

Derogations for the Pharmacy Programme 2020-21

1. Progression Regulations	
Progression regulations will be standardised as much as possible across undergraduate programmes. Some variation may be required to accommodate requirements from external professional and accrediting bodies.	No derogation necessary.
2. Annual Progression	
i. Progression should be on an annual basis.	No derogation necessary.
ii. Students should be allowed to carry failed modules from semester to semester, but not from year to year.	No derogation necessary.
iii. Students should receive provisional module results after Semester 1 for all modules completed and assessed during Michaelmas term. Courts of Examiners should convene after Semester 2 assessment and consider and confirm the results from both semesters.	No derogation necessary.
3. Progression Threshold	
i. The mark representing a pass should be standardised as far as possible across all programmes. All programmes should provide clear grade descriptors setting out what constitutes a pass.	No derogation necessary.
ii. The progression threshold in all standard four-year degree programmes will not be higher than the pass mark.	No derogation necessary.
4. Minimum credits to pass a year	
i. Students should have a balanced credit load across the two semesters, i.e., 30 credits in semester 1 and 30 credits in semester 2.	No derogation necessary.

ii. The number of credits to pass a year should be 60 [this is predicated on all undergraduate programmes comprising 60 ECTS per year].	No derogation necessary.
iii. Compensation: All modules and components within modules are “compensatable”.	Derogation granted - For the five-year Pharmacy (Integrated) Programme, students are not allowed to compensate in any of the Pharmacy Practice and Pharmaceutics modules. Failure in these modules will require the student(s) to be reassessed at the supplemental session (see Appendix 1 for list of modules).
5. Degree Award Calculations	
The calculation of the degree award will be based on the final two years (JS+SS) on a 30/70 basis.	No derogation necessary.
6. Number of years to complete a degree.	
The maximum number of years to complete an undergraduate degree should be: <ul style="list-style-type: none">• 6 years for a standard four-year programme• 7 years for a five-year programme unless otherwise specified by accrediting bodies.	Derogation granted - Students are required to successfully complete the entire Pharmacy (integrated) programme (B.Sc. (Pharm.) and Master in Pharmacy degree courses) within eight years of starting the B.Sc. (Pharm.) course in order to be eligible for the award of Master in Pharmacy. In exceptional circumstances, this period may be extended by one year.
7. Repetition of a year¹	
i. Students should be allowed to repeat all years.	No derogation necessary.
ii. Students should not repeat any academic year more than once within a degree programme and may not repeat more than two academic years within a degree programme [See Recommendation 6].	No derogation necessary.
iii. Repetition of a year is in full, i.e., all modules and all assessment components. There will be an option to repeat a year on an ‘off-books’ basis. ²	No derogation necessary.

¹ A student’s academic record on their transcript will show clearly the time lost through repetition of a year.

² Of the nine recommendations approved by Council, one (recommendation 7) was subsequently revised in May 2018 further to the Board decision of 28 March 2018 (BD/17-18/178), which agreed to return the University’s position in relation to supplemental exam fees and modular billing to the status quo. The implementation of modular billing was deferred for at least one academic year, in order to facilitate a full and detailed analysis of all potential streams of revenue to fund it.

8. Reassessment³	
i. Supplementals should be available in all years.	No derogation necessary.
ii. The right to supplementals where a student has failed at the annual session should be automatic. ⁴	No derogation necessary.
iii. The same progression regulations, including compensation, should be applied at annual and supplemental sessions.	No derogation necessary.
iv. Re-scheduled exams within the session should be discontinued.	No derogation necessary.
v. Students (in all years) should only be required to re-sit examinations or re-submit coursework for failed modules or components thereof.	No derogation necessary.
vi. Different reassessment modalities should be allowed where appropriate.	No derogation necessary.
vii. Where supplemental assessments are taken, marks are awarded and agreed as usual. Capping will not be applied.	No derogation necessary.
9. Special Examinations	
Special Examinations should be discontinued.	No derogation necessary.

³ Students who are given permission to defer from the annual to the supplemental session (including on medical grounds) are recorded at the annual session as 'Defer'. As with Recommendation 7 (i), the student's academic record on their transcript will show clearly the stages at which the student has supplemented and/or repeated years.

⁴ Students who have passed at the annual session are not permitted to present at the supplemental session in order to improve their performance.

Appendix 1. Compensatable (C)/Non-compensatable (NC) Module Details

Module Code	Module Name	ECTS	Compensatable or Non-compensatable
Junior Freshman			
PHU11104	Introduction to Pharmaceutics and Formulation (including Mathematical Methods and Pharmaceutical Calculations)	10	NC
PHU111P6	Practice of Pharmacy I	10	NC
Senior Freshman			
PHU22104	Formulation and Pharmaceutical Technology	10	NC
PHU22106	Practice of Pharmacy II	10	NC
Junior Sophister			
PHU33104	Sterile Products and Advanced Pharmaceutical Biotechnology	10	NC
PHU33106	Practice of Pharmacy III	10	NC
Senior Sophister			
PHU44100	Organisation and Management Skills	10	NC
PHU44200	Personal Skills Development	10	NC
PHU44300	Professional Practice	10	NC
PHU44102	Advanced Pharmaceutical Chemistry, Drug Discovery & Design	5	NC
PHU44107	Science Informing Practice	10	NC
PHU44112	Research Project	15	NC
Year 5 M.Pharm⁵			
PHP55106	Practice of Pharmacy & Integrated Pharmacy Skills	10	NC
PHP55100	Supply of Medicines and Organisation and Management Skills	5	NC
PHP55200	Leading the Safe and Rational use of Medicines	5	NC
PHP55300	Professional Practice and Public Health	5	NC
PHP55400	Pharmacy Practice Research Project	30	NC
PHP55000	Experiential learning and Professional Registration Examination	15	NC

⁵ Derogation is not required for PG modules - Year 5 non-compensatable modules are listed here for completeness.
