

What is Coronavirus?

	<p>Coronavirus is a germ that makes people sick.</p> <p>It is like the flu.</p>
	<p>Coronavirus is also called COVID-19.</p>
	<p>The virus can spread from person to person when you are very close.</p>

How does Coronavirus spread?

	<p>Coronavirus can spread through the air when people who have Coronavirus sneeze or cough.</p>
	<p>Coronavirus can also spread onto surfaces if people who are sick touch them.</p>

How do I stop the spread of Coronavirus?

	<p>Wash your hands regularly with soap and water.</p>
	<p>Or use hand sanitiser if you don't have soap and water nearby.</p>

	<p>Try not to touch your face with your hands.</p>
	<p>Use tissues when you sneeze and cough.</p>
	<p>Put the tissue in the bin afterwards.</p>
	<p>If you don't have a tissue, cough or sneeze into your elbow.</p>
	<p>Don't shake hands with people you meet.</p> <p>Just say 'Hello' instead.</p>

Stand two metres away from each person you meet.

This is called **social distancing**.

Avoid crowds and busy places.

Go to the shops when they are quiet.

You can find out when your local shops have quiet times for shopping.
