Erasmus+

Erasmus activities are carried out with the support of the European Commission within the framework of the Erasmus+ Programme.

Erasmus Exchange Destinations

This list of our partner institutions and exchange opportunities is split into two categories:

- General exchanges
- Subject-Specific exchanges

Throughout this document you will see references to some non-EU partner universities, these are accessible through International Credit Mobility (ICM), a specific type of Erasmus+ exchange to other parts of the world (contact the Coordinator for more info.).

General exchanges

Exchanges open to almost any student whose degree permits study abroad and who can find a suitable course combination. Restrictions apply.

For more information on each host university please visit the partner university website and contact the listed Outbound Coordinator if necessary.

Students need to ensure that their host university is compatible with their subject combinations and their pathway, whether single or joint honors etc. The Outbound Coordinators will be able to help you check that the host university allows you to take enough credits in all of your subjects.

Please note, the ISCED Code (International Standard Classification of Education Code) is a statistical framework for organizing fields of education and training used in the Erasmus+ Programme and will be needed when completing Erasmus Grant forms and Learning Agreements as will the Erasmus Code.
