

## Derogations Granted by Regulation 2022-23

### 1. Progression Regulations

Progression regulations will be standardised as much as possible across undergraduate programmes. Some variation may be required to accommodate requirements from external professional and accrediting bodies.

Programme	Derogation granted
Dental Science	Unable to fit with standard progression regulations due to external professional accreditation barriers.
Medicine	Unable to fit with standard progression regulations due to external professional accreditation barriers.

### 2. Annual Progression

- i. Progression should be on an annual basis.
- ii. Students should be allowed to carry failed modules from semester to semester, but not from year to year.
- iii. Students should receive provisional module results after Semester 1 for all modules completed and assessed during Michaelmas term. Courts of Examiners should convene after Semester 2 assessment and consider and confirm the results from both semesters.

No derogations required.

### 3. Progression Threshold

- i. The mark representing a pass should be standardised as far as possible across all programmes. All programmes should provide clear grade descriptors setting out what constitutes a pass.
- ii. The progression threshold in all standard **four-year** degree programmes will not be higher than the pass mark.

Programme	Derogation granted
Dental Science	<b>i Pass mark</b> The standard pass mark for Dental Science is 50%. However, an exception is necessary for (i) Objective Structured Clinical Exams (OSCEs) which are standard set as per international best practice and (ii) clinical credits which require 60% for progression—these credits are awarded based on a combination of safety, skill, professionalism and attendance. The pass mark has been calibrated over the years to reflect the Dental Council's requirements and also the EU directive on number of hours teaching.
Medicine	<b>i Pass mark</b> The standard pass mark for Medicine is 50%. However, the standard setting methods used for objective structured clinical examinations (OSCEs) results in a pass mark of 60%+, in accordance with the validity and reliability requirements for accreditation.

Physics	<p><b>i Pass mark</b></p> <p>The standard pass mark for Physics is 40%. In four JF and four SF modules, there is a minimum mark requirement of 30% separately in the Examination component and the Laboratory component, in order for a Pass or Qualified Pass mark in the module to be granted. Other components making up fewer marks are not included. This applies irrespective of the degree stream of the student taking the module, such as those on Physical Sciences, Chemical Sciences, and Theoretical Physics programmes, registration or visiting student status, or year of first admission. (See Appendix 1 for module details)</p>
---------	--

**4. Minimum credits to pass a year.**

i. Students should have a balanced credit load across the two semesters, i.e., 30 credits in semester 1 and 30 credits in semester 2.

ii. The number of credits to pass a year should be 60 [this is predicated on all undergraduate programmes comprising 60 ECTS per year].

iii. Compensation: All modules and components within modules are “compensatable”.

iv. 10 ECTS may be accumulated at ‘Qualified Pass’ (i.e. marks between 35-39% where the pass mark is 40% or 45-49% where the pass mark is 50% for some professionally accredited courses).

Programme	Derogation Granted
Clinical Speech and Language Studies	<p><b>iii Compensation</b></p> <p>Compensation between clinical and non-clinical components is not possible due to accreditation requirements. Academic and clinical modules are designed to ensure students meet the competencies set down by the regulatory body, CORU.</p> <p>Compensation is not permitted in any year between or within modules (see Appendix 2 for list of modules).</p>
Dual Degree programmes, with Columbia University in: English Studies; History; Middle Eastern and European Languages and Cultures; European Studies; History of Art and Architecture; Film; Classics, Ancient History and Archaeology; Neuroscience; Geoscience; Philosophy; Religion and Mathematics.	<p><b>ii Number of credits to pass a year</b></p> <p>Students take an additional 30 ECTS credits for Trinity over their final two years whilst studying at Columbia University.</p> <p><b>iii Compensation</b></p> <p>Compensation will not be possible across the 30 extra Trinity credits taken in the final two years.</p>

Dental Science	<p><b>i Balanced credit load</b> Some integrated modules have a higher credit weighting and are delivered in teaching blocks rather than in semesters thereby resulting in a credit load that is not balanced in each year.</p> <p><b>iii Compensation</b> Compensation is not applied between written and clinical assessments. From a regulatory standpoint there is a detailed list of competencies, many of which are clinical skills (e.g. diagnosis, examination, record-taking etc.). Dental Science must be able to certify that students are competent in these clinical areas; therefore compensation between clinical and written assessment is not permitted (see Appendix 2 for details).</p>
Medicine	<p><b>i Balanced credit load</b> A balanced credit-load is not possible in clinical years as the programme/modules are typically spread over 15+25 weeks (not 11+11 weeks).</p> <p><b>iii Compensation</b> Compensation is not permitted across core modules in all five years of the Medicine programme. However some compensation within modules is permitted; e.g. in modules with clinical components, theoretical components may be compensated with clinical assessment but not vice versa (see Appendix 2 for details).</p>
Music Education	<p><b>i Balanced credit load</b></p> <p><b>JF</b> Semester 1 has 27.5 credits; Semester 2 has 32.5 credits (School Placement (SP) is in Semester 2)</p> <p><b>SF</b> Semester 1 has 27.5 credits; Semester 2 has 32.5 credits. (SP is in semester 2)</p> <p><b>JS:</b> Semester 1 has 35 credits; Semester 2 has 25 credits (SP is in Semester 1)</p> <p><b>SS:</b> Semester 1 has 35 credits because the Capstone module is seeded throughout semester 1 but the lion's share of the work occurs in semester 2. Similarly, Advanced Aural Skills and Advanced Composition require an incremental engagement from semester one but again, the lion's share of the work is done in semester 2. Semester 2 has 25 credits.</p> <p><b>iii Compensation</b></p> <p>In line with professional degree courses there are specific professional components for post primary classroom teaching that are non-compensatable as follows, which can be viewed in Appendix 2.</p> <p>Should students fail School Placement, they must repeat the component/module during the following year.</p>

4. Minimum credits to pass a year. (continued)	
Nursing and Midwifery	<p><b>ii Number of credits to pass a year</b> Professional accreditation requires students to complete the Children’s and General Nursing programme over 4.5 years. Students are required to complete 280 ECTS taking 70 credits in each of the first three years, and the final 70 credits over the final 1.5 years. Year 1 = 70 ECTS, Year 2 = 70 ECTS, Year 3 = 70 ECTS and Years 4+5 = 70 ECTS.</p> <p><b>iii Compensation</b> The assessment strategy of the Nursing and Midwifery Board of Ireland (NMBI) does not allow compensation between theoretical and clinical practice placements. In line with the development of the new Nursing and Midwifery curricula which will apply in 2018/19 some compensation within modules is permitted (see Appendix 2 for module details).</p>
Occupational Therapy	<p><b>i Balanced credit load</b> Occupational Therapy is unable to implement a balanced ECTS credit load across semesters in the JS and SS years because of the Practice Education (Clinical Placement) requirements. Placements are of 11 weeks’ duration in the JS and SS years and account for a full semester.</p> <p><b>iii Compensation</b> Compensation between clinical and non-clinical components is not possible due to accreditation requirements. Academic and clinical modules are designed to ensure students meet the competencies set down by the regulatory body, CORU. Compensation is permitted in the JF year (with the exception of one module) and in the SF year (with the exception of four modules); some compensation is possible within modules (see Appendix 2 for list of modules).</p>
Pharmacy	<p><b>iii Compensation</b> For the five-year Pharmacy (Integrated) Programme, students are not allowed to compensate in any of the Pharmacy Practice and Pharmaceutics modules. Failure in these modules will require the student(s) to be reassessed at the supplemental session (see Appendix 2 for list of modules).</p>
Physiotherapy	<p><b>iii Compensation</b> Compensation between clinical and non-clinical components is not possible due to accreditation requirements. Academic and clinical modules are designed to ensure students meet the competencies set down by the regulatory body, CORU. Compensation is not permitted in any year across modules; some compensation is possible within modules (see Appendix 2 for list of modules).</p>

#### 4. Minimum credits to pass a year. (continued)

Radiation Therapy	<p><b>i Balanced credit load</b> Radiation Therapy is unable to implement a balanced ECTS credit load across semesters in all years because of the Clinical Placement requirements. Placements are conducted during and beyond the 11 teaching weeks in each semester.</p> <p><b>iii Compensation</b> Compensation between clinical and non-clinical components is not possible due to accreditation requirements. Academic and clinical modules are designed to ensure students meet the competencies set down by the regulatory body, CORU. Compensation is permitted in two modules only in each of the JF and SF years, but is not possible in either of the Sophister years. There is some compensation within modules in all four years (see Appendix 2 for list of modules).</p>
Social Studies	<p><b>i. Students should have a balanced credit load across the two semesters, i.e., 30 credits in semester 1 and 30 credits in semester 2.</b></p> <p>Students are required to take increased ECTS in each year of the course for professional accreditation purposes. This can result in an unbalanced credit load on some occasions. The credit balance is as follows:</p> <ul style="list-style-type: none"><li>• Junior Fresh = 70 ECTS, Semester 1 = 35 ECTS, Semester 2 = 25 ECTS, Trinity Term = 10 ECTS Placement</li><li>• Senior Fresh = 80 ECTS, Semester 1 = 35 ECTS, Semester 2 = 30 ECTS, Trinity Term = 15 ECTS Placement</li><li>• Junior Soph = 75 ECTS (Semester 1 = 40 ECTS on Placement, Semester 2 = 35 ECTS Taught Modules)</li><li>• Senior Soph = 75 ECTS (Semester 1 = 40 ECTS on Placement, Semester 2 = 35 ECTS Taught Modules)</li></ul> <p><b>ii Number of credits to pass a year</b> Professional accreditation requires students to complete 300 ECTS across the 4 year period. CORU requires that the increased ECTS credits are maintained into the future to retain accreditation and to ensure that the qualification continues to be recognised in Ireland and abroad. JF = 70 ECTS, SF = 80 ECTS, JS = 75 ECTS and SS = 75 ECTS.</p> <p><b>iii Compensation</b> Accreditation mandates the retention of a number of non-compensatable modules (See Appendix 2 for details).</p>

## 5. Degree Award Calculations

The calculation of the degree award will be based on the final two years (JS+SS) on a 30%/70% basis.

Dual Degree programmes, with Columbia University in English Studies; History; Middle Eastern and European Languages and Cultures; European Studies; History of Art and Architecture; Film; Classics, Ancient History and Archaeology; Neuroscience; Geoscience; Philosophy; Religion and Mathematics.	Degrees will not be able to meet the 30/70 calculation method. For the purpose of calculating the Trinity degree classification, the aggregate mark from the final year at Columbia (best 32 Columbia credits) will be combined with the aggregate mark from the additional modules required by Trinity (30 ECTS credit) on an equal basis.
Medicine	<p>Medicine's current 50/50 calculation is based on the named parts of the degree completed in year 4 (Obstetrics/Gynaecology and Paediatrics) and year 5 (Medicine and Surgery). The modules in Year 4 &amp; 5 are delivered and assessed so that each student receives the required teaching and clinical placement hours in the designated clinical speciality. The modules are weighted equally in the overall degree calculation.</p> <p>Medicine has agreement in principle to work towards including Public Health and Primary Care in the final degree award calculation in accordance with Medical Council recommendations. Once approved, the revised calculation will be implemented on a 60/40 basis.</p>
Middle Eastern and European Languages and Cultures	<p>MEEELC students entering Junior Sophister in 2021/22 – 2024/25 will have their degree calculated only on their SS grades.</p> <p>From 2025/2026, Junior Sophisters will return to the standard degree calculation of JS 30% / SS 70%.</p>
Music Education	<p>Students who entered the programme in 2019/20 and before will have their degree awarded based 100% on the Senior Sophister year.</p> <p>Students entering from 2020/21 onwards will have their degree calculated on the JS 30%/SS 70% basis as per the standard regulation.</p>

## 6. Number of years to complete a degree

The maximum number of years to complete an undergraduate degree programme should be:

- 6 years for a standard four-year programme
- 7 years for a five-year programme unless otherwise specified by accrediting bodies.

Medicine	Attention is drawn to the fact that in Medicine a student who does not complete the course in 7 years, including years off the books, may not be able to register in some jurisdictions.
Occupational Therapy	Students may be required to leave the course prior to 6 years in instances where a student fails a placement more than once or fails two placement modules.
Pharmacy	Students are required to successfully complete the entire Pharmacy (integrated) programme (B.Sc. (Pharm.) and Master in Pharmacy courses) within 8 years of starting the B.Sc. (Pharm.) course to be eligible for the award of Master in Pharmacy. In exceptional circumstances, this period may be extended by 1 year.

## 7. Repetition of a year <sup>1</sup>

i. Students should be allowed to repeat all years.

ii. Students should not repeat any academic year more than once within a degree programme and may not repeat more than two academic years within a degree programme [See Regulation 6].

iii. Repetition of a year is in full, i.e., all modules and all assessment components. There will be an option to repeat a year on an 'off-books' basis.<sup>2</sup>

Dental Science	<b>iii. Repetition of a year is in full</b> Students cannot repeat a year off books with assessment (OBA) due to the clinical requirements in any given year.
Nursing and Midwifery	<b>iii. Repetition of a year is in full</b> Where a student is required to repeat a module listed in Appendix 4, they are permitted to repeat only the failed assessment component, i.e. either the clinical or theoretical assessment component as appropriate. Where a student has failed both components they would be expected to repeat the module in full. <sup>3</sup>  The Senior Sophister year can only be repeated OBA due to the paid internship.

<sup>1</sup> The student's academic record on their transcript will show clearly the time lost through repetition of a year.

<sup>2</sup> Of the nine recommendations approved by Council, one (recommendation 7) was subsequently revised in May 2018 further to the Board decision of 28 March 2018 (BD/17-18/178), which agreed to return the University's position in relation to supplemental exam fees and modular billing to the status quo. The implementation of modular billing was deferred for at least one academic year, in order to facilitate a full and detailed analysis of all potential streams of revenue to fund it.

<sup>3</sup> Should the ability to repeat on a module-by-module basis be reinstated for 2020/21, derogations will be granted to Dental Science and Nursing and Midwifery Programmes.

Occupational Therapy	<p><b>i. Students should be allowed to repeat all years</b></p> <p>If a student fails one placement, she/he may be permitted to repeat the placement; however only one attempt at a repeat placement is permitted. If that repeat placement is failed, or if any further placements are failed over the four years of the course, the student will be excluded from the course.</p> <p>Occupational therapy students complete practice education placements (clinical placements) across the 4 UG years. These placements have ECTS weightings but they are treated very differently from academic modules as these are essential professional practice components of the course.</p>
----------------------	---

## 8. Reassessment<sup>4</sup>

- i. Supplementals should be available in all years.
- ii. The right to supplementals where a student has failed at the annual session should be automatic.<sup>5</sup>
- iii. The same progression regulations, including compensation, should be applied at annual and supplemental sessions.
- iv. Re-scheduled exams within the session should be discontinued.
- v. Students (in all years) should only be required to re-sit examinations or re-submit coursework for failed modules or components thereof.
- vi. Different reassessment modalities should be allowed where appropriate.
- vii. Where supplemental assessments are taken, marks are awarded and agreed as usual. Capping will not be applied.

Medicine	<p><b>v. Repetition of failed components only</b></p> <p>In specified modules, students are required to pass both written and clinical assessment components in the same assessment sitting. Students who fail, or are absent from, the clinical (or written) component of the examination in any subject will be required to repeat the written and clinical components of that subject, even if they have previously passed the written (or clinical) component. (See Appendix 5 for module details.)</p>
----------	---

## 9. Special Examinations

Special Examinations should be discontinued.

No derogations required.

<sup>4</sup> Students who are given permission to defer from the annual to the supplemental session (including on medical grounds) are recorded at the annual session as 'Defer'. As with Recommendation 7 (i), the student's academic record on their transcript will show clearly the stages at which the student has supplemented and/or repeated years.

<sup>5</sup> Students who have passed at the annual session are not permitted to present at the supplemental session in order to improve their performance.

## Appendix 1. Modules with Derogations to Regulation 3.i

Module Code	Module Title	ECTS Credit
PYU11P10	Physics 1	10 credits
PYU11P20	Physics 2	10 credits
PYU11T10	Physics for Theoretical Physics 1	10 credits
PYU11T20	Physics for Theoretical Physics 2	10 credits
PYU22P10	Physics 3 (a.k.a. Classical Physics)	10 credits
PYU22P20	Physics 4 (a.k.a. Modern Physics)	10 credits
PYU22T10	Physics for Theoretical Physics 3 (a.k.a. Classical Physics for Theoretical Physics)	10 credits
PYU22T20	Physics for Theoretical Physics 4 (a.k.a. Modern Physics for Theoretical Physics)	10 credits

## Social Studies

Module Code	Module Name	ECTS	Compensatable or Non-compensatable
<b>Junior Freshman</b>			
SSU11030	Intro to Social Work	10	NC
SSU11042	Junior Freshman Placement	10	NC
<b>Senior Freshman</b>			
SSU22070	Social Work Theory and Practice	10	NC

SSU22112	Senior Freshman Placement	15	NC
<b>Junior Sophister</b>			
SSU33012	Law for Social Workers	5	NC
SSU33072	Family & Child Care Studies	10	NC
SSU33202	Criminology	5	NC
SSU33402	Biography, Identity and Professional Practice	5	NC
SSU33502	Child Protection & Disability: Perspectives and Practice	10	NC
SSU33090	Social Work Practice	15	NC
SSU33101	Junior Sophister Placement	15	NC
<b>Senior Sophister</b>			
SSU44111	Senior Sophister Placement	20	NC
SSU44200	Social Work Practice (capstone)	20	NC
SSU44042	Perspectives on Social Work	5	NC
SSU44052	Social Work & Social Systems	5	NC
SSU44062	Social Work & Child Care	10	NC
SSU44072	Social Work & Equality Issues	5	NC
SSU44082	Social Work & Mental Health	5	NC
SSU44092	Groupwork	5	NC

## Music Education

Module Code	Module Name	ECTS	Compensatable or Non-compensatable
<b>Senior Fresh</b>			
ET2018	School Placement 2	10	NC
<b>Junior Sophister</b>			
ET3025	School Placement 3	25	NC
<b>Senior Sophister</b>			
ET4058)	School Placement 4	10	NC

## Appendix 3. Non-compensatable Assessment Component Details

### Dental Science

#### **Year 2**

All clinical competences must be passed as follows:

- 1 The Static Factors of the Adult Dental Occlusion
- 2 Class I Restoration
- 3 Class II Restoration
- 4 Class III Restoration
- 5 Endodontic Treatment– single rooted tooth
- 6 Endodontic Treatment - multi-rooted tooth
- 7 Cardiopulmonary and Automated External

#### **Year 3**

All clinical competences must be passed as follows:

- 1a Class II Amalgam Restoration
- 1b Class III composite resin restoration
- 2 Dental Radiology competence
- 3 Molar crown preparation
- 4 Class II Amalgam Restoration or Class III/IV
- 5 Removable partial dentures, design and assessment of artefacts
- 6 Anterior crown preparation and temporary crown
- 7 Root canal treatment of a single-rooted tooth
- 8 Clinical simulation of dental arch relationships
- 9 Complete dentures/edentulous state

Students must pass each section of the Objective Structured Clinical Exam (OSCE, which is standard set, supplemental available). Students must pass the Occlusion & Function/Prosthodontics multi-station practical examinations.

#### **Year 4**

All clinical competences must be passed as follows:

##### LIST OF CLINICAL REQUIREMENTS FOR YEAR 4 2017-2018

- 1 Orthodontics - Cephalometric Analysis
- 2 Class II restoration in primary molar
- 3 Stainless steel crown restoration
- 4 Exodontia (maxillary premolar or first/second molar tooth)
- 5 Upper anterior occlusal and dental panoramic radiographs
- 6 Radiograph (Bitewing in the primary or mixed dentition)
- 7 Fissure sealant of a permanent molar tooth in a child patient
- 8 Suturing in oral surgery

ASSESSMENT OF THE REFLECTIVE PORTFOLIO IN RESTORATIVE DENTISTRY (three competences below to be completed)

- 1 Clinical root debridement
- 2 Crown restoration on vital tooth
- 3 Restoration of an endodontically treated tooth requiring post and core

- 4 Standard complete dentures
  - 5 Removable cobalt chromium partial denture
  - 6 Root canal treatment of a multi-rooted tooth
- ASSESSMENT OF THE ORTHODONTIC LOG BOOK

Students must pass the Objective Structured Clinical Exam (OSCE, which is standard set, supplemental available). Students must satisfactorily complete the Reflective Portfolio in Restorative Dentistry & the Reflective Portfolio in Oral & Maxillofacial Surgery, Oral Medicine & Oral Pathology

### **Year 5**

All clinical competences must be passed as follows:

#### LIST OF CLINICAL REQUIREMENTS FOR YEAR 5 2017-2018

- 1 Oral maxillofacial diagnosis
- 2 Intravenous access
- 3 Paediatric dentistry treatment plan
- 4 Radiograph (Bitewings in the primary or mixed dentition)
- 5 Patient management competence
- 6. Raising a mucoperiosteal flap
- 7 Gowning
- 8 Quadrant dentistry for a child
- 9 Orthodontic case analysis
- 10 Periodontal surgery

#### ASSESSMENT OF THE ORTHODONTIC LOG BOOK

The final exams are divided into the three divisional areas. There is no compensation between the three areas. Each division has a written (50%) and clinical component (50%). The clinical exams include an OSCE, assessment of portfolio and unseen patient clinical exams. There is no compensation from the written to clinical assessments, however, compensation is permitted from the clinical assessments (Portfolio/Seen and Unseen cases combined or OSCE) to the written assessments (provided a mark of 48% has been obtained in the written assessments).

## Appendix 4. Modules with Derogations to Regulation 7.iii

### School of Nursing and Midwifery

<b>Profession/Discipline</b>	<b>Module Code</b>	<b>Module Name</b>
Midwifery	MNU11006	Introduction to Midwifery 1
	MNU11007	Introduction to Midwifery 2 - Sharing the Woman's Experience
General Nursing	MNU11004	Introduction to General Nursing in Acute Care Settings
	MNU11005	General Nursing 'Care Across the Lifespan'
Mental Health Nursing	MNU11008	Understanding Mental Health, Distress and Illness and Approaches to Care
	MNU11009	Psychotherapeutic Skills and the Recovery Approach within Mental Health Practice
Intellectual Disability Nursing	MNU11002	Foundations of Person Centred Intellectual Disability Nursing Practice
	MNU11003	Principles of Intellectual Disability Nursing Across the Lifespan
Children's and General Nursing Integrated	MNU11001	Foundations in Children's Nursing Practice

## Appendix 5. Modules with derogation from Regulation 8.v

### Medicine

<b>Module Code</b>	<b>Module Name</b>
<b>Year 3</b>	
MDU33003	ADVANCED CLINICAL AND PROFESSIONAL PRACTICE
MDU33006	PRINCIPLES OF MEDICAL AND SURGICAL PRACTICE
<b>Year 4</b>	
MDU44003	OBSTETRICS AND GYNAECOLOGY
MDU44001	PRINCIPLES AND PRACTICE OF PSYCHIATRY
MDU44002	PAEDIATRICS AND CHILD HEALTH
<b>Year 5</b>	
MDU55001	INTEGRATED MEDICAL SCIENCE AND PRACTICE
MDU55002	INTEGRATED SURGICAL SCIENCE AND PRACTICE
