## Senior Lecturer's Annual Report 2011/12

## I. INTRODUCTION AND OVERVIEW

## Introduction

This is the seventeenth Senior Lecturer's Annual Report to the University Council, providing data on applications and the admission of undergraduate students, and developments in the area of undergraduate studies. The report provides the University Council, and the wider College community, with the statistical information needed to make informed policy decisions about undergraduate education in the College. It also assists in the process of review and evaluation.

Statistical data covers the period 2011/2012, and admissions data covers the period August 2012 to January 2013.

## The Role of the Senior Lecturer/Dean of Undergraduate Studies

The Senior Lecturer/Dean of Undergraduate Studies is the academic officer with responsibility for undergraduate admissions, as well as for the progression and examination of undergraduate students. The Senior Lecturer is administratively supported by staff in the Office of the ViceProvost.

## Undergraduate Studies Committee

The Undergraduate Studies Committee (USC) is an academic committee of the University Council and is chaired by the Senior Lecturer. It was established in October 2008, and amalgamates the work of the old Undergraduate Teaching and Learning Committee, and the Centre for Academic Practice and Student Learning Committee. The membership and terms of reference of the committee can be found online at: www.tcd.ie/vpcao/council/undergraduate-studies.php.

In 2011/2012 there were nine meetings of the Undergraduate Studies Committee. Minutes of these meetings are available on the Trinity College Local Home Page. ${ }^{1}$ During the year the Committee discussed a number of areas of interest to the general College community and some of the key developments are discussed here.

## Provost's Teaching Awards

The format of the Provost's Teaching Award was changed in 2011/12 to improve and strengthen the process. The composition of the review panel was also formalised so that every year it will include: the Senior Lecturer/Dean of Undergraduate Studies, the Dean of Graduate Studies, and the Dean of Students, the SU Education Officer, the Vice-President of the GSU, one representative from each faculty, and an external reviewer. In 2011/12 the chair of the review panel was the Dean of Graduate Studies, Professor Veronica Campbell. Another major change was the

[^0]introduction of a two-stage process. Nominations of eligible staff are invited from students, and a short-list is agreed by the review panel to go forward to the next stage. In this second stage CAPSL arranges for a class of the short-listed candidates to be filmed. The review panel then meets for a final time to evaluate the candidates' portfolios and video submissions. The external reviewer, Professor Áine Hyland, praised the rigour of the process, and suggested that the pioneering use of video evidence could soon become standard practice elsewhere. In 2011/12 there were six awards made.

## Admissions Conference

In 2011/12 there was much discussion at a national level of the transition from second to thirdlevel and a debate about the fairness of the current admissions system. Within Trinity, a working group, chaired by the Senior Lecturer, prepared a discussion paper on admissions and the curriculum which was debated at Council on 15 February 2012. ${ }^{2}$

Following on from this, a major international one-day conference on admissions was held in the Trinity Long Room Hub on 18 May 2012. The conference, Undergraduate Admissions for the 21st Century, was opened by the Secretary-General of the Department of Education and Skills, Seán Ó Fóghlú, and panels included representatives from the HEA, the NCCA, and the CAO, the seven Irish universities, and the Institutes of Technology, as well as experts from Australia, the United States, and the United Kingdom.

Opening the conference, the Provost, Dr. Patrick Prendergast, repeated his 'unambiguous pledge' to reform the admissions system and consider new ways of admitting students to university. He expressed his belief that 'the points system fails some of our best students, and that higher education can and should be transformative for the life of each individual student'. The Provost noted that: 'This new generation must be more globally competitive than ever - they deserve an education system that is prepared to recognise and reward creativity, leadership, and independent-thinking'.

The key-note address was delivered by Professor Steven Schwartz, the Vice-Chancellor of Macquarie University, and the author of the UK government's report on 'Fair Admissions to Higher Education' and he advised that, 'The best approach [in a fair admissions system] is not to use a single indicator or score. It is better to use a comprehensive set of predictors in the hope that the weaknesses of one might be compensated by the strengths of another.'

Arising out of the conference, Trinity began working on a feasibility study in admissions to see if there was a mechanism for assessing potential, motivation, and suitability for course, alongside academic ability, that would work better than the current points system.

## Forums on Assessment

In May 2012 three Forums on Assessments were held across College: in the Trinity Long Room Hub (3 May); the Lloyd Institute (8 May); and the Biomedical Sciences Institute (17 May). Facilitated by Dr. Ciara O'Farrell, the College's Senior Academic Developer, the forums were aimed at sharing ideas about innovative teaching and assessment practices, identifying obstacles to innovation, and discussing where it might be possible to develop other approaches to assessment. Attended by

[^1]126 members of academic staff, the forums were subsequently discussed at the Undergraduate Studies Committee and provided a foundation for work on the Trinity Education.

## Transnational Education

Trinity signed a partnership agreement with Singapore Institute of Technology (SIT) to provide degrees in occupational therapy and physiotherapy to students in Singapore. This was part of Trinity's engagement in transnational education, delivering education where the learners are located in a different country from the one where the awarding institution is based. The students spend six weeks in Dublin during the year, and for the remainder are taught by Trinity appointed staff in Singapore, visiting Trinity staff, and SIT staff.

## Educational Award

In 2011 Trinity was awarded a prestigious JISC TechDis OASES Award for Institutional Progress on Equality using Technology. The award noted Trinity's exemplary approach to embedding accessibility into institutional policy thereby ensuring equality of access to teaching and learning for all students. Trinity received this award in recognition of the strategies currently working to enhance accessibility and inclusion within the academic environment.

## Open Day

In 2011/12 Trinity decided to hold its Open Day in future over a single day, with that day being a Saturday, rather than over two days. The decision, which was communicated to all staff and students, was to underline College's commitment to undergraduate education and its reluctance to cancel teaching unless it was absolutely necessary.

## New Course Proposals

In 2011/2012 the Undergraduate Studies Committee discussed and recommended the following new course proposals, which were subsequently approved by the University Council.

- A moderatorship in Catholic Theological Studies.

In addition there were changes to some existing courses and programmes:

- A new strand called Biomedical Engineering was approved as part of the Integrated Engineering progamme.

## Student Cases

The Senior Lecturer has responsibility for deciding on undergraduate student cases. In 2011/2012 there were a total of 1,967 decision memoranda issued.

## Summary of Admissions Data

In 2012 Trinity received 8,142 (12\%) of first preference applications in the CAO system, an increase on last year's figure of 7,770 (11.5\%). Of the 67,684 people who applied for Level 8 courses in Irish higher education institutions through the CAO in 2012, 18,995 listed Trinity for one or more of their CAO course preferences ( $28 \%$ ), an increase since last year when the figure was 18,437 (27\%).

Trinity has the second highest number of overall first preferences in the country, but the largest number of first preferences to available places. In March 2012 Trinity had 8,318 first preferences, 67 behind the college with the highest preferences (University College Dublin on 8,385), but this number changed in the period between March and July.

## Nationality of New Entrants

In 2012 Trinity admitted 3,759 students from Ireland and sixty-eight other countries from around the world (see Table A17). The majority of students state their nationality as Irish (either from the Republic of Ireland or Northern Ireland) with 2,667 students. For the first time the United States provides the next highest total of students, with 276. The United Kingdom (Great Britain and Northern Ireland) is third with 156, followed by France (129) and Germany (97).

With an increasingly globalised world the use of nationality may no longer be the best way of approaching this issue, given that some students who enter Trinity through the CAO (using Leaving Certificate results) will not have Irish nationality, and likewise for some students applying from abroad their stated nationality will not always match the country they are coming from. In future years it is recommended that country of origin might be more useful, in addition to or instead of the table of nationality.

## Ireland, Northern Ireland, and Great Britain

In the collection of statistical data it is sometimes difficult to distinguish between Northern Irish and Irish students, and between Northern Irish and British students, because the information collected relies heavily on stated nationality which does not always correspond to the information given for home address. In the past two years attempts have been made to analyse the geographical distribution of students from the thirty-two counties using the information gathered of those who list home addresses on the island. This chart (A18) shows that of the 2,659 students who list a home address on this island: 1,331 (50\%) are from Dublin; 696 (26.2\%) from the rest of Leinster; 284 (10.7\%) from Munster; 169 (6.4\%) from Connaught; 102 (3.8\%) from the Ulster counties of Donegal, Monaghan and Cavan; and 77 (2.9\%) from Northern Ireland. Trinity admitted 62 new undergraduates from Northern Ireland in 2012, and the increase of 24\% is attributable to increased recruitment efforts in Northern Ireland in 2011/12.

The figures for new entrants correspond with the data for the geographical distribution for the entire student body in Trinity.

## Why Students Choose Trinity

Each year new entrant students are asked to indicate on a scale of 1-4 the most important factors they considered before choosing to apply to Trinity (Figure 7 and Table A20). This year Trinity's international reputation is the single most important factor (72\%), followed by the reputation of the course at Trinity (70\%); other factors such as Trinity's research reputation (49\%) or closeness to home (24\%) are less significant. Employment prospects are becoming an increasingly important factor (63\%). The TCD website is the single most important source of information (80\%), followed by the TCD prospectus (67\%) and the TCD Open Day (53\%) as shown on Table 9. ${ }^{3}$

[^2]
## II. APPLICATIONS AND ADMISSIONS 2012

## Student Applications and Admissions

In 2012, Trinity continued to attract a substantial proportion (12\%) of first preference applications in the CAO system ( $11.5 \%$ in 2011 and $11 \%$ in 2010). In general, course quotas were met. There was an overall College ratio of $2.8: 1$ (2.7:1 in 2011) of first preference applications to course quotas. The Faculty of Health Sciences had the highest this year at $4.3: 1$ (4.1:1 in 2011). The overall College ratio of eligible first preference applications to course quotas was 1.9:1 (1.8:1 in 2011)

See Table A5 on pages 57-58 in the appendices.

Figure 1: Ratio of First Preference Applications to Quotas 2012, 2011, 2010

Figure 2: First Preference applications and numbers registered 2012, 2011, 2010

Out of a total of 58 undergraduate full-time single and joint honor CAO courses (excluding TSM), three (5\%) did not meet their quota because of insufficient eligible applications, and of 25 TSM subjects, one (4\%) did not meet its quota for the same reason (see Table A11 (a) on page 64 in the appendices).

For more detailed information on applications and admissions see Appendix A.

## Entry to Medicine

Following a recommendation of the 'Report of the Working Group on Undergraduate Medical Education and Training 2006' (the Fottrell Report) an additional admission test was introduced for students seeking admission to undergraduate Medicine. The test, Health Professionals Admissions Test-Ireland (HPAT-Ireland), measures a candidate's logical reasoning and problem solving skills as well as non-verbal reasoning. The test is held in February each year and is administered by ACER (Australian Council for Educational Research); a company appointed following an international tendering process.

The allocation of places for Medicine is determined on the basis of a weighted combination of the Leaving Certificate Examination (LCE) score and the HPAT-Ireland score. Applicants to Medicine who achieve above 550 LCE points are credited with 550 points, plus an additional 1 point for every 5 LCE points attained, e.g. students who attain 600 LCE points are credited with 560 points. In addition, applicants may attain up to 300 points from the HPAT test, resulting in a combined
maximum of 860 points. The scaling down of points in excess of 550 is intended to strike a balance between the perceived pressures on students to achieve maximum grades in the Leaving Certificate Examination while at the same time recognising excellence when it has been achieved.

The first HPAT-Ireland test took place in February 2009. In 2008, students were required to present a minimum of 580 points to gain admission to Medicine. The table below shows the minimum scores required for entry since the introduction of the HPAT.

Table 1: Minimum scores required for Entry to Medicine 2012-2010

|  | $\mathbf{2 0 1 2}$ | $\mathbf{2 0 1 1}$ | $\mathbf{2 0 1 0}$ |
| :--- | :---: | :---: | :---: |
| No. of Places | 123 | 123 | 109 |
| Min. Leaving Cert. score | 530 | 535 | 540 |
| Min. HPAT-Ireland score | 179 | 181 | 172 |
|  |  |  |  |

## Entrance Exhibitions 2012

Seven hundred and sixty eight students (768) were awarded an entrance exhibition in 2012 representing $27.3 \%$ of the EU Junior Freshman class for 2012/13 ${ }^{4}$. Of this figure, 697 were Leaving Certificate, 57 were A-level students and 14 students held other EU qualifications.

A total of 55,815 pupils sat the Leaving Certificate (Established and Vocational Programme) examination in 2012. Of those that applied to the CAO, 2653 achieved 560 points or more, 699 of these students accepted a place at Trinity College. However, two of these students have since withdrawn and therefore, the number of Leaving Certificate students receiving the entrance award is slightly lower than the number who originally accepted a place. Fifty-six percent (56\%) of all entrance exhibitioners were female in 2012 ( $61 \%$ in 2011 and 61\% in 2010). Receptions for all entrance exhibitioners, their parents/guardians and school principals were held over five evenings on $19^{\text {th }}, 20^{\text {th }}$ and $21^{\text {st }}$ November 2012 and $16^{\text {th }}$ and $17^{\text {th }}$ January 2013.

## Entrance Exhibitions 2011

Four hundred and twenty (420) students were awarded an entrance exhibition in 2011 representing $14.8 \%$ of the EU Junior Freshman class for 2011/12. Of this figure, 34 were A-level students and 8 students held other EU qualifications.

A total of 57,532 pupils sat the Leaving Certificate (Established and Vocational Programme) examination in 2011. Of those that applied to the CAO, 1,140 achieved 560 points or more and 423 (37\%) of these students accepted a place at Trinity College. However, not all of these subsequently registered and, therefore, the number of Leaving Certificate students receiving the entrance award is lower than the number who originally accepted a place. Sixty-one (61\%) per cent of entrance exhibitioners were female in 2011 ( $61 \%$ in 2010 and 61\% in 2009). Receptions for all entrance exhibitioners, their parents/guardians and school principals were held over three evenings on 28-30 November 2011.

[^3]Figure 3: Entrance exhibition awards 2012, 2011, 2010

See Tables A14 and A15 on pages 68-71 in the appendices for further information on points at entry by course.

## Matriculation Examination

A matriculation examination is held in Trinity College every year, usually in March or April. Since 2003, only two subjects are examined, namely, Geology and Biblical Studies. Fourteen (14) candidates presented for the Geology examination in 2012 (18 in 2011) and twelve (12) candidates presented for Biblical Studies this year (6 in 2011).

Table 2: TCD Matriculation Examination 2012-2009

|  |  |  |  |  |

| Geology | 14 | 18 | 12 | 13 |
| Total | $\mathbf{2 6}$ | $\mathbf{2 4}$ | $\mathbf{1 7}$ | $\mathbf{2 3}$ |

## Alternative Admission Routes and Access Initiatives

Alternative admissions and access applications to the university are categorised into three principal types: (a) students with a disability, (b) mature students applying for admission under the mature student dispensation scheme, and (c) socio-economically disadvantaged students. In addition to applying through the CAO, applicants in these three groups are invited to submit separate applications directly to the university.

College's Strategic Plan is committed to increasing the number of students from underrepresented groups to undergraduate programmes. The Strategic Plan (2009-2014) makes a commitment to increase the proportion of students targeted from under-represented groups from
$15 \%$ to $22 \%$ of CAO new entrants by 2013. In May 2009 the University Council approved the recommendations set out in the Access Plan 2009-2013. Achieving the set targets is dependent on commitments in the 'National Plan for Equity of Access to Higher Education 2008-2013' and on being able to maintain adequate resourcing of student supports.

In 2012, a total of 621 (524 in 2011) students from underrepresented groups registered on undergraduate degree programmes, representing $22 \%$ of the CAO intake. Thirty-eight percent (38\%) of these are mature students.

Further analysis of the breakdown of undergraduate new entrants, by key access criteria, in each Faculty may be found in Table A10 (a) on page 63.

## (a) Students with a Disability

The Disability Access Route to Education (DARE) scheme was formally launched in 2010. Thirteen (13) third-level institutions currently participate in the scheme. Applicants who disclose that they have a disability on the CAO application form are required to provide additional information and certain documentation to the CAO. Applicants are assessed for eligibility for the scheme and, if deemed eligible, they may be granted a concession on points, if required.

It should be noted that many applicants with a disability do not disclose this information on the CAO form and, consequently, the number of registered new entrants with a disability tends to be greater than the numbers stated in this report. Ninety-five students (95) students, now registered, either, disclosed a disability via their CAO applications but did not go through the DARE process, or were deemed ineligible under the DARE process and achieved a place on full points. Ninety-four (94) students accepted a place under the DARE scheme on reduced points, and thirty-one (31) students whilst eligible for DARE achieved a place on full points. In addition, forty-six (46) students declared a disability after College registration.

Details concerning the distribution of undergraduate new entrants with a disability across faculties may be found in Table A10 (b) on page 63.

Table 3: Number of applicants with a disability, eligible applicants, offers and registered students 2012, 2011, 2010

| Applications | 2012 ** | \% | 2011 | \% | 2010 | \% |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Total number of applicants to TCD who disclosed a disability on the CAO application form | 1138 |  | 990 |  | 912 |  |
| Number of applicants who completed 'DARE supplementary process' | 813 | 71\% | 703 | 71\% | 568 | 62\% |
| Number of applicants eligible for DARE consideration on grounds of disability | 440 | 54\% | 413 | 59\% | 271 | 47\% |
| Total number of new entrants with disabilities entering on full points | 95 |  | 69 |  | 89 |  |
| Number of DARE eligible entrants who entered on full points ${ }^{\wedge}$ | 31 |  | 25 |  | 19 |  |
| Number of new entrants entering via DARE on reduced points | 94 |  | 72 |  | 45 |  |
| Total number of registered students disclosing through CAO as at April 2012 | 189 |  | 141 |  | 134 |  |
| Number of students who declared disability after college registration as at April 2012* | 46 | 24\% | 70 | 31\% | 41 | 23\% |

$\wedge$ This is a sub-section of total number of new students entering on full points

* Percentage calculated against the total 2012 undergraduate students registered with the service as at April 2012.
** 2012 Data was captured in April 2013, previous years was October.
(b) Students Applying for Admission under the Mature Student Dispensation Scheme

Applicants under this scheme must be over twenty-three years of age and are assessed on the basis of their complete academic profile, taking into account work and life experience. In 2012, 860 mature applicants applied under the Mature Student Dispensation Scheme (928 in 2011), of whom 174 (20\%) were offered places, and of these 158 ( $90 \%$ ) subsequently registered. This figure, of 158, includes entrants progressing via the 'facilitated entry' scheme through the Trinity Access Programmes (TAP) Foundation and Partnership Courses for Mature Students. In 2012, there were 31 applications from mature students, through these routes, who were all were offered places and subsequently registered. These figures are also included in data provided by TAP and for further information please see details below provided in relation to the Foundation Course for Higher Education-Mature Students and the Partnership Foundation Courses.

Mature students are also admitted to the undergraduate degrees in Nursing and Midwifery under the Mature Student Dispensation Scheme. Applicants to these courses are assessed externally by the Nursing Career Centre. Seventy-four (74) mature students registered on degree courses in Nursing and Midwifery in 2012 (71 in 2011)

Further details of students admitted under the Mature Student Dispensation Scheme and by the Nursing Career Centre, together with an indication of the trends in mature student applications and distributions across faculties, are shown in the comparative data in Table A9 (b) on page 62.
(c) Socio-economically disadvantaged students
(i) Post-entry Progression Programme

TAP has developed a range of post-entry supports in response to recognised student needs. These include a variety of orientation programmes, academic supports including extra tuition, a laptop lending service, a Writing Resource Centre and Mathematics Help Room, and the TAP Studio - a designated study space equipped with IT resources. TAP also provides financial assistance, as well as social and personal supports from dedicated TAP advisors. The development of the post-entry programme means that students can now avail of a range of training sessions including: Child Protection Training, Listening Skills, CV Building and Presentation skills to aid them in their career planning. Students also have the opportunity to attend workshops given by companies such as Hume Brophy, Grant Thornton and Google. TAP works closely with the Library and other support services in College including the Student Counselling Service, the Disability Service, the College Health Service, the Accommodation Office and the Tutorial Service.
(ii) The School and Community Outreach Links (SCOL)

The School and Community Outreach Links initiative enables the involvement of Trinity College with schools and communities where there is little or no tradition of progression to third-level. TAP is assisted by Schools in College each year in developing and delivering activities to over 39 primary and second-level schools and a selection of community groups. TAP also partners with a range of NGOs, including 'Junior Achievement' and 'Young Social Innovators' to reach our target student groups. Primary school activities begin with fifth class pupils and continue throughout the second-level school cycle.
(iii) Concession on Points

Young adults who are assessed through the Higher Education Access Route (HEAR), and are deemed as socio-economically disadvantaged, are eligible for a concession on points for entry to an undergraduate degree and/or diploma course. Applicants are assessed for eligibility on the basis of a multi-indicator model that aims to assess educational disadvantage. These students must satisfy the minimum matriculation requirements for entry to their course of choice.

In 2012, 200 students entered College through HEAR and other alternative entry routes (157 in 2011). This figure includes students from the TAP Foundation Course (Young Adults), Rathmines College and Liberties College Partnership Foundation Course.
This year, there was a doubling of student numbers entering STEM courses (Science Technology, Engineering and Mathematics), from 27 in 2011 to 62 in 2012. Admissions across the universities through HEAR increased by $22 \%$ in 2012, approximately 1,352
students registered in the seven institutions and figures for the remaining nine HEls are expected to reflect this upward trend. The DARE/HEAR scheme won a Taoiseach's Award for Public Service Excellence in 2012. Further information about HEAR can be found at www.accesscollege.ie.
(iv) Foundation Course for Higher Education - Mature Students

This one-year foundation course is aimed at mature students from socio-economically under-represented groups who have not yet realised their full educational potential. Students who successfully complete the course are awarded a Certificate in Foundation Studies for Higher Education and are eligible for facilitated entry to College. To be eligible for a place students must achieve a minimum overall grade of $50 \%$, although, for higher demand courses significantly higher grades are required; for example, Social Studies requires a minimum grade of $60 \%$, whereas Law and Physiotherapy require a minimum grade of $65 \%$. Places are allocated on the basis of academic merit and students must select up to five College courses on their CAO preference list.

Twenty-four (24) students registered in 2011/12. Of these, 19 students completed the course and 15 progressed to undergraduate degree courses in TCD. Twenty-seven (27) students have registered on this foundation course for the 2012/13 academic year.
(v) Foundation Course for Higher Education - Young Adults

This is a one-year foundation course that caters for young adults (17-21 years old), from under-represented socio-economic groups, who have demonstrated academic potential but who require an additional year of education to prepare for third-level. It is open to applicants from schools linked to higher education access programmes. Twenty-eight (28) students registered in 2011/12.

Students who successfully complete the course are awarded a Certificate in Foundation Studies for Higher Education and are eligible to compete for a place in College if they achieve a minimum overall grade of $50 \%$ ( $65 \%$ for Law or $70 \%$ for specific courses in Health Sciences). In 2011/12, 28 of the 28 registered students completed the course and 26 progressed to undergraduate degree courses in TCD.

Twenty-six (26) students registered in September 2012 for the 2012/13 course.
(vi) Partnership Foundation Courses

Originally approved as part of College's efforts to meet the $15 \%$ quota of non-traditional students in undergraduate courses (now revised upwards to a $22 \%$ target), in 2004/05 an arrangement was entered into with three City of Dublin Vocational Education Committee (CDVEC) colleges to develop and co-deliver a Foundation Course in the Liberal Arts for access to a wide range of undergraduate courses. The CDVEC colleges involved are the Liberties College, Dublin 8; Pearse College, Dublin 12; and Plunket College, Dublin 9. The course was run on a pilot basis in 2004/05 and the CDVEC colleges, supported by Trinity College, successfully negotiated with the Further Education and Training Awards Council (FETAC) for accreditation within the National Framework of Qualifications (NFQ). In April 2011, University Council included CDVEC Rathmines in the partnership arrangement so students on their equivalent course can avail of progression opportunities.

Thirty-two (32) students from the 2011/12 Partnership Foundation Courses progressed to undergraduate courses in Trinity College in 2012 (from 62 students registered). Sixty-six (66) students registered in 2012 for the Partnership Foundation Courses: Liberties College (15), Pearse College (22) and Plunket College (29).

Table 4: Number of admissions to College through the Trinity Access Programmes 2012, 2011, 2010

| Entry Route | Number of <br> Students 2012 | Number of <br> Students 2011 | Number of <br> Students 2010 |
| :--- | :---: | :---: | :---: |
| Full points | 48 | 34 | 30 |
| Concession on points | 108 | 84 | 62 |
| HEAR / DARE* | 4 | 4 |  |
| Foundation Course - Mature Students | 15 | 17 | 21 |
| Foundation Course - Young Adults | 26 | 23 | 23 |
| CDVEC Colleges: <br> - Liberties Liberal Arts | 13 | 12 | 11 |
| - Pearse College | 10 | 6 | 4 |
| - Plunket College <br> - Rathmines | 8 | 4 | 6 |
| Total | $\mathbf{1}$ | $\mathbf{1 8 4}$ | $\mathbf{1 5 7}$ |
| Percentage Increase/Decrease on <br> previous year: | $\mathbf{2 6 . 6 \%}$ | $\mathbf{1 7 . 2 \%}$ | $\mathbf{3 7 . 7 \%}$ |

*The four people cited as HEAR/DARE satisfied entry criteria for HEAR and DARE schemes and are being supported for different reasons by both offices. They were admitted under 'concession on points' but as they meet criteria for both schemes, we have noted the number separately.

## Mature Student Office

The Mature Student Office, part of TAP, serves to encourage and support the access and integration of mature students into college life.

This year two hundred and thirty two (232) mature students registered across all faculties in Trinity College (this figure includes nursing and midwifery students). Supports for registered mature students include:

- A financial information morning in July
- A four day Welcome Programme in early September
- A mature student resource centre for private and group study
- Drop in clinics providing advice and advocacy
- Mid-term review clinics
- Social activities in conjunction with the Mature Student Society and the Student Parent Group

The Mature Student Officer engages in extensive external liaison with Vocational Education Committees and Adult Education Centres, particularly in the Dublin, Border, Midlands and Western regions, to promote TCD, to outline the opportunities available to mature learners and to support the application process. One-to-one support for applicants is also available. Shadowing opportunities take place each November. In 2011 eighty ( 80 ) prospective mature applicants took part in our shadowing programme. A mature student information evening takes place each January. The 2013 information evening took place on the $10^{\text {th }}$ of January.

## Study Group International

In 2011 TCD and UCD signed a contract with the UK education provider Study Group for the provision of a nine month Foundation Course for non EU students whose second-level qualifications do not meet the matriculation requirements of the University. The Foundation course is taught at the Study Group Dublin Centre in Leeson Street, Dublin 2.

The programme has two intakes - one in September which runs until June and the second in January which runs until August.

In addition to taking English Language courses the students follow one of two streams:-

- Foundation year in Business, Economic and Social Science

OR

- Foundation year in Science and Engineering.

On successful completion of the Foundation course students then progress into the Junior Freshman year of an undergraduate programme in TCD or UCD.

The programme was launched in September 2011 and 14 students in total took the Foundation course during the 2011/12 academic year. In September nine (9) students registered for the following undergraduate courses in TCD.

Table 5: Study Group International registered students 2011/12

| Course | No. of Students |
| :--- | :---: |
| Business, Economic \& Social Studies | 2 |
| Chemistry with Molecular Modelling | 1 |
| Engineering | 3 |
| Engineering with Management | 1 |
| PPES | 2 |
|  | $\mathbf{9}$ |

## Singapore Institute of Technology

In October 2012 an agreement was signed between Trinity College Dublin and Singapore Institute of Technology commencing a partnership between the two institutions and the launch of two programmes in Physiotherapy and Occupational Therapy which give recognition to the three-year diplomas in these disciplines from Nanyang Polytechnic.

Under the agreement students will complete a one year programme, part of which will include studies and/or placements in Ireland. On completion of the programme students will be awarded a degree from Trinity College Dublin.

The first cohort of students registered in September 2012. Fifty (50) students registered for Physiotherapy and are scheduled to graduate in June 2013. Thirty-two (32) registered for Occupational Therapy and are scheduled to graduate in December 2013. University Council has recently approved a similar arrangement for the undergraduate programme in Radiation Therapy and the first cohort of these students are expected to register in September 2014.

## Advanced Entry

College regulations have provision for the admission of students who have credit from other universities and colleges. Such students are allowed credit for as much of the undergraduate course as is determined by the relevant School/Department but must complete two academic years in the College to be eligible for the award of an undergraduate degree. Details of the applications, offers and registrations for 2012 are set out below in Table 6.

Table 6: Advanced Entry Applications 2012

| Course | No. of Apps | No. of Offers | Registered | Standing |
| :---: | :---: | :---: | :---: | :---: |
| Faculty of Arts, Humanities and Social Sciences |  |  |  |  |
| BESS | 4 | 0 | 0 |  |
| Business Studies \& German | 1 | 0 | 0 |  |
| Clinical Speech \& Language Studies | 1 | 0 | 0 |  |
| Deaf Studies | 1 | 1 | 0 |  |
| Drama \& Theatre Studies | 2 | 0 | 0 |  |
| English Studies | 2 | 2 | 2 | SF, JS |
| History | 1 | 0 | 0 |  |
| History \& Political Science | 4 | 1 | 0 |  |
| Irish Studies | 1 | 1 | 1 | JS |

| Human Health \& Disease | $\mathbf{2}$ | 1 | 0 |  |  |  |
|  |  |  |  |  |  |  |

## New Entrant CAO Preferences

Analysis shows, in 2012, that $63 \%$ of new entrants were registered to their first preference CAO choice, with $14 \%$ and $8 \%$ registered to their second and third choice respectively. Students registering on courses which represented a lower preference (4-10), accounted for $15 \%$ of new entrants. See Figures 4, 5 and 6 below and Table A4 on page 55-56 in the appendices.

Figure 4: New Entrant Data - analysis of preference of registered course

Figure 5: Admissions Preference Data - number of students registered in each faculty according to CAO preference

Figure 6: Admissions Preference Data - number in each faculty, according to CAO preference, as a percentage of total new entrants in each faculty

## New Entrant Nationality Data

In 2012, students entering full-time undergraduate courses and programmes for visiting students came from 72 different countries. With the exception of Ireland the top five home countries, in order of the most student numbers, are the United States, United Kingdom (Great Britain and Northern Ireland), France, Germany and Spain. The top five countries in 2011 were United Kingdom (Great Britain and Northern Ireland), the United States, France, Germany and Spain. In the 2010/11 Senior Lecturer's Annual Report the total figure of non-Irish students specified was 623 representing $19 \%$ of the new entrant population. Given the date of publication of that report, figures for new entrants who registered as new entrants in the Hilary term were not included. When these are included the total number of non-Irish new entrants in 2011/12 changes to 960 representing approximately $27 \%$ of the new entrant population.

So far this year, 1092 non-Irish new entrants have registered, representing 29\% of the current new entrant cohort. Full data on the year is not yet available but College has received applications from 178 students wishing to visit Trinity in Hilary term 2013.

The number of new-entrants, classified as Non-EU for the purposes of fees, registered to full undergraduate degrees has increased from 114 in 2011/12 to 196 in 2012/13 (Joint degree in Human Nutrition and Dietetics not included).

Please see Table A17 on pages 73-75 for more detailed data in relation to new entrant students and their nationality profile.

## Total CAO and Direct entry registered students 2012

Table 7 below shows all new entrants to undergraduate courses in 2012/13.

Table 7: Total CAO and direct entry registered students

| New Entrants | $\mathbf{2 0 1 2 / 1 3}$ | $\mathbf{2 0 1 1 / 1 2}$ | $\mathbf{2 0 1 0 / 1 1}$ | $2009 / 10$ |
| :--- | :---: | :---: | :---: | :---: |
| Arts, Humanities and Social Sciences (CAO) | 925 | 927 | 951 | 955 |
| Engineering, Mathematics \& Science (CAO) | 789 | 753 | 735 | 733 |
| Health Sciences (CAO) | 606 | 621 | 639 | 629 |
| Multi-Faculty (CAO) | 483 | 488 | 444 | 446 |
| Total CAO Entry | 2,803 | 2,789 | 2,769 | 2,763 |
| Direct entry and Level 7 courses | 849 | 791 | 866 | 790 |
| Total and Direct entry registered students | $\mathbf{3 , 6 5 2}$ | $\mathbf{3 , 5 8 0}$ | 3,635 | 3,553 |

## New Entrants' Survey 2012

The annual new entrants' survey is distributed to students of full-time undergraduate degree programmes. Part-time students, Erasmus and visiting students were not surveyed and the returns do not differentiate between students starting in the Junior Freshman year and those who were offered advanced entry.

A total of 1,407 surveys were received representing approximately $50 \%$ of registered students coming through the CAO (this figure is lower than previous years due to new entrants' orientation information being provided fully online for the first time in 2012). Table 8 shows a profile of new entrants surveyed.

Table 8: Profile of new entrant respondents

| Nationality |  | Category of Student |  |
| :--- | :---: | :--- | :---: |
| Irish | $84.5 \%$ | School Leaver | $86.5 \%$ |
| Other EU | $9.3 \%$ | Mature Student | $13.5 \%$ |
| Outside EU | $6.2 \%$ |  |  |

New entrant students were asked to indicate on a scale of 1-4 how important they considered a range of factors to be in choosing Trinity College.
As illustrated in Figure 7, College's international reputation (72\%), the reputation of the course at Trinity ( $70 \%$ ), employment prospects ( $63 \%$ ), the content of the course at Trinity (57\%), College's research reputation (50\%), College's city location (41\%), and the social life, sports and societies in Trinity (40\%) were listed as the main reasons for choosing Trinity College.

The remaining reasons were: The course is only offered at Trinity (29\%), Trinity is closest to home (24\%), the student's friends are coming to Trinity (7\%) and information from the students' schools (6\%).

Figure 7: Survey of undergraduate new entrants 2012, 2011, 2010

Please see Table A20 on page 81 in the Appendices.
The sources of information most consulted by respondents were the Trinity website (80\%), the prospectus (68\%) and the Open Day ( $53 \%$ ). Sixty-three percent ( $63 \%$ ) of those who responded to the survey had attended the Trinity College Open Day.

As smart-phones and tablet devices are becoming more prevalent, students were surveyed about their use of such devices. Responses to the survey showed that $65 \%$ of new entrants have a smartphone and $39 \%$ browse university websites with their smart-phones, $18 \%$ of new entrants have a tablet device and $71 \%$ of these students view university prospectuses or course information with their tablet device. With exponential growth expected in the use of tablet devices, a version of the undergraduate prospectus which is optimised for tablet devices is now available to download.

Table 9: Information sources on Trinity College

| Information Source | \% of students who used this source |
| :--- | :---: |
| TCD Website | $80 \%$ |
| TCD prospectus | $67 \%$ |
| TCD Open Day | $53 \%$ |
| Guidance counsellor | $33 \%$ |
| A friend | $29 \%$ |
| Family | $31 \%$ |
| Careers fair | $20 \%$ |
| School visit | $9 \%$ |
| Other | $6 \%$ |
| TCD Admissions Office | $7 \%$ |

Students continue to use a variety of sources when researching their third-level options and the fact that students will often name more than one information source as 'most important' suggests that students are extracting different information of equal value from different sources. The TCD website is regarded as the most important source of information about Trinity College (48\%), followed by the TCD Prospectus ( $36 \%$ ) and the TCD Open Day ( $30 \%$ ). Other choices for the most important source were: guidance counsellors (12\%), school visits (9\%) and career fairs (6\%).

New entrants were also asked what other information/events Trinity should provide for secondlevel students. The most popular new additions would be course specific information evenings ( $72 \%$ ), more school visits ( $42 \%$ ), and the option to subscribe for information via email (36\%). See Table 10 below.

Table 10: Suggested developments

| New information source/event |  |
| :--- | :--- |
| Course specific information evenings | $72 \%$ |
| More school visits | $42 \%$ |
| Subscribe for information via e-mails | $36 \%$ |
| Use an SMS to request a prospectus | $11 \%$ |

Media that students consider effective for advertising university courses are: websites (70\%), social media (65\%), radio (36\%), posters on buses/Luas/DART (22\%), bus shelters (15\%) and billboards (13\%).

New entrants were also asked which websites they most regularly visit. The most popular websites are Google (used by $90 \%$ of students), Facebook ( $88 \%$ ), YouTube ( $80 \%$ ), Gmail ( $44 \%$ ), Hotmail (37\%) and Twitter (30\%). Consequently, advertisements were placed on Facebook in advance of a key CAO application deadline for entry in 2012.

## Schools Liaison Activities 2011/12

The Admissions Liaison Officer co-ordinates a wide range of undergraduate student recruitment activities. With one full-time staff member dedicated to promoting College's undergraduate courses, Trinity cannot attend as many career fairs and schools as institutions where there are full recruitment teams in place, e.g. UCD, DCU and NUIM. However, with the Student Ambassador Scheme initiated in 2010/11 by the Admissions Liaison Officer which has five Ph.D. students available to visit schools and recruitment fairs the number of visits has increased by $60 \%$ and $50 \%$ respectively.

Recognising the need for more collaboration among third-level institutions, the Admissions Liaison Officer set up a Student Recruitment Liaison Group to bring together heads of Student Recruitment or Admissions Officers from UCD, DCU, NUIM, UCC, UL, NUIG, and DIT. The group worked with the Institute of Guidance Counsellors (IGC) to reinstate two large student recruitment fairs in Limerick and Galway. Additional regional fairs have been requested in future years for regions not serviced by current fairs, and the group are working with the IGC to significantly improve the Higher Options fair which is held in the RDS in September each year and which is the country's largest student recruitment fair.

Undergraduate student recruitment activities in 2011/12 included:

## (a) Regional Careers Conventions and School Visits

A number of major regional student recruitment/career fairs are organised annually by the Institute of Guidance Counsellors (IGC) and some second level schools also organise individual fairs. In 2011/12, College was represented at 41 fairs (a $50 \%$ increase from 2010/11) across the thirty-two counties and visited 65 secondary schools (a $60 \%$ increase from 2010/11) to give a presentation about College and its undergraduate courses.

With a view to encouraging more Northern Irish students to apply to Trinity from 2013, Trinity was represented, for the first time, at the largest Northern Irish student recruitment fair in the King's Hall Belfast in March 2012. In addition a poster was sent to all Northern Irish schools providing information on how to apply to Trinity via the CAO.

Some individual Schools/Departments in College were also involved in school liaison activities:

- The Schools of Mathematics and Physics held a specific open day for their courses in November 2011. Approximately 230 students attended.
- The School of Nursing and Midwifery held a specialised Open Evening to increase first preference choices for Psychiatric and Intellectual Disability Nursing. The specialised evening was very successful, with over 50 visitors in attendance.
- The School of Computer Science and Statistics has a part-time Student Recruitment Officer and their academic staff members engage in a range of undergraduate recruitment activities. In 2011/12 staff from the School attended approximately 30 school visits and student recruitment fairs, they also provided individual and group tours of their School, and hosted transition year workshops which accommodated over 100 students.
- The School of Chemistry:
o held the annual Salter's Festival for 82 second-level students,
o held a transition year programme which 40 students attended,
o held an international summer school in association with the University of Bristol (for 25 students),
o ran a series of workshops for small children in association with "Anyone4Science".
o visited several second level schools, and demonstrated experiments to secondlevel schools associated with TAP.
- Botany: organised a two-day outreach event (with the National Botanic Gardens) in the Phoenix Park in May 2012; provided workshops, lectures, demonstrations and experiments for the public in association with the Science Gallery; visited a secondlevel school and hosted transition year students.
- The School of Engineering organised a summer school for secondary school girls, to introduce more girls to engineering.
- Other transition year programmes run by Schools and Departments included:
o Biochemistry and Immunology: 40 students
o Zoology: 22 students
o Physics: 48 students invited to an Astrophysics day, 50 students invited to a Nanophysics day, and 48 students were hosted by the School for 1 week.

## (b) Admissions Website

Trinity College's website was ranked as the most important source of information on Trinity's undergraduate courses by new entrants. The Admissions website contains detailed descriptions of all undergraduate courses which are updated annually, it provides links to Schools' and Departments' individual websites, and it offers information on how to apply to Trinity College and course entry requirements. Potential students may also download the undergraduate prospectus and the evening course brochure. In 2011/12 an eBook version of the undergraduate prospectus and evening courses brochure was added to the website, as well as PDF versions of these documents which are optimised for tablet devices.

A joint project with IS Services and the Web Office led to the podcasting on YouTube and iTunesU of course presentations from the Open Days on $2^{\text {nd }} \& 3^{\text {rd }}$ December 2011.

The Admissions Office also collaborated with the Communications Office to place banner advertisements on the TCD global homepage in the weeks leading up to CAO deadlines. These banners were linked to promotional web pages which provided information encouraging students to choose courses at TCD. A specific advertising campaign targeted at school leavers was also run on Facebook in advance of the CAO Change of Mind deadline (1 July).

## (c) Undergraduate Prospectus

The undergraduate prospectus was listed as the second most important source of information about Trinity's courses by new entrants. Fifty thousand $(50,000)$ printed copies were distributed, while many more electronic versions were downloaded from the Admissions Office website.

## (d) College Open Day 2011

In 2011 the annual College Open Day was a two day event, and was held on Friday $2^{\text {nd }}$ and Saturday $3^{\text {rd }}$ December 2011.

Based on the quantity of literature distributed, it is estimated that the attendance was in excess of 11,000 . This represented a significant increase from the usual numbers of students attending 1 day events ( 8,000 in 2009) ${ }^{5}$. In addition, many mature students were in attendance, as were a number of A-level students and some students from other EU countries.

In total, there were over 110 presentations on each day, and a number of research project demonstrations were given in the areas of Engineering, Science, Nursing, Medicine and Computer Science. The programme of presentations for student sports and societies was also expanded; there was a new presentation about accommodation at Trinity Hall. In addition there was a specific session for Guidance Counsellors which was addressed by the Provost and the Dean of Students. The Irish Independent published a large image and an article about the Open Day on Saturday $3^{\text {rd }}$ December.

## (e) Links with Guidance Counsellors

Guidance Counsellors were ranked as the fourth most important source of information by new entrants. Staff members in the Admissions Office consider guidance counsellors to be a vital link to potential students, and activities related to Guidance Counsellors in 2011/12 included:

- A direct mailing, with enclosed copies of the undergraduate prospectus to all Guidance Counsellors highlighting changes to Trinity's courses. An Irish language version summary document was also distributed for the first time.
- Attendance at the careers events organised by the Institute of Guidance Counsellors (IGC).
- Participation in the six regional autumn meetings for Guidance Counsellors hosted by the Central Applications Office.
- Advertisements in the Guidance Counsellors magazine (Guideline), in the IGC annual yearbook and diary, and in the literature for the IGC annual conference.
- Two representatives from the Admissions Office also attended the IGC's AGM in March 2012.

[^4]
## III. STUDENT POPULATION

In total, there were 16,860 registered students in $2011 / 12$ ( 16,747 in 2010/11). Of these, approximately, 78 \% were from the island of Ireland, $11.5 \%$ from other EU countries, $4.5 \%$ from North and Central America and 6\% from other parts of the world (this includes students from Europe and non-EU countries). In 2011/12, $58 \%$ of the student population was female and $42 \%$ was male. Eleven thousand, nine hundred and ninety seven ( 11,997 ) ( $71 \%$ ) students were registered on undergraduate programmes, and 4,863 (29\%), on postgraduate programmes. See Tables B1 and B2 on page 82 for further detail.

Figure 8: Geographical distribution of student population 2011/12

Figure 9: Gender breakdown of student population 2011/12

Figure 10a: Percentage of students by category 2011/12

Figure 10b: Percentage of postgraduate students by category 2011/12

## IV. ACADEMIC STAFF

## New Academic Appointments

The College's Strategic Plan 2009-2014 identified the quality of academic staff as one of the College's major strengths. During the academic year 2011/2012 63 new academic appointments were made, as illustrated in Table 11. Of the 63 appointments made, 11 were to the Assistant Professor/Registrar category, 44 were to Assistant Professor, 4 were to Associate Professor and 4 were to the Professor category.

Of those appointed 59\% (67\% in 2010/2011) held doctoral degrees and a further $14 \%$ held at least one postgraduate or professional qualification of equivalent standing below doctoral level, $25 \%$ have higher professional medical qualifications and the remaining two percent ( $2 \%$ ) held primary degrees only at the date of appointment.

In 2011/2012 (24\%) of appointments were permanent, and (5\%) were on a Contract of Indefinite Duration basis compared with $9 \%$ in 2010/2011. In 2011/2012 (71\%) were on a contract basis compared with $90 \%$ in 2010/11.

See Tables C1 (a), C2 (a) and C3 (a) on pages 83-85 in the appendices for further data on appointments in 2011/12. (Comparative data available for 2010/11 on tables C1(b) - C3 (b)).

Table 11: New academic appointments 2011/12 and 2010/11

| Permanent | Contract <br> of <br> Indefinite <br> Duration | 5-year <br> contract | 4-year <br> contract | 3-year <br> contract | 2-year <br> contract | Temporary <br> II year | Assistant <br> Professor <br> IRegistrar | Total |

| $24 \%$ | $5 \%$ | $21 \%$ | $0 \%$ | $10 \%$ | $5 \%$ | $19 \%$ | $17 \%$ | $100 \%$ |
|  |  |  |  |  |  |  |  |  |
| 1 | 6 | 32 | 1 | 11 | 2 | 8 | 6 | 67 |
| $1 \%$ | $9 \%$ | $48 \%$ | $1 \%$ | $16 \%$ | $3 \%$ | $12 \%$ | $9 \%$ | $100 \%$ |

## Staff / Student Ratios

Staff/Student ratios in 2011/12 ranged from 1:16 in the Faculty of Engineering, Mathematics and Science, 1:14 in the Faculty of Health Science, to 1:22 in the Faculty of Arts, Humanities and Social Sciences. The overall College ratio was 1:18 (1:17 in 2010/11).

Staff/Student ratio calculations for 2011/12 do not include postgraduate research students who have completed their studies but who were on the live register for thesis examination only, and the School of Education's Continuing Professional Development and Second Level Support Service students.

Further details are provided in tables C4 (a) - C4 (d) on pages 87-90.

## The Provost's Teaching Awards Scheme

The Provost's Teaching Award Scheme is designed to recognise and reward those who have made an outstanding contribution in the pursuit of teaching excellence. The prestige of the award reflects the value which Trinity places on promoting teaching as a scholarly activity and the importance placed on enriching the learning opportunities of its students.

Six awards were presented on 28th May 2012 to the following members of the academic staff:

- Dr Paul Delaney, School of English
- Dr Daniel Faas, School of Social Sciences \& Philosophy - Early Career Award Winner
- Mr John Kubiak, School of Social Work \& Social Policy
- Dr John Rochford, School of Natural Sciences - Lifetime Achievement Award Winner
- Professor Orla Sheils, School of Medicine
- Professor James Wickham, School of Social Sciences \& Philosophy - Lifetime Achievement Award Winner

This year a total of 144 academic staff members were nominated by 226 students, representing the highest number of nominations ever received for this award. Nine candidates were shortlisted this year and were presented with a certificate of commendation by the Provost at the awards ceremony. They were Emer Barrett, Dr Neil Docherty, Dr Roja Fazaeli, Caroline Jagoe, Dr Nicholas Johnson, Dr Vincent Kelly, Michelle Leech, Dr Carol Newman and Dr Irene Walsh.

The candidates were selected through a rigorous process involving their nomination by their students or their peers in College. The candidates were then assessed by the Provost's Teaching Award Review Panel, comprising representatives of academic staff, undergraduate and postgraduate students, and an external reviewer Professor Áine Hyland. The panel examined each candidate's teaching philosophy, their practice and scholarship, and assessed supporting evidence provided by the candidates before deciding on the six overall winners of this year's awards.

A short video of the winners' classes was also produced by Dr Gary Baugh, of the School of Engineering.

## V. ACADEMIC PROGRESS

## Junior Freshman Students Successfully Completing the Year

The percentage of full-time Junior Freshman degree students who successfully completed the year in 2011/12 averaged $91 \%$ across College. The data are based on annual, supplemental and special examination results and are calculated on the basis of the number of students passing examinations against the number of students registered at the end of Trinity Term 2012 (and includes students off-books who were taking examinations). Junior Freshman completion rates of $75 \%$ or less are found in five courses: Early \& Modern Irish, Irish Studies, Music, Engineering with Management (Integrated), and Business and Computing (see Table D1 in the Appendices). It is intended that the Undergraduate Studies Committee will consider the reasons for the low completion rates in these courses.

## Student Cases

Individual student cases involve considerable consultation and interaction with College Tutors, the relevant Course Directors, Directors of Teaching and Learning (UG), Heads of Disciplines and Schools or relevant staff members in academic units. Following full consideration of the case the Senior Lecturer will issue a decision directly to the relevant tutor. There has been an increase in recent years in the number of student cases, as demonstrated in Table 12, although this has now stabilised.

Table 12: Breakdown of number of decision memoranda issued

| Months | $\mathbf{2 0 1 1 / 1 2}$ | $\mathbf{2 0 1 0 / 1 1}$ | $\mathbf{2 0 0 9 / 1 0}$ | $\mathbf{2 0 0 8 / 0 9}$ | $\mathbf{2 0 0 7 / 0 8}$ |
| :---: | :---: | :---: | :---: | :---: | :---: |

| Total | $\mathbf{1 9 6 7}$ | $\mathbf{2 0 4 5}$ | $\mathbf{1 9 9 6}$ | $\mathbf{1 7 6 7}$ | $\mathbf{1 4 7 7}$ |

## Students Off-books

In 2011/12 a total of 320 undergraduate students were off-books, compared to 344 in 2010/11 and 351 in 2009/10. The principal ground for allowing students to go off-books in 2011/12 was medical (36\%), compared to $35 \%$ in 2010/11.

Figure 11: Reasons for students going off-books 2011/12, 2010/11, 2009/10

*Includes Ad Misericordiam reasons

## Examinations

During the 2011/12 academic year the Examinations Office organised approximately 78,127 examination sittings.

Table 13: Breakdown of Examination Sittings ^

| Examinations | $\mathbf{2 0 1 1 / 1 2}$ | $\mathbf{2 0 1 0 / 1 1}$ | $\mathbf{2 0 0 9 / 1 0}$ | $\mathbf{2 0 0 8 / 0 9}$ |

^ Examination sittings = number of students $x$ number of examination papers sat

* Others = Music Entrance Test, Matriculation, HPAT
~Excludes Colleges of Education examinations
Two thousand six hundred and eleven $(2,611)$ examinations (XIDs) were scheduled during the 2011/12 academic year ( 2,461 in 2010/11).

Examinations were scheduled across campus which included the Arts Building, Goldsmith Hall, Graduates' Memorial Building (GMB), Examination Hall, Regent House, Sports Centre, Museum Building and the Luce Hall as well as several school-owned rooms and laboratories. Examinations were held for the twelfth consecutive year in the RDS (Royal Dublin Society). The figures for students registered with the Disability Service continue to grow on a yearly basis. Six hundred and nineteen (619) students, who registered with the Disability Service, required special arrangements Senior Lecturer's Annual Report 2011/12
for the annual examination session in 2012 (537 in 2011) which represents a $15 \%$ increase on last year's figures and an $84 \%$ increase since the 2008/09 annual examination session. Individual timetables were prepared for each of these students according to their specific requirements as advised by the Disability Service.

The increase in the number of students requiring special facilities at examinations necessitated the employment of additional invigilators. Three hundred and thirty (330) postgraduate students were employed for invigilation duties during the 2012 annual examination session (294 in 2011) representing a $12 \%$ increase on 2011 numbers and a $51 \%$ increase since the 2008/09 annual examination session. All invigilators receive detailed instructions on their responsibilities each year and are required to attend a training meeting. The Examinations Office, the Junior Dean, the Director of the Health Service and the Disability Office also provide instructions relevant to examination activities.

Based on undergraduate annual examination results for non-final year students, 1,111 students were awarded first class book tokens in 2012 (939 in 2011). This represents an $18 \%$ increase on the 2011 figures.

## Courts of First Appeal and Academic Appeals

The Courts of First Appeal convenes to consider appeals on matters of academic progress arising out of examinations or other academic circumstances where a student case:
(i) is not adequately covered by the ordinary regulations of the College; or
(ii) is based on a claim that the regulations of the College were not properly applied in the applicant's case; or
(iii) represents an ad misericordiam appeal.

If an application to the Courts of First appeal is unsuccessful, a student may take their case to the College Academic Appeals Committee on the same grounds as listed above.

A greater number of Appeals are normally processed following the supplemental examination session where Courts of Examiners have prohibited students from proceeding to the next year of their course. The number of courts of first appeal in all faculties and of academic appeals at college level after supplemental examinations has been consistently high over the period 2010/2011 to 2011/12. See tables 14(a) and 14(b) below.

Table 14(a): Number of cases coming to Courts of First Appeal

| Courts of First Appeals |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## Foundation Scholarship Examination

A total of 502 students (out of 803 applicants) presented for the Foundation Scholarship examination in 2012 ( 433 presented out of 696 applicants in 2011). One hundred and four (104) Foundation and Non-Foundation Scholarships were awarded in 2012 (86 in 2011). This represents $21 \%$ of those presenting for the examination. Forty six (46) Scholarships were awarded to females (44\%) and 58 to males (56\%). Details of Scholarships awarded by course are given in Table D2 on page 93 in the appendices.

Figure 12: Total Number of Foundation \& Non-Foundation Scholarship's Awarded
$\square$ Female 2012, 2011, 2010
-Male

## External Examiners

External Examiners play a crucial role in ensuring the quality of degree programmes and best practice in examining. A total of 165 ( 151 in 2010/11) external examiners were appointed to examine undergraduate programmes in 2011/12, of whom 126 (comprising $76 \%$ ) have submitted their annual report to the Senior Lecturer. Eighty-eight (88\%) percent of external examiners are from Ireland or the United Kingdom.

For more detailed data please refer to Table D3 on page 94 in the appendices.

## Commencements, Firsts and Gold Medal Awards

In the 2011 calendar year, 33 commencement ceremonies were held during which 4,395 (4,339 in 2010) degrees were conferred ( 2,608 primary degrees and 1,787 higher degrees). For more detail see Table D4 on page 95 in the appendices.

A total of 364 students received first class honors (primary) degrees in 2011/12 (388 in 2010/11). Of these, 79 were awarded Gold Medals ( $82^{6}$ in 2010/11).

See Appendix G on pages 102-103 for the Gold Medal eligibility criteria which was revised during 2010/11 and approved by Board in June 2011.

Table 15: First Class Degrees and Gold Medals 2011/12, 2010/11, 2009/10

## Distribution of Grades Achieved at Degree Examinations 2011

In 2011/12, $15.7 \%$ ( $16.1 \%$ in 2010/11) of students achieved a first class result at their degree examination, $52.4 \%$ ( $50.0 \%$ in 200/11) achieved a result in the second class first division, and $17.9 \%$ ( $18.5 \%$ in 2010/11) obtained a result in the second class, second division. The award of a first class honor degree ranges from $0 \%$ to as high as $100 \%$ (Chemistry with Molecular Modelling) across courses.

Table 17: First Class honor degree distribution per faculty

| Faculty | $\mathbf{2 0 1 1 / 1 2}$ | $\mathbf{2 0 1 0 / 1 1}$ | $\mathbf{2 0 0 9 / 1 0}$ |
| :--- | :---: | :---: | :---: |
| Arts Humanities \& Social Sciences | $15.9 \%$ | $16.2 \%$ | $17.1 \%$ |
|  <br> Science | $20.6 \%$ | $21.3 \%$ | $23.3 \%$ |
| Health Sciences | $16.9 \%$ | $17.7 \%$ | $10.2 \%$ |
| Multi-Faculty | $14.9 \%$ | $14.8 \%$ | $14.2 \%$ |
| College Total | $\mathbf{1 5 . 7 \%}$ | $\mathbf{1 6 . 1 \%}$ | $\mathbf{1 6 \%}$ |

Table D5 on page 96 gives summary data for the years 2005/06 to 2011/12 and information by course for the year 2011/12 is given in Table D6 on page 97.

## Diploma and Certificate Award Ceremonies

In the 2011 calendar year, 11 diploma / certificate award ceremonies were held during which 61 certificates, 146 diplomas, 129 higher diplomas, and 679 postgraduate diplomas were awarded (1,015 awards in total).

Table 18 below includes certificates of achievement in Contemporary Living and in pre university Foundation Studies.

Table 18: Diploma \& Certificate Awards 2011

| COURSE <br> TYPE | AWARD TYPE | In person | In absentia | TOTAL |

## VII. UNDERGRADUATE ACADEMIC DEVELOPMENTS

## Harmonisation of Assessment and Progression Regulations

On foot of the discussion at the University Council's meeting of 15 December 2010 (CL/10-11/070) in relation to the implementation of the GeneSIS Project, the Harmonisation of Assessment and Progression Regulations Group was formed in January 2012 and was charged by the ViceProvost/Chief Academic Officer with the task of exploring the possibilities of establishing consistent and simplified assessment and progression regulations throughout College at both undergraduate and postgraduate levels.

The Group consulted widely with academics and administrators across College, and, guided by principles of equity, transparency, consistency, simplicity and practicality, developed draft undergraduate regulations which were presented to the Undergraduate Studies Committee on $20^{\text {th }}$ March and $17^{\text {th }}$ April 2012. The final version of the proposed harmonised regulations for undergraduate courses was approved by Council at its meeting of $16^{\text {th }}$ May.

Among other things, the approved regulations cover the method for calculating end of year marks and grades for undergraduate students; determine that students are required only to take supplemental assessments in failed modules; provide options in relation to permissible levels of compensation and/or aggregation; provide options for the calculation of degree results; and establish rules around the capping of module marks at the supplemental session in degree years.

The harmonised regulations largely concern courses in the Faculties of Arts, Humanities and Social Sciences and Engineering, Mathematics and Science. Schools and departments delivering professional courses, especially in the Faculty of Health Sciences, were consulted but due to the requirements imposed by external accreditation bodies in relation to curriculum and assessment it was recognised that these courses would have to be treated separately. The Group concluded their work in 2012, at the undergraduate level, by highlighting areas in professional courses for possible future harmonisation.

## The Broad Curriculum (www.tcd.ie/Broad Curriculum)

The academic year 2011/12 saw an increase in the number of students who completed a specialised Broad Curriculum module from 650 (2010/11) to 691 . In 2011/12 sixteen modules were offered, spanning a range of subjects in the arts, humanities, social and earth sciences and attracted students from most undergraduate programmes in College. The modules are designed to promote breadth of reading at undergraduate level, are aimed primarily at students in the Senior Freshman and Junior Sophister years, and are taught over the Michaelmas and Hilary terms.

Details of the module registrations by 'home' faculty of students and retention rates are set out in Table E1 and Table E2 on pages 98-100.

All cross-faculty modules are centrally administered by the Vice-Provost's Office (including registrations, module changes and withdrawals, processing and publication of marks), while module content, teaching and assessment are the responsibility of the relevant discipline(s).

In 2011/12, $80 \%$ of undergraduate degree programmes (including individual subjects within the Two-Subject Moderatorship) provided for students to gain full academic credit in their end-of-year result by substituting a cross-faculty course for an element of the main study programme.
The credit weighting of Broad Curriculum cross-faculty courses and language modules was revised from 6 down to 5 ECTS credits in 2007/08 in line with the Council decision of June 2006. In addition, the following was approved by Council in May 2008:

#### Abstract

Effective from 2008-09, all students taking a BC course, including the $B C$ language modules, where they are permitted by their home course regulations will obtain the associated credits within their 60 ECTS workload and have their BC mark incorporated within their end-of-year overall result, and the School offering the Broad Curriculum course will be assigned the corresponding FTSE.

This means that all the students taking the Broad Curriculum modules in 2011/12 were doing so on a substitution basis only. In order to accommodate the requirement that these modules could be substituted for credit within the total 60 ECTS credits permitted for each course year; schools provided 5 ECTS-credit options for students not wishing to take Broad Curriculum modules.

Achieving full integration of the Broad Curriculum together with the ECTS credit system in line with College policy has meant that all students' module choices are factored into the calculation of the annual full-time student equivalents (FTSE), thereby providing a mechanism for the allocation of resources to disciplines.

## (a) Language Modules

The Centre for Language and Communication Studies (CLCS), School of Linguistic, Speech and Communication Sciences, has, since 1993, offered language modules to students who do not study a language as part of their degree course. The CLCS language modules are open to (i) all undergraduate students as an extracurricular option, and (ii) are also available to undergraduate students as part of the Broad Curriculum programme. The CLCS language modules are fully administered and taught by the CLCS, with information available both on CLCS website and on the Broad Curriculum website.

Language modules in French, German, Italian, Spanish, Irish, Turkish and Korean were available in 2011/12. The objectives of the modules are (i) to develop students' communication skills for purposes of study, travel or work experience during their undergraduate years, and (ii) to enhance their academic qualifications, vocational prospects, and potential for future mobility.

In 2011/12, 39 students successfully completed a module in French, 43 in German, 38 in Spanish, 21 in Irish, 12 in Italian, 4 in Turkish and 4 in Korean.
(b) Website

The website provides up to date information for both cross-faculty modules and language modules, including module course outlines, timetable details and assessment regulations. Course credit regulations for all undergraduate courses are described, and application for both Broad Curriculum and Language modules is provided for directly from the web pages. Assessment results are published on the web pages when available.

## The Bologna Process

(a) Student Learning Outcomes

Intended student learning outcomes are now routinely published for all for taught courses and modules, forming part of the module descriptive information which, since September 2012, is published on-line through the new student administration system (SITS) portal. The process of drafting learning outcomes for new modules and course proposals, and of reviewing and updating learning outcomes associated with existing modules and courses, is facilitated and supported by staff attached to the Bologna Desk in cooperation with Directors of Teaching and Learning and Course Directors. Current guidelines for external examiners require that module learning outcomes, along with other course documentation, are provided to external examiners, and the External Examiner Report Form invites comment from external examiners in relation to the appropriateness of learning outcomes and related assessment methods.
(b) Recognition of Prior Learning (RPL)

Following on from the establishment of the National Framework of Qualifications, the introduction of formal mechanisms for recognising prior learning, whether formal (accredited or certified) or informal (non-accredited or certified), for the purposes of admission to courses or for exemption from elements of courses is a goal of higher education policy on lifelong learning in Ireland and across the European Higher Education Area.
(c) Diploma Supplement

A central feature of the new student administration system is the provision to hold assessment marks and grades at the module and sub-module levels, and to calculate progression results and award classifications for all students. Commencing in the 2012/13 academic year, the accumulation of these data over the duration of a student's academic course, together with other award-related data, will enable production of the Diploma Supplement documentation for all graduates. The modalities of generation and issue will be considered by the GeneSIS project team as part of the system implementation.

## Undergraduate Student Retention Analysis

## General Overview:

Seven cohorts of undergraduate new entrants have been analysed to-date with regard to retention. Table 20 below provides a summary by Cohort, 2001/02 - 2007/08 inclusive, tracking withdrawal rates over a four-year period for each cohort. Student count for the retention analysis is defined when a student registers in College at the start of the academic year. Any students who withdraws after registration, irrespective of when they withdraw during the academic year, are all included in the withdrawn analysis.

Table 20 - Summary by Cohort 2001/02-2007/08 Cohorts

| 2001/02 <br> cohort |  | 2002/03 cohort |  | $2003 / 04$ <br> cohort |  | 2004/05 cohort |  | $2005 / 06$ cohort |  | $2006 / 07$cohort |  | 2007108 cohort |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Intake | w/d* | Intake | w/d* | Intake | w/d* | Intake | w/d* | Intake | w/d* | Intake | w/d* | Intake | w/d* |
| 2407 | 15.2\% | 2406 | 14.9\% | 2507 | 15.8\% | 2451 | 15.5\% | 2553 | 17.9\% | 2574 | 14.6\% | 2625 | 13.6\% |

* w/d - withdrawn

## Overview of 2007/08 Cohort:

The 2007/08 new entrant cohort records the lowest percentage withdrawal rate at 13.6\% (357 students). Compared to the 2006/07 new entrant cohort, (which previously had recorded the lowest withdrawal rate), the 2007/08 intake increased by 51 new entrants. With 20 students less withdrawing, the overall withdrawal rate decreased by $1.0 \%$. Table 21 below provides a comparative summary of the 2007/08 and 2006/07 new entrant cohorts.

Table 21 - Comparison of 2007/08 and 2006/07 New Entrant Cohorts

| Total no. of New Entrants <br> Intake by cohort |  | Total no. of students <br> withdrawn <br> over four years |  | Student withdrawn over four <br> years as a \% of intake |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| $2007 / 08$ | $2006 / 07$ | $2007 / 08$ | $2006 / 07$ | $2007 / 08$ | $2006 / 07$ |
| 2,625 | 2,574 | 357 | 377 | $13.6 \%$ | $14.6 \%$ |
| $2007 / 08$ cohort - intake increased <br> by 51 students | $2007 / 2008$ cohort - withdrawals <br> decreased by 20 students | $2007 / 08$ cohort - withdrawals <br> decreased by $1.0 \%$ |  |  |  |

Table 22 (a) below outlines the standing and year of withdrawal for the 2007/08 cohort and is comparable with other cohorts analysed since 2001/02. See tables 22(b)-22(d) for 2006/07, 2005/06 and 2004/05 cohorts.

Table 22 (a) - 2007/08 Cohort - Standing and Year of Withdrawal

Withdrawn data on Gender, Method of Withdrawal, Special Category of Student, Nationality and Exam results are outlined on Table 23 for cohorts 2007/08, 2006/07 and 2005/06.

## Of the 357 new entrant withdrawals from the $\underline{2007108}$

 cohort:
## Gender:

- $61.9 \%$ (221) were Female [ $65.3 \%(1,714)$ of total new entrant intake 2007/08];
- $38.1 \%$ (136) were Male [34.7\% (911) of total new entrant intake in 2007/08].

## Method of Withdrawal:

- $59.7 \%$ (213) notified College of their withdrawal;
- $39.8 \%$ (142) were withdrawn by College as they did not register;
- $0.6 \%(2)$ were excluded/deemed ineligible to register based on their end of year exam results.

## Special Category of Student:

- $12.9 \%$ (46) were mature students;
- $5.0 \%$ (18) recorded a disability (four of which were mature students).

## Nationality:

- $83.8 \%$ (299) - Irish
- 5.3\% (19) - UK
- $2.2 \%$ (8) - USA
- 1.7\% (6)-Canada
- $1.4 \%$ (5) - Nigeria
- $5.6 \%(20)$ balance spread over seventeen countries.

## Exam Results:

- $98.9 \%$ (353) did not sit exams in the year of withdrawal
- 0.8\% (3) passed exams
- $0.3 \%$ (1) failed exams

## Of the 377 new entrant withdrawals from the 2006/07

 cohort:
## Gender:

- $56.8 \%(214)$ were Female $[62.7 \%(1,613)$ of total new entrant intake 2006/07];
- $43.2 \%$ (163) were Male [37.3\% (961) of total new entrant intake in 2006/07].

## Method of Withdrawal:

- $57.6 \%$ (217) notified College of their withdrawal;
- $41.9 \%$ (158) were withdrawn by College as they did not register;
- $0.5 \%(2)$ were excluded/deemed ineligible to register based on their end of year exam results.

## Special Category of Student:

- $10.6 \%$ (40) were mature students;
- $4.5 \%$ (17) recorded a disability (two of which were mature students).

## Nationality:

- 86.5\% (326) - Irish
- $5.3 \%$ (20) - UK
- $2.4 \%$ (9) - USA
- 1.1\% (4) - Japan
- 0.8\% (3) - Canada
- 0.8\%(3) - Germany
- $0.5 \%(2)$ - Nigeria
- 0.5\% (2) - Kazakhstan
- 0.5\% (2) - Other EU (countries unspecified)
- $1.6 \%$ (6) the balance spread over six countries.

## Exam Results:

- $95.8 \%$ (361) did not sit exams in the year of withdrawal
- $3.2 \%$ (12) passed exams
- $1.0 \%$ (4) failed exams

Of the 456 new entrant withdrawals from the 2005/06 cohort:

## Gender:

- $64 \%(292)$ were Female $[64.7 \%(1,651)$ of total new entrant intake 2005/06];
- $36 \%$ (164) were Male [35.3\% (902) of total new entrant intake in 2005/06].

## Method of Withdrawal:

- $58.3 \%$ (266) notified College of their withdrawal;
- $34.9 \%$ (159) were withdrawn by College as they did not register;
- $6.8 \%$ (31) were excluded/deemed ineligible to register based on their end of year exam results.

## Special Category of Student:

- $12.9 \%$ (59) were mature students;
- $\quad 2.9 \%$ (13) recorded a disability (three of which were mature students).

## Nationality:

- 88.6\% (404)- Irish
- $4.4 \%$ (20) - UK
- $1.5 \%$ (7) - Kuwait
- 0.7\% (3)-Canada
- $0.7 \%$ (3) - USA
- 0.4\%(2) - Norway
- $0.4 \%(2)$ - Ukraine
- $3.3 \%(15)$ the balance spread over twelve countries.

## Exam Results:

- $98.9 \%$ (451) did not sit exams in the year of withdrawal
- $0.7 \%$ (3) passed exams
- $0.4 \%$ (2) failed exams

Table 24 below outlines comparative CAO points for students who withdrew from 2004/05 - 2007/08 cohorts

Table 24 - CAO points for New Entrants who Withdrew from 2004/05-2007/08 Cohorts

| $300-400$ CAO points |  |  |  | 400-500 CAO points |  |  |  | 500-600 CAO points |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 04/05 | $05 / 06$ <br> cohort | 06/07 <br> cohort <br> cohort | $07 / 08$ <br> cohort | $04 / 05$ <br> cohort | $05 / 06$ <br> cohort | $06 / 07$ <br> cohort | $07 / 08$ <br> cohort | $04 / 05$ <br> cohort | $05 / 06$ <br> cohort | $06 / 07$ <br> cohort | 07/08 <br> cohort |
| $14.8 \%$ | $8.9 \%$ | $9.2 \%$ | $5.6 \%$ | $44.3 \%$ | $41.3 \%$ | $44.8 \%$ | $43.1 \%$ | $25.0 \%$ | $26.5 \%$ | $28.5 \%$ | $27.5 \%$ |
| $(53)$ | $(36)$ | $(25)$ | $(20)$ | $(163)$ | $(167)$ | $(162)$ | $(154)$ | $(101)$ | $(107)$ | $(104)$ | $(98)$ |

*The above excludes (a) all non-EU students (CAO points are EU students only) and (b) special category students e.g. mature, Nursing mature, Access etc. e.g. 2007/08 cohort 566 of 2,601 intake were non-EU and special category students

## 2007/08 Cohort - Faculty Overview:

With the exception of the Faculty of Health Sciences, all Faculties recorded a reduction in the number and percentage of new entrant withdrawals and a summary is provided in Table 25.

Table 25-2007/08 \& 2006/07 Cohorts - Faculty comparison

| Faculty comparison 2007/08 cohort -v- 2006/07 cohort |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | AHSS |  | FEMS |  | HS |  | MULTI-FACULTY* |  |
| Cohort | 2007/08 | 2006/07 | $2007 / 08$ | 2006/07 | 2007/08 | 2006/07 | 2007108 | 2006/07 |
| Total New Entrants Intake | 987 | 957 | 639 | 676 | 636 | 569 | 363 | 372 |
| No. students w/d over 4 years | 117 | 114 | 104 | 130 | 75 | 55 | 61 | 78 |
| Students w/d over 4 years as \% of intake | 11.9\% | 11.9\% | $\begin{gathered} 16.3 \\ \% \end{gathered}$ | 19.2\% | 11.8\% | 9.7\% | 16.8\% | 21.0\% |
| Withdrawn \% vis á vis 2006/07 cohort | Unchanged |  | Decrease of 2.9\% |  | Increase of 2.1\% |  | Decrease of 4.2\% |  |

*For the purposes of this study, multi-faculty courses are categorised as a separate faculty.

## Overview of Courses:

Table 26 below outlines courses with the highest new entrant intake across College, which combined accounts for $68.5 \%$ of $2007 / 08$ new entrant intake [ $69.4 \%$ for $2006 / 07$ ] and $64.1 \%$ of the 357 withdrawn students [67.6\% for 2006/07].

Table 26: TCD courses with the Highest New Entrant Intake - Cohort Comparison 2006/07-2007/08

| Faculty | Course | No. of New <br> Entrant Intake <br> by course |  | No. of New <br> Entrants <br> Withdrawn by |  | of New Entrant Withdrawn <br> -v- total course intake |  |
| :--- | :--- | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | $\mathbf{2 0 0 7 / 0 8}$ | $\mathbf{2 0 0 6 / 0 7}$ | $\mathbf{2 0 0 7 / 0 8}$ | $\mathbf{2 0 0 6 / 0 7}$ | $\mathbf{2 0 0 7 / 0 8}$ | $\mathbf{2 0 0 6 / 0 7}$ |
| MF | TSM | 358 | 348 | 61 | 73 | $17.0 \%$ | $21.0 \%$ |
| FEMS | Natural Sciences | 295 | 314 | 49 | 71 | $16.6 \%$ | $22.6 \%$ |
| HS | Nursing <br> (excludes BSc | 239 | 215 | 31 | 29 | $13.0 \%$ | $13.5 \%$ |
| AHSS | BES | 232 | 227 | 23 | 27 | 9.9 | $11.9 \%$ |
| AHSS | Education | 227 | 224 | 17 | 9 | 7.5 | 4.0 |
| FEMS | Engineering | 164 | 178 | 25 | 25 | $15.2 \%$ | $14.0 \%$ |
| HS | Medicine | 131 | 116 | 8 | 5 | 6.1 | 4.3 |
| AHSS | Law | 87 | 89 | 4 | 6 | 4.5 | 6.7 |
| HS | Pharmacy | 66 | 76 | 11 | 10 | $16.7 \%$ | $13.2 \%$ |
|  | Total | $\mathbf{1 , 7 9 9}$ | $\mathbf{1 , 7 8 7}$ | $\mathbf{2 2 9}$ | $\mathbf{2 5 5}$ | $\mathbf{1 2 . 7 \%}$ | $\mathbf{1 4 . 3 \%}$ |

Note: For the 2007/08 \& 2006/07 cohorts all remaining courses within the four Faculties had less than 50 new entrant student intake for any given course.

See Appendix H for Comparative statistics of new entrants by Faculty, 2001/02 - 2007/08 cohort.

## APPENDICES

## APPENDIX A - APPLICATIONS AND ADMISSIONS 2012

## 1. APPLICATIONS

In reviewing 2012 admissions data, Council is invited to note the following points:

- A total of 67,684 applicants applied through the CAO for Level 8 courses in Irish higher education institutions, a similar number to the 2011 application figures $(67,360)$.
- Trinity continued to attract a substantial proportion (12\%) of first preference applications in the CAO system.
- In 2012, 18,995 applicants mentioned TCD as one or more of their CAO course preferences ( 18,437 in 2011) - an increase of $3 \%$.
- The number of first preference applications to Trinity College was 8,142 representing an increase of almost $5 \%$ on the 2011 figures ( 7,770 in 2011). The College's overall ratio of first preference applications to quota was 2.8:1 (2.7:1 in 2011).
- However, it is important to note that the overall ratio of eligible first preference applications to quota was 1.9:1. The term 'eligible applications' refers to applications that satisfy the matriculation requirements of the university, and, where appropriate, course requirements. As can be seen there is a significant difference in the ratio of eligible applications to quota and the ratio of all applications to quota. The data shown in Tables A3-A6 provides this information.
- The increase in applications for courses in the STEM areas was reflected in increases in points for those courses, with points for Science (TR071) reaching 500 for the first time. Increases in the points requirements for other courses within the Faculty of Engineering, Mathematics and Science ranged from 20 to 70 points.
- The main reason for the significant increase in points requirements for many courses in 2012 was due to the introduction of a bonus points scheme for higher level Leaving Certificate Mathematics. An additional 25 points was awarded to Grades D3 or higher. This scheme is in place for a four year pilot period and will be reviewed in 2014.
- Entry to medicine continues to be a topical issue. The revised selection criteria was introduced in 2009 and uses a combination of Leaving Certificate points and the HPAT-Ireland admission test result. A research project being conducted under the auspices of the Deans of Irish Medical Schools published an interim report in July 2012 recommending some minor changes which will be implemented for 2014 entry.
- Seven hundred and sixty-eight (768) EU new entrants to Trinity College achieved 560 points or higher in the Leaving Certificate or equivalent examination and were awarded an Entrance Exhibition. They represent 27.3\% of the 2012/13 Junior Freshman class entering through the CAO (14.7\% in 2011). The significant increase is accounted for by the introduction of the bonus points for Leaving Certificate mathematics.
- In 2012 there were 860 applications for admission under the Mature Student Dispensation Scheme (928 in 2011) and 158 mature students registered (142 in 2011).
- A new entry route was introduced in 2012 for students presenting FETAC qualifications. A total of 9 students were admitted and registered - 7 for course in Nursing and Midwifery and 2 for the Science programme (TR071).
- Tables A12 and A13 show the percentage trend of acceptances to Round 1 offers from 2008 to 2012. The percentages range from $12 \%$ to $100 \%$ and can show substantial variance from year to year. Thus, this is only one of several factors taken into account when determining the numbers of offers to be made.
- $86.5 \%$ of registered CAO students achieved $475+$ points, and $63.5 \%$ achieved $525+$ (Table A14 on pages 68-70).

Figure A1: Total number of CAO applications to full-time undergraduate degree courses in TCD (all preferences and first preferences) 2012, 2011, 2010

Figure A2: Total number of CAO applicants to all universities 2012, 2011, 2010

In 2012 the total number of CAO applicants to Trinity College was 18,995 compared to 18,437 in 2011 and 18,275 in 2010. There are up to 10 preferences on each application form and applicants may apply to more than one institution. Therefore, the figure 18,995 refers to the number of applicants who indicated a preference for one or more courses in Trinity College.

The total number of applications to courses (all preferences) in Trinity College was 42,120 compared to 40,364 in 2011 and 40,043 in 2010. In 2012, the ratio of applications (all preferences) to quotas ranged from 1.9:1 in TSM Early Irish to 50.9:1 in Integrated Children's and General Nursing. The overall College ratio was 14:7 (14:1 in 2011).

Figure A3: Total Number of First Preference Applications to Universities

Figure A4: Ratio of CAO applications (all preferences) to quota 2012, 2011, 2010

Further detail is given on Tables A1 and A2 on pages 51-53.

The ratio of first preference applications to quota, a more revealing indication of demand for College places, is shown in Figure 1, page 6 in the main text and Tables A5 and A6 on pages 57-59.

## 2. ADMISSIONS

The Admissions Office processes all applications to undergraduate courses in the university. These are categorised as (a) CAO applications, (b) direct entry applications, (c) applications from visiting students, and (d) non-EU direct entry applications to fulltime degree programmes.
a) CAO Applications

Tables A5 and A6 on pages 57-59 portray the relationships between course quotas, first preference applications and numbers registering for CAO courses. In comparing the numbers of students registered with course quotas it must be noted that achieving an exact match through several rounds of CAO offers and acceptances is a delicate and indeterminate process.
b) Direct Entry Applications

Table A3 on page 54 details the number of EU and non-EU direct applications to the Admissions Office, together with the ratio of applications to quota and number of registered students for direct entry courses. SOCRATES students are included in this category.
c) Applications from Visiting Students

The Admissions Office processed 301 applications from one-year and one-term SOCRATES/Visiting students (see Table A3 on page 54) in 2012. These applications are from EU students.
d) Non-EU Direct Entry Applications

Seven hundred and fifty five (755) non-EU direct applications were processed from students seeking admission to Medicine (737 in 2011) and fifty nine (59) from students seeking admission to Dental Science (78 in 2011).

In addition, the Admissions Office processed 258 non-EU applications for full-time undergraduate degree programmes other than Medicine and Dental Science (258 in 2011).

Also in 2012 the first group of non EU students were admitted via the International Foundation Course. This is the result of a collaboration between Trinity College, University College Dublin and Study Group - a UK education provider. These students attend a nine month foundation course at the Study Group Dublin base and on successful completion may progress to TCD or UCD. A total of 9 students registered in TCD in September 2012.

In 2012, a total of 3,652 new entrants registered on undergraduate courses in Trinity College, compared to 3,580 in 2011.

Table A1: Ratio of total and eligible CAO applications to quota for 2012, 2011, 2010

|  | 2012 |  |  |  | 2011 |  |  |  | 2010 |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Course | Total Number of Applications (All preferences) | Quota | Ratio of Applications to quota | Ratio of Eligible Applications to quota | Total Number of Applications (All preferences) | Quota | Ratio of Applications to quota | Ratio of Eligible Applications to quota | Total Number of Applications (All preferences) | Quota | Ratio of Applications to quota | Ratio of Eligible Applications to quota |

## FTE Calculation

(i) The staff FTE is calculated against a formula long prescribed by the HEA, which requires the inclusion of all full-time academic staff, irrespective of funding source, the FTE of part-time and hourly-paid teaching staff and the FTE of demonstrators.
(ii) Staff FTEs are produced annually by HR as at $1^{\text {st }}$ January; data is provided by Department within School. These figures, together with explanatory notes as appropriate, are sent to individual School Administrator for verification. Queries raised by Schools are discussed and resolved with HR before the staff:student ratio is calculated.
(iii) The FTE for part-time and occasional teaching staff, and for demonstrators, is calculated against the total pay costs incurred by Schools and Departments in the last complete financial year (i.e. the 2011/2012 FTE for this cohort is calculated against the pay value in financial year ended $30^{\text {th }}$ September 2011.) It is the responsibility of Departments and Schools to ensure that casual academic staff and demonstrators are correctly coded, so that the correct factors, described at (iv) and (v) below, are applied
(iv) The factor applied to the calculation of the part-time teaching staff is $100 \%$ of the value of the $11^{\text {th }}$ point of the Lecturer scale.
(v) The factor applied in the calculation of the FTE of Demonstrators is $100 \%$ of the value of the full-time salary of Demonstrators (i.e. the current rate for Demonstrators in Anatomy).
(vi) In certain instances where no "department" exists - e.g. the Biology Teaching Centre - the FTE of the whole-time Director and the FTE of the occasional Demonstrators is divided and allocated among cognate Departments. The proportion of FTE allocated to each Department is a matter determined by the Faculty.

| FACULTY 2011/12 | STAFF <br> FTE |  |  |  |  | STUDENT FTE |  |  |  |  | Ratios <br> 2011/12 |

## ACADEMIC YEAR STRUCTURE

2013 / 2014

Appendix G

## Gold Medals

| Course | Minimum overall percentage required to be recommended for the award of a Gold Medal | Category |
| :---: | :---: | :---: |
| FACULTY OF ARTS, HUMANITIES AND SOCIAL SCIENCES |  |  |
| Ancient and Medieval History and Culture | 73\% or 75\% | Category 5 |
| Biblical and Theological Studies | 73\% or 75\% | Category 5 |
| Business Studies | 73\% | Category 3 |
| Business Studies and a Language | 73\% | Category 3 |
| Classics | 73\% or 75\% | Category 5 |
| Clinical Speech and Language Studies | 75\% | Category 2 |
| Computer Science, Linguistics and a Language | 73\% | Category 4 |
| Deaf Studies | 73\% | Category 3 |
| Drama and Theatre Studies | 73\% or 75\% | Category 5 |
| Early and Modern Irish | 73\% or 75\% | Category 5 |
| Economic and Social Studies | 73\% | Category 3 |
| Education (honors 4th year) | 73\% | Category 3 |
| English Studies | 73\% or 75\% | Category 5 |
| European Studies | 73\% | Category 3 |
| Germanic Languages | 73\% | Category 3 |
| History | 73\% | Category 3 |
| History and Political Science (course taken as a two part Moderatorship) | 73\% or 75\% | Category 5 |
| History and Political Science (course taken equally for 4 years) | 73\% | Category 3 |
| Irish Studies | 73\% or 75\% | Category 5 |
| Law | 73\% | Category 3 |
| Law and Business | 73\% | Category 3 |
| Law and French | 73\% | Category 3 |
| Law and German | 73\% | Category 3 |
| Law and Political Science | 73\% | Category 3 |
| Mental and Moral Science | 73\% or 75\% | Category 5 |
| Music | 73\% or 75\% | Category 5 |
| Music Education | 73\% | Category 4 |
| Philosophy | 73\% or 75\% | Category 5 |
| Philosophy and Political Science (course taken as a two part Moderatorship) | 73\% or 75\% | Category 5 |
| Philosophy and Political Science (course taken equally for four years) | 73\% | Category 3 |
| Philosophy, Political Science, Economics and Sociology | 73\% | Category 3 |
| Political Science and Geography | 73\% | Category 3 |
| Psychology | 73\% or 75\% | Category 5 |
| Religions and Theology | 73\% or 75\% | Category 5 |
| Social Studies | 73\% | Category 3 |
| Sociology and Social Policy | 73\% | Category 3 |
| Theology (honors 4th year) | 73\% | Category 3 |
| World Religions and Theology | 73\% or 75\% | Category 5 |
|  |  |  |
| FACULTY OF ENGINEERING, MATHEMATICS AND SCIENCE |  |  |
| Business and Computing | 73\% | Category 3 |
| Chemistry with Molecular Modelling | 75\% | Category 2 |
| Computer Science (BA) | 80\% | Category 1 |
| Computer Science (BSc) | 80\% | Category 1 |
| Earth Sciences | 75\% | Category 2 |
| Engineering | 80\% | Category 1 |
| Engineering - Double Diploma | 80\% | Category 1 |
| Engineering with Management | 80\% | Category 1 |
| Human Genetics | 75\% | Category 2 |
| Information Systems (BSc) (hons) | 80\% | Category 1 |
| Management Science and Information Systems Studies | 75\% | Category 2 |
| Mathematics | 80\% | Category 1 |
| Medicinal Chemistry | 75\% | Category 2 |
| Nanoscience, Physics and Chemistry of Advanced Materials | 75\% | Category 2 |
| Physics and Chemistry of Advanced Materials | 75\% | Category 2 |
| Natural Sciences | 75\% | Category 2 |
| Theoretical Physics | 80\% | Category 1 |
|  |  |  |

[^0]:    ${ }^{1}$ www.tcd.ie/vpcao/council/usc-agenda-minutes.php.

[^1]:    ${ }^{2}$ This paper can be found at the Undergraduate Studies webpage (www.tcd.ie/undergraduate-studies). Senior Lecturer's Annual Report 2011/12

[^2]:    ${ }^{3}$ The internet was identified as a significant factor in the 3rd Senior Lecturer's Annual Report, for 1997-1998. On p. 5 it notes that $32 \%$ had consulted 'Trinity world wide web, a surprisingly high number'.
    (www.tcd.ie/vpcao/council/senior-lecturer-reports.php). This had risen to $54 \%$ by 1999/2000 and $74 \%$ by 2000/2001.

[^3]:    ${ }^{4}$ The big increase in the numbers over 2011 is due to the introduction of bonus points for higher level Leaving Certificate Mathematics.
    Senior Lecturer's Annual Report 2011/12

[^4]:    ${ }^{5}$ Open Day 2010 was postponed to Saturday 22 January 2011 due to adverse weather conditions. This event was very close to the main CAO deadline, which resulted in a lower attendance (approximately 5,500 ).

[^5]:    *Supplementals

[^6]:    ${ }^{6}$ Figure amended for 2010/11 one student approved for Gold Medal in February 2012.

[^7]:    ** This category includes Colleges with some courses eligible for the Government undergraduate fee remission scheme

[^8]:    * Applications for this route are processed by the Nursing Careers Centre; therefore Trinity does not have access to information concerning the attainment of previous degrees.

[^9]:    $\wedge$ It should be noted that in addition to the single honor programme in Classics, four subjects are offered within the Two Subject Moderatorship programme (i.e. Ancient History and Archaeology, Classical Civilisation, Greek and Latin).

    * Table A13 on page 67 provides the points cut-off levels against different variations of TSM courses.

[^10]:    $\wedge$ This may include students from Northern Ireland who stated Irish as nationality.
    ** Students nationality not specified

[^11]:    * With effect from 1994/95, all full-time postgraduate degree students were calculated as equivalents to 1 FTE (rather than equivalent to 3 FTEs).
