

Lots of people had different symptoms of Covid

Some of our participants had Covid.

Here are some of the symptoms they had:

Aches and Pains

Running out of breath easily

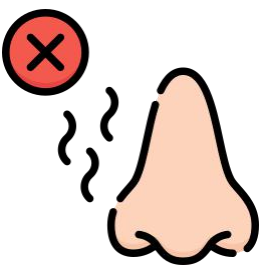

Stuffy or Runny Nose

Fever

Headache

Losing their sense of smell

Fatigue

Losing their sense of taste

Sore Throat

Cough

Some of our participants who had to go to hospital because of Covid also had these symptoms

Some of our other participants had these symptoms but they did not have Covid.
