## **Post Summary**

The Trinity Centre for Global Health (TCGH) is seeking to appoint a full-time postdoctoral research fellow to coordinate TS4TIC: aTrauma Informed Care Research Collaboration, funded by the HSE/HRB/RCPI through their RCQPS fund. TS4TIC seeks to use translational simulation - where teams of hospital staff and patient representatives train together by recreating scenarios of care between a patient and a team of staff in as near-reality as possible – to promote psychological trauma-informed care as a way to improve service delivery within acute hospital settings.

The TCGH is an interdisciplinary centre within the Institute of Population Health; and is jointly supported by the Schools of Medicine and Psychology. The TCGH is committed to health systems strengthening and the international programme for sustainable development, the Sustainable Development Goals (SDGs), particularly SDG 3.

## **Standard Duties and Responsibilities of the Post**

The postholder will act as a key member of the Project Management Group, responsible for the timely delivery of all project outputs and deliverables, and for ensuring that TS4TIC related activities are to schedule. In addition, the postholder, under the direction of the co-Principal Investigators, will be responsible for the key research activities of the project, including, but not limited to, participant recruitment, liaising with stakeholders and the project's Clinical Nurse Manager within St James' Hospital to ensure access to the resources and staff engagement required to deliver the project, ensuring informed consent procedures are adhered to, data collection, data management, analysis and output, including through conferences and publications. In order to accommodate the participation of a wide-range of hospital staff, this may sometimes require the post holder to work outside of normal working hours.

If desired, the postholder may also contribute to teaching within the Trinity Centre for Global Health active postgraduate programmes, which include a MSc Global Health and a forthcoming MSc Global Mental Health, with the agreement of the relevant course Directors.

## **Funding Information**
