

Part-time Year 1 Students: Semester1, 2020/21

Online timetable

The following modules will release recorded content weekly:

- Survey Design
- Literature searches and reviews

You can listen to this material in your own time but **it is essential that you keep up** every week. Module coordinators will discuss when they will release content with you.

The following modules will have weekly **live online sessions** which you must take part in:

- Survey Design

A live session for **Survey Design** will be held on **Monday at 10.30**. These will start in the second week of teaching term. Generally these sessions will be quite short (approximately 20 minutes) but may increase to as much as 50 minutes towards the end of term.

- If you cannot make the time above you can attend the session for Full Time students which is on Wednesday at 1.

Most live online classes will use Blackboard Collaborate which you can access when you log into the Blackboard system (Module SS8000-A-YEAR12-202021 QUANTITATIVE RESEARCH METHODS FT). Some Guest speakers may use *Zoom* and you will be sent the link prior to the session.

All live online sessions will be recorded and made available on Blackboard afterwards. If you cannot attend a particular session you can submit any questions you would like discussed to the Course Director prior to the session.
