCATION
Trinity is situated in the heart of Dublin’s city centre, at the centre of the country’s transport hub, on a beautiful campus which contains a wonderful mix of modern and historic facilities, including the country’s largest research library.

SERIOUS ABOUT TACKLING SOCIETAL CHALLENGES
Trinity is recognised as one of the world’s leading research-intensive universities and our research continues to address issues of global societal and economic importance. Find out more at www.tcd.ie/research.

LEADER IN INNOVATION AND ENTREPRENEURSHIP
Trinity is Ireland’s most innovative university and first in Europe for producing Entrepreneurs for the 7th year in a row (Pitchbook Universities Report 2021).

Yu Xu
Computer Science Ph.D. graduate from China
Trinity is a world-class university with an international reputation. Computer science research at Trinity is world-leading, and benefits from Dublin being a technology hub in Europe (known as “The European Silicon Valley”).

Ranked 1st in Europe for producing Entrepreneurs for the 7th year in a row.
Pitchbook Universities Report 2021
Why Choose Trinity? (continued)

STUDENT SUPPORTS
Supports including Graduate Students’ Union, a Careers Service to support you in seeking employment and an Alumni Career Network to support you after graduation. Find out more at www.tcd.ie/careers.

DISTINGUISHED ALUMNI
Over the past four centuries Trinity graduates have played a leading role on the world stage; Nobel prize-winners and presidents of Ireland have attended Trinity or taught there.

STUDENT LIFE
Trinity offers students an unparalleled experience, with 170 sports clubs and societies. Course specific social events are also arranged for you to get to know your new classmates.

INVESTING IN NEW FACILITIES
Trinity was delighted to announce the opening of our state-of-the-art Business School in recent years and has recently announced further expansion plans including a new Law School, Student Accommodation and the E3 Learning Foundry.

E3 – Balanced Solutions for a Better World
Trinity has embarked on an ambitious project to expand education and research activities across three of our Schools; The Schools of Engineering, Natural Sciences, and Computer Science & Statistics. This expansion is being executed as a single strategic activity in the area of “Engineering, Environment, and Emerging Technologies”, or E3. www.tcd.ie/E3

At the forefront of this expansion will be the new Martin Naughton E3 Learning Foundry, a state of the art 7,256 square metre new learning facility based on the main Trinity campus. The building will deliver new teaching facilities and an innovative interactive learning space for students in E3 programmes. It will also deliver new courses in Smart and Sustainable Cities, Climate Change, Environmental Science and Engineering, and Computer Science and Geography.

Nicko de Guzman  
M.Phil. in Digital Humanities and Culture graduate from the Philippines

Trinity was easily a top choice for me when I decided to take my masters degree in Ireland. Not only did the university had very high rankings in every field of study, but what was important to me as an international student was the diversity of the student and faculty population.

Digital Humanities as a course is really accommodating for people with different backgrounds (from the engineering to the arts) to come together to learn.

Digital Humanities taught me of how the spirit of collaboration is valuable and that the actual effort of trying to arrive at an understanding between two seemingly different worlds is better than not trying at all.

Anastasija Walsh  
M.Sc. Immunotherapeutics graduate from Ireland

I chose Trinity primarily due its reputation. Trinity is Ireland’s top university and I thought it would look great on my CV and that the education would be the best out of all Irish universities. I chose my M.Sc. because of the reputation of the school of Immunology here. We have some of the best immunologists in the country including Luke O’Neill and Kingston Mills and I knew I would be in good hands.
Employability and Careers

At Trinity we work very closely with industry to ensure our programmes meet the need of employers. Ireland is home to many leading multinational and local companies across a broad range sectors. Many global technology, business, engineering and pharmaceutical companies are located in Dublin and we also have a vibrant arts and creative scene.

The Trinity Careers Service aims to help link you with companies looking to hire Trinity graduates through our careers fairs and events that we hold throughout the year.

If you are an international student, you can work part-time during your studies and, on graduation, you can apply for a stay back work permit – that’s for up to 24 months for postgraduate students.

The Careers Service can also help you to explore your career options and ambitions and help you to plan how to achieve them by:

› working with you on CV and interview preparation
› interactive employability skills workshops
› one-to-one guidance with experienced careers experts
› giving you the chance to join employability awards and leadership programmes, and
› making sure you have the right careers information and resources available to you when you need them.

Our online careers system MyCareer lets you, as a student, see what job opportunities are available and to see the many careers events on campus. We also know the labour market and can help you find the opportunities that are there for you. You can also meet and be inspired by our Trinity alumni, many of whom have gone on to do great things in their careers.

No matter what you’re studying our door is always open, so come say hello and start your career journey with us.

Trinity is ranked 91st in the world for graduate employability
QS World Employability Rankings 2022

Dublin Innovation District

Global innovation hub in the heart of Dublin city

WATCH VIDEO
STAY BACK WORK PERMIT FOR INTERNATIONAL STUDENTS

Non-EU nationals who have permission to undertake postgraduate study in Ireland are entitled to take up casual employment, defined as up to 20 hours part-time work per week or full-time work during vacation periods. In order to encourage talented, skilled graduates to pursue careers in Ireland, non-EU nationals are permitted to remain in Ireland for an additional period of 12-24 months after receipt of results of their final examinations as part of the Third Level Graduate Scheme, see www.inis.gov.ie.

Students from countries within the European Union (EU) are free to take up employment under standard EU free movement of labour regulations. However, mixing employment with study is not easy, and it is recommended that all students possess the financial resources to complete their chosen course of study.

Siddharth Sheshadri
M.Sc. Computer Science graduate from India, Data Scientist at Optum

The field of Data Science always interested me and on reading further about the brilliant faculty in the university online, I decided to pursue a masters programme here. I chose to specialize in Data Science, and feel it is one of the best decisions I ever took.
Accommodation at Trinity

Many postgraduate students find accommodation in shared houses or self-catering apartments. Houses and apartments vary in price, depending on size, facilities and location. The Students’ Union offers a useful Accommodation Advisory Service at [www.tcdsuaccommodation.org](http://www.tcdsuaccommodation.org).

A limited number of students may be housed in Trinity’s recommended accommodation close to the university. For further details see [www.tcd.ie/accommodation](http://www.tcd.ie/accommodation).

If you are seeking accommodation, the earlier you begin your search and are able to secure accommodation, the more choice you will get in each location and price range.
Tara Turner-Heaney
Professional Masters of Education graduate from Ireland

I chose to study at Trinity because of the endless possibilities that Trinity gives you, both in terms of future job opportunities and its world-renowned education. The amazing lecturers are all experts in their field and I also chose to study here because of the strong sense of community that Trinity has to offer. I also love the history of this college and am able to walk in the footsteps of many famous and inspiring alumni, such as Mary Robinson.

If I had to describe Trinity in three words they would be: friendly, supportive and renowned. Everyone who studies at Trinity is both friendly and supportive and I have made friends for life here. I would also describe Trinity as renowned as it is recognised globally and has an excellent reputation for being the best college in Ireland.

Ireland has the 3rd highest quality of life in the world
United Nations Human Development Index 2022
Student Supports

POSTGRADUATE ADVISORY SERVICE
The Postgraduate Advisory Service offers a comprehensive range of academic, pastoral, and professional supports dedicated to enhancing your student experience, see www.tcd.ie/seniortutor/students/postgraduate.

ACADEMIC REGISTRY
Academic Registry provides central academic administrative services to assist students with all queries regarding course applications/admission, fees, registration, timetables, examinations and assessments.
E: academic.registry@tcd.ie
T: +353 (0)1 896 4500

GRADUATE STUDENTS’ UNION
The Graduate Students’ Union serves to protect students’ interests and acts as a helpful meeting point. The Union organises a variety of events, receptions and trips each year, see www.tcdgsu.ie.

TRINITY HEALTH SERVICE
Trinity’s Health Service provides GP services for students. Student consultations are free of charge with modest fees for additional services. All EU students should bring with them a European Health Insurance Card issued in their country of origin.

Non-EU students are not entitled to free national health services in Ireland, and are advised to take out insurance cover for hospitalisation or to extend private health insurance before leaving their home country.

Private health insurance cover is also available in Ireland and the student health service can advise you on your options, see www.tcd.ie/study/international/arriving-in-ireland/health-insurance.

STUDENT COUNSELLING SERVICE
Student Counselling offers a confidential, professional and free of charge service. There is also a Peer Support Network which is confidential and based on student-to-student support, see www.tcd.ie/Student_Counselling.

Trinity is top 100 university in the world for 19 subjects
QS World Subject Rankings 2022
DISABILITY SERVICE
The Student Disability Service works closely with academic staff, tutors, administrators and other support services to meet the support requirements of students with any disability, see www.tcd.ie/disability.

DAY NURSERY
The day nursery caters for children aged three months to four and a half years old. There is a fee for this service, see www.tcd.ie/about/services/daynursery.

IT SERVICES
As a student at Trinity, you are provided with access to hundreds of computers located across campus, secure wifi, a Trinity gmail account and e-learning resources via the Blackboard Learn system, see www.tcd.ie/itservices/students.

LIBRARY
Trinity’s library is the largest research library in Ireland with six million printed volumes, nearly 500,000 electronic books, 80,000 electronic journals, the country’s largest collection of maps and printed music, and an extensive collection of manuscripts, see www.tcd.ie/library.

Peter James Kiernan
M.Phil. in Conflict Resolution and Reconciliation graduate from the US

Trinity exposes you to the best professors, resources, and classmates a university can offer. Studying at Trinity was an incredible opportunity and a transformational experience. I came away with lifelong friends, mentors and memories that will last a lifetime.

133,000 Trinity alumni (graduates) from over 150 countries worldwide.
Postgraduate Research at Trinity

Trinity is recognised as one of the world’s leading research-intensive universities and its research continues to address issues of global, societal and economic importance.

Trinity has research strengths that span the Arts, Humanities and Social Sciences, STEM and Health Sciences, a spectrum that is mirrored by our broad range of taught postgraduate courses and research opportunities at masters and doctorate level.

Meabh Hughes
Geology Ph.D. graduate from Ireland

Being guided by experts and colleagues, meeting and learning from accomplished researchers from other Universities, as well as from Trinity College Dublin, is an opportunity I am glad I didn’t let pass me by. The energizing academic environment is enhanced by the informal coffee mornings and lunchtime talks.
Applying for a masters by Research or Ph.D. at Trinity

As a truly international university, we welcome applications from prospective postgraduate students globally and we hope you will consider choosing Trinity for your postgraduate research.

1. Find a Potential Academic Supervisor

As Ireland’s leading university for research Trinity offers ample opportunities for postgraduate research. To find out more you should explore Trinity’s research areas and determine your subject area of interest. The next step is to make contact with academic staff in relevant fields and identify a potential supervisor. To assist you with both steps, the Trinity website is comprehensive and features all relevant information about our research activities, as well as full research profiles of our staff. Find out more at: www.tcd.ie/courses/postgraduate/postgraduate-research.

2. Make Contact with Potential Academic Supervisor

Contact potential academic supervisors with a brief research proposal or idea, demonstrating your interest and relevant experience in the research area. If an academic staff member is willing to support your application for a Ph.D. position, they will direct you to the school’s online application page. Please note that some schools at Trinity have specific guidelines for applying for a Ph.D. position. It is important to check the Schools’ webpage for any additional information at: www.tcd.ie/courses/postgraduate/postgraduate-research.

3. Submit your Application

You will need to submit your application by following the guidelines given to you by your potential supervisor. Your application will need to include a detailed research proposal, as well as transcripts, proof of English proficiency, CV and any other relevant document. Your application is then reviewed by the relevant School. The Dean of Graduate Studies conducts the final review and issues approval subsequent to meeting all criteria. All students undertaking a research degree are assigned to a single supervisor, though for some students there may also be an additional advisor.

4. Explore Funding Opportunities

Once you find an academic willing to supervise your research, they will be best placed to advise you of relevant funding opportunities through Irish and European funding agencies. Additionally, you may also:

▶ Contact scholarship awarding bodies in your home country for possible Ph.D. funding options.

▶ Trinity offers postgraduate awards which are available only to students intending to register for full-time higher research degrees (i.e. Ph.D.). More information on postgraduate funding and scholarships can be found on our website: www.tcd.ie/study/postgraduate/scholarships-funding.

▶ Contact the Regional Manager for your country for information on other opportunities. Details of these staff can be found at: www.tcd.ie/study/country

Trinity is the first and only Irish university to join the prestigious ranks of the League of European Research Universities (LERU).
Fees and How to Apply

FEES
Fee details for all courses are available at: www.tcd.ie/academicregistry/fees-and-payments.

Please note a non-refundable online application fee per course applied for is required for all taught and research courses. The application fee €55 (2020/21).

An EU application is one made by a person who fulfils one or more of the following criteria:

1. who is ordinarily resident in the EU and who has received full-time further or higher education in the EU for three of the five years immediately preceding admission; or
2. who is ordinarily resident in the EU and has worked full-time in the EU for three of the five years immediately preceding admission; or
3. who holds a passport from an EU state and has received full-time further or higher education in the EU for three of the five years immediately preceding admission.

All other applications are considered to be non-EU applications.

HOW TO APPLY
All course information and online application details are available at www.tcd.ie/courses/postgraduate.

Whether you are applying for a taught or research course you must apply for your postgraduate course using the link above. By clicking on the specific course you wish to apply for you will be directed to an application form where you will create or log in to your user account with Trinity College Dublin and submit your application and supporting documents online. In some cases there may be a requirement to complete a supplementary application form. This form may consist of additional questions or documents and once complete should be uploaded.

Once you have submitted an online application you will be sent an acknowledgement email to the email address you provided when setting up your user account through the applicant portal.

The applicant portal will allow you to send and receive communications in respect of your application to Trinity College Dublin. You will be able to track the progress of your application at every stage of the admissions process; update your personal information, view decisions made on your application(s) and accept any offers you may receive.

Before making an application please read the following carefully:

1. Choose your course at www.tcd.ie/courses/postgraduate.
2. Consider whether you meet the admission requirements
3. Consider the supporting documents you might need to upload as part of your application.

All postgraduate taught programmes offered by the university are subject to minimum enrolment requirements. Please check course websites for specific details.

Clara Lima
M.Phil. Modern Irish History graduate from Brazil

The professors and staff are always very welcoming, and I consider Trinity as my new home.
POSTGRADUATE ADMISSION REQUIREMENTS

Postgraduate work in Trinity is academically challenging and the University has high academic entry requirements.

Applicants will need to:

› hold at least a 2.1 honours degree from an Irish university or equivalent result from a university in another country.

› display a high level of competence in the English language in one of the examination systems recognised by Trinity College Dublin.

To qualify for admission to a degree course at the University you must meet the requirements outlined above.

For details of English Language Requirements please see page 24.

Full details available at: www.tcd.ie/study/apply/admission-requirements/postgraduate.

Le Dung (Jimmy) Mai
M.Sc. Environmental Sciences graduate from Vietnam

My time at Trinity certainly laid a concrete foundation for my future career in Environmental Science. During my studies, I always felt supported by the professors who were very accessible and helpful. I have also made so many new friends who are not only Irish but also from all over the world.
ENGLISH LANGUAGE REQUIREMENTS

All applicants whose first language is not English and who have not been educated through the medium of English must present one of the following qualifications in the English language:

› IELTS: Grade 6.5 overall
› TOEFL: 88 internet-based, 570 paper-based, 230 computer-based
› University of Cambridge:
   - Proficiency Certificate, Grade C or better (CEFR Level C1 or C2)
   - Advanced Certificate, Grade C or better (CEFR Level C1 or C2)
› Pearson Test of English (Academic) – PTE Academic: a minimum score of 63 to be eligible (with no section score below 59)
› Duolingo English Test: minimum overall score of 110/160, dated since January 2020

An award certificate with a minimum 2.1 overall score from Trinity’s Centre for English Language Learning and Teaching’s Pre-Master’s Pathway Programme. The Pre-Master’s Pathway Programme is an academic English course for international students with conditional offers for postgraduate study at Trinity. Passing the programme means you meet Trinity’s English language requirement and can progress to your postgraduate course without retaking IELTS or any other exam.

Note: Some programmes may require higher scores than listed above.

Full details available at: www.tcd.ie/study/apply/admission-requirements/postgraduate.

29% of Trinity students are from outside Ireland and from 116 countries.

Xue Jie
M.Phil. Irish Writing graduate from China

I chose Trinity because I’m well aware that it’s the oldest and highest ranked university in Ireland. As a home to students from more than 100 countries, Trinity is very inclusive and international. Here I believe I can enjoy the free exchange of ideas and experience the unique Irish culture.
VISA REQUIREMENTS
If you are a citizen of the European Union (EU), you do not need a visa to enter and live in Ireland. Some, but not all, non-EU/EEA students require an entry visa for Ireland. We advise students to apply for their visa early. To check if you need a visa, please visit the INIS webpage below: www.inis.gov.ie/en/INIS/pages/check-irish-visa.

It is important to note that all non-EU students, whether visa-required or not, must register with the Irish Naturalisation and Immigration Service (INIS) for permission to remain in the state. Students must show their offer letter at airport immigration where they will receive a temporary stamp in their passport. They must register with the INIS within the time limit specified on their temporary stamp.

Visa-required non-EU students should contact their nearest Irish Embassy or Consulate for information on visa requirements. Visas can take up to 8-10 weeks to process, so please allow sufficient time.

You should apply as early as possible, especially if an Irish visa is required. For further information: www.tcd.ie/study/international/before-arrival/visaimmigrations.

All non-EU fee paying students must pay their full tuition fees prior to registration.

Trinity College Dublin, the University of Dublin is an international university attracting faculty, students and staff from 116 countries.

Ana Musalem
M.Sc. Management graduate from Mexico

My experience in Trinity College Dublin has been as rewarding as it has been challenging. The lecturers are very engaging and the material covered in class is highly applicable to real work environments.

Yi-Ying Chou
Mental Health Nursing graduate from Taiwan

Trinity College Dublin and is recognised internationally as Ireland’s leading university. I found my course to be academically challenging and very rewarding. Studying at Trinity can provide a great opportunity to further increase your working opportunities in Ireland and abroad. In addition, my professors were compassionate and caring and committed to ensuring that all international students can have a wonderful learning experience.
FULL-TIME Masters and Postgraduate Diploma Programmes
## Business Analytics (M.Sc.)

**DURATION**  
1 year full-time

**COURSE DIRECTOR**  
Dr. Ashish Kumar Jha

**EMAIL**  
business.masters@tcd.ie

**CLOSING DATE**  
31st July 2023

Our M.Sc. in Business Analytics is ideal for students with a quantitative background. It will equip graduates with the skills and knowledge to launch a career in this fast-expanding field. You gain critical thinking skills and develop expertise to analyse and organise business data and derive actionable insights from them. In an increasingly digital world, organisations now need evidence-based reports to inform decisions and organise the vast amounts of data from multiple sources.

This part technical course will focus on the application of modern operational research and management science techniques to solve business problems and support management decisions. Students will be introduced to various analytic frameworks like CRISP-DM and gather an understanding of the rising global legislation in the area of data management. In the final term students can choose to complete an industry project to gain real business experience or pursue a dissertation on a topic of their choosing.

Our dedicated career development team will help you identify your ideal career path and provide tailored advice on how best to achieve your goals.

We advise students to apply for this programme as early as possible as admission to the course is very competitive. The programme is subject to early closure as a result.

## Digital Marketing Strategy (M.Sc.)

**DURATION**  
1 year full-time

**COURSE DIRECTOR**  
Professor Laurent Muzellec

**EMAIL**  
business.masters@tcd.ie

**CLOSING DATE**  
31st July 2023

The M.Sc. in Digital Marketing Strategy is designed to provide you with the knowledge and tools required to become a highly skilled digital marketing strategist. You will learn about digital design, the user experience and how to plan and implement digital strategies. We focus on how different companies do business in a digital world, coupled with a strong industry and partnership approach. A variety of leading digital companies are represented by expert guest speakers and faculty, including multinational companies such as Google, Facebook, Twitter, HubSpot and Microsoft. Learn how to master specific platforms such as Google Ads, Analytics, Facebook Insights and HubSpot tools.

This M.Sc. course is 90 credits delivered over one academic year. The taught component comprises modules totalling 60 credits. Students also complete a substantial research project, which accounts for a further 30 credits, to be eligible for consideration for the award of the degree.

Our dedicated career development team will help you identify your ideal career path and provide tailored advice on how best to achieve your goals.

We advise students to apply for this programme as early as possible as admission to the course is very competitive. The programme is subject to early closure as a result.
Entrepreneurship (M.Sc.)

DURATION 1 year full-time

COURSE DIRECTOR Professor Giulio Buciuni

EMAIL business.masters@tcd.ie

CLOSING DATE 31st July 2023

This programme is specifically designed for those with an entrepreneurial mindset, providing students with the specialist knowledge and practical ability to start a new venture, finance start-ups, support new enterprise or scale and grow existing businesses. You will have access to Trinity’s entrepreneurship programmes including LaunchBox, Blackstone Launchpad and the Trinity Entrepreneurial Society. Learn how to launch a company, scale SME’s and lead growth. There is also a unique focus on ethical behaviour and the well-being of the entrepreneur amidst the stressful nature of new enterprise development.

Trinity is 1st in Europe for producing entrepreneurs for the 6th year in a row. (PitchBook Universities Report 2020)

This M.Sc. course is delivered over one academic year. The taught component comprises taught modules and a substantial research project, or business plan, to be eligible for consideration for the award of the degree.

Business Plan/Company Project Your research project is the culmination of your degree, allowing you to demonstrate and apply the techniques and knowledge acquired from the taught modules to a business plan or problem of managerial concern.

Our dedicated career development team will help you identify your ideal career path and provide tailored advice on how best to achieve your goals.

Finance (M.Sc.)

DURATION 1 year full-time

COURSE DIRECTOR Dr. Samuel Vigne

EMAIL business.masters@tcd.ie

CLOSING DATE 31st July 2023

This highly ranked programme is designed for students who want to develop the analytical and technical skills required to succeed in modern finance. Delivered by expert faculty and leading finance practitioners, you will receive the highest analytical and practical training possible through Bloomberg training, finance simulations and real-life case studies. Graduates gain the skills required for a career in financial services, investment banking, fund management and insurance firms. Trinity Business School is partnered with the Chartered Alternative Investment Analyst Association and affiliated to the Chartered Financial Analyst Institute – both of whom have recognised the academic rigour and industry-relevant skills taught in this programme. The M.Sc. in Finance is ranked 5th across Ireland and UK in the prestigious Financial Times ranking 2020.

This M.Sc. course delivered over one academic year. The taught component comprises taught modules and a substantial research project, to be eligible for consideration for the award of the degree.

Our dedicated career development team will help you identify your ideal career path and provide tailored advice on how best to achieve your goals.

We advise students to apply for this programme as early as possible as admission to the course will be very competitive. The programme is subject to early closure as a result.
Financial Risk Management (M.Sc.)

DURATION 1 year full-time

COURSE DIRECTOR Dr. Ranadeva Jayasekera

EMAIL business.masters@tcd.ie

CLOSING DATE 31st July 2023

This programme is designed for students with a quantitative background who want to explore how financial tools can be used to mitigate risk for corporations and society. Industry professionals, practitioners and consultants from around the world will teach you how to forecast, react to and minimise risk.

We deliver a comprehensive understanding of the core pillars of risk management; credit risk, market risk and operations risk to ensure you have the theoretical foundation for success. You will learn how to explore the key financial tools that are used to mitigate risk, how to interpret and assess the risk of individual financial instruments and assets and how to develop the critical skills to assess the results. This programme is partnered with PRMIA and GARP maximising your career potential in the field of risk management. You will gain practical skills through Bloomberg training and real-life case studies to give you an edge in the competitive job market.

This M.Sc. course is delivered over one academic year. The taught component comprises taught modules and a substantial research project to be eligible for consideration for the award of the degree.

Our dedicated career development team will help you identify your ideal career path and provide tailored advice on how best to achieve your goals.

Human Resource Management (M.Sc.)

DURATION 1 year full-time

COURSE DIRECTOR Professor Na Fu

EMAIL business.masters@tcd.ie

CLOSING DATE 31st July 2023

Designed for students from all disciplines, this programme has been fully accredited by CIPD, HR Certification Institute, and is fully aligned with the Society for Human Resource Management. You will gain the specialist knowledge and practice-based ability that are vital in the world of human resources and business performance.

The programme is research-led, evidence-based and practice-driven. Senior practitioners from industry teach on the programme to offer you a strong combination between research and practice. You will also go beyond the classroom and learn in real organisations via the Human Resource Management in Practice module. Focusing on key themes such as organisational business strategy, innovation and growth, strategic decision making and diversity and inclusion management, you will develop your professional skills including communication, negotiation and ethics.

We advise students to apply for this programme as early as possible as admission to the course will be very competitive. The programme is subject to early closure as a result.
International Management (M.Sc.)

**DURATION** 1 year full-time

**COURSE DIRECTOR** Paul Ryan

**EMAIL** business.masters@tcd.ie

**CLOSING DATE** 31st July 2023

This programme is specifically designed for business graduates who wish to pursue an international career or work in organisations that target global markets. The intensive programme equips you with the knowledge and the practical skills to operate within the global business environment and the cultural acumen to communicate and negotiate in different cultures and markets.

Develop a global network of friends within the highly diverse class and experience business in a different culture via the International Residency Week. Currently the class travel to Hong Kong or the alternative international week in Spain. We deliver highly interactive lessons with opportunities to develop presentation skills, deal with real-life case studies and work in group assignments. Students are encouraged to select the trip that is most culturally different from their own background.

This M.Sc. course is 90 credits delivered over one academic year. The taught component comprises modules totalling 60 credits. Students also complete a substantial research project, which accounts for a further 30 credits, to be eligible for consideration for the award of the degree.

We advise students to apply for this programme as early as possible as admission to the course will be very competitive. The programme is subject to early closure as a result.

Management (M.Sc.)

**DURATION** 1 year full-time

**COURSE DIRECTOR** Dr. Louis Brennan

**EMAIL** business.masters@tcd.ie

**CLOSING DATE** 31st July 2023

This programme is designed for non-business graduates who want to gain the business acumen, management knowledge and skills necessary to succeed in today’s increasingly digitized and globally connected business environment. This conversion programme offers a wide and diverse range of subjects and upon successful completion of the programme, graduates should be well positioned to gain employment within any organisational or business context.

Delivered through a mix of interactive discussion, expert industry speakers and case studies, you will learn to critically analyse real strategic business issues, manage conflict and your personal leadership style. You will also learn from a diverse class of students from different locations and academic backgrounds, including arts, law, science, engineering and medicine.

This M.Sc. course is 90 credits delivered over one academic year. The taught component comprises modules totalling 60 credits. Students also complete a substantial research project, which accounts for a further 30 credits, to be eligible for consideration for the award of the degree.

Our dedicated career development team will help you identify your ideal career path and provide tailored advice on how best to achieve your goals.

We advise students to apply for this programme as early as possible as admission to the course will be very competitive. The programme is subject to early closure as a result.
Marketing (M.Sc.)

DURATION 1 year full-time
COURSE DIRECTOR Dr. Sarah Browne
EMAIL business.masters@tcd.ie
CLOSING DATE 31st July 2023

This course is designed to equip you with the relevant skills required for a successful career in Marketing. With a blend of traditional and contemporary thinking, we ensure that our students understand the fundamental building blocks of ‘how to market’ in the 21st century and the modern technologies that connect businesses to their consumers today.

Analytical and practice-based training is delivered by expert faculty and executives from top multinationals, with a focus on providing corporate connections to the marketing and digital marketing industries. This programme focuses on marketing strategy, branding, advertising, consumer behaviour and the digital marketing communication skills required for graduates to excel in their choice of specialised marketing career.

This course is 90 credits delivered over one academic year. The taught component comprises modules totalling 60 credits. Students also complete a substantial research project, which accounts for a further 30 credits, to be eligible for consideration for the award of the degree.

Our dedicated career development team will help you identify your ideal career path and provide tailored advice on how best to achieve your goals.

We advise students to apply for this programme as early as possible as admission to the course will be very competitive. The programme is subject to early closure as a result.

Master in Business Administration (M.B.A.)

DURATION 2 years part-time
COURSE DIRECTORS John Dong, Radu Dimitriu, Eimear Nolan
EMAIL thetrinitymba@tcd.ie
CLOSING DATE 30th July 2023

The Trinity MBA is an intensive project-based programme designed to create unique and global leaders. Whether you want to accelerate your current career path or transition to a new industry, you will gain the knowledge, skills and network to achieve your goals. Our global community of students learn cutting edge real-world management techniques from both leading researchers and high-performance business executives.

On top of a full suite of core business modules are three company projects. This is where The Trinity MBA breaks away from the traditional approach with a focus on ‘Live Action Learning’ – getting you inside real companies with real issues. Working in groups, you will conduct problem analysis, create strategies and deliver solutions direct to the senior stakeholders of each company.

Admission requirements
Enquiries and applications are made directly with Trinity Business School and successful candidates usually have 5+ years’ work experience. We take a holistic approach to assessing applications. Along with your professional experience and academic credentials, we want to learn more about you and your goals. If you wish to get feedback on eligibility please email: thetrinitymba@tcd.ie

We advise students to apply for this programme as early as possible as admission to the course will be very competitive. The programme is subject to early closure as a result.

Please click ‘Module Details’ for a full list of admission requirements available.
Supply chains exist for every product and service that we consume, directly or indirectly. This programme allows students to develop a strategic and analytical perspective of global, interconnected supply chains and their increasing complexity.

Ideal for students with strong analytical skills or background, this programme equips graduates with the tools and expertise to manage supply chain processes and their connected operations in a global and increasingly digitalised marketplace. Monitoring risk, leveraging innovation and managing collaboration are some of the core themes embedded in this programme.

This M.Sc. course is 90 credits delivered over one academic year. The taught component comprises modules totalling 60 credits. Students also complete a substantial research project, which accounts for a further 30 credits, to be eligible for consideration for the award of the degree.

Our dedicated career development team will help you identify your ideal career path and provide tailored advice on how best to achieve your goals.

We advise students to apply for this programme as early as possible as admission to the course will be very competitive. The programme is subject to early closure as a result.

Designed for non-accounting graduates. This 8-month conversion programme fast-tracks students towards professional accountancy. It focuses on the fundamentals of financial accounting, management accounting, corporate finance, audit, taxation and related areas. On completion of 12 modules, graduates gain significant exemptions from the examinations of professional accountancy bodies.

Expert faculty and practitioners combine to deliver modules, grounded in the academia-practice link that underpins the entire programme. The programme is fully accredited by ACCA, Chartered Accountants Ireland, CIMA, CPA and Irish Tax Institute.

Our dedicated career development team will help you identify your ideal career path and provide tailored advice on how best to achieve your goals.
### Film Studies (M.Phil.)

**DURATION**  
1 year full-time/2 years part-time

**COURSE DIRECTOR**  
Professor Paula Quigley

**EMAIL**  
pquigley@tcd.ie

**CLOSING DATE**  
22nd July 2023

The M.Phil. in Film Studies at Trinity offers two interesting ways to pursue further analysis of film and the film industry at university:

- The Theory, History, Practice strand is a unique opportunity to embark upon a detailed investigation into the intellectual currents and aesthetic concerns surrounding the study of film and digital media.

- The Screenwriting strand offers the opportunity to focus on writing for different screens in a critically informed and creative context.

M.Phil. in Film Studies provides a unique opportunity to embark upon a detailed investigation into the intellectual currents and aesthetic concerns surrounding the study of film and digital media.

The Screenwriting strand allows students to develop the skills required to write successfully for a range of different screens in a critically informed and creative context.

**Admission requirements**
Candidates should have a good honours 1st class or 2.1 B.A. degree (minimum “B”, average 3.2 or above for North American students) or equivalent qualification with a minimum IELTS score of 6.5 with no individual band below 6. Applicants to the Theory, History, Practice strand must include a sample of their academic writing (approximately 1500 words) in film studies or a related area as part of their application. Applicants to the Screenwriting strand must include a 5-10 page sample of their creative writing as part of their application.

Please click ‘Module Details’ for a full list of admission requirements available.

### Playwriting (M.F.A.)

**DURATION**  
1 year full-time/2 years part-time

**COURSE DIRECTOR**  
Professor Brian Singleton

**EMAIL**  
bsngleton@tcd.ie

**CLOSING DATE**  
31st July 2023

This course is designed to equip students of exceptional talent with the skills necessary to pursue a career in theatre and related industries through the development of skills, professional practices and creative approaches to writing for performance.

Through a series of skills-based writing workshops and tutorials with professional playwrights, directors and a dramaturge the individual voice of the student writer will be nurtured and developed. Classes in dramaturgy and contemporary theatre practice will supplement the training.

The course will culminate in the writing of a full-length play for the stage. Students on the course will work in a dedicated space for writers in The Lir building. In addition to the core classes and workshops, individual tuition from The Lir’s dramaturge will be a key feature of the training. In addition, master classes by visiting practitioners will supplement the student experience.

Core Modules include: Contemporary Theatre Practice, Dramaturgy, Writing Workshop and individual supervision and showcase staged reading of a student’s full-length play.

**Admission requirements**
Please note that all applicants must include a financial plan in their personal statement which indicates clearly how they intend to finance themselves if successful in gaining a place on this course.

Please click ‘Module Details’ for a full list of admission requirements available.

The Stage Design programme is purposely designed to allow students to either specialise on one area of stage design (set, costume or lighting design) or to combine disciplines as desired (set and costume design for example, or set and lighting design).

Students will take three concurrent modules in the first two terms. The final module (Production Design) will be taught in the third term and subsequent summer months and will culminate with a professional production staged in one of The Lir’s performance studios. Term Three will be supplemented by an ongoing series of master classes from professional directors and theatre makers. Students on the Master in Fine Art Stage Design will take two compulsory modules and choose two of four elective modules.

**Admission requirements**

Candidates should have a good honours degree of upper second class or above, or equivalent qualification in a cognate area. A portfolio of recent work is also an essential part of the application process. Proven natural ability and prior experience as demonstrated at interview will also be considered.

Please note that all applicants must include a financial plan in their personal statement which indicates clearly how they intend to finance themselves if successful in gaining a place on this course.

The Master in Fine Art Theatre Directing programme is the first entirely practiced-based masters programme of its kind in Ireland. It was introduced following extensive consultation with the Irish theatre community and is a direct response to the needs of the industry and of talented emerging artists.

Students will take three concurrent modules in the first two terms. The final module will be taught in the third term and subsequent summer months and will culminate with a professional production staged in one of The Lir’s performance studios.

Students on the Master in Fine Art Theatre Directing will take four compulsory modules, Contemporary Theatre Practice, Directing Workshop, Theatre Production and Dramaturgy for Theatre Directing.

**Admission requirements**

Candidates should have a good honours degree of upper second class or above, or equivalent qualification in a cognate area. A portfolio of work including a critical assessment of recently directed work is an essential part of the application process. Proven natural ability and prior experience as demonstrated at interview will also be considered.

Please note that all applicants must include a financial plan in their personal statement which indicates clearly how they intend to finance themselves if successful in gaining a place on this course.

*Please click 'Module Details' for a full list of admission requirements available.*
Theatre and Performance (M.Phil.)

**DURATION**
1 year full-time/2 years part-time

**COURSE DIRECTOR**
Dr. Nicholas Johnson

**EMAIL**
johnson@tcd.ie

**CLOSING DATE**
31st July 2023

This taught masters offers a dynamic fusion of theory and practice to nurture the development of future practitioners, researchers, innovators, and leaders of theatre and performance. It is designed to strengthen students’ analytic, critical, and practical approaches, with teaching occurring across lectures, small-group seminars/tutorials, and studio-based formats, as well as through one-on-one supervision of placements and independent projects.

Situated in the heart of Dublin’s lively theatre scene (but stretching far beyond it), the course features numerous outbound opportunities to connect with contemporary international theatre practitioners (at the Dublin Theatre Festival, Dublin Fringe Festival, and the Brussels Kunstenaars), to engage directly with working members of the Irish theatre community (via the Abbey Theatre, numerous alumni-run companies, and the Arts Council), and to develop deeper connections tailored to students’ specific interests within the field.

Students will be taught by staff with international reputations in scholarship and performance, who have produced ground-breaking books and editions, award-winning productions, and innovations in teaching theatre.

**Admission requirements**
Candidates should have a good honours 1st class or 2.1 B.A. degree (minimum “B”, average 3.0 or above for North American students) or equivalent qualification with a minimum

IELTS score of 6.5 with no individual band below 6. Applicants will be asked to submit writing samples and to interview before admission.

*Please click ‘Module Details’ for a full list of admission requirements available.*

Andrew Slade

Master in Education graduate from the US and Elementary Teacher

When it came time to select a graduate school, Trinity’s M.Ed. (Drama in Education) programme came highly recommended, and it did not disappoint. Throughout the programme, we were able to learn from and work with leading experts in the field, collaborate with fellow students on projects and assignments, and develop lessons and activities that could be used in our classrooms. I was provided with a very supportive tutor, who guided me through my thesis and answered any questions I had.

As a classroom teacher, I use the knowledge and skills I acquired through the program on a daily basis. This Masters program provides teachers with many practical ideas and lessons, which can be immediately implemented in the classroom.
The programme is suitable for educational professionals, including teachers, and for individuals in related fields. Graduates in fields such as history, Nursing – Child Health and Wellbeing, psychology, administration, language, mathematics or science who wish to relate their particular fields of competence to the practice of education, will also be considered.

M.Ed. students register on one of the twelve strands of the programme, which are:

- Drama in Education
- Early Intervention
- Critical Perspective on Education
- Higher Education
- Language Education
- Leadership and Policy in Education
- Mathematics Education
- Music in Education
- Positive Behaviour Management
- Science Education
- Diversity and Inclusion
- Psychology of Education

Please note, not all specialisms may run in a given academic year and are subject to minimum student numbers.

**Admission requirements**

Applicants are normally expected to hold a good honours degree (2.1) and have at least two years' experience in the field of education (or similar). In order to complete the application, the applicant will require electronic copies of their undergraduate degree transcripts, the email addresses of two academic referees, and an up-to-date CV.

Please click ‘Module Details’ for a full list of admission requirements available.
**School of English**

### Children’s Literature (M.Phil.)

- **DURATION**: 1 year full-time/2 years part-time
- **COURSE DIRECTORS**: Dr. Pádraic Whyte, Dr. Jane Carroll
- **EMAIL**: whytepa@tcd.ie
- **CLOSING DATE**: 31st March 2023

**Module Details**

This postgraduate degree programme offers an exciting opportunity to study a wide range of children’s literature—a broad category that encompasses everything from picture books through to Young Adult fiction. This course addresses chronologies, genres, modes of criticism, readerships, publishing trends and the full apparatus of literary investigation, while exploring the unique power dynamics that arise from adult authors creating texts for younger readers.

Students of different nationalities and from diverse backgrounds and disciplines have successfully completed the programme.

Many graduates have careers in areas such as editing, publishing, arts management, journalism, curation, teaching, librarianship, and academia. Over the years, students have worked with leading academics in the field, attended guest lectures by local and international scholars and authors, applied for funding opportunities to research archives at Yale University and at Trinity, collaborated with Children’s Books Ireland on their ‘Bold Girls’ initiative, curated an exhibition in Trinity Library’s Long Room (see Story Spinners: Irish Women and Children’s Books), created podcasts with International Literature Festival Dublin, and immersed themselves in the vibrant children’s literature community at the School of English.

**Admission requirements**

Applicants should have a good honours degree (at least an upper second or a GPA of at least 3.3). A sample of the candidate’s own critical writing (3,000-5,000 words) is also required.

*Please click ‘Module Details’ for a full list of admission requirements available.*

### Creative Writing (M.Phil.)

- **DURATION**: 1 year full-time
- **COURSE DIRECTOR**: Professor Eoin McNamee
- **EMAIL**: emcname@tcd.ie
- **CLOSING DATE**: 31st March 2023

**Module Details**

The M.Phil. in Creative Writing is based in the Trinity Oscar Wilde Centre for Irish Writing, 21 Westland Row, the birthplace of Oscar Wilde. Our faculty includes some of Ireland’s leading contemporary writers, including Eoin McNamee, Deirdre Madden and Kevin Power, Harry Clifton and Carlo Gébler. Each year the Centre also plays host to visiting Writer Fellows, who in recent years have included Claire Keegan and Colette Bryce. Distinguished alumni of the programme include Chris Binchy and Sean O’Reilly. Nicole Flattery and Lisa Harding have emerged as exciting new talents in the past few years.

This course is intended for students who are seriously committed to writing, are practising, or are prospective authors, and who wish to develop their writing within the framework of a university course and in the context of an Irish literary milieu.

**Admission requirements**

Applicants are expected to hold a university degree or equivalent qualification (at least an upper second or equivalent, GPA of at least 3.3). In addition, applicants must submit a portfolio of selected recent creative work. The portfolio of sample work should include no more than 3000 words of prose (short stories, excerpt/s from a novel or drama) or six to eight poems; genres may be combined but this is not a requirement.

*Please click ‘Module Details’ for a full list of admission requirements available.*
Irish Writing (M.Phil.)

DURATION 1 year full-time/2 years part-time

COURSE DIRECTORS Dr. Sam Slote, Dr. Julie Bates

EMAIL slotes@tcd.ie

CLOSING DATE 31st March 2023

WATCH COURSE VIDEO MODULE DETAILS

This course offers an exploration of Irish writing in English from the late seventeenth century to the present. Trinity has educated many important writers, from Jonathan Swift to Samuel Beckett to Eavan Boland to Anne Enright. It has also long led the way in the teaching and researching of Ireland’s literature. Amid a diverse and dynamic community of students and scholars, this course will allow you to gain a thorough grounding in the field of Irish writing, from canonical figures such as Maria Edgeworth and James Joyce to contemporary critical debates around gender, sexuality, class and race.

The centrepiece of the course is the core ‘Perspectives in Irish Writing’ module. Running across two semesters, it introduces students to the multiple contexts in which Irish writing in English has developed from the late seventeenth century through to the present. It also considers the literary history and reception of Irish writing, covering the main critical narratives and debates, as well as revisions of the Irish literary field as regards questions of gender, sexuality, class and race.

Admission requirements
Applicants should have an honours bachelor degree (at least of upper-second class standard or GPA of 3.3) or equivalent qualification in a relevant subject (such as English, History, Art History, Irish Studies, Modern Languages).

Please click ‘Module Details’ for a full list of admission requirements available.

Modern and Contemporary Literary Studies (M.Phil.)

DURATION 1 year full-time/2 years part-time

COURSE DIRECTORS Dr. Clare Clarke, Professor Darryl Jones

EMAIL drjones@tcd.ie

CLOSING DATE 31st March 2023

WATCH COURSE VIDEO MODULE DETAILS

The study of literature is never just one thing. Modern literary culture is diverse, exciting, complex and rich.

The course offers graduates in English and related disciplines (such as History, Art History and Modern Languages) the opportunity to explore over two centuries of anglophone writing and literary history. You will be introduced to key texts, authors and ideas from the nineteenth century through to the contemporary moment. You will shape your own distinct programme of study through a variety of option modules. You will also undertake a substantial piece of independent research in the form of a dissertation.

At Trinity you will join a supportive and dynamic community of students, scholars, and writers in a world-leading English department right at the heart of one of the world’s great literary cities. You will also have access to the outstanding library and archival collections of our world-famous copyright library, which could form the basis for your own fundamental research.

Admission requirements
Applicants should have an honours bachelor degree (at least of upper-second class standard or GPA of 3.3) or equivalent qualification in a relevant subject (such as English, History, Art History, Irish Studies, Modern Languages).

Please click ‘Module Details’ for a full list of admission requirements available.
Classics (M.Phil.)

DURATION
1 year full-time (EU and non-EU students), 2 years part-time (EU/UK/EEA students only)

COURSE DIRECTOR
Dr. Shane Wallace

EMAIL
swallace@tcd.ie

CLOSING DATE
30th June 2023

The M.Phil. in Classics is designed both for those who are already fully trained in the classical languages and for those who have completed non-language based degrees. The course provides students with an excellent grounding in postgraduate research skills in Classics. It also hones the sort of analytical, written, and verbal communication skills that are highly valued and effective in careers outside the university and education sectors. This course has attracted students from all over the world and many have gone on to do doctoral studies in Trinity and in other universities internationally. Students choose four elective modules (or two if they take beginners’ Greek or Latin), which likewise allow them to build specific skills and to follow their individual interests.

Admission requirements
Applicants should normally have at least an upper second class (2.1) honours bachelor degree or equivalent (for example, GPA of 3.3) in a relevant area. Knowledge of Greek or Latin is not required, but students hoping later to pursue a research degree in fields where the written record provides our main sources will be strongly encouraged to acquire language skills in the course. Since places on the course are limited, applicants may be interviewed or asked to submit a writing sample for assessment. Offers will be made on a rolling basis.

Please click ‘Module Details’ for a full list of admission requirements available.

Early Modern History (M.Phil.)

DURATION
1 year full-time (EU and non-EU students), 2 years part-time (EU/UK/EEA students only)

COURSE DIRECTOR
Dr. Joseph Clarke

EMAIL
clarkej1@tcd.ie

CLOSING DATE
30th June 2023

The M.Phil. in Early Modern History offers well-qualified graduates in History, the Humanities and the Social Sciences an introduction to research in the political, social, cultural and religious history of Ireland, Britain and Europe across the early modern period. This one-year course (or two years part-time) is designed to introduce students to a wide range of issues in, and approaches to, early modern history. It also provides students with training in research methods and skills. The course is built around Trinity College Library’s unparalleled resources for the period from the Reformation to the French Revolution. The course may also serve as an introduction to graduate study for students intending to pursue doctoral studies.

The core module for this course is From Reform to Revolution: Cultural Change and Political Conflict in Early Modern Europe. Students also choose two major of study, one in each term. Students complete a dissertation based on their own primary research.

Admission requirements
Applicants should normally have at least an upper second class (2.1) honours bachelor degree or equivalent (for example, GPA of 3.3) in history or a related discipline. Since places on the course are limited, applicants may be interviewed or asked to submit a writing sample for assessment. Offers will be made on a rolling basis.

Please click ‘Module Details’ for a full list of admission requirements available.
Environmental History (M.Phil.)

DURATION 1 year full-time
COURSE DIRECTOR Professor Dr. Katja Bruisch
EMAIL bruischk@tcd.ie
CLOSING DATE 30th June 2023

The M.Phil. in Environmental History offers an advanced qualification to graduates in History, Political Science, History of Ideas, Cultural Studies or similar. This course gives students a firm understanding of the interplay of, and feedbacks between, nature and culture over time. This programme has a strong methodological focus, including training in digital humanities technologies, mixed (quantitative-qualitative) methods and innovative assessment design, supplemented by an optional self-financed field trip to Iceland.

This course trains students in methods and themes that are directly relevant to the professional workplace at a time when there is an increasing awareness of the need to include the competencies and insights of the humanities in understanding and addressing environmental issues, not least climate change. Training in critical thinking and mixed methods research skills will open up students’ career perspectives in the public sector, media, private consultancies and NGOs, as well as being an excellent entry point for doctoral studies.

Admission requirements
Relevant preparatory courses include NFQ level 8-degree courses in the Humanities (History, Political Science, History of Ideas, Cultural Studies or similar) and the Natural Sciences (Environmental Sciences, Geography, Ecology, Biology or similar). Applicants should normally have at least an upper second class (2.1) honours bachelor degree or equivalent (for example, GPA of 3.3) in a relevant discipline or specialisation.

Please click 'Module Details' for a full list of admission requirements available.

Gender and Women’s Studies (M.Phil.)

DURATION 1 year full-time
(CLOSED TO EU and non-EU students), 2 years part-time (EU/UK/EEA students only)
COURSE DIRECTOR Dr. Catherine Lawless
EMAIL postgradhishum@tcd.ie
CLOSING DATE 30th June 2023

The M.Phil. in Gender and Women’s Studies provides a critical understanding of the current scholarship on the position and representation of gender in society. Drawing on insights and perspectives from a number of academic fields within the Humanities and Social Sciences, the course is both interdisciplinary and multidisciplinary, training students to research across a range of disciplines. Its students acquire a deep understanding of the cultural contexts in which theories of gender are produced, performed and negotiated and an ability to use primary source material as well as critical theories and scholarship. The course also hones the sort of analytical, written, and verbal communication skills that are highly valued and effective in a many different careers.

All students take the core modules Gender Theories, and Approaches and Methods to Gender Research, which provide a grounding in key approaches and skills. Students choose further modules from a wide range of electives.

Admission requirements
Applicants should normally have at least an upper second class (2.1) honours bachelor degree or equivalent (for example, GPA of 3.3) in a relevant area. Since places on the course are limited, applicants may be interviewed or asked to submit a writing sample for assessment. Offers will be made on a rolling basis. Should places remain unfilled, later applications may be considered.

Please click 'Module Details' for a full list of admission requirements available.
History of Art and Architecture (M.Phil./P.Grad.Dip.)

DURATION
1 year full-time (EU and non-EU students),

COURSE DIRECTOR
Dr. Anna McSweeney

EMAIL
arthist@tcd.ie

CLOSING DATE
23rd July 2023

WATCH COURSE VIDEO
MODULE DETAILS

The M.Phil. in History of Art and Architecture (1 year full-time or 2 years part-time) offers well-qualified graduates an opportunity to undertake advanced study in the history of art and architecture in Ireland. Students choose four elective modules that offer detailed engagement with periods and media. Students can choose to follow an Irish art strand throughout their M.Phil. or to pick more widely from the diverse selection of modules available. A central element of the course is a taught module in research methods that explores the principal sources and methodologies applicable to advanced study in the history of art. Students undertake a substantial research dissertation of 15,000-20,000 words on a selected subject under the supervision of a member of staff.

The M.Phil. provides a strong foundation in art-historical skills, methodologies and approaches for those considering doctoral research or careers working in museums, galleries, and cultural institutions, as well as careers in education, media and heritage. For those already working in these sectors the course will enrich knowledge and skills, stimulate lateral thinking, and act as a spur to innovation.

Admission requirements
Applicants should normally have at least an upper second class (2:1) honours bachelor’s degree or equivalent (for example, GPA of 3.3) in a relevant area. An undergraduate degree in art history is preferable but not essential. Since places on the course are limited, applicants may be interviewed or asked to submit a writing sample for assessment. In your application, we are interested to hear about why you want to study for this degree in Ireland, so read the course details carefully and reflect this in your submission. Offers will be made on a rolling basis. Should places remain unfilled, later applications may be considered.

International History (M.Phil.)

DURATION
1 year full-time (EU and non-EU students),
2 years part-time (EU/UK/EEA students only)

COURSE DIRECTOR
Dr. Molly Pucci

EMAIL
puccim@tcd.ie

CLOSING DATE
30th June 2023

WATCH COURSE VIDEO
MODULE DETAILS

The M.Phil. in International History offers students the chance to pursue historical research outside the boundaries of the nation state. Students will be trained in transnational, comparative, and international approaches to history and have the opportunity to study foreign languages, cultures, and societies. Possible topics of focus include the movement of culture, people, and ideas across national boundaries and issues such as imperialism, globalisation, social movements, and the roots of international war and conflict.

Throughout the course, students will be encouraged to reflect on the historical roots of current issues that cross national boundaries such as the refugee crisis, the spread of radical politics, security and intelligence services, the international economy, and other critical issues to prepare for careers in areas such as global politics, NGOs, journalism, or for further postgraduate study.

The course consists of seven modules. The two mandatory modules include a year-long, core module on International History: Methods and Themes and an International History Skills Seminar. Three elective modules can be selected from a range of specialties, including continental European, Irish, Chinese, U.S., and environmental history. For their fifth module, students can choose either a foreign language or an additional module in International History Methods. The final module is the capstone project, a dissertation based on independent research on a topic in international history, individually supervised by a member of staff.
Engaged with the formative period of Western culture, Trinity’s M.Phil. in Medieval Studies equips students with the critical skills needed for in-depth work on medieval texts, sources, and artefacts, and provides an introduction to what different disciplinary methods offer the medievalist while permitting students to specialise in particular approaches in accordance with their interests.

The teaching on the programme takes full advantage of Trinity’s world-leading holdings of medieval manuscripts and other artefacts, as well as those of other Dublin institutions and opportunities available for students to explore the built remains of medieval Ireland.

The course offers students the choice of three strands: History; Language and Literature; and Culture and Civilisation. All students take three core modules: Sources for Medieval Studies I and II and Introduction to Medieval Books and Documents as well as a dissertation.

**Admission requirements**

Applicants should normally have at least an upper second class (2.1) honours bachelor degree or equivalent (for example, GPA of 3.3) in a relevant area. Since places on the course are limited, applicants may be interviewed or asked to submit a writing sample for assessment. Offers will be made on a rolling basis. Should places remain unfilled, later applications may be considered.

*Please click ‘Module Details’ for a full list of admission requirements available.*
Modern Irish History (M.Phil.)

DURATION 1 year full-time (EU and non-EU students), 2 years part-time (EU/UK/EEA students only)

COURSE DIRECTOR Dr. Carole Holohan

EMAIL holohaca@tcd.ie

CLOSING DATE 30th June 2023

WATCH COURSE VIDEO MODULE DETAILS

The M.Phil. in Modern Irish History introduces well-qualified Humanities or Social Sciences graduates to research in modern Irish history, to the problems currently addressed by historians and to the methods they apply to study of the subject. Drawing on the current interests of staff, the course is based on the rich resources of Trinity’s library and of the adjacent Dublin libraries and archives. The course provides opportunities for in-depth study of selected issues in modern Irish history. It also serves as an introduction to students wishing to pursue doctoral studies.

The course comprises three main elements. A number of research training modules focus on the range of approaches, technologies and resources available to researchers in modern Irish history. In addition students take special subject modules in each term covering a range of specialised themes from the seventeenth to twentieth centuries. Students write a dissertation on any area of modern Irish history.

Admission requirements

Applicants should normally have at least an upper second class (2.1) honours bachelor degree or equivalent (for example, GPA of 3.3) in a relevant area. Since places on the course are limited, applicants may be interviewed or asked to submit a writing sample for assessment. Offers will be made on a rolling basis. Should places remain unfilled, later applications may be considered.

Please click ‘Module Details’ for a full list of admission requirements available.

Public History and Cultural Heritage (M.Phil.)

DURATION 1 year full-time (EU and non-EU students), 2 years part-time (EU/UK/EEA students only)

COURSE DIRECTOR Dr. Georgina Laragy

EMAIL laragyg@tcd.ie

CLOSING DATE 13th May 2023

WATCH COURSE VIDEO MODULE DETAILS

The M.Phil. course in Public History and Cultural Heritage is designed to provide students with a rigorous grounding in public history and to prepare high-calibre graduates in a unique and thorough fashion for the management of cultural heritage. We define ‘public history’ and ‘cultural heritage’ broadly.

The course involves analysis of cultural memory, its construction, reception and loss; and study of the public status and consumption of history in modern society. Political issues surrounding public commemoration and ‘sites of memory’ are examined and the role of museums, galleries and the media in shaping public perceptions of the past is considered. The course also surveys the more concrete questions involved in the conservation, presentation and communication of the physical heritage of past cultures, particularly where interpretation and meaning are contested.

Admission requirements

Applicants should normally have at least an upper second class (2.1) honours bachelor degree or equivalent (for example, GPA of 3.3) in a relevant area. Since places on the course are limited, applicants may be interviewed or asked to submit a writing sample for assessment. Offers will be made on a rolling basis. Should places remain unfilled, later applications may be considered.

Please click ‘Module Details’ for a full list of admission requirements available.
Applied Intercultural Communications (M.Phil.)

**DURATION**
1 year full-time

**COURSE DIRECTOR**
Dr. Theophile Munyangego

**EMAIL**
cgic@tcd.ie

**CLOSING DATE**
31st July 2023

The M.Phil. (Master's Degree), Post Graduate Diploma (P.Grad.Dip.) and Post Graduate Certificate (P.Grad.Cert.) in Applied Intercultural Communications are designed as both stand-alone and linked courses through the top-up progression. They are delivered by the Centre for Global Intercultural Communications at Trinity College Dublin and are part of the postgraduate suite of courses in the School of Languages, Literatures and Cultural Studies.

The programmes will provide participants with novel perspectives and methods for effective intercultural communication at work, strategic partnerships, inclusive leadership and global engagement. This will be of interest to organisations and individuals wishing to further develop their skills, careers and business opportunities by applying intercultural communication methods to succeed in multicultural contexts. Our flexible course delivery, through full time, part time and multiple entry route options, will enable students to develop effective intercultural communication skills for successful engagements with diverse audiences.

**Admission Requirements**
A minimum 2.1 honours class degree from an Irish University or its international equivalent. For candidates who are not native English speakers and have not completed a degree through the medium of English, a minimum IELTS score of at least 6.5 in each category is required. Applicants must demonstrate their ability to write clearly and persuasively in an academic register (via the writing sample, described in the application site). Applicants will need to provide the names of two academic referees. Please note that previous region-specific knowledge and additional foreign language skills are not required.

Please click ‘Module Details’ for a full list of admission requirements available.

Comparative Literature (M.Phil.)

**DURATION**
1 year full-time

**COURSE DIRECTOR**
Dr. Peter Arnds

**EMAIL**
arndsp@tcd.ie

**CLOSING DATE**
30th June 2023

This M.Phil. course is designed to provide an understanding of Comparative Literature as a subject of study and a critical practice. The core modules provide the theoretical and methodological basis for comparing texts of various genres and artefacts of different media at an advanced level. Optional modules enable the further development of these competencies and offer opportunities to develop and apply this knowledge and these skills to a range of primary texts from a wide range of languages, cultures, epochs and other contexts.

The course consists of two core modules taken by all students (Theory and Methodology and Moving between Cultures), two options from the range offered in a given year, and a dissertation of 15,000-20,000 words whose theme and approach should be comparable.

**Admission Requirements**
Applicants should have a good honours degree (at least an upper second class honours 2:1, GPA of at least 3.3) in a discipline relevant to the digital humanities (usually a humanities field, but may also Languages, Literature, History, Cultural Studies, Comparative Literature, Human Geography, Sociology, Religious Studies, Gender Studies, Textual and Visual Studies, Visual Arts, Art History, Economics, Political Science, provided all other requirements are met).

- Applicants must complete a personal statement.
- Applicants must demonstrate their ability to write clearly and persuasively.
- Applicants whose first language is not English will need to provide evidence of proficiency in English via a recognised English language qualification. A minimum IELTS score of 6.5 in each category or its equivalent.
- Applicants must provide two reference letters and degree transcripts.
Many of the biggest questions in our world today can only be answered by drawing on knowledge of both culture and technology. Trinity’s M.Phil. in Digital Humanities and Culture prepares its students to take on these questions in a wide variety of contexts, whether they want to deepen their understanding of a humanities subject through data mining and visualisation; explore the virtual transmission of culture and heritage by and beyond museums, libraries and archives; or join the movement to make technology development more humane.

**Admission requirements**

Applicants should have a good honours degree (at least an upper second, GPA of at least 3.3) in a discipline relevant to the digital humanities (usually a humanities field, but may also include any of the disciplines of the humanities, provided all other requirements are met).

› Applicants must complete a personal statement.

› Applicants must demonstrate their ability to write clearly and persuasively.

› Applicants whose first language is not English will need to provide evidence of proficiency in English via a recognised English language qualification. A minimum IELTS score of 6.5 in each category or its equivalent.

*Please click ‘Module Details’ for a full list of admission requirements available.*
Literary Translation (M.Phil.)

DURATION 1 year full-time

COURSE DIRECTOR Dr. James Hadley

EMAIL hadleyj@tcd.ie

CLOSING DATE 30th June 2023

The M.Phil. in Literary Translation equips you with the skill to apply translation theory to your literary translation practice in creative and original ways. You will craft a unique portfolio of translations under the guidance of academic and professional mentors.

There is a strong and growing demand for highly-trained translators with the creativity and linguistic prowess to create aesthetically appealing work. Such translators are already sought out not only in the field of literature, but also in the private and public sector, in international organisations, media, and education. We have close ties with many such organisations, and give our students regular opportunities to interact with them.

Trinity students are highly valued by the translation industry. We organise workshops with our industry partners throughout the year, and offer a long list of opportunities to network and collaborate from the beginning until the end of the degree.

Admission requirements

› A minimum 2.1 honours class degree from an Irish university or its international equivalent.
› A demonstrable working knowledge of two or more languages
› For candidates who are not native English speakers and have not completed a degree through the medium of English, a minimum IELTS score of at least 6.5 in each category or its equivalent.

Please click ‘Module Details’ for a full list of admission requirements available.

Middle East in a Global Context (M.Phil.)

DURATION 1 year full-time

COURSE DIRECTOR Professor Anne Fitzpatrick

EMAIL postgraduate.sllcs@tcd.ie

CLOSING DATE 30th June 2023

The M.Phil. in Middle East in a Global Context is designed for students who hold a degree in any discipline and are interested in studying the region of the Middle East, its histories, cultures, politics and (optionally) language.

This masters programme provides a foundation in the methods and disciplines relevant to the study of the Middle East. It provides intensive training in several fields of knowledge through a combination of online lectures, seminars, tutorials and essay writing, allowing you to develop research and writing skills with training in theoretical and methodological approaches.

The M.Phil. consists of four core modules and 2 optional modules. You also complete a dissertation on a subject chosen by you in consultation with your supervisor.

Admission requirements

No prior knowledge of the area is required, and Arabic can be studied ab initio. Applicants should normally have a second class (2.1) honours bachelor degree or equivalent. Applicants are asked to submit a writing sample for assessment, and may be invited for online interview. For candidates who are not native English speakers and have not completed a degree through the medium of English, see the Trinity English language requirement.

Please click ‘Module Details’ for a full list of admission requirements available.
Old Irish (P.Grad.Dip.)

DURATION 1 year full-time

COURSE DIRECTOR Dr. Jürgen Uhlich

EMAIL uhlichc@tcd.ie

CLOSING DATE 30th June 2023

This Postgraduate Diploma in Old Irish aims to provide graduates in related disciplines with a solid grounding in Old Irish language and literature. The course lasts for the two semesters of one academic year beginning in October and requires full-time study.

The course will consist of six contact hours per week, as follows:
› Introduction to Old Irish (2 hours)
› Tutorials in Old Irish (2 hours)
› Old Irish literature, including readings in lyrical verse (1 hour)
› Old Irish glosses and saga literature (1 hour)

Graduates have pursued careers in text-based Arts & Humanities, including languages, literature, history, teaching, and publishing.

Admission requirements
Applications are normally accepted only from persons with a good honours degree in a cognate subject such as Modern Irish or another Celtic language, medieval languages, literature or history, archaeology.

Please click ‘Module Details’ for a full list of admission requirements available.

Olayinka Gbonegun
Comparative Literature (M.Phil.)

I’ve always gravitated towards the subjects of literature and history and I love to explore the distinct literary approaches of different cultures. Through Trinity’s Comparative Literature program I got to do just that: I had the privilege of meeting many professors who each covered topics through an expert cultural lens, allowing me to view many different viewpoints and ideas on a common subject. Through this style of teaching I was able to further branch out into more regional studies and take a more diverse and interdisciplinary approach to my writing.
Intellectual Property and Information Technology Law (LL.M.)

DURATION 1 year full-time

COURSE DIRECTOR Professor Desmond Ryan

EMAIL law.postgraduate@tcd.ie

CLOSING DATE 31st May 2023

Modules may include Data Protection, Cyber Security Law, Copyright Law, Trademark and Design Law, Patent Law and much more. Students may also choose up to two modules from the wide array offered on the LLM (General) ranging from Aviation Law, to Human Rights Law and Islamic Law.

Admission requirements

Applications are therefore invited from well-qualified graduates who hold a very good honours bachelor degree in law or in a law-based interdisciplinary programme. Applications will also be considered from exceptional graduates in related disciplines in the Arts, Humanities, and Social Sciences who can convincingly demonstrate that their studies have fully prepared them for the LLM.

We advise students to apply for this programme as early as possible as admission to the course will be very competitive. The programme is subject to early closure as a result.

Please click ‘Module Details’ for a full list of admission requirements available.

International and Comparative Law (LL.M.)

DURATION 1 year full-time

COURSE DIRECTOR Professor Desmond Ryan

EMAIL law.postgraduate@tcd.ie

CLOSING DATE 31st May 2023

With the increased globalisation of the last twenty years and, even earlier, with the rise to prominence of the international human rights movement, there has been the impetus for students of all nationalities towards studying areas of law with a broad international and comparative focus. This programme will allow students to engage meaningfully in comparative legal research using mature comparative law methodology and to develop flexibility, adaptability and independence in order to engage productively with a changing, social, cultural and international environment.

The LL.M. (International and Comparative Law) aims to promote critical analysis of, and reflection on, different aspects of international law and comparative law. Students on this programme are examined in six modules and will also complete a research dissertation.

Admission requirements

Applications are therefore invited from well-qualified graduates who hold a very good honours bachelor degree in law or in a law-based interdisciplinary programme. Applications will also be considered from exceptional graduates in related disciplines in the Arts, Humanities, and Social Sciences who can convincingly demonstrate that their studies have fully prepared them for the LLM.

We advise students to apply for this programme as early as possible as admission to the course will be very competitive. The programme is subject to early closure as a result.

Please click ‘Module Details’ for a full list of admission requirements available.
International and European Business Law (LL.M.)

**DURATION**
1 year full-time

**COURSE DIRECTOR**
Professor Desmond Ryan

**EMAIL**
law.postgraduate@tcd.ie

**CLOSING DATE**
31st May 2023

The LL.M (International and European Business Law) is designed for graduates who wish to specialise in business law with a view to pursuing their research interests in this field or in preparing to work in busy international commercial firms or legal practice across the globe. This programme will enable students to gain invaluable specialist knowledge from expert professors. They will develop skills to critically analyse the interplay between law and social change in a variety of different contexts within international and business law and conduct effective and targeted research in case law, legislation and academic legal commentary in areas pertaining to international and business law at a level appropriate to masters graduates.

**Admission requirements**
Applications are therefore invited from well-qualified graduates who hold a very good honours bachelor degree in law or in a law-based interdisciplinary programme. Applications will also be considered from exceptional graduates in related disciplines in the Arts, Humanities, and Social Sciences who can convincingly demonstrate that their studies have fully prepared them for the LL.M.

We advise students to apply for this programme as early as possible as admission to the course will be very competitive. The programme is subject to early closure as a result.

Please click ‘Module Details’ for a full list of admission requirements available.

Law and Finance (M.Sc.)

**DURATION**
1 year full-time

**COURSE DIRECTOR**
Dr. Felix Mezzanotte

**EMAIL**
law.postgraduate@tcd.ie

**CLOSING DATE**
31st May 2023

Interdisciplinary study at the postgraduate level is widely recognised as a highly desirable attribute for employers. The M.Sc. in Law and Finance offers an advanced qualification to graduates in business, economics or law.

The course will develop the students’ skills to apply theory to practice, solve business problems and help organisations to continuously grow and improve their performance across these disciplines. The course is structured to include the foundational and advanced material needed to build students’ knowledge and understanding of law and finance, provide students with the capacity to embrace current and future changes such as financial regulation, EU law and financial innovation, and develop both students’ technical skills in understanding financial and legal concepts and analytic skills to apply these skills.

**Admission requirements**
An undergraduate honours bachelor degree of 2.1 grade or higher in Business, Economics or Law. This is the starting point for admissions and does not guarantee entry.

We strongly advise students to apply for this programme as early as possible as admission to the course will be very competitive. The programme is subject to early closure as a result.

Please click ‘Module Details’ for a full list of admission requirements available.
Our flagship LL.M programme offers students the opportunity for postgraduate study where they can select modules from a substantial list of modules covering the disparate branches of law. Students can focus on public law or private law modules or may take a selection of both. This programme will enable students to develop the skills to use appropriate legal theories, doctrines and concepts to identify, formulate, analyse and solve legal problems within national and international contexts and identify, evaluate and synthesise jurisprudential theories and concepts at a level appropriate to masters graduates.

The LL.M degree is delivered over one academic year and seeks to promote critical analysis of, and reflection on, different aspects of national, European and international law. Students will complete six modules and a research dissertation.

**Admission requirements**

Applications are therefore invited from well-qualified graduates who hold a very good honours bachelor degree in law or in a law-based interdisciplinary programme. Applications will also be considered from exceptional graduates in related disciplines in the Arts, Humanities, and Social Sciences who can convincingly demonstrate that their studies have fully prepared them for the LLM.

We advise students to apply for this programme as early as possible as admission to the course will be very competitive. The programme is subject to early closure as a result.

Please click ‘Module Details’ for a full list of admission requirements available.

---

Emma Carroll

LL.M. graduate from Australia

Reading a taught LL.M. at Trinity College Dublin was a life-enhancing experience. The modules were topical and varied, taught by enthusiastic and attentive academics. The atmosphere of Trinity’s incredibly beautiful and historic campus was always vibrant and social. The LL.M. course gave me the opportunity to enhance my expertise from a wider, global perspective, particularly in respect of the EU legal system. I also participated in some of the many student societies on offer at Trinity, which was a great way to make new friends and build up a like-minded social circle. Balancing intensive study with friendship and conversation is vital to academic success and Trinity was readily able to offer this to international students. Studying at TCD was a richly rewarding experience and I would highly recommend it to anyone looking to gain an internationally respected qualification, while enjoying everything that Ireland has to offer.
Applied Linguistics (M.Phil.)

DURATION 1 year full-time/2 years full-time
COURSE DIRECTOR Dr. Elaine Úi Dhonnchadha
EMAIL uidhonne@tcd.ie
CLOSING DATE 30th June 2023

The M.Phil. in Applied Linguistics is aimed at teachers of second and foreign languages. The discipline of applied linguistics investigates a range of issues around language in contemporary society. Among these, the most prominent issues – and the central topics of the M.Phil. in Applied Linguistics – are those surrounding second and foreign language education. It is often said that globalisation has made the learning of additional languages an essential goal in education, but in truth, language learning has been important in most places at most times.

Admission requirements
Applicants should have a good honours degree (at least an upper second or equivalent; GPA of at least 3.2). Previous knowledge of applied linguistics is not a requirement. Normally only graduates with language teaching experience are admitted to the course in Applied Linguistics. Applicants whose first language is not English and who have not been educated through the medium of English must meet Trinity’s requirements for English-language proficiency, i.e. the minimum acceptable IELTS score is 6.5. For this course, no individual IELTS band can be below 6 (or the minimum equivalents in other approved English language proficiency tests). Students whose first language is not English are encouraged to attend our pre-sessional Summer programme to prepare them for postgraduate study in Ireland. Applicants must provide a Personal Statement explaining their motivation in applying for this course.

Please click ‘Module Details’ for a full list of admission requirements available.

Chinese Studies (M.Phil.)

DURATION 1 year full-time
COURSE COORDINATOR Professor Nathan Hill
EMAIL clcs_mphil_info@tcd.ie
CLOSING DATE 31st July 2023

Chinese Studies is a multidisciplinary field of study, drawing upon and integrating disciplines such as History, Linguistics, Politics, Social Policy, Cultural Studies and Translation Studies. The course focuses on China today and China over the last century. This course offers a unique and vibrant educational experience which equips its students to be global citizens. The M.Phil. programme offers the opportunity to engage with key aspects of contemporary China, including its political and economic landscape, modern history, society, popular culture and language. Given China’s economic impact and international reach, this course equips its graduates to engage deeply with contemporary China. The multidisciplinary nature of the course can accommodate students from a wide range of backgrounds.

Admission requirements
Admission to this course is at graduate level, and applicants will hold a good honours degree (minimum II.1, or a GPA of 3.5, or equivalent from another country) from a recognised university. Applicants must also satisfy the University’s English language requirements. The course is designed for students from a wide range of backgrounds. A background in Arts, Humanities and Social Sciences is helpful but not a requirement. The M.Phil. in Chinese Studies is designed to provide a multidisciplinary introduction to the discipline of Chinese Studies without requiring any specific prior knowledge of China or Chinese language proficiency.

Please click ‘Module Details’ for a full list of admission requirements available.
### Clinical Speech and Language Studies (Dysphagia) (P.Grad.Dip.)

</tr>
</tbody>
</table>

This one year part-time course aims to provide qualified Speech and Language Therapists with opportunities to advance their academic knowledge and professional practice skills in all aspects of dysphagia in both adult and paediatric populations. The course provides additional specialist qualifications to already qualified Speech and Language Therapists and does not serve as initial qualification to practise as a Speech and Language Therapist. Those without an existing qualification in Speech and Language Therapy/Speech-Language Pathology should therefore not apply.

The course comprises core modules on dysphagia theory and application to practice. It also teaches basic research methods, clinical evidence based practice and reflective practice. Students must also complete 80 hours of clinical work. Students who have not completed a qualifying course in dysphagia will have to complete additional preparatory work. Those students who have not completed a qualifying course in dysphagia must undertake a minimum of 40 hours supervised clinical work in dysphagia (with experienced supervisors to be recognised by the Department of Clinical Speech and Language Studies at Trinity College Dublin). Students may pre-arrange their own clinical work (e.g. if completing hours in your current workplace), but must ensure that where supervision is required, proposed supervisors have been agreed with the Department. Those who do not have an identified clinical location will be assigned one by the Department.

**Admission requirements**

Applicants taking IELTS should note that an minimum overall score of 6.5 is required and that no individual subtest score can be lower than 6.5.

Please click ‘Module Details’ for a full list of admission requirements available.

The aims of the course are to provide qualified Speech and Language Therapists with opportunities to advance their academic knowledge and professional practice skills with specific clinical populations. These courses provide additional specialist qualifications to already qualified Speech and Language Therapists and do not serve as initial qualifications to practise as a Speech and Language Therapist.

During the M.Sc. course, students must complete a minimum of 80 hours clinical work in their chosen specialist area. Students who take the dysphagia specialist strand and who have not completed a qualifying course in dysphagia will have to complete additional preparatory work. These students must have at least 40 of the required 80 clinical hours supervised by Speech and Language Therapists recognised by the Department of Clinical Speech and Language Studies at Trinity College Dublin.

**Admission requirements**

Eligible candidates for the M.Sc. course should hold at least an upper second class honours degree in Clinical Speech and Language Studies or an equivalent qualification in Speech and Language Therapy. Students for whom English is not a first language must obtain a minimum IELTS score (academic version) of 6.5 with no individual band below 6.5. Students will also be required to undergo Garda Vetting.

Please click ‘Module Details’ for a full list of admission requirements available.
English Language Teaching (M.Phil.)

DURATION 1 year full-time
COURSE DIRECTOR Dr. Elaine Uí Dhonnchadha
EMAIL clcs_mphil_info@tcd.ie
CLOSING DATE 30th June 2023

Watch Course Video  Module Details

The M.Phil. in English Language Teaching is aimed at both new and experienced teachers of English as a foreign or second language. The course will give practising teachers the opportunity to explore current issues in ELT, and to deepen their understanding of the theoretical and practical concerns that underlie their teaching in TESOL and other settings.

Preference is given to applicants with relevant teaching experience. However, applicants without English language teaching experience will be encouraged to take the English Language Teaching Practice elective modules. All applicants are expected to show proficiency in at least one language other than their first language.

Admission requirements
Applicants should have a good honours degree (at least an upper second or equivalent; GPA of at least 3.2). Applicants whose first language is not English and who have not been educated through the medium of English must meet the College’s requirements for English-language proficiency, i.e. the minimum acceptable IELTS score is 6.5. For this course, no individual IELTS band can be below 6, or the minimum equivalents in other approved English language proficiency tests. Students whose first language is not English are encouraged to attend our pre-sessional Summer programme to prepare them for postgraduate study in Ireland. Applicants must provide a Personal Statement explaining their motivation in applying for their chosen course(s).

Linguistics (M.Phil.)

DURATION 1 year full-time
COURSE DIRECTOR Dr. Elaine Uí Dhonnchadha
EMAIL clcs_mphil_info@tcd.ie
CLOSING DATE 30th June 2023

Watch Course Video  Module Details

Linguistics is the systematic study of human language. It has its roots in antiquity, though the twentieth century saw an explosion of research and the development of new theories and approaches. Linguistics has become an exciting and vigorous area of study, with strong connections to many fields including psychology, sociology, anthropology, cognitive science, computer science, and philosophy.

The M.Phil. in Linguistics has core modules in Describing Grammar, Describing Meaning, Describing the Sounds of Languages, and Laboratory Phonetics and Phonology.

Admission requirements
Applicants should have a good honours degree (at least an upper second or equivalent; GPA of at least 3.2). Previous knowledge of applied linguistics is not a requirement. Normally only graduates with language teaching experience are admitted to the course in Applied Linguistics. Applicants whose first language is not English and who have not been educated through the medium of English must meet Trinity’s requirements for English-language proficiency, i.e. the minimum acceptable IELTS score is 6.5. For this course, no individual IELTS band can be below 6, or the minimum equivalents in other approved English language proficiency tests. Students whose first language is not English are encouraged to attend our pre-sessional Summer programme to prepare them for postgraduate study in Ireland. Applicants must provide a Personal Statement explaining their motivation in applying for this course.

Speech and Language Processing (M.Phil.)

DURATION 1 year full-time

COURSE DIRECTOR Dr. Elaine Uí Dhonnchadha

EMAIL clcs_mphil_info@tcd.ie

CLOSING DATE 30th June 2023

Speech processing is the science concerned with how speech communication works: how speech is produced by the speaker and understood by the listener. It is also concerned with how these processes can be analysed and modelled, and with how these models can be used to develop technologies that also produce and understand speech (synthetic voices, speech recognisers). The science and technology involved are fundamental to the understanding and remediation of disordered speech. The science of speech is thus at the intersection of many disciplines, particularly linguistics, psychology, acoustics and engineering.

Admission requirements
Applicants should have a good honours degree (at least an upper second or equivalent; GPA of at least 3.2). Previous knowledge of applied linguistics is not a requirement. Normally only graduates with language teaching experience are admitted to the course in Applied Linguistics. Applicants whose first language is not English and who have not been educated through the medium of English must meet Trinity’s requirements for English-language proficiency, i.e. the minimum acceptable IELTS score is 6.5. For this course, no individual IELTS band can be below 6, or the minimum equivalents in other approved English language proficiency tests. Applicants must provide a Personal Statement explaining their motivation in applying for this course.

Chiara Mastronardo
M.Phil. in Chinese Studies graduate

The M.Phil. in Chinese Studies here at Trinity College provides everything a student could wish for, an academic team always ready to help you grow, and a world of possibilities in the heart of a pulsing city! The course is structured so that students can really challenge themselves in an incredibly stimulating environment. My academic skills have developed greatly, and I have also made exceptional friends here. The team is always available for help.

I chose Trinity because it is a research-intensive university, ranked top in Ireland, and I have not been disappointed in any way. The M.Phil. in Chinese Studies offers modules about contemporary China, analyzing different aspects of this great, complex country. One of the best experiences I will ever have!
Applied Behaviour Analysis (M.Sc.)

DURATION 2 years full-time
COURSE DIRECTORS Professor Olive Healy
Professor Maeve Bracken
EMAIL msc.aba@tcd.ie
CLOSING DATE 31st May 2023

This is an intensive full-time course which aims to ensure that students become efficient in the practical application of the principles of applied behaviour analysis, with particular regard to persons with autism and other developmental disabilities and/or children and adolescents in care or special programmes, and/or those clients presenting learning and/or behavioural challenges in school. The content of this course focuses on behavioural theory and application.

Formal classes run from mid-September to late May and are normally held one day every week. Additionally, students meet with a Board Certified Behaviour Analyst (BCBA) for 1-2 hours every other week from October to September. Dissertation research is initiated during the academic year of Year 2 and continued and finalised during the summer months. Placement practice in behaviour analysis must be facilitated by an external BCBA. Students receive continuous assessment and feedback through their regular supervision sessions and participation in class activities. Placement practice in ABA is also reported at intermediate and end points during the year. Students must maintain a portfolio of their work throughout the course.

Admission requirements
Applicants will normally be required to hold at least an upper second class honours degree in Psychology or a related field from a recognised 3rd level institution. Students will be required to undergo Garda Vetting.

Please click ‘Module Details’ for a full list of admission requirements available.

Applied Psychology (M.Sc.)

DURATION 1 year full-time
COURSE DIRECTOR Dr. Tim Trimble
EMAIL msc.appliedpsych@tcd.ie
CLOSING DATE 31st March 2023

The course is designed to provide students with a thorough appreciation of issues in applied psychology, knowledge of the skills required to apply psychology effectively, and a detailed understanding of their chosen focus of application. The themes of analysis, intervention and evaluation are central to the structure and philosophy of the course, which establishes a firm basis for students to further professional training and development in psychology. The core modules provide training in research methods and professional issues. Optional modules enable further development of these competencies and knowledge while enabling students to consider their application in specified content areas.

Student will complete the following two core modules: Philosophical and professional issues in applied psychology, and Research Methodology and Statistics. There are also a range of optional modules available. In addition, all students will be required to submit a dissertation based on an empirical investigation of a topic in applied psychology.

Admission requirements
Applicants will be required to hold at least a minimum of an upper second class honours degree (2.1) in psychology or its equivalent from a recognised university course, which confers eligibility for graduate registration with the Psychological Society of Ireland or equivalent professional body in the case of overseas applicants.

Please click ‘Module Details’ for a full list of admission requirements available.
Clinical Psychology (D.Clin.Psych.)

DURATION 3 years full-time
COURSE DIRECTOR Dr. Kevin Tierney
EMAIL dclinpsych@tcd.ie
CLOSING DATE 2nd November 2022

This course provides an intensive and systematic programme of training, equipping each student to meet the challenges facing clinical psychology and to make a unique contribution to the Irish Health Services.

The course is structured so that the academic teaching typically takes place in term time for one and a half days per week. In addition, each placement is preceded by a teaching block of approximately four weeks duration. Students complete six clinical placements during the course, each of approximately five months duration. Research training is continuous across the programme.

Students of the course are employed by an approved health care provider and graduates are required to complete an additional three-year contract of employment with their sponsoring service provider.

Admission requirements

The course currently attracts a high number of applicants and competition for the limited number of places is intense. Requirements for selection include a primary honours degree in psychology with at least an upper second-class award or equivalent. Good research skills and relevant experience are essential. Candidates are required to hold graduate basis for registration with the Psychological Society of Ireland. Students will be required to undergo Garda Vetting. Please note the possession of a full and valid driving licence remains an essential requirement for programme selection.

Please click ‘Module Details’ for a full list of admission requirements available.

Clinical Supervision (M.Sc.)

DURATION 2 years part-time
COURSE DIRECTOR Dr. Mary Creaner
EMAIL lordje@tcd.ie
CLOSING DATE 31st May 2023

The M.Sc./P.Grad. Diploma in Clinical Supervision part-time course is aimed at practitioners in the helping professions who normally hold an honours degree in psychology or a related field and relevant postgraduate experience. It is specifically aimed at practising psychologists, (counselling, clinical, educational, health, work and organizational, etc.) psychotherapists, counsellors and mental health professionals who wish to further their professional development, reflective practice capability and train as supervisors.

Admission requirements

The standard requirements for applicants are that they have a post-graduate degree in psychology or a closely related field, an honours (2.1) degree, and training or experience in supervision. Candidates must exhibit a dedication to continued professional development (e.g., workshops, seminars). Applicants must be full members of an acknowledged professional body and an active practitioner (e.g., the Psychological Society of Ireland, the Irish Council for Psychotherapy, the Irish Association for Counselling and Psychotherapy or professional equivalent). Candidates must possess professional indemnity insurance for supervision and have access to a supervisee base for professional clinical practice. Formal application includes an updated resume, two references, any necessary documentation of EU status, and a personal interview. It is the responsibility of applicants to make sure they satisfy all of the aforementioned entry requirements and to validate the supervisor requirements with their professional. Applicants are responsible for ensuring that they meet all the entry requirements above and confirming supervisor criteria with their professional organisations, prior to application.

Please click ‘Module Details’ for a full list of admission requirements available.
## Counselling Psychology (D.Couns.Psych.)

This intensive full-time course provides professional training in Counselling Psychology and is accredited by the Psychological Society of Ireland. Admission is on a yearly basis for approximately 12 to 14 students. The main objectives of the course are to allow students to obtain a level of postgraduate academic and research performance appropriate for the award of a doctoral qualification, to progress this academic and research performance through the practice of Counselling Psychology, and to acquire professional knowledge and skills. The course emphasizes the scientist-practitioner model of training and research-informed practice. The scientist-practitioner model is fostered through research classes and work on the research dissertation. Students are informed on a variety of research strategies (including e.g., experimental, quasi-experimental as well as descriptive and qualitative, phenomenological, hermeneutic, discourse analytic and grounded theory approaches) and learn to critically evaluate the strengths and weaknesses of different methodologies. Graduates of this course are qualified counselling psychologists, skilled to conduct mental health assessments and therapy with individuals, couples, families and groups across the lifespan.

**Admission requirements**

Applicants will be required to hold at least a minimum of an upper second class honours degree (2.1) in psychology or its equivalent from a recognised university course, which confers eligibility for graduate registration with the Psychological Society of Ireland or equivalent professional body in the case of overseas applicants. Students will be required to undergo Garda Vetting.

The Masters of Philosophy in Psychoanalytic Studies offers graduates a thorough introduction to the history, theory and applications in clinical work and in the wider culture of psychoanalysis from Freud to modern writers in this broad field.

The course is of interest to people from a variety of backgrounds, including graduates of psychology, philosophy, and other university programmes, as well mental health professionals, people who work in the fields of the arts, education and health, among others.

The course typically covers areas such as the unconscious in groups, organisations and society, dreams, dreaming and symbolic life, the emotional world of the child, psychoanalysis and art, clinical states of mind and object relations theory. The content of modules may vary from year to year.

Students are required to complete a thesis on a psychoanalytic theme for submission at the end of the programme.

**Admission requirements**

Applications are normally accepted only from persons with a first or upper second class degree (2.1) in an appropriate arts, social science or science subject.

*Please click 'Module Details' for a full list of admission requirements available.*
Psychology (H.Dip.) – Psychology Conversion Course

DURATION 2 years full-time

COURSE DIRECTOR Dr. Jean Quigley

EMAIL psychconv@tcd.ie

CLOSING DATE 31st March 2023

This course provides a pre-professional qualification in psychology and confers eligibility for graduate membership of the Psychological Society of Ireland (PSI). It allows a student to proceed to postgraduate training, including higher degrees by research, and to specialise in an area of professional psychology. It is a two year full-time course based on lectures, tutorials, laboratory classes and research projects.

Candidates for admission to the Higher Diploma in Psychology must hold a primary degree, in any discipline with at least an upper second-class honours. Application for entry is not via the CAO system.

Students will cover the following areas of psychology, as required for professional accreditation:

› Biological basis of behaviour
› Cognitive psychology
› Research design, quantitative and qualitative methods
› Developmental and lifespan psychology
› Social psychology
› Personality and individual differences

Students are evaluated by course work assessment throughout the year, by written examination papers at the end of each semester of the course, and by research project in the second year. The student must complete all the work prescribed.

Admission requirements
IELTS: Grade 6.5 overall (**each band of the IELTS must have a minimum score of 6.5). Students will be required to undergo Garda Vetting.

Please click ‘Module Details’ for a full list of admission requirements available.

Olayinka Gbonegun
Comparative Literature (M.Phil.)

I’ve always gravitated towards the subjects of literature and history and I love to explore the distinct literary approaches of different cultures. Through Trinity’s Comparative Literature program I got to do just that: I had the privilege of meeting many professors who each covered topics through an expert cultural lens, allowing me to view many different viewpoints and ideas on a common subject. Through this style of teaching I was able to further branch out into more regional studies and take a more diverse and interdisciplinary approach to my writing.
Christian Theology (M.Phil.)

**DURATION**
1 year full-time

**COURSE DIRECTOR**
Professor Michael Kirwan

**EMAIL**
srpostgrad@tcd.ie

**CLOSING DATE**
31st July 2023

**Course requirements**
This Masters in Christian Theology provides students with the opportunity to gain an in-depth knowledge of core issues in Christian theology and to develop skills of critical thinking in relation to them. Students are introduced to historical scholarship and to rigorous contemporary theological investigation. The focus on theological studies of the highest academic standing prepares students to contribute to public debates on theological issues in contemporary societies.

Students study three core modules, three optional modules and write a 15,000-20,000 word dissertation. Core Modules are: Violence and Grace in the Human Narrative; The First Words: Theology/ies of the Bible and Readings in Classical Theological Text.

For teachers of religious education, this course provides an excellent opportunity to explore theological issues at a deeper level. While the M.Phil. is designed to be complete in itself, it can serve as preparation for those wishing to proceed to further research in the field. Students will learn research skills, as well as analytic, written and verbal communication skills. These are highly valued and effective in a great variety of careers.

**Admission requirements**
Applicants should normally have an upper second class Honours Bachelor degree, or 3.2 G.P.A. or above. Applicants not meeting these requirements may exceptionally be considered at the discretion of the Dean of Graduate Studies.

Please click ‘Module Details’ for a full list of admission requirements available.

Christian Theology (P.Grad.Dip.)

**DURATION**
1 year full-time

**COURSE DIRECTOR**
Professor Michael Kirwan

**EMAIL**
srpostgrad@tcd.ie

**CLOSING DATE**
31 July 2023

**Course requirements**
This Postgraduate Diploma in Christian Theology enables participants to gain an in-depth knowledge of core issues in contemporary Christian theology. Students are introduced to historical scholarship and to rigorous contemporary theological investigation.

Students study four core modules, two optional modules and write a dissertation. Core Modules are: Readings in Classical Theological Texts; Jesus of Nazareth: Son, Christ, Word; Violence and Grace in the Human Narrative; and First Words: Theology/ies of the Bible.

Note modules offered differ each year. Lectures normally take place on Monday and Thursday evenings.

**Admission requirements**
Applicants should normally have an upper second class Honours Bachelor degree, or 3.2 G.P.A. or above. Applicants not meeting these requirements may exceptionally be considered at the discretion of the Dean of Graduate Studies.

Please click ‘Module Details’ for a full list of admission requirements available.
Conflict Resolution and Reconciliation (M.Phil.)

**DURATION**
1 year full-time

**COURSE DIRECTOR**
Professor David Mitchell

**EMAIL**
srpostgrad@tcd.ie

**CLOSING DATE**
31st July 2023

This course is based in Belfast, Northern Ireland reflecting the School and Trinity’s commitment to cross-border education. It offers an inter-disciplinary approach to the challenges of political and social reconciliation in the aftermath of violent conflict.

Graduates are equipped for work with local and international organisations, and gain transferable skills for a wide variety of careers, including mediation, diplomacy, policy, advocacy, journalism, teaching, and ministry, as well as Ph.D. research.

Northern Ireland faces many social and political challenges as it emerges from decades of violence. Yet Belfast is a vibrant city, undergoing an exciting post-conflict transformation. The city provides a unique backdrop for the M.Phil., allowing students to immerse themselves in a society grappling with the challenges of, and opportunities for, conflict transformation.

Student will study one core module: Research Skills and a selection of optional modules such as: Conflict and Peace in Northern Ireland; Conflict Transformation; Foundations of Conflict Resolution Research; Dynamics of Reconciliation; Contemporary Conflict and Peacemaking: Global Perspectives; Mediation and Peacebuilding Skills; Community Learning and Reflective Practice.

**Admission requirements**
Applicants should normally have an honours degree at second class level or GPA 3.2 or above. Students not meeting these criteria may exceptionally be considered at the discretion of the Dean of Graduate Studies.

Conflict and Dispute Resolution Studies (P.Grad.Dip.)

**DURATION**
1 year full-time

**COURSE DIRECTOR**
Professor Gillian Wylie

**EMAIL**
srpostgrad@tcd.ie

**CLOSING DATE**
31st July 2023

This one-year postgraduate course interests those in both the public and private sectors who are involved in conflict analysis, management, and resolution and who wish to study mediation and other non-adversarial dispute and conflict resolution processes (ADRs). The course aims at achieving standards of best practice for those who recognise the value of alternative dispute resolution processes in resolving commercial, community, workplace, international and other disputes and in minimising the damage caused by conflict. Those who complete the course will have a deep understanding of the causes and nature of conflict, the various conflict resolution processes available and how to apply them. CDRS is an accredited training programme with the Mediators’ Institute of Ireland. Successful completion of an optional MII Mediation Roleplay Competency Assessment at the end of the CDRS programme will allow students to apply for Certified Mediation status with the Mediators’ Institute of Ireland (MII).

Students have the option of five core modules: Understanding Conflict; Aspects and Dynamics of Mediation; Theories and Processes of International Conflict Resolution; Processes and Skills for Moving Beyond Conflict; Models of Alternative Dispute Resolution.

**Admission requirements**
Applicants should normally have an honours bachelor degree and three years relevant experience or another third-level qualification and five years relevant experience. Students without the above qualifications will be considered subject to evidence of adequate skills and experience. Students not meeting these criteria may exceptionally be considered at the discretion of the Dean of Graduate Studies.

School of Religion

**Contextual Theologies and Interfaith Relations (M.Phil.)**

**DURATION** 1 year full-time

**COURSE DIRECTOR** Professor Jude Lal Fernando

**EMAIL** srpostgrad@tcd.ie

**CLOSING DATE** 31st July 2023

**WATCH COURSE VIDEO** **MODULE DETAILS**

Contextual Theologies and Interfaith Relations integrates a variety of theological and other disciplines in order to explore significant and complex relationships within and between religious communities and their traditions. These fields of study attend closely to the connections and tensions experienced as the religions encounter alternative social, political and cultural resources of meaning and identity. This course focuses on the practical and theoretical possibilities posed by intercultural dialogue, and on the challenges of sustaining communities in which the praxis of peace and reconciliation with others is given concrete embodiment.

A variety of modules are offered each year, including: Research and Methods in Contextual Theologies and Interfaith Relations; Reimagining Ecumenical Theology: Dialogue and Difference; Nature, Grace and Place: Theology, Maps and Territories; Muslim God, Christian God: Islam and Muslim-Christian Comparative Theology. Modules may change from year to year. Students will also write a dissertation.

This course provides an excellent opportunity to explore theological issues through the lens of inter- and intra-faith relations. Graduates of this course can go on to further education and academic research. Graduates will learn research skills, as well as analytic, written and verbal communication skills. These are highly valued and effective in a great variety of careers.

**Admission requirements**

Applicants should normally have an honours degree at second class level or GPA 3.2 or above. Students not meeting these criteria may exceptionally be considered at the discretion of the Dean of Graduate Studies.

*Please click ‘Module Details’ for a full list of admission requirements available.*

---

**International Peace Studies (M.Phil.)**

**DURATION** 1 year full-time

**COURSE DIRECTOR** Professor Etain Tannam

**EMAIL** srpostgrad@tcd.ie

**CLOSING DATE** 31st July 2023

**WATCH COURSE VIDEO** **MODULE DETAILS**

International Peace Studies examines the sources of war and armed conflict and suggests methods of preventing and resolving them through processes of peacemaking and peacebuilding. The course combines perspectives from international relations, ethics and conflict resolution to reflect critically upon the wide range of social, political and economic issues associated with peace and political violence. There is also the option to participate in various field trips in Ireland and abroad.

Students are required to take the two core modules: the Politics of Peace and Conflict, and Research Methods. Students must also take four modules from the following list of options:

- Armed Conflict, Peace-building and Development
- The United Nations and Conflict Resolution
- Human Rights in Theory and Practice
- Gender, War and Peace
- Gender Theories
- Forced, Displacement, Conflict and Peacebuilding
- Religion, Conflict and Peace in International Relations
- NGOs in Theory and Practice: Internship Module

**Admission requirements**

Applicants should normally have an honours degree at second class level or GPA 3.2 or above. Students not meeting these criteria may exceptionally be considered at the discretion of the Dean of Graduate Studies.

*Please click ‘Module Details’ for a full list of admission requirements available.*
**Master in Theology**

**DURATION**  
3 years part-time residential,  
4 years part-time blended learning

**COURSE DIRECTOR**  
Dr. Katie Heffelfinger

**EMAIL**  
admin@theologicalinstitute.ie

**CLOSING DATE**  
28th May 2023

**MODULE DETAILS**

The MTh offers a distinctive learning experience based on the integration of the fields of Theology, Biblical Studies and Christian Practice. Students will engage critically with the intellectual challenges of ministry through the study of key themes in biblical, theological, and ministerial studies. The course is thus framed around a clear interaction between both theory and practice and across a variety of areas of ministerial formation.

The MTh aims to maintain a rigorous academic core whilst also broadening the scope of content and assessment to include professional application. This course is offered either in: Mode A (residential learning) which runs for three years, or Mode B (non-residential blended learning) which runs for four years.

A dissertation is a component of the final year and assessed both by written submission and oral examination.

---

**Carmel Irandoust**  
**M.Phil. International Peace Studies**

The M.Phil. in International Peace Studies is unique: the modules I got to pick were fascinating and the materials/sources used very inspiring! The programme allows you to be an independent thinker while being patiently accompanied by the staff to fulfil your true potential as a critical yet open- minded thinker: key values in order to become an active agent of change in our society today. I can honestly say that studying at Trinity College Dublin for one year was one of the greatest learning experiences I’ve had.
**Applied Social Data Science (P.Grad.Dip.)**

**DURATION**  
1 year full-time

**COURSE DIRECTOR**  
Dr. Constantine Boussalis

**EMAIL**  
pgdip-asds@tcd.ie

**CLOSING DATE**  
31st July 2023

The Postgraduate Diploma in Applied Social Data Science will provide you with a competitive edge in the rapidly expanding job market for data scientists. You will acquire valuable skills which are sought after in the high productivity sectors, including information technology, consulting, financial services, risk-assessment, logistics, as well as positions in government, NGOs and academia. You will also become fluent in two very popular (and demanded) programming languages, R and Python.

A unique trait of the Postgraduate Diploma in Applied Social Data Science programme is that it combines rigorous training in methods from computer science and statistics with social science research skills. There is high demand for social scientists who can apply machine learning and statistical methods for data-driven solutions to challenges faced by governments, political groups, and civil society organizations.

**Admission requirements**

Applicants will be expected to hold an upper second class honours (2:1) degree or higher from an established university. GPA scores of at least 3.3 out of 4, or equivalent, will be expected from international applicants. A background in a social science discipline or computer science, statistics, or other related discipline will be an advantage but is not required. Applications are expected from candidates who wish to acquire practical knowledge in using cutting-edge statistical methods to answer social scientific questions.

Please click ‘Module Details’ for a full list of admission requirements available.

---

**Comparative Social Change (M.Sc.)**

**DURATION**  
1 year full-time

**COURSE DIRECTORS**  
Dr. Gerard Boucher  
Professor Daniel Faas

**EMAIL**  
daniel.faas@tcd.ie

**CLOSING DATE**  
30 June 2023

This course has a significant international dimension drawing on the rich and informative experiences of other EU member states, North America, the four Asian Tigers, plus the BRIC countries, particularly Brazil, China and India. In addition, the course provides advanced training in conceptualising, designing and conducting comparative research across countries and the role that this can play in policy development. It provides students with both the theoretical frameworks and practical research skills necessary to understand the processes and pressing issues presented by global social change. It aims to show students how everyday experience and practices are shaped by broader social and economic processes.

Policy-relevant and practice-based components, such as fieldwork projects, add an extra dimension to the M.Sc. which have been designed to contribute to the training and employability of the next generation of researchers.

**Admission requirements**

Candidates should normally have achieved an upper second class honours degree (2.1) or equivalent, preferably with a social sciences component and excellent academic references. GPAs of at least 3.0 out of 4, or equivalent, will be expected from international applicants. All applicants whose first language is not English or who have not been educated through the medium of English will need to present evidence of English language competency.

Please click ‘Module Details’ for a full list of admission requirements available.
The M.Sc. in Economic aims to provide well-qualified graduates in economics and related disciplines with the training required to work as economists in the public, private and non-profit sectors or to enter Ph.D. programmes in economics. The course focuses on the technical skills needed to undertake economic research and emphasises active and problem-based learning to ensure mastery of the required skills.

The course has two strands. The first is a general entry strand and the second is a strand that focuses on International Development. While the required mix of modules varies across the two, the structure and timing of both is the same and both lead to an M.Sc. (Econ.) qualification.

Both strands are available on a full-time or part-time basis. The full-time course takes one year, while the part-time course runs over two academic years. All students on all strands must take an intensive preliminary course in mathematics and statistics at the start of the first semester, while the second semester starts with a Research Methods course.

Admission requirements
Candidates should normally hold at least an upper second-class honours degree that has a significant quantitative component, most commonly single or joint honours Economics degrees.

Please click ‘Module Details’ for a full list of admission requirements available.

The M.Sc. in International Politics consists of four compulsory modules, four elective (half) modules and a dissertation. The compulsory modules are:

- International Politics
- International Conflict
- Research Design
- Introduction to Quantitative Research Methods

The elective modules on offer vary from year to year. In 2022/23 these included:

- Global Justice
- State and Society in the Developing World
- Russian Politics under Putin
- The Political Economy of International Development
- Varieties of Authoritarianism
- Interviews in Political Science
- Environmental Politics
- Economic Inequality and Democracy
- Violence and Political Order
- European Union Policy Making
- Political Illiberalism

Admission requirements
Candidates should normally have achieved an upper second class honour degree or higher from an established university. GPA scores of at least 3.3 out of 4, or equivalent, will be expected from international applicants. A background in a social science will be an advantage but not a necessity. Applications are expected from candidates with a single or joint honours degree in Political Science, Economics, European Studies, History, Sociology, Business and Law.
Philosophy (M.Phil.)

DURATION: 1 year full-time

COURSE DIRECTOR: Professor John Divers

EMAIL: philosophy@tcd.ie

CLOSING DATE: 31st July 2023

The M.Phil. in Philosophy offers the foundation for advanced research in philosophy. Students are given in-depth courses in philosophical methodology, core areas of contemporary philosophy, the Anglo-American and Modern European traditions and the application of contemporary scholarship to key historical figures. Students will also write a dissertation on a topic of their choice in consultation with the course director and their supervisor.

The course incorporates both taught and research components. Students take six mandatory taught modules and write a 15,000 word dissertation. The dissertation will be submitted by 31 August each year. Taught modules may change from one year to the next, with the following modules being offered in 2020/21:

› Introduction to Philosophical Research
› The Development of Analytic Philosophy
› Modern European Philosophy
› Metaphysics
› Ancient Philosophy
› Ethics
› Dissertation

Admission requirements
An undergraduate degree at 2.1 or above (or equivalent) in philosophy is the normal requirement, but applicants who can demonstrate a strong philosophy component in their degree in a different discipline will be considered on a case by case basis.

Please click ‘Module Details’ for a full list of admission requirements available.

Race, Ethnicity, Conflict (M.Phil.)

DURATION: 1 year full-time

COURSE DIRECTOR: Professor David Landy

EMAIL: mphilrec@tcd.ie

CLOSING DATE: 31st July 2023

This one-year postgraduate course examines the techniques used by states and international agencies to manage peoples and conflict, their social and cultural impact and the responses they elicit. It applies a wide variety of sociological theories to racialization, gender, migration, ethnic conflict and peace-making. It is designed for people who work or wish to work in any of these fields, and/or who are thinking of Ph.D. research. Students are taught to complete an independent research project on these issues. Student complete three core modules: Theories of Race and Ethnicity, Theories of Conflict and Research Methods, a selection of optional modules and a 15-20,000 word dissertation.

Admission requirements
Candidates should have a good primary degree (an upper second or equivalent, GPA of at least 3.2) in one of the social sciences or a degree that has included social science as a component. In exceptional cases, candidates without a first degree may be accepted directly into the programme if they can demonstrate that they possess the equivalent of a good first degree, have work experience in the fields of population movement, conflict, and/or publications that demonstrate analytical skills. Applicants seeking admission in this category may, where practicable, be called for interview. In all cases the quality of the candidates statement of interest and of their academic references are important.

Please click ‘Module Details’ for a full list of admission requirements available.
School of Social Work and Social Policy

**Applied Social Research (M.Sc.)**

**DURATION:** 1 year full-time

**COURSE DIRECTOR:** Dr. Philip Curry

**EMAIL:** pascoem@tcd.ie

**CLOSING DATE:** 31st July 2023

**WATCH COURSE VIDEO**  **MODULE DETAILS**

The M.Sc. in Applied Social Research is designed for graduates in the social sciences who want to develop their research skills and gain employment in the area of research. This masters is equally suited to those who wish to build research skills for application in their current work environments. The course also provides a strong foundation for further postgraduate study, particularly for Ph.D. research.

Students complete an eight-week Work Placement where they get the opportunity to work alongside experienced researchers/research teams within their host institutions.

Graduates of the M.Sc. in Applied Social Research typically gain employment in research institutes or consultancies, government departments, semi-state agencies, the NGO sector, and in a range of policy environments. Others go on to complete further postgraduate study.

**Admission requirements**

Applicants should normally have an upper second-class honours degree in one of the Social Sciences. Applications from graduates in other disciplines (e.g., health sciences, business studies, economics, marketing, history, etc.) who have relevant experience will be considered. All applicants whose first language is not English or who have not been educated through the medium of English will need to present evidence of English language competency. Students will also be required to undergo Garda Vetting.

*Please click ‘Module Details’ for a full list of admission requirements available.*

**Social Work (M.S.W.)**

**DURATION:** 2 years full-time

**COURSE DIRECTOR:** Dr. Eavan Brady

**EMAIL:** master.socialwork@tcd.ie

**CLOSING DATE:** 8th February 2023

**WATCH COURSE VIDEO**  **MODULE DETAILS**

The programme offers professional social work education for applicants with a primary degree in Social Sciences or equivalent. Upon completion of the Master in Social Work/Postgraduate Diploma in Social Work successful candidates will be eligible to apply for registration as a professional social worker.

This is a two year full-time programme consisting of 14 weeks full-time academic attendance and 14 weeks full-time fieldwork placement in the first year, and 14 weeks full-time academic attendance and 14 weeks full-time field work placement in second year.

The programme has an international perspective and students may avail of international placement opportunities.

**Admission requirements**

Applicants should hold a level 8 primary social science degree (2.1 degree or higher), or equivalent, and a minimum of 850 hours relevant practice experience.

All applications for the Masters in Social Work must include the following documents:

› A breakdown and description of relevant work experience to date which indicates the total number of hours or weeks worked.

› Students are not required to provide 2 academic references instead they must provide one academic reference and one reference from their practice experience.

*Please click ‘Module Details’ for a full list of admission requirements available.*
Immunology (M.Sc.)

<table>
<thead>
<tr>
<th>DURATION</th>
<th>1 year full-time</th>
</tr>
</thead>
</table>
| COURSE DIRECTORS     | Professor Cliona O’Farrelly  
                        Dr. Michael Carty |
| EMAIL                | msc.immunology@tcd.ie |
| CLOSING DATE         | 31st July 2023    |

This M.Sc. in Immunology includes study of immunological processes and mechanism, how they contribute to disease and how they might be manipulated therapeutically. By focusing on the molecules, cells, organs and genes of the immune system, their interaction and how they are activated and regulated, students will develop a deep understanding of the pathological processes underpinning immune mediated disease and how they might be controlled. From a practical perspective the course involves in-depth instruction in modern methodologies used in immunology/biomedical research, including the fundamentals of molecular and cellular biology. Students will also be trained in experimental design, data handling and basic research skills.

The following modules are mandatory, and make up the taught components of the course: Basic Immunology; Immunological Technologies; Communicating Science and Critical Analysis; Immunogenetics; Microbe Detection and Evasion; Clinical Immunology; Parasite Immunology; Tumour Immunology; Global Infectious Diseases; Immunotherapeutics and Product Development. In addition, students will undertake a research project, conducted in one of the Immunology groups located within or affiliated to The School of Biochemistry and Immunology and will be required to submit a dissertation.

Add before Admission requirements: Graduates of this course have pursued careers in academic research, medicine and the pharmaceutical industry for which a thorough grounding in immunology, immune-mediated pathogenic mechanisms and immunotherapy is required.

Admission requirements

Applicants will normally be required to hold at least upper second class honours degree (2.1) or higher in Medicine, Veterinary Science, Molecular Biology, Genetics, Immunology, Biochemistry or a related subject.

Trinity College Dublin is at the forefront of immunological research worldwide where Clarivate analytics describe three Trinity immunologists in the top 1% of researchers worldwide based on number of citations. The M.Sc. in ImmunoTherapeutics is an innovative and multidisciplinary postgraduate degree for scientists wishing to pursue careers in the therapeutics industry and related fields.

This course is for scientists who wish to work in high-level jobs in the biopharma industry or continue further biomedical related research in academia. The programme is aimed at science, medical, veterinary and engineering graduates as well as employees in the pharmaceutical/biotech sector.

Students will learn about the immune system in cancer, autoimmunity, infection and neurodegeneration and how cutting-edge immunotherapies are revolutionising the treatment of life-threatening and debilitating diseases. Student will also explore the exciting technologies of DNA/RNA vaccines, antibody, stem cell and, CAR T-cell therapies, and immune-checkpoint blockade. Skills in business development, innovation, entrepreneurship and communication will be taught in the Trinity Business School and bioprocessing in the National Institute for Bioprocessing, Research and Training (NIBRT) at their state-of-the-art facility. Modules include: Fundamental Immunology – Bioprocessing; Advanced ImmunoTechnologies – Entrepreneurial Action; ImmunoTherapeutics – Computational Immunology; and Research in Action – Innovation and Drug Development.

This M.Sc. programme provides a six-month placement with industry.
Circular Economy and Recycling Technologies (P.Grad.Dip.)

**DURATION**  
1 year full-time

**COURSE DIRECTOR**  
Professor Iouri Gounko

**EMAIL**  
igounko@tcd.ie

**CLOSING DATE**  
31st July 2023

**MODULE DETAILS**

Waste management, scarcity of resources, minimizing emissions and energy use and maximizing selective reuse and recycling processes are some of the issues that need to be considered to allow for future economic growth, reduction of negative environmental impacts and to tackle climate disruption. The Circular Economy concept offers strong alternative solutions to these problems.

Graduates of this programme will be uniquely placed to work in a wide range of sectors such as manufacturing, environmental and recycling industries. Graduates will provide significant expertise and added value to companies and support growth and competitiveness across relevant Irish and European industries.

**Admission requirements**

This programme is suitable for graduates who have achieved an upper second-class honours degree (at 2.1 or above) or the international equivalent in either science or engineering. Those with an equivalent professional qualification are also encouraged to apply. Exceptions for those with relevant industrial or other experience may be considered. Applicants whose first language is not English or has not completed their undergraduate degree through the medium of English are welcome but may be required to demonstrate a competent level of English through an assessment or interview with the Course Director. A minimum GPA of 3.0/4.0, approximately equivalent to an overall grade of 70-75%, is required for entry.

*Please click ‘Module Details’ for a full list of admission requirements available.*

---

**Simerpreet**  
M.Sc. Computer Science graduate from India

Companies in Dublin are aware of this course due to the links between Trinity and industry and also because of previous years’ students who are doing well in many of these companies. I had job offer just two months before finishing my dissertation. This M.Sc. helped me to take one big leap in my career, compared to my previous work experience. I have already recommended and will recommend this course in future because of the amazing professors and lecturers at Trinity.
The M.Sc. in Computer Science (Augmented & Virtual Reality) equips students with the theoretical and practical knowledge to enable them to participate in the design and development of the technology that underpins the fast moving video game market and the wider industries of interactive entertainment, new media and communication.

Previous graduates from our M.Sc. programmes have gone on to work for games companies such as Havok, Electronic Arts, DemonWare and Playfirst, whilst others have joined leading visual effects studios such as Framestore CFC and Double Negative.

Admission requirements
The M.Sc. programme aims to produce very high quality graduates that can become leaders in high-tech industry and academic research. It will be intensive, demanding and rewarding.

For entry to the course, we require the following:

› A grade of at II.1 (Upper Second Class Honours) or higher from a reputable university, in Computing or a strongly related discipline.

› A standard of English language competence that will allow full participation in coursework, classwork and other activities – this means an IELTS level of 6.5

› You need to be able to be fully competent in programming. All candidates will have to complete a programming test in C, C++ or Java before being offered a place on the course. Some modules on the course may also require programming in Python and other languages.

› A strong work ethic and the resolve to strongly engage with the demanding programme.

Data Science or Big Data has become a hugely important topic in recent years, finding applications in Healthcare, Finance, Transportation, Smart Cities and elsewhere. In this strand, Trinity’s leading experts in this field will guide you through how to gather and store data (using IoT and cloud computing technologies), process it (using advanced statistics and techniques such as machine learning) and deliver new insights and knowledge from the data.

We expect our graduates to be in high demand for high-end research and development positions within leading multi-national companies and start-up companies alike. In some cases our graduates have gone on to take up funded Ph.D. studies at TCD.

Admission requirements

› A grade of at II.1 (Upper Second Class Honours) or higher from a reputable university, in Computing or a strongly related discipline.

› A standard of English language competence that will allow full participation in coursework, classwork and other activities – this means an IELTS level of 6.5

› You need to be able to be fully competent in programming. All candidates will have to complete a programming test in C, C++ or Java before being offered a place on the course. Some modules on the course may also require programming in Python and other languages.

› A strong work ethic and the resolve to strongly engage with the demanding programme.

Please click ‘Module Details’ for a full list of admission requirements available.
## Computer Science – Future Networked Systems (M.Sc.)

<table>
<thead>
<tr>

<tr>
<td>CLOSING DATE</td>
<td>31st July 2023</td>
</tr>
</tbody>
</table>

The **Future Networked Systems** strand deals with how things become smart and connected as software systems are more and more embedded in our everyday environments, from mobile social networking to managing city resources such as road traffic. Dealing with such large-scale, cyber-physical and distributed systems requires novel approaches that address timeliness, safety, privacy and scale challenges. The strand builds on research activity within the CONNECT national research centre and a long history of innovation and start-up companies at the school.

Previous graduates from the strand have gone on to work in software engineering, fintech and other roles in companies such as Facebook, Microsoft, Citi and Genesys.

### Admission requirements

- A grade of at II.1 (Upper Second Class Honours) or higher from a reputable university, in Computing or a strongly related discipline.
- A standard of English language competence that will allow full participation in coursework, classwork and other activities – this means an IELTS level of 6.5 overall with no single component below 6.0
- You need to be able to be fully competent in programming. All candidates will have to complete a programming test in C, C++ or Java before being offered a place on the course. Some modules on the course may also require programming in Python and other languages.
- A strong work ethic and the resolve to strongly engage with the demanding programme.

Please click ‘Module Details’ for a full list of admission requirements available.

## Computer Science – Intelligent Systems (M.Sc.)

</tbody>
</table>

The M.Sc. in Computer Science (Intelligent Systems strand) focuses on smart, interactive web applications and systems, which are becoming an integral part of our daily lives at home, in the workplace, and in social interaction. Designing and building these systems requires expertise in artificial intelligence, human language understanding and generation, web systems and applications, data analytics and knowledge engineering. This strand is closely linked to the school’s research groups involved in the ADAPT centre for Digital Content Technology.

Employment opportunities exist in a wide range of areas such as internet-based services, financial services, mobile communication companies. Students will also benefit from the comprehensive research scope, networks, and wealth of research achievements in both the School and the ADAPT Centre.

### Admission requirements

- A standard of English language competence that will allow full participation in coursework, classwork and other activities – this means an IELTS level of 6.5
- You need to be able to be fully competent in programming. All candidates will have to complete a programming test in C, C++ or Java before being offered a place on the course. Some modules on the course may also require programming in Python and other languages.
- A strong work ethic and the resolve to strongly engage with the demanding programme.

Please click ‘Module Details’ for a full list of admission requirements available.
Interactive Digital Media (M.Sc.)

DURATION 1 year full-time
COURSE DIRECTOR Professor Mads Haahr
EMAIL postgraduate@scss.tcd.ie
CLOSING DATE 31st July 2023

The course is designed to help students learn how to design, develop and understand digital media applications and content on existing and emerging platforms. The course covers the programming languages and applications used in digital media, a range of design techniques (graphic design, interactive design, UI/UX design, game design) as well as approaches to content creation in a range of modalities (moving image, audio, sensor technologies). In addition to practical skills, the course also covers critical thinking around digital media, giving the students the ability to situate works and ideas in relevant cultural contexts.

The M.Sc. in Interactive Digital Media enables graduates to work and stay current in the digital media sector. Graduates work in many roles across the digital sector, including design, development, content, analysis, research, entrepreneurship and leadership.

Admission requirements
A 2.1 (60-69%) grade or higher from a reputable university is required, although exceptions can be made on the basis of considerable professional and/or creative experience. Students are accepted from a wide range of disciplines, ranging from computer science and engineering to the arts, humanities and design. A standard of English language competence that will allow full participation in coursework, classwork and other activities is required, i.e., an IELTS level of 6.5 overall with no single component below 6.0.

Please click ‘Module Details’ for a full list of admission requirements available.
School of Engineering

Applied Building Repair and Conservation (P.Grad.Dip.)

**DURATION**  
1 year full-time

**COURSE DIRECTOR**  
Dr. Sara Pavia

**EMAIL**  
makeatin@tcd.ie

**CLOSING DATE**  
31st July 2023

This one-year postgraduate course is designed to provide a solid knowledge of materials and built fabrics, both modern and traditional, the causes and mechanisms of failure and the traditional as well as the most advanced ways to repair and preserve them. In addition, on completion of the Diploma, the student is expected to successfully complete a research project and produce specifications for conservation work. The student is expected to develop an understanding of how to manage a conservation project. This course has been approved by Engineers Ireland as meeting its requirements for continuing professional development. This course is recognised by the RIAI (Royal Institute of the Architects of Ireland) in connection with the RIAI Conservation Accreditation System.

**Admission requirements**

Please note that applications require professional references.

*Please click 'Module Details' for a full list of admission requirements available.*

---

Biomedical Engineering (M.Sc.)

**DURATION**  
1 year full-time

**COURSE DIRECTOR**  
Professor Michael Monaghan

**EMAIL**  
MONAGHMI@tcd.ie

**CLOSING DATE**  
22nd July 2023

The M.Sc. in Biomedical Engineering provides an advanced training and education to the next generation of biomedical engineers. Biomedical Engineering is considered as the application of engineering principles to advance healthcare and medicine. Some of the most exciting work in biomedical engineering today takes place at the intersection of the biological, physical, chemical, engineering and digital disciplines; making significant impacts on human healthcare.

The M.Sc. in Biomedical Engineering brings students to exciting new developments in biomedical engineering today, ranging from development of new materials for use in cardiac therapeutics, designing innovative next generation medical devices, *in silico* design and modelling, to growing and regenerating new tissues for tissue replacement and in vitro disease modelling.

This M.Sc. programme also provides an excellent foundation for a continued research career with many graduates pursuing Ph.D. research in diverse biomedical engineering related fields both nationally and internationally.

**Admission requirements**

Applicants will be required to hold a minimum of an upper second class honours degree (2.1 or higher) in engineering, biomedical technology, or a cognate discipline. All applications will be reviewed after the closing date and shortlisted candidates will be invited for interview.

*Please click 'Module Details' for a full list of admission requirements available.*
Engineering for Climate Action (P.Grad.Dip.)

**DURATION** 1 year full-time

**COURSE DIRECTOR** Assistant Professor John Gallagher

**EMAIL** j.gallagher@tcd.ie

**CLOSING DATE** 31st July 2023

This full-time or part-time Postgraduate Diploma (Level 9) targets individuals who have recently taken up, or wish to transition into, positions of responsibility for sustainability and climate action, either within an existing organisation or as part of a newly formed company delivering organisational support in this area. Providing students with the knowledge and experience to effectively respond to the climate and biodiversity emergency and make a sustainable impact at an individual, organisational and national level.

The course will empower graduates to define balanced solutions to support a low-carbon and resilient future, whilst maximising the value in the life cycle of finite global resources from efficient consumption through to environmental management. The primary goal of the programme is to develop graduates with complementary technical and non-technical skills achieved through experts from engineering, business and psychology providing unique contributions towards climate action. A core focus of the programme is to support climate action measures in key areas of energy and resource pathways in transport, the built environment and industry through informed and innovative climate action.

This multidisciplinary course will create experts that can develop, implement and assess climate action measures, and in doing so deliver technological, social and organisational solutions which help achieve sustainable development goals.

**Admission requirements**

Admission to the course is competitive. Applicants will be expected to have an Honours Bachelor’s degree at 2.1 or above, in a STEM (science, technology, engineering or mathematics), architecture, or a related cognate discipline.

---

Engineering (Environmental/Structural and Geotechnical/Transport/Sustainable Energy) (M.Sc.)

**DURATION** 1 year full-time/2 years part-time

**COURSE DIRECTOR** Assistant Professor Liwen Xiao

**EMAIL** civeng@tcd.ie

**CLOSING DATE** See www.tcd.ie/courses

This is a one year full-time or two year part-time postgraduate course designed to provide graduate engineers with specialist understanding in one of the following areas: Environmental Engineering, Structural and Geotechnical Engineering, Transport Engineering, Policy and Planning, or Sustainable Energy Engineering. This level 9 programme is accredited by Engineers’ Ireland.

Graduates have gained employment opportunities with private sector firms and county councils such as RPS Group, Arup, Jones Engineering Group and Dublin County Council. Students can also choose to pursue further study. In previous years, our graduates received offers to study PhD degree from international leading universities such as Trinity College Dublin, Imperial College London, and University College London.

**Admission requirements**

The minimum entry criteria are an upper-second honours degree (or equivalent) in an Engineering or related degree. Relevant Industrial Experience may be taken into account in allocating places, where the course is oversubscribed.

*Please click ‘Module Details’ for a full list of admission requirements available.*
School of Engineering

Mechanical Engineering/Zero-Carbon Technology (M.Sc.)

**DURATION** 1 year full-time

**COURSE DIRECTOR** Kevin O’Kelly

**EMAIL** julee@tcd.ie

**CLOSING DATE** 31st July 2023

The M.Sc. in Mechanical Engineering addresses advanced topics over a wide range of Mechanical and Manufacturing Engineering subjects. Within the M.Sc., there is a wide range of module options and an excellent opportunity to engage in topical research with leading research groups within the School of Engineering.

An important part of the M.Sc. programme is a research dissertation, which directly builds on some of the content of the modules. Themed areas include advanced manufacturing, materials, fluid mechanics and automation design. Students may also follow the “Zero Carbon Technology” option with a focus on technology to achieve the transformation to low-carbon energy and transport. The Zero Carbon Technology strand will cover power, transport and resources with related business and planning options.

**Admission requirements**

Admission is normally restricted to graduates who have achieved an upper second class honours degree (2.1), or better, in engineering, science, computing, statistics, mathematics or a related discipline. Well-qualified candidates or industry professionals from other numerate disciplines who have sufficient knowledge of engineering and science, may also be considered.

Please click ‘Module Details’ for a full list of admission requirements available.

Music and Media Technologies (M.Phil.)

**DURATION** 1 year full-time

**COURSE DIRECTOR** Dr. Dermot Furlong

**EMAIL** murphc49@tcd.ie

**CLOSING DATE** 31st July 2023

In recognition of a shared interest in Information Technology and a growing awareness of its relevance for music, Trinity has developed this masters programme.

A particular feature of this programme is a balanced approach to musical and technological topics. Musically, a strong emphasis is placed on the development of adaptable compositional skills, while technological topics are addressed from both a hands-on workstation/studio exposure and a fundamental mathematical and scientific basis, which focuses on musically relevant issues.

The first two semesters form a self-contained Postgraduate Diploma course which provides the necessary musical and technological skills to allow creative individuals to engage in computer-assisted composition and production, apply software tools for the music and New Media industries and/or enter the arena of music-on-screen; production for New Media products.

The third (summer) semester of study, leading to the M.Phil. degree, is an option open to those achieving a sufficient standard in their first & second semester module assignments and exams. Students are required to complete a thesis which can be of a musical or technological nature.

**Admission requirements**

Acceptance for the course is based on an overall assessment, which takes into account:

› Musical/compositional/artistic and/or technological ability as evidenced by a portfolio submission

› Formal musical knowledge – ideally level 5/6

› References

› Interview
### High Performance Computing (M.Sc.)

**DURATION**  
1 year full-time

**COURSE DIRECTOR**  
Dr. Michael Peardon

**EMAIL**  
mjp@maths.tcd.ie

**CLOSING DATE**  
31st July 2023

This is a one year (full time) taught M.Sc. in High Performance Computing. The degree provides practical training in the emerging high performance computing technology sector.

The aim of the course is to train students in practical applications of high-performance technical computing in industry, finance and research. Course content includes computer architecture, software optimisation, parallel programming, classical simulation and stochastic modelling. Application areas include simulation of physical, chemical and biological systems, financial risk management, telecommunications performance modelling, optimisation and data mining. The course has a number of optional elements, allowing specialization in application areas.

The course includes a strong practical element. Students have unlimited access to a dedicated teaching computing laboratory, and access to the facilities of the Trinity College Centre for High-Performance Computing, which include large-scale parallel computers. Career opportunities include mathematical modeling, simulation and forecasting, database mining and resource management. The techniques covered during the year will allow students to work in advanced software development including parallel and concurrent software applications.

High-performance technical computing methods are becoming increasingly widespread in research into mathematics, physics, chemistry and biotechnology, engineering and finance, providing a wide range of options for the student wishing to go on to further research.

### Quantum Fields, Strings and Gravity (M.Sc.)

**DURATION**  
1 year full-time

**COURSE DIRECTOR**  
Professor Andrei Parnachev

**EMAIL**  
parnachev@maths.tcd.ie

**CLOSING DATE**  
31 July 2023

The M.Sc. in Quantum Fields, Strings and Gravity offers advanced education in modern High Energy Theory and Mathematical Physics. The topics include String Theory, Conformal Field Theory, General Theory of Relativity & Cosmology, Quantum Field Theory and Lattice Gauge Theory. Students will have an opportunity to discuss cutting edge research and perform their own M.Sc. dissertation work under the supervision of Trinity staff, who are world class experts in the field.

The aim of the programme is to give undergraduate students an excellent opportunity to advance their knowledge and skills up to a level required for doctoral level research.

The course also allows for a variety of educational backgrounds and offers two-tiered selection of modules (fundamental and advanced) which are tailored to the level of incoming students.

**Admission requirements**

Applicants are expected to have a first bachelor degree in Theoretical Physics or Mathematics or Physics with a strong Theoretical Physics component. All applicants must provide a personal statement detailing their interests and clearly indicate whether they wish to follow formal or lattice pathway on their application. The applicants should also provide their up to date transcripts and arrange for two recommendation letters. A possible skype interview may be required.

*Please click 'Module Details' for a full list of admission requirements available.*
School of Natural Sciences

Biodiversity and Conservation (M.Sc.)

DURATION 1 year full-time
COURSE DIRECTOR Dr. Stephen Waldren
EMAIL swaldren@tcd.ie
CLOSING DATE 30 June 2023

Module Details

This programme has been designed to provide students with a sound theoretical and practical grounding in the science of biological diversity and its conservation. The programme is taught in modules, and these are grouped into theoretical components, practical research skills, and modules dealing with individual desk-based and experimental research projects. The course is taught through a variety of methods – lectures, practical classes, field-based learning, guided reading and discussion groups and web-based methods. A variety of assessment procedures are used – essay writing, oral presentations, web-based tests, examinations and dissertations. The approach is to develop, progressively, a high degree of independent thinking and academic excellence in students completing the course.

Following successful completion of the taught part of the course, students embark on a closely supervised research project of approximately three months duration, intended to expand the skills and knowledge base acquired in earlier modules.

Admission requirements

Applicants should hold at least an upper second class honours degree in a science subject that includes significant components of botany, zoology or a relevant life science. Non-EU applicants will be required to hold an equivalent qualification. Candidates with relevant, and significant, experience as professional practitioners in biodiversity management or policy may be accepted with lower qualifications.

Please click ‘Module Details’ for a full list of admission requirements available.

Development Practice (M.Sc.)

DURATION 1 year full-time
COURSE DIRECTOR Professor Pádraig Carmody
EMAIL mdpdub@tcd.ie
CLOSING DATE 31st July 2023

Module Details

The Master in Development Practice is part of a global network with a Secretariat at the United Nations Sustainable Development Solutions Network with offices at Columbia University in New York (and was the only programme to receive seed funding in Europe in the first round).

This course is part of the only global educational network of its kind, involving more than 30 universities across all continents. Students receive leading edge transdisciplinary training in four “pillars”-health, natural, social, management sciences.

Students are encouraged to spend up to three months completing cross-disciplinary fieldwork in a developing location. To date, students have undertaken fieldwork in Rwanda, Tanzania, Uganda, Sierra Leone, Senegal, Brazil, Malawi, India, USA, Vietnam and Madagascar.

Admission requirements

› Holders of first or upper-second class honours degrees (grade point average 3.5 equivalent) awarded by recognised universities and institutions, and recognised degree awarding bodies (e.g. NCEA, CNAA)
› Holders of other degrees from recognised universities or degree granting institutions who have experienced at least three years of appropriate employment
› Holders of recognised professional qualifications obtained through examinations who have spent at least four years in study and who, in addition, have been employed for at least two years in the work of their profession

Please click ‘Module Details’ for a full list of admission requirements available.
Environmental Sciences (M.Sc.)

**DURATION**  
1 year full-time

**COURSE DIRECTOR**  
Juan Diego Rodriguez Blanco

**EMAIL**  
rodrigjd@tcd.ie

**CLOSING DATE**  
31st July 2023

The taught M.Sc. degree in Environmental Sciences, as the first of its kind in Ireland, has an established pedigree, attracting students with diverse academic backgrounds from Ireland and abroad. This full-time, intensive course is intended for administrative and scientific workers and new graduates with an appropriate environmental science related background, although applications from graduates with different backgrounds are also welcomed. It comprises a series of taught modules encompassing a variety of current environmental themes, followed by a five-month, research project. There is also the possibility to opt for a diploma course in Environmental Sciences, consisting of the taught modules only.

The course provides students with a wide range of knowledge and skills relating to the expanding subject of Environmental Science. It aims to provide a firm scientific understanding of current environmental issues that will be of relevance to those interested in environmental management and related areas.

Previous graduates of this M.Sc. course have been employed by a range of agencies involved in environmental protection, as environmental consultants and in local government. Many graduates have gone on to do further research in a range of environmentally related disciplines. Graduates from the course have pursued their interests in environmental sciences throughout the world.

The CHARM-EU Master’s in Global Challenges for Sustainability is an international, innovative, flexible, inclusive programme with a challenge-driven, research-based curriculum, enabling transdisciplinary approaches, addressing global societal challenges and skills shortages and focusing on reconciling humanity with the planet.
School of Natural Sciences

Global Challenges for Sustainability (Charm EU) (M.Sc.)

DURATION 18 months full-time
COURSE DIRECTOR Professor Catherine Comiskey
EMAIL charm-eu@tcd.ie
CLOSING DATE 15th April 2023

The CHARM-EU Master’s in Global Challenges for Sustainability offers a unique international learning opportunity. CHARM-EU students will have the chance to address the pressing need for sustainability in a transdisciplinary and challenge-based environment. This international programme will employ innovative pedagogical approaches and mechanisms to engage staff and students of diverse backgrounds and disciplines to facilitate, foster and enhance the links between education, research and innovation. Furthermore, active engagement with CHARM-EU’s extended network of academic experts and extra-academic actors (i.e. business, community and society), increases the potential development and employability of our graduates.

Delivered full-time over 18 months, the delivery of the course will incorporate flexible, blended and hybrid formats. The Master’s degree is accredited and jointly awarded by the five CHARM-EU partner universities: University of Barcelona, Trinity College Dublin, Utrecht University, Eötvös Loránd University and University of Montpellier.

Further details available at www.charm-eu.eu/masters/globalchallenges or email info@charm-eu.eu

Admission requirements
Applicants must hold at least a bachelor degree or recognised equivalent. In the case of students with a French Licence they will need an additional 30 Credits (ECTS) for admission.

English language certification is necessary for programme admission. C1 is the required level. Students with B2 level will be considered in conjunction with other admission criteria but must attain C1 level before programme registration.

Please click ‘Module Details’ for a full list of admission requirements available.

Smart and Sustainable Cities (M.Sc.)

DURATION 1 year full-time
COURSE DIRECTOR Dr. Philip Lawton
EMAIL Philip.lawton@tcd.ie
CLOSING DATE 31st July 2023

Projects for smart cities involve the regeneration of existing urban areas as well as the creation of large new settlements, and have a major positive impact on the many environmental, social and economic systems that underpin the planet. Meanwhile, and with a strong overlap with smart city initiatives, cities around the world are reacting to broader environmental challenges, such as climate change through measures aimed at developing sustainable solutions. The global scale of such challenges has been recognized within the Sustainable Development Goals (SDG’s) under the heading of ‘Sustainable Cities and Communities’. Here, the promotion of safe, inclusive and sustainable cities is outlined as a central pillar of creating a sustainable urban future. Smart-city initiatives have a multi-dimensional nature.

Admission requirements
Admission to the course is competitive. Applicants will be expected to have an honours bachelor degree at 2.1 or above in a social science or science-based course such as Engineering, Sociology, Computer Science, Economics, Geography or cognate fields.

In case of heavy competition for places or concerns regarding a particular applicant’s suitability, applicants may be interviewed or asked to submit a written sample for assessment. Non-standard applicants may be considered in exceptional circumstances based on workplace experience or other criteria relevant under the Recognition of Prior Learning policy.

Please click ‘Module Details’ for a full list of admission requirements available.
School of Natural Sciences

Energy Science (M.Sc.)

**DURATION** 1 year full-time  
**COURSE DIRECTOR** Professor Stephen Dooley  
**EMAIL** energyscience@tcd.ie  
**CLOSING DATE** 31st July 2023

This masters programme aims to provide students with a science, engineering or other appropriate background, with a broad knowledge and experience of the science and application of both conventional and sustainable energy technologies. The connection between physics, chemistry, earth science and economics determines how energy is utilised, the environmental consequences of its use, and in turn determines many government policies across the globe. A working understanding of each of these areas is necessary for students inspired to pursue a career in the energy sector, or for those interested in communicating or managing the environments impact of the world’s energy use, such as climate change.

**Admission requirements**

This M.Sc. is suitable for graduates who have achieved an upper second class honours degree or the international equivalent in either physical sciences or engineering. However, applications from similarly qualified candidates from other disciplines are welcome if they can demonstrate a sufficient level of knowledge or interest in Energy Science.

Applications will be accepted until June 30th (non-EU applicants) and July 31st (EU applicants). Final decisions on all applications will be made by July 31st. However, as entry to the M.Sc. in Energy Science is highly competitive, early application is advised.

Please click ‘Module Details’ for a full list of admission requirements available.

Quantum Science and Technology (M.Sc.)

**DURATION** 1 year full-time  
**COURSE DIRECTOR** Professor John Goold  
**EMAIL** quantum@tcd.ie  
**CLOSING DATE** 31st July 2023

The M.Sc. in Quantum Science and Technology offers advanced training in quantum science with a specific orientation towards the quantum tech industry. It is designed to draw on the research excellence in quantum information science and material science that is currently conducted at Trinity.

The aim of the programme is to give students an opportunity to learn the state of the art developments in quantum information theory and quantum software development as well as gaining knowledge of the physics of modern quantum hardware.

An academic or industrial placement will be offered as part of the programme. Graduates of this programme will not only be attractive to the expanding quantum tech industry but also will have built a strong knowledge base for pursing Ph.D. research in quantum physics.

**Admission requirements**

Admission to the course is competitive. Applicants will be expected to have an honours bachelor degree at 2.1 or above in a physics, mathematics, computer science or engineering degree (or equivalent). Applicants with lower than a 2.1 will be considered on a case by case basis by the Dean of Graduate Studies. In case of heavy competition for places or concerns regarding a particular applicant’s suitability, applicants may be interviewed online.

Please click ‘Module Details’ for a full list of admission requirements available.
Dental Surgery (D.Ch.Dent.)

DURATION 3 years full-time

EMAIL postgrad.admin@dental.tcd.ie

CLOSING DATE See www.tcd.ie/courses

SPECIAL CARE DENTISTRY 
COURSE DIRECTOR Dr. Alison Dougall

PERIODONTICS 
COURSE DIRECTOR Dr. Ioannis Polyzois

PROSTHODONTICS 
COURSE DIRECTOR Dr. Michael O’Sullivan

ORAL SURGERY 
COURSE DIRECTOR Mr. Dermot Pierse

ORTHODONTICS 
COURSE DIRECTOR Therese Garvey

PAEDIATRIC DENTISTRY 
COURSE DIRECTOR Dr. Anne O’Connell

DENTAL PUBLIC HEALTH 
COURSE DIRECTOR Associate Professor Brett Duane

Admission requirements
Applicants will be considered only if they have held a primary dental qualification for at least two years. The MFD/MJDF or equivalent is mandatory. Normally, up to 12 months should have been spent working in hospital practice. Good communication skills in English are essential. Minimum requirements are an IELTS score of 7 or TOEFL score of 230 computer-based, 570 paper-based, 88 internet-based across all domains. Students will be required to undergo Garda Vetting.

Note: Dental Surgery (Paediatric Dentistry) (D. Ch. Dent.) and Dental Surgery (Orthodontics) (D. Ch. Dent.) will not run for 2023/24. Next expected intake for both will be September 2024. Closing date for both will be 31st October 2023.

Please click ‘Module Details’ for a full list of admission requirements available.
Addiction Recovery (M.Sc.)

DURATION 1 year full-time

COURSE DIRECTORS Professor Joe Barry
Dr. Jo-Hanna Ivers

EMAIL joeberry@tcd.ie, jivers@tcd.ie

CLOSING DATE 31st July 2023

The M.Sc. is designed for Addiction Recovery Practitioners working across the Addiction and support services. The course is offered by the Discipline of Public Health and Primary Care at the School of Medicine, Trinity College Dublin with a range of teaching from leading experts from across Trinity College as well as leading clinicians the Health Service Executive. The course is a fusion between Public Health, Psychiatry, Psychology and Neuroscience. It is the first course of its kind in Ireland.

The course curriculum corresponds directly with the actions set out in the National Drug Strategy (NDS) ‘Reducing Harm, Supporting Recovery 2017-2025’ as well as the principle for recovery as set out by the Recovery Academies of Ireland, UK, Scotland, Australia and the United States.

Admission requirements

Graduate level 2.1, prospective students will be graduates in a health or social care related discipline with at least 3 years professional experience. Other applications may be considered in exceptional circumstances, based on workplace experience. In the case of applicants with no professional experience a submission may be considered by the course committee where the student can secure placement for the duration of the course and the course committee are satisfied that the student will adequately benefit from completing the course.

Please click ‘Module Details’ for a full list of admission requirements available.

Applied Clinical Neuropsychology (M.Sc.)

DURATION 1 year full-time

COURSE DIRECTOR Professor Niall Pender

EMAIL neuropsychology@tcd.ie

CLOSING DATE 31st July 2023

This new M.Sc. programme is the first of its kind in Ireland and has been designed for psychology graduates with a keen interest in neuropsychology. Students will join a vibrant community of academics and clinicians at the Academic Unit of Neurology, School of Medicine, and acquire a unique interdisciplinary, research-led learning experience, from experts in Neurology, Neuropsychology and Neuroscience.

Students will develop an understanding of key research methodologies used in the assessment of brain-behaviour relationships together with an extensive knowledge of the differential clinical presentations, diagnostic issues and neuropsychological profiles of a broad range of neurological disorders and diseases. Students will explore key concepts in neurorehabilitation and relevant therapies in the clinical care and management of these complex neurological conditions.

This programme has been designed to equip psychology graduates with the underpinning knowledge and skills desired for assistant/research psychology posts, or for those who wish to pursue clinical/educational psychology/counselling training or entry to a PhD research programme.

Admission requirements

Applicants will be required to hold at least a minimum of an upper second-class honours degree (2.1) in psychology from a recognised university course, which confers eligibility for graduate registration with the Psychological Society of Ireland or equivalent professional body in the case of overseas applicants. Students will be required to undergo Garda Vetting.
Biomedical Sciences (Intercalated) (M.Sc.)

**DURATION** 1 year full-time

**COURSE DIRECTOR** Dr. Henry Windle

**EMAIL** hjwindle@tcd.ie

**CLOSING DATE** 31st July 2023

**MODULE DETAILS**

Students will take a core module in Clinical Research based in the Clinical Research Facility, St James’s Hospital and concurrently follow one of five specialist tracks, which will be provided by the actual modules as offered by the currently running five masters courses: (i) the masters course in molecular medicine, (ii) the masters course in neuroscience, (iii) the masters course in immunology (iv) the masters course in translational oncology or (v) the masters course in healthcare infection management. Students will then conduct a three month research project and will submit a dissertation based on this project. Applicants will be notified when the course application is open.

**Admission requirements**

Admission to this course is restricted to undergraduate students on year 3 (and occasionally year 4) in the School of Medicine in Trinity College Dublin. At this point, students will have qualified for a B.A. which is normally awarded when the students are conferred with their final M.B. The intercalated masters will also be conferred at this point. The course is coordinated through the Department of Clinical Medicine, Trinity, St James Hospital Dublin. When completing the Trinity online application please ensure referees are Trinity academics.

Please click ‘Module Details’ for a full list of admission requirements available.

Cancer Survivorship (M.Sc./P.Grad.Dip.)

**DURATION** 1 year full-time

**COURSE DIRECTOR** Professor Deirdre Connolly

**EMAIL** MScCancerSurv@tcd.ie

**CLOSING DATE** 31st July 2023

**WATCH COURSE VIDEO**

This postgraduate programme is aimed at health care professionals from a wide range of backgrounds, including medicine, nursing and allied healthcare disciplines, who are involved in the provision of care to cancer patients. It offers an evidence-based approach to the management of physical and psychosocial issues that arise in cancer survivorship. Cancer survivorship is recognised as a distinct period within the cancer continuum that commences at diagnosis and continues through until the end of life.

This course is delivered by a multidisciplinary academic team and examines the physical and psychosocial sequelae of cancer and its treatment on cancer survivors and provides students with the knowledge and skills to apply evidence-based practice to cancer survivorship care. For the first time the National Cancer Survivorship Programme under the 2017-2026 National Cancer Strategy places cancer survivorship at the heart of the Irish cancer agenda, therefore this course suits healthcare professionals who wish to upskill in the evaluation, development and implementation of cancer survivorship care.

Further information is available at: www.tcd.ie/medicine/occupational-therapy/postgraduate/msc-cancer-survivorship
Diagnostic Radiography (M.Sc.)

DURATION 2 years full-time

COURSE DIRECTOR Professor Suzanne Dennan

EMAIL dennans@tcd.ie

CLOSING DATE 30th June 2023

The M.Sc. in Diagnostic Radiography is aimed at graduates with a science or healthcare related undergraduate degree that wish to pursue a career in diagnostic radiography.

The course is designed to provide high quality academic education and practical training to enable graduates to practice safely and independently as diagnostic radiographers. The programme will equip diagnostic radiography graduates with the necessary technical and professional skills required to meet the demands of a constantly evolving profession.

Students will spend the majority of the summer period in clinical placement, developing the required practical radiography skills.

Admission requirements

The entry requirement for the course is at graduate level. Prospective students will be graduates with a science or healthcare related undergraduate degree (minimum 2.1 level degree). Graduates from other disciplines may also be considered.

Other applications may be considered in exceptional circumstances based on workplace experience. Applications for admission to the course will be made online. Short-listed applicants will be invited for interview. Applicants will be scored at interview on the basis of motivation, communication skills, academic achievements and knowledge of diagnostic radiography. Applicants are strongly recommended to visit a Radiology Department prior to interview.

Students will also be required to undergo Garda Vetting.

Please click ‘Module Details’ for a full list of admission requirements available.

Entrepreneurship of Smart Medicines (M.Sc.)

DURATION 1 year full-time

COURSE DIRECTOR Professor Kumlesh K. Dev

EMAIL devk@tcd.ie

CLOSING DATE 31st July 2023

This M.Sc. in Entrepreneurship of Smart Medicines is ideally suited for entrepreneurs, business sector specialists, venture consultants and professionals.

Students will undertake five taught modules and a research project. This course is designed to provide a new language to those coming from a non-biology background in drug discovery and pharmaceutical development.

The course is designed to provide a language of business and commercialisation to those who are knowledgeable in the area of biology. This M.Sc. trains, converts and upskills the “biologist-to-business” and “business-to-biologist”. It also provides training in the area of drug development, biotech, pharma and commercialisation.

Admission requirements

Applicants will be expected to have an honours bachelor degree at 2.1 or above. Applicants should have a primary degree in science (e.g. cell biology, immunology, neuroscience, pharmacology, physiology), health sciences (e.g. medicine, nursing, allied health) and/or business (e.g. entrepreneurs, business specialists, venture consultants). Applicants with other primary degrees will be considered. Other applicants without a primary degree may be considered in exceptional circumstances based on workplace experience.

Please click ‘Module Details’ for a full list of admission requirements available.
Genomic Medicine (M.Sc.)

DURATION: 1 year full-time
COURSE DIRECTOR: Professor Ross McManus
EMAIL: rmcmanus@tcd.ie
CLOSING DATE: 31st July 2023

This M.Sc. offers a state of the art date overview of the emerging field of Genomic Medicine which is increasingly impacting on the conduct of medical practice and life science research, leading to the era of personalised medicine. The course aims to provide participants with the knowledge and skills to generate, evaluate and apply genomic data, covering analytical, technological and biomedical aspects. Understanding the importance of genomic variation and its impact on biology, opens up the possibility of advanced diagnostics and precision treatments, as well as an improved fundamental understanding of disease mechanisms and the effects of environmental exposures. Such developments will in turn lead to further, more specific therapeutic vistas.

This M.Sc. will include multi-disciplinary training on a wide range of topics from genomics and cell biology, to analytical techniques and medical applications catering from basic to advanced levels. Optional modules will allow participants to tailor the programme to best suit their state of knowledge and professional aspirations.

Admission requirements
The programme is aimed at participants from a wide range of backgrounds from basic scientists to clinicians and those involved in the life science/pharmaceutical industry and related fields. Those with a science degree should have achieved at least a 2.1 honours degree or equivalent. Relevant professional experience will be taken into account.

Please click ‘Module Details’ for a full list of admission requirements available.

Global Health (M.Sc.)

DURATION: 1 year full-time
COURSE DIRECTOR: Dr. Ann Nolan
EMAIL: global.health@tcd.ie
CLOSING DATE: 30th June 2023

This innovative and successful programme, run by the Trinity Centre for Global Health, aims to provide graduates with a greater appreciation of the global interconnectedness of health problems and to equip them with a range of analytical and methodological skills to address the challenges of global health. Designed for individuals from a wide range of disciplines and professions, the programme adopts a multidisciplinary approach that integrates a wide range of disciplines and professions, the programme adopts a multidisciplinary approach that integrates health and social science perspectives to analyse, design, implement and evaluate health programmes within a global context.

Global health is an attempt to address health problems and issues that transcend national boundaries, and are informed by the circumstances and experiences of countries in differing contexts. The underlying assumption is that the world’s health problems are shared and are best tackled by cooperative action and the sharing of innovative solutions.

The M.Sc. in Global Health augments traditional approaches to public and international health by bringing together perspectives and insights from a range of health and social sciences in understanding and resolving the challenges of global health. These problems may arise, for example, in relief and development programmes in developing countries; in conflict and post-conflict situations; with refugees, asylum seekers and economic migrants; with tourists and business travellers.
Global Mental Health (M.Sc.)

**DURATION**
1 year full-time

**COURSE DIRECTOR**
Dr. Tania Bosqui

**EMAIL**
bosquit@tcd.ie

**CLOSING DATE**
30th June 2023

Based in the Trinity Centre for Global Health, an interdisciplinary centre co-located across the Schools of Psychology and Medicine, the Masters in Global Mental Health is a one-year full-time (or two-year part-time) taught programme offering an in-depth, critical exploration of global mental health.

Students enrolled on the M.Sc. Global Mental Health will receive extensive theoretical and practical training on programming within Mental Health and Psychosocial Support (MHPSS), delivered in collaboration with international and non-governmental humanitarian organisations. Students will also receive advanced training in global mental health research, including qualitative and quantitative methodologies, as well as research ethics. The Masters in Global Mental Health offers a comprehensive programme suitable for those pursuing a career in global mental health research, mental health and psychosocial programming, project management, or policy.

**Admission requirements**
Applicants will be expected to have an Honours Bachelor degree at 2.1 or above, in a global health-related and/or psychology-cognate area from a recognised university. Applicants should also have international experience, a strong interest in global mental health, and a strong command of the English language as set out in Trinity’s postgraduate English Language Requirements outlined in Calendar III.

The closing date for applications for entry onto the course will be end of June, each year. Late applications may be considered in the event of places not being filled.

Please click ‘Module Details’ for a full list of admission requirements available.

Healthcare Infection (M.Sc.)

**DURATION**
1 year full-time

**COURSE DIRECTOR**
Dr. Julie Renwick

**EMAIL**
renwickj@tcd.ie

**CLOSING DATE**
30th June 2023

The M.Sc. in Healthcare Infection aims to provide graduates with a comprehensive understanding of the multiple disciplines that must align to deliver effective control of human pathogens in the hospital and community settings. The course will provide foundation and advanced knowledge on the monitoring, prevention, diagnosis, and treatment of infectious diseases. There will also be a laboratory-based project for M.Sc. students that will enable students to acquire new laboratory skills and perform research on a topic that is relevant to contemporary healthcare.

**Admission requirements**
Applications will normally be received from those who hold one of the following qualifications:

› A medical degree
› An honours degree in Biomedical Sciences, Nursing, Pharmacy, or Microbiology
› An honours degree in another relevant science subject

Applications may also be received from individuals with a minimum of three years of relevant healthcare experience and suitable qualifications. Note, a 2.1 grade or equivalent must be achieved in any undergraduate degree to qualify for admission to this course. Applicants meeting these requirements may be required to attend for interview.

All applicants whose first language is not English and who have not been educated through the medium of English must present a qualification in English Language e.g. IELTS: Grade 6.5 overall (no band grade below 6.0)

Please click ‘Module Details’ for a full list of admission requirements available.
Healthcare Innovation
(P.Grad.Dip.)

DURATION 1 year full-time
COURSE DIRECTORS Professor Seamas Donnelly
Dr. Michelle Armstrong
EMAIL michelle.armstrong@tcd.ie,
galvinei@tcd.ie
CLOSING DATE 31st July 2023

This contemporary programme has been designed for graduates from a healthcare background. Through research-lead teaching and experiential learning, students will build a detailed, critical and practical understanding of issues in innovation and, in particular, the adoption of innovation within the healthcare landscape. The programme will hold interest for those working in the Irish healthcare sector whether frontline management in the Health Service Executive (HSE), in the established pharmaceutical/medical devices industry, to entrepreneurs and institutional supporters of high-potential start-ups.

The Postgraduate Diploma in Healthcare Innovation is taught full-time, over one year and comprises of eight taught modules – six foundation modules, and two practical modules including workshops and a project. The programme will offer a fundamental grounding in key subjects such as design thinking and embedding a culture of innovation, process innovation, lean thinking and social innovation, innovation & health economics, healthcare, innovation and leadership. The Project modules will identify and plan, with a view to implementation, an innovative solution applicable to each participant’s workplace.

Admission requirements
An undergraduate bachelor degree of 2.1 grade or higher. Experience of working in the healthcare sector is required. Applicants whose first language is not English must meet the University’s English Language Proficiency requirements.

Please click ‘Module Details’ for a full list of admission requirements available.

Molecular Medicine
(M.Sc./P.Grad.Dip.)

DURATION 1 year full-time
COURSE DIRECTOR Professor Ross McManus
EMAIL molec.medic@tcd.ie
CLOSING DATE 30th June 2023

The course aims to provide students with an understanding of the molecular basis of human disease and its implications for the practice of clinical medicine and research in the life sciences. The course will ensure that students from all disciplines have the skills necessary to conduct research and critically evaluate the scientific and medical literature.

The M.Sc. in Molecular consists of lectures on cellular biology and molecular genetics as they apply generally to normal cell and tissue function and more specifically to disease processes such as cancer, immune dysfunction, and diseases with an inherited component. The course content includes molecular signalling and therapeutics, molecular and population genetics, nanoscience, neurobiology and advanced diagnostics and therapeutics.

Admission requirements
Applications are invited from candidates with a minimum of an upper-second class honours bachelor degree or equivalent in a biological science, or an honours bachelor degree in a clinical science such as medicine, dentistry or veterinary; a pharmaceutical science such as pharmacy, or related area. Other appropriate professional or industrial experience (for example those working in the life sciences sector) will be taken into account. The candidate may be interviewed to establish their suitability for the course at the discretion of the Course Co-ordinators.

Please click ‘Module Details’ for a full list of admission requirements available.
Neuroscience (M.Sc.)

Duration: 1 year full-time
COURSE DIRECTOR: Professor Kumlesh Dev
EMAIL: mscneuro@tcd.ie
CLOSING DATE: 30th June 2023

Neuroscience is a discipline concerned with the scientific study of the nervous system in health and disease. Research in the neurosciences is of considerable clinical impact considering the debilitating and costly effects of neurological and psychiatric disease. In this regard, a major goal of modern neuroscience research is to elucidate the underlying causes (genetic or environmental) of major brain diseases, and to produce more effective treatments for major psychiatric disorders such as schizophrenia and depression, and neurological disorders such as multiple sclerosis, Parkinson’s disease, Alzheimer’s disease, motor neurone disease and epilepsy. Improved treatment strategies for brain disorders relies entirely on increased understanding gained from research which integrates molecular, cellular and clinical aspects of disease. In this regard it is clear that interdisciplinary approaches are necessary to understand the complex processes which underlie brain function in health and disease.

Admission requirements
To be eligible for admission, candidates must hold a third level qualification. Application for admission will be accepted, subject to availability, from candidates who have a degree in Biological Sciences, Neuroscience, Pharmacology, Physiology, Biochemistry, Allied Health Sciences, Medicine or other. Normally candidates should have achieved at least an upper-second class honours bachelor degree or its equivalent. Those with some knowledge in neuroscience and pharmacology will be most suitable for this one-year intensive course.

Please click ‘Module Details’ for a full list of admission requirements available.

Dr. Caitriona Lee
M.Sc. Sports and Exercise Medicine graduate

I look back at my year doing the masters in sports and exercise medicine with great memories. The small class size and the regular face to face learning create a good rapport between staff and students. The curriculum is helpfully designed. Semester one goes back to basics with anatomy and physiology. This is great preparation for the heavily clinically based semester two. Many previous graduates come back to teach on the course which is so helpful for future career guidance. I thought going back to full time education would be tricky but it was highly motivating and needless to say good fun.
Sports and Exercise Medicine (M.Sc.)

**DURATION**
1 year full-time

**COURSE DIRECTORS**
Dr. Nick Mahony, Dr. Neil Fleming

**EMAIL**
neil.fleming@tcd.ie

**CLOSING DATE**
30th June 2023

The aim of this M.Sc. course is to allow participants further their career progression in musculoskeletal and sports and exercise medicine by enhancing basic background knowledge in anatomy, exercise physiology, sports and exercise science; and, in addition develop high quality practical and critical thinking skills in musculoskeletal assessment, rehabilitation, exercise testing and training prescription in health and disease.

Students will achieve this through a tiered process starting in Semester 1 with three basic science modules in Anatomy, Exercise Physiology; and Research Methods. In the second semester the focus shifts to clinical aspects of sports and exercise medicine, such as; musculoskeletal assessment skills, rehabilitation protocols; aspects of team and individual athlete care within different sports; and physical activity and population health.

**Admission requirements**
The M.Sc. course is open to graduates from medicine, physiotherapy and a limited number of places are also offered to certified athletic training therapists (Ireland, USA and Canada only) and sports rehabilitation therapists (UK). Applicants require a level 8 degree at an upper 2nd class honours (2.1) or equivalent. All applicants should provide two references and meet the Trinity’s English language requirements. Full details available at: [www.tcd.ie/courses/postgraduate](http://www.tcd.ie/courses/postgraduate)

Please click ‘Module Details’ for a full list of admission requirements available.

Translational Oncology (M.Sc.)

**DURATION**
1 year full-time

**COURSE DIRECTOR**
Professor Jacintha O’Sullivan

**EMAIL**
msconcol@tcd.ie

**CLOSING DATE**
31st July 2023

This M.Sc. programme in Translational Oncology will provide high-quality training for basic scientists and clinicians in the theoretical and practical aspects of the causes and treatment of cancer. A major focus of the programme is the cellular and molecular basis of cancer. The course also covers the scientific and clinical challenges pertinent to the management of site specific cancers, and all aspects of cancer treatment from standard therapies to ‘individualised’ molecular targeted and immune-based therapies. This innovative M.Sc. programme in Translational Oncology is aimed at scientists and doctors who wish to: develop their research skills, broaden their expertise in oncology, develop advanced knowledge in specific areas of scientific, translational and clinical oncology.

**Admission requirements**
This M.Sc. in Translational Oncology is open to both scientific and clinical graduates. Scientific, dental or equivalent candidates must have a minimum of a 2.1 honours degree in any biologically-related discipline. Medical graduates must have a MB, BCh, BAO or equivalent from a recognised medical school. All applicants should provide two academic or clinical references confirming their eligibility and suitability for the course, before their application can be considered. Applicants should also include a 500 word personal statement addressing why they are interested in the course, their suitability for the programme and how it will impact on their future career development.

Applications for admission to the course should be made through the online system.

Please click ‘Module Details’ for a full list of admission requirements available.
Ageing Health & Wellbeing in Intellectual Disability (P.Grad.Dip.)

**DURATION** 1 year full-time

**COURSE DIRECTOR** Dr. Eimear McGlinchey

**EMAIL** pgt.nursing.midw@tcd.ie

**CLOSING DATE** 30th June 2023

This interdisciplinary course will develop and strengthen the skills, competencies and knowledge of students, thus enabling them to promote and develop excellence in the delivery of care for people with an intellectual disability. Students will explore the physical health, policy and complex care needs of people with intellectual disabilities.

The course will prepare them as leaders in quality and person centred care for people with intellectual disabilities as they age. The Trinity Centre for and Intellectual Disability, based at Trinity College Dublin, hosts IDS-TILDA, the world leading longitudinal research initiative focused on ageing and intellectual disability, the most complete multidisciplinary body of research in this field, directly informing policy and practice to enhance the lives of older people with intellectual disability. This new Interdisciplinary M.Sc. will be underpinned by research emanating from the IDS-TILDA study.

**Admission requirements**

A 2.1 degree in the applicant’s field of practice or satisfy the selection committee that they have the academic ability to successfully complete the programme. Current registration with the relevant professions’ regulatory body, where applicable. All applicants whose first language is not English or who have not been educated through the medium of English must meet the Trinity’s English language requirements. Students will also be required to undergo Garda Vetting. Full details are available at [www.tcd.ie/courses/postgraduate](http://www.tcd.ie/courses/postgraduate).

Please click ‘Module Details’ for a full list of admission requirements available.

Children’s Nursing (H.Dip.)

**DURATION** 1 year full-time

**COURSE DIRECTOR** Maryanne Murphy

**EMAIL** maryanne.murphy@tcd.ie

**CLOSING DATE** 31st July 2023

This course aims to develop and expand knowledge, skills and attitudes in nurses towards infants, children and their parents and family, as a unit in society.

The course is designed to equip nurses to deliver primary health care, acute, rehabilitative and palliative care as required and to foster the process of continuing education and research in paediatric nursing practice.

**Admission requirements**

Students must be registered, or be eligible to register, in one of the three disciplines in nursing – general, psychiatry, intellectual disability nursing and 6 months post registration experience since initial registration is required. Students must have a Diploma in Nursing, or a Trinity access to Nursing programme or a Degree in Nursing. Students must be on the active register as held by The Nursing and Midwifery Board of Ireland.

All applicants whose first language is not English or who have not been educated through the medium of English must meet the Trinity’s English language requirements. Students will also be required to undergo Garda Vetting. Full details are available at [www.tcd.ie/courses/postgraduate](http://www.tcd.ie/courses/postgraduate).

Please click ‘Module Details’ for a full list of admission requirements available.
**Community Health (M.Sc./P.Grad.Dip.)**

DURATION: 1 year full-time  
COURSE DIRECTOR: Dr. Eimear McGlinchey  
EMAIL: pgt.nursing.midw@tcd.ie  
CLOSING DATE: 30th June 2023

The aim of this course is to enable students from across a broad spectrum of professional backgrounds to gain a grounded understanding of the core principles of public health and their application to the practice of community healthcare, and to increase graduates’ employability in community health practice. The course is suitable for people who are currently either working in, or intend to work in community health and who are seeking an enhanced qualification for their career advancement.

On successful completion of this course students should be able to gain a critical understanding of risk management, risk assessment and risk assessment tools in client/patient management in community healthcare; and critically utilise evidence based knowledge of client/patient assessment and consultation to achieve a holistic approach to client/patient care management.

**Admission requirements**

Applicants will be required to hold a minimum 2.1 grade (second class honours) in a relevant primary degree in the applicant’s field of practice and where applicable, must hold current registration with the relevant professions’ regulatory body, or otherwise satisfy the course committee they have the ability to complete and benefit from the course.

All applicants whose first language is not English or who have not been educated through the medium of English must meet the Trinity’s English language requirements. Students will also be required to undergo Garda Vetting. Full details are available at [www.tcd.ie/courses/postgraduate](http://www.tcd.ie/courses/postgraduate).

Please click ‘Module Details’ for a full list of admission requirements available.

---

**Dementia (M.Sc.)**

DURATION: 1 year full-time  
COURSE DIRECTOR: Dr. Eimear McGlinchey  
EMAIL: pgt.nursing.midw@tcd.ie  
CLOSING DATE: 30th June 2023

This M.Sc. in Dementia has been developed, in partnership with National key stakeholders, to meet the demands and challenges within the health care system and specifically within dementia care.

Students are required to attend the university for one week in September, approximately 15 days in year 1 and approximately 10 days in year 2. Full time students are required to attend for two days per week throughout the academic year.

**Admission requirements**

- Current registration on the appropriate division of NMBI live register.
- Minimum of one year’s professional experience in supporting persons with dementia within the past two years.
- For the duration of the course all applicants are required to be working in an area where dementia care is delivered.
- Normally hold an honours degree in a relevant discipline, e.g. social, health or pastoral care. Candidates with relevant, and significant, experience as professional practitioners in the field of dementia care may be considered with a lower class degree or equivalent.
- All applicants whose first language is not English or who have not been educated through the medium of English must meet the Trinity’s English language requirements. Students will also be required to undergo Garda Vetting. Full details are available at [www.tcd.ie/courses/postgraduate](http://www.tcd.ie/courses/postgraduate).

Please click ‘Module Details’ for a full list of admission requirements available.
**Mental Health (M.Sc.)**

**DURATION**
1 year full-time

**COURSE DIRECTOR**
Dr. John Dinsmore

**EMAIL**
pgt.nursing.midw@tcd.ie

**CLOSING DATE**
30th June 2023

Candidate must currently engaged in the mental health/mental illness field normally hold an honours degree in a relevant discipline or otherwise satisfy the selection panel that they have the ability to complete and benefit from the programme.

**Admission requirements**
Candidates for this course will be currently working in mental health/mental illness field; and in the case of the Child, adolescent and family strand, be working in child, adolescent and family mental health services and have a minimum of one year’s recent experience in the area of mental health/mental illness; and in the case of the child, adolescent and family strand, be currently employed in the area of mental health/mental illness/child, adolescent and family services and have Garda clearance for working with children and adolescents. Candidates will also normally hold an honours degree in a relevant discipline; or otherwise satisfy the selection panel that they have the ability to complete and benefit from the course.

Non-EU students are not eligible to apply for Child, Adolescent and Family Strand or the Psychosocial interventions Strand.

All applicants whose first language is not English or who have not been educated through the medium of English must meet the Trinity’s English language requirements. Students will also be required to undergo Garda Vetting. Full details are available at [www.tcd.ie/courses/postgraduate](http://www.tcd.ie/courses/postgraduate).

Please click ‘Module Details’ for a full list of admission requirements available.

---

**Mental Health – Child, Adolescent and Family (M.Sc.)**

**DURATION**
M.Sc./PG.Dip. – 2 years part-time,
P.G.Cert. – 1 year part-time

**COURSE COORDINATOR**
Dr. John Dinsmore

**EMAIL**
brennami@tcd.ie

**CLOSING DATE**
30th June 2023

This course is designed to enhance the collaboration between disciplines working with children, adolescents, and families with mental health problems. Participants on this course will come from a variety of professions: nursing; medicine; occupational therapy; speech and language therapy; social work; psychology; psychotherapy; teaching and education services. Students are required to attend clinical practice placements, undertake clinical competency assessments, and complete a clinical portfolio.

**Admission requirements**
Candidates for this course will be currently working in mental health/mental illness field; and in the case of the Child, adolescent and family strand, be working in child, adolescent and family mental health services and have a minimum of one year’s recent experience in the area of mental health/mental illness; and in the case of the child, adolescent and family strand, be currently employed in the area of mental health/mental illness/child, adolescent and family services and have Garda clearance for working with children and adolescents. Candidates will also normally hold an honours degree in a relevant discipline; or otherwise satisfy the selection panel that they have the ability to complete and benefit from the course.

Please click ‘Module Details’ for a full list of admission requirements available.
The course is designed to develop midwives with the knowledge, skills and attitudes necessary to become competent, analytical and reflective practitioners, thus enabling them to provide care in a manner that benefits women and their families. The course will consist of the following modules:

- Foundation Skills for Midwifery Practice and Sharing the Woman’s Experience;
- Health Promotion and Infant Feeding;
- Clinical Practice 1 (1-3);
- Clinical Practice 2 (4-7);
- Core Midwifery Practice and Adaptation in Pregnancy;
- Midwifery Practice: Pathophysiology and Unexpected Outcomes of Pregnancy and Childbirth;
- Midwifery Research: Evidence for Midwifery Practice.

The programme is 78 weeks in duration, with 52 of these weeks spent in Midwifery Practice Placements.

Admission requirements

All applicants whose first language is not English or who have not been educated through the medium of English must meet the Trinity’s English language requirements. Students will also be required to undergo Garda Vetting. Note: only those who have attended interview and are approved to apply for the course may do so. Applicants who apply and have not been pre-interviewed by our hospital partners will not be eligible for a refund of their application fee. Full details are available at www.tcd.ie/courses/postgraduate.

Please click ‘Module Details’ for a full list of admission requirements available.
The programme seeks to enable registered nurses to acquire the sophisticated knowledge, skills and decision-making abilities necessary to practice in dynamic healthcare environments. It is intended that graduates of this programme will be equipped to become leaders in their respective disciplines and to enhance nursing practice through their advanced research and critical thinking skills. On completion of this course participants will be able to:

› Strengthen and develop their expertise in their area of practice through the use of enhanced knowledge, reflective skills and research-based practice.

› Devise, implement, and evaluate methods for improving the quality of nursing care and/or nurse education provided in Ireland.

› Exercise administrative and intellectual leadership in their profession and the disciplines contained within.

Admission requirements
Applicants must hold at least an honours degree in nursing or a related discipline or equivalent professional and academic qualification. Current registration as a nurse with the Nursing and Midwifery Board of Ireland, or in the case of international applicants for theory only strands, be registered as a professional nurse who is entitled to practice as a qualified or registered nurse in their own country. All applicants whose first language is not English or who have not been educated through the medium of English must meet the Trinity’s English language requirements. Students will also be required to undergo Garda Vetting. Full details are available at www.tcd.ie/courses/postgraduate.

Please click ‘Module Details’ for a full list of admission requirements available.

The aim of the M.Sc. in Nursing – Child Health and Wellbeing is to strengthen and develop the knowledge, skills, competencies and attitudes of the participants, thus enabling them to fulfill their highest potential in the personal, professional and practice arena of children’s health. The course will provide advanced study in research methods, the theoretical and practical aspects of management, clinical practice and leadership and child health perspectives as well as contemporary issues in child health and wellbeing. It is anticipated that graduates of this course, in applying their learning, will be enabled to promote and develop excellence in children’s illness, child health and wellbeing in primary, secondary and tertiary health care services.

Admission requirements
Applicants must hold at least an honours degree in nursing or a related discipline or equivalent professional and academic qualification. Current registration as a nurse with the Nursing and Midwifery Board of Ireland, or in the case of international applicants for theory only strands, be registered as a professional nurse who is entitled to practice as a qualified or registered nurse in their own country. All applicants whose first language is not English or who have not been educated through the medium of English must meet the Trinity’s English language requirements. Students will also be required to undergo Garda Vetting. Full details are available at www.tcd.ie/courses/postgraduate.

Please click ‘Module Details’ for a full list of admission requirements available.
Pharmaceutical Sciences (M.Sc./P.Grad.Dip.)

DURATION 1 year full-time

COURSE DIRECTOR Dr. Maria Jose Santos-Martinez
Dr. Eduardo Ruiz-Hernandez

EMAIL griffilo@tcd.ie

CLOSING DATE 30th June 2023

The M.Sc. in Pharmaceutical Sciences is an integrated multidisciplinary course addressing fundamental and applied aspects of drug and drug product discovery, development, production and analysis. The programme will prepare candidates for research careers in academia and industry in pharmaceutical R&D as well as will create an awareness of issues and approaches relevant to the key pharmaceutical manufacturing sector in Ireland.

This M.Sc. course consists of lectures, workshops, presentations and laboratory work. Formal classes run from September to April and are normally held two days every week with the remaining time available to students for self-directed studies, writing tutor marked assignments, preparing laboratory reports and presentations. Students proceeding to a M.Sc. degree will be required to undertake a research project and present a detailed scientific report at the end of the course.

Admission requirements
Applicants are accepted, subject to the availability of places, from holders of honours degrees in a relevant Science discipline (e.g. Pharmacy, Chemistry, Analytical Chemistry, Microbiology, Biochemistry, Pharmacology and other appropriate primary honours degrees e.g. I.T., Medicine or Veterinary). Equivalent primary and/or postgraduate qualifications are considered, particularly with relevant professional experience. Applications will be evaluated by the Course Director in consultation with the Course Committee and Dean of Graduate Studies as appropriate. Full details are available at www.tcd.ie/courses/postgraduate.

Please click ‘Module Details’ for a full list of admission requirements available.

From Graduate of M.Sc. in Hospital Pharmacy

I have found that the Trinity Masters in Hospital Pharmacy has provided me with an extensive education in all areas of hospital pharmacy. I feel that the course is unique in that it provides face-to-face interaction with lecturers, which worked really well for me in terms of understanding and affording the opportunity to ask questions. I particularly appreciated the confidence I gained in my daily work, as I put into practice the up-to-date knowledge base that was delivered to the highest standard from experienced lecturers. The structure of the course allows for the development of a comprehensive set of skills both academic and practical, which have definitely stood to me in my career today.
