

## Accessible participant cover letter (WP3 & WP4)

Dear Participant

We are writing to ask you to take part in an important study about supports for people intellectual disability who get a diagnosis of dementia.

The study is helping us to learn more about what is important to people after they receive this diagnosis.

We would like to invite you to take part in this study.

To take part in this study you can:

- Answer the questions yourself independently, OR
- Ask someone to support you.

We are sending you an information booklet about this study and a consent form.

A consent form is something a person signs which means that they are happy to take part.

Please read the information booklet or ask someone to help you to read it. This will help you to understand the study better.

If you would like to take part, please read and sign the consent form, or ask someone to help you. Then return the form to us.

When we receive your signed consent form, we will then get in touch to explain how you will take part. Not everybody will be able to take part in all parts of the study.

If you want to know more or ask us any questions then please email the research fellow, Andrew Allen, at [apallen@tcd.ie](mailto:apallen@tcd.ie), or call us on 01 – 896 3187.

Yours sincerely,

*Prof. Mary McCarron.*
