SENIOR LECTURER'S ANNUAL REPORT 2008/09

The Senior Lecturer's Annual Report presents to Council statistical information in relation to the admission, progress, and examination of undergraduate students as well as commencements.

During 2008/09, Council approved the recommendations of the Working Group on an institutional-wide Access Plan 2009 – 2013 (May 2009), and the recommendations of the Working Group on Foundation Scholarship (November 2008).

II. APPLICATIONS AND ADMISSIONS 2009

Student Applications and Admissions

In 2009 Trinity continued to attract a substantial proportion (11%) of first preference applications in the CAO system (11% in 2008 and 11% in 2007). In general, course quotas were met. There was an overall College ratio of 2.6:1 (2.5:1 in 2008) of first preference applications to course quotas. The Faculty of Health Sciences was the highest this year at 3.7:1 (3.5:1 in 2008). The overall College ratio of eligible first preference applications to course quotas was 1.7:1 (1.6:1 in 2008). See Table A5 on pages A11 - A12 in the appendices.

Figure 1: Ratio of first preference applications to quotas 2009, 2008, 2007

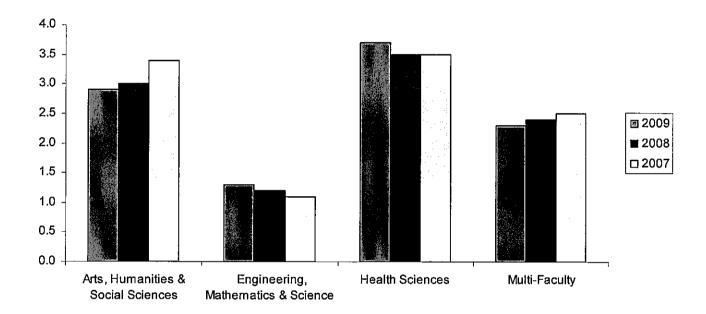

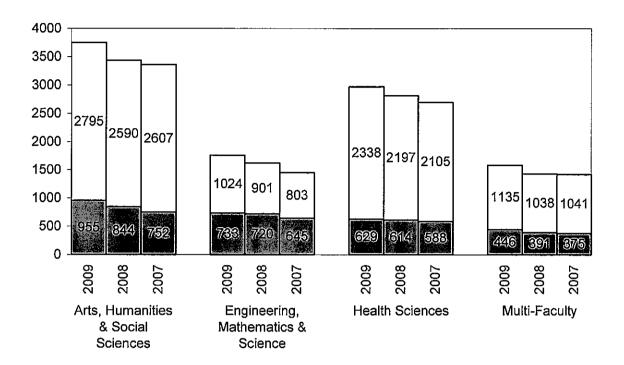

Figure 2: Preference applications and numbers registered 2009, 2008, 2007

- □ Number of 1st preferences
- Number of registered JF students (excluding repeat year students and non-EU)

Out of a total of 60 undergraduate full-time single and joint honor CAO courses (excluding TSM), seven (12%) did not meet their quota because of insufficient applications, and of 25 TSM subjects, four (16%) did not meet their quota for the same reason (see Table A10 (a) on page A17 in the appendices).

For more detailed information on applications and admissions see Appendix A.

Entrance Exhibitions 2009

On the basis of public examination results, entrance exhibitions are awarded to EU new entrants to full-time undergraduate degree programmes who achieve a minimum of 560 points. Council, at its meeting of 4th March 2009, approved the Senior Lecturer's proposal to increase the level of qualifying points from 545 to 560. Four hundred and forty one (441) students were awarded an entrance exhibition in 2009 representing 16% of the EU Junior Freshman class for 2009/10. A total of 58,652 pupils sat the Leaving Certificate examination in 2009. Of those that applied to the CAO 1,015 achieved 560 points or more and 440 (43%) of these students accepted a place at Trinity College. Entrance exhibitions were also awarded to eighty nine (89) A-level students and twelve (12) students with other EU qualifications.

Sixty-one (61%) per cent of entrance exhibitioners were female in 2009 (57% in 2008 and 64% in 2007). Receptions for all entrance exhibitioners, their parents/guardians and school principals were held over three evenings in November 2009.

Entrance Exhibitions 2008

On the basis of public examination results, entrance exhibitions were awarded to EU new entrants to full-time undergraduate degree programmes who achieved a minimum of 545 points. Five hundred and ninety (590) students were awarded an entrance exhibition in 2008 representing 23% of the EU Junior Freshman class for 2008/09. A total of 55,589 pupils sat the Leaving Certificate examination in 2008. Of those that applied to the CAO 1,744 achieved 545 points or more and 508 (29%) of these students accepted a place at Trinity College. Entrance exhibitions were also awarded to one hundred and one (101) A-level students and eight (8) students with other EU qualifications.

Receptions for all entrance exhibitioners, their parents/guardians and school principals were held over four evenings in November 2008.

Mathematics &

Science

Matriculation Examination

& Social

Sciences

A matriculation examination is held in Trinity College every year, usually in March/April, in a limited range of subjects. As of 2003, only two subjects are examined, namely, Geology and Biblical Studies. Thirteen (13) candidates presented for the Geology examination in 2009 (18 in 2008) and ten (10) candidates presented for Biblical Studies this year (0 in 2008).

2009 2008 2007 2006 2005 **Biblical Studies** 10 0 3 2 Geology 13 18 15 38 25 Total 23 18 18 40 25

Table 1: TCD matriculation examination 2009 - 2005

Alternative Admission Routes and Access Initiatives

Alternative admissions and access applications to the university are categorised into three principal types: (a) students with a disability, (b) mature students applying for admission under the mature student dispensation scheme, and (c) socio-economically disadvantaged students. In addition to applying through the CAO, applicants in these three groups are invited to submit separate applications directly to the university.

College's Strategic Plan is committed to increasing the number of students from under-represented groups to undergraduate programmes. The new Strategic Plan (2009-2014) makes a commitment to increase the number of places reserved on undergraduate courses for students from under-represented groups from 15% to 22% of CAO new entrants by 2013. In May 2009 the University Council approved the recommendations set out in the Access Plan 2009 - 2013.

In 2009, a total of 427 (374 in 2008) students from under represented groups registered on undergraduate degree programmes, representing 15.5% of the CAO intake. Forty-two (42%) of these are mature students.

Further analysis of the breakdown of undergraduate new entrants, by key access criteria, in each Faculty may be found in Table A9(a) on page A16.

(a) Students with a Disability

Applicants may disclose that they have a disability on the CAO application form. Applicants who disclose a disability at this stage of the process are contacted by the CAO and invited to complete a 'supplementary information form'. This form requests information on the nature of the applicant's disability and any supports that he/she may require while pursuing their university education. Applicants who wish to avail themselves of the supports and any matriculation concession must also provide evidence of disability, which is assessed by the College Disability Service.

It should be noted that many applicants with a disability do not disclose this information on the CAO form, and consequently, the number of registered new entrants with a disability tends to be greater than the numbers stated in this report. Eighty-eight (88) additional students had declared a disability by 1st November 2009 bringing the total to 133 new entrants registered with the Disability Service.

Details concerning the distribution of undergraduate new entrants with a disability across faculties may be found in Table A9(b) on page A16.

Table 2: Number of applicants with a disability, eligible applicants, offers and registered students 2009, 2008, 2007

Applications	2009	%	2008	%	2007	%
Total number of applicants to						
TCD who disclosed a disability on the CAO application form	687		545		509	
Number of applicants who completed 'supplementary information form'	646	94%	434	80%	351	69%
Number of applicants eligible for consideration on grounds of disability	156	23%	162	30%	196	39%
Number of applicants who matriculated (eligible applicants)	102	15%	107	20%	172	34%
Number of offers to eligible applicants	47 (31 on merit)	46%	86 (53 on merit)	80%	101 (94 on merit)	59%
Number of registered students who disclosed a disability on the CAO form	45		55		79	
Number of students who declared disability <u>after</u> registration to the Disability Office	88	13%	44	8%	38	7.5%

(b) Students Applying for Admission under the Mature Student Dispensation Scheme In 2009, 681 mature applicants applied under the Mature Student Dispensation Scheme (729 in 2008), of whom, 169 (25%) were offered places and of these 112 (66%) subsequently registered. It is thought that the decline in the acceptance rate this year is attributed to the current economic climate and the uncertainty regarding the reintroduction of fees. Applicants under this scheme must be over twenty-three years of age and are assessed on the basis of the complete academic profile of the applicant taking into account work and life experience.

Mature students are also admitted to the undergraduate degrees in nursing under the Mature Student Dispensation Scheme. Applicants to these courses are assessed externally by the Nursing Career Centre. Sixty-eight (68) mature students registered on degree courses in Nursing and Midwifery in 2009 (66 in 2008).

Further details of students admitted under the Mature Student Dispensation Scheme and by the Nursing Career Centre together with an indication of the trends in mature student applications and distributions across faculties are shown in the comparative data in Table A8(a) and Table A8(b) on page A15.

(c) Socio-economically disadvantaged Students – the Trinity Access Programmes

The Trinity Access Programmes (TAP) are a range of initiatives aimed at increasing the participation rate at third-level of young adult and mature students from under-represented socio-economic groups. The programmes were established as part of an overall strategy to address low progression rates to third-level by students in some socio-economic groups through collaborative work with schools, parents and communities. The Steering Committee for the Trinity Access Programmes is chaired by the Senior Lecturer.

1. Post-entry Progression Programme

TAP has developed a range of post-entry supports in response to student needs. These include a variety of pre-university programmes, financial and personal support, extra tuition, a Writing Resource Centre, a Mathematics Help Room, the Studio (a learning resource centre), a supported accommodation scheme and end-of-term review workshops. TAP also works closely with the Library and with other support services in College including the Student Counselling Service, the Disability Service, the College Health Service, the Accommodation Office and the Tutorial Service.

Since 2006, baseline funding has been provided to College to support equity of access as part of the core grant. The five admission initiatives offered through TAP are partially funded through this route. Funding is also received from a number of individual and corporate donors.

2. The School and Community Outreach Links (SCOL)

The School and Community Outreach Links enables the involvement of Trinity College with schools and communities where there is little or no tradition of progression to third-level. TAP is assisted by Schools in College each year in developing and delivering activities to over forty primary and second-level schools and a selection of community groups. Primary school activities begins with fifth class pupils and continues throughout the second-level school cycle.

3. Foundation Course for Higher Education - Mature Students

This one-year foundation course is aimed at mature students from socio-economically under-represented groups who have not yet realised their full educational potential. Students who successfully complete the course are awarded a Certificate in Foundation Studies for Higher Education and are eligible for facilitated entry to College. To be eligible for a place students must achieve a minimum overall grade of 55%, although, for higher demand courses significantly higher grades are required, for example, Social Studies requires grade of 60 – 65% whereas Psychology, Law and Physiotherapy require a grade of 65- 69%. Places are allocated on the basis of academic merit and students must select up to five College courses on their CAO preference list.

Twenty-seven (27) students registered in 2009/10. Of the original 2008 cohort, fourteen (14) of the twenty-four (24) students completed the course. Thirteen students (13) progressed to undergraduate courses in TCD.

4. Foundation Course for Higher Education - Young Adults

This is a one-year foundation course that caters for young adults (17-20 years old) from under-represented socio-economic groups who have demonstrated academic potential but who require an additional year of education to prepare for third level. It is open to applicants in schools linked to higher education access programmes. Twenty-six (26) students registered in 2008/09.

Students who successfully complete the course are awarded a Certificate in Foundation Studies for Higher Education and are eligible to compete for a place in College if they achieve a grade II.2 or higher (II.1 for Law School or Health Sciences). In 2008/09, twenty-three (23) of the twenty-six (26) registered students completed the course. Twenty-two (22) of these students progressed to undergraduate courses in TCD.

5. Concession on Points

Young adults who are assessed by the 'Higher Education Access Route' (HEAR) as socioeconomically disadvantaged are eligible for a concession on points for entry to an undergraduate
degree and/or diploma course. These students must satisfy the minimum matriculation requirements
for entry to their course of choice. The HEAR option was extended to all secondary schools in the
Republic of Ireland for the 2009/10 admissions season. Applicants can now make an online
application to HEAR through the CAO. Further information for HEAR can be found at
www.accesscollege.ie.

Graduates from the Trinity Foundation Course – Young Adults and students eligible for a concession on points may also compete for places at other universities through this collaborative scheme. In 2009, ninety-six (96) students entered College through this route (118 in 2008).

6. Partnership Foundation Course

As part of College's efforts to meet the 15% quota of non-traditional students in undergraduate programmes, an arrangement was entered into in 2004/05 with three City of Dublin Vocational Education Committee (CDVEC) colleges to develop and co-deliver a Foundation Course in the Liberal Arts for access to a wide range of undergraduate courses. The CDVEC colleges involved are the Liberties College, Dublin 8; Pearse College, Dublin 12; and Plunket College, Dublin 9. The course was run on a pilot basis in 2004/05 and the CDVEC colleges, supported by Trinity College, successfully negotiated with the Further Education and Training Awards Council (FETAC) for accreditation within the National Qualifications Framework. Seventeen (17) students from this scheme progressed to undergraduate courses in Trinity College in 2009 (13 in 2008).

Seventy-eight (78) students registered in 2009 for the Partnership Foundation Courses: Liberties College (30), Pearse College (21) and Plunket College (27).

Table 3: Number of admissions to College through the Trinity Access Programmes 2009, 2008, 2007

Entry Route	Number of Students 2009	Number of Students 2008	Number of Students 2007
Full points	17	29	20
Concession on points	44	57	46
Foundation Course Mature Students	13	14	15
Foundation Course – Young Adults	22	24	19
CDVEC Colleges:			
- Liberties Liberal Arts	13	8	7
 Pearse College 	2	4	5
- Plunket College	3	2	4
Total	114	138	115

Mature Students Office

The Mature Students Office, part of the Trinity Access Programmes, serves to encourage and support the access and integration of mature students into college life.

The Mature Students Officer engages in extensive external liaison with Vocational Education Committees and Adult Education Centres, particularly in the Dublin, Border, Midlands and Western regions, to promote TCD, to outline the opportunities available to mature learners and to support the application process. One-to-one support for applicants is also available. A Mature Student Open Evening takes place in January each year.

This year one hundred and eighty (180) mature students registered across all Faculties in TCD (this figure includes nursing students). Supports for registered mature students include:

- A four day Welcome Programme in early September
- A Financial information morning in July
- A Mature Student Resource Centre for private study
- Drop in clinics providing advice and advocacy
- Social activities

This year also saw the completion of a research project which evaluated both the Mature Student Dispensation Scheme and the 'mature student experience' in TCD. The Report on this research will be published in 2010.

New Entrant CAO Preferences

Analysis shows, in 2009, that 55% of new entrants were registered to their first preference CAO choice, with 15% and 8% registered to their second and third choice respectively. Students registering on courses which represented a lower preference (4-10), accounted for 22% of new entrants. See Figures 4, 5 and 6 below and Table A4 on page A9 in the appendices.

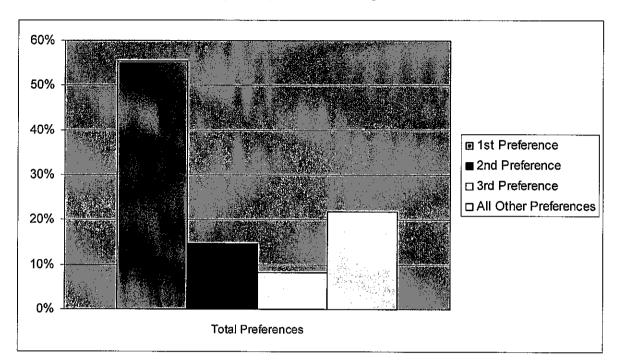

Figure 4: New entrant data - analysis of preference of registered course

Figure 5: Admissions Preference Data – number of students registered in each faculty according to CAO preference

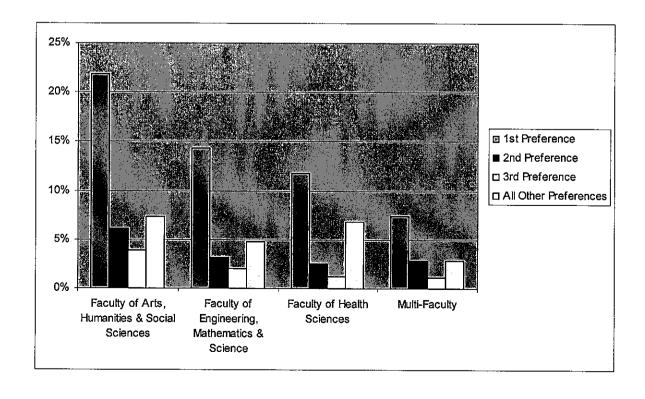

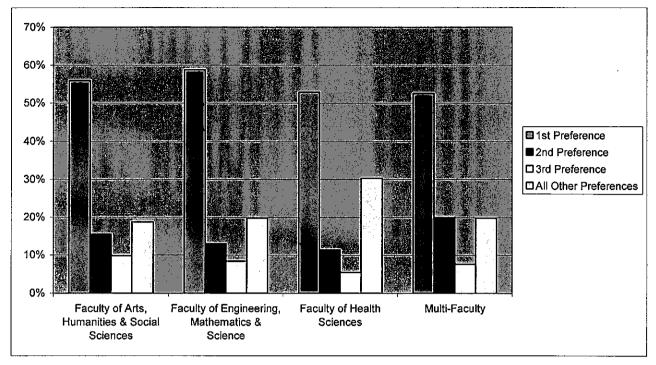

Figure 6: Admissions Preference Data – number in each faculty, according to CAO preference, as a percentage of total new entrants in each faculty

New Entrant Nationality Data

In 2009 students entering College to full-time undergraduate courses and to programmes for visiting students came from 71 different countries. With the exception of Ireland, in order of the most student numbers, the top five countries are Great Britain, France, the United States, Germany and Spain. The top five countries in 2008 were Great Britain, the United States, France, Germany and Italy. There has been a drop in the number of new entrants non-Irish students registering on courses in Trinity College. In 2008/09 the figure was 927 representing 27% of the new entrant population. So far this year, 719 non-Irish new entrant students have registered, representing 20.5%. Full data for students registering for the Hilary term 2010 is not yet available, however it is not expected that these students will account for more that a further 1% of the new entrant population.

The number of new-entrants classified as non-EU for fees purposes registered to full undergraduate degrees has also dropped from 125 in 2008/09 to 100 in 2009/10. This can be explained in part by the exclusion of visiting students due to register in the second semester of this academic year.

Please see Table A16, A17(a) and A17(b) on pages A26 to A30 for more detailed data in relation to new entrant students and their nationality profile.

Total CAO and Direct entry registered students 2009

Table 4 below shows all new entrants to undergraduate courses in 2009/10. The highest increase in student intake is to the Faculty of Arts, Humanities, and Social Sciences at 955, representing a 13% increase on the 2008/09 figures. There has been an increase of 6.8% on 2008 figures.

Table 4: Total CAO and direct entry registered students

New Entrants	2009/10	2008/09	2007/08
Arts, Humanities, and Social Sciences (CAO)	955	844	752
Engineering, Mathematics and Science (CAO)	733	720	645
Health Science (CAO)	629	614	588
Multi Faculty CAO	446	391	375
Total CAO entry	2,763	2,569	2,360
Direct entry and Level 7 courses	790	758	726
Total CAO and Direct entry registered students	3,553	3,327	3,086

New Entrant Survey 2009

A revised survey was administered to all new entrants on full-time undergraduate degree programmes. Part-time SOCRATES and visiting students were not surveyed and the returns do not differentiate between students starting in the Junior Freshman year and those who were offered advanced entry.

A total of 2,156 completed questionnaires were returned, representing approximately 78% of all CAO registered new entrants. Table 5 shows a profile of new entrants surveyed.

Table 5: Profile of new entrant respondents

Nationality	_	Gender		Type of student	
Irish	89%	Female	57%	School Leaver	87%
Other EU	11%	Male	43%	Mature Students	7%
				Other categories*	6%

^{*} Other categories included students who deferred entry from pervious years, readmits, and students who did not qualify as a school leaver or mature student.

New entrant students were asked to indicate on a scale of 1-4 how important they considered a range of factors to be in choosing Trinity College. As illustrated in the Figure 7 below, College's international reputation (59%), the reputation of the course at Trinity (59%), employment prospects (53%), the content of the course at Trinity (51%), College's city location (34%), College's research reputation (32%), and the social life, sports and societies in Trinity (32%) were listed as the main reasons for choosing Trinity College. Other reasons were: the course is only offered at Trinity (24%), Trinity is closest to home (21%), information from the student's schools (7%) and the student's friends are coming to Trinity (5%).

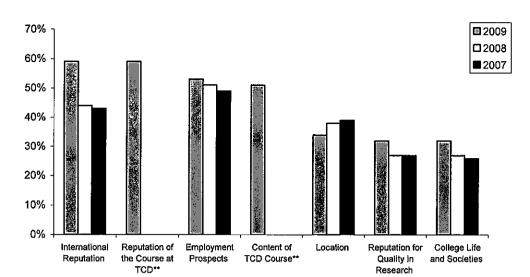

Figure 7: Survey of undergraduate new entrants 2009, 2008, 2007

Please see table A18 on page A31 in the Appendices

The most used sources of information were the Trinity website (consulted by 75% of students), the prospectus (70%) and the Open Day (51%). The majority of respondents (63%) attended the Trinity Open Day.

Table 6: Information sources on Trinity College

Information Source	% of respondents who used this source
TCD website	75%
TCD prospectus	70%
TCD Open Day	51%
Guidance Counsellor	32%
A friend	28%
Family	26%
Careers fair	19%
School visit	6%
Other website	5%
TCD Admissions Office	4%
Other	3%

Students continue to use a variety of sources when researching their third-level options and the fact that students will often name more than one information source as 'most important' suggests that students are extracting different information of equal value from different sources.

The prospectus is regarded as the most important source of information about Trinity (39%), followed by the TCD website (32%) and the Open Day (23%). Other important sources were: guidance counsellors (13%), school visits (6%) and careers fairs (4%).

For the first time, new entrants were asked what other information/events Trinity should provide for second-level students. The most popular suggestion is a course specific information evening (50%).

^{**} New questions were asked in 2009.

Table 7: New sources of information requested

New information source / event	%
Course specific information evenings	50%
Open Day on Friday / Saturday instead of Wednesday	36%
More school visits	32%
Subscribe for information via e-mails	29%
Use an SMS to request a prospectus	11%

New entrants were also asked which websites they most regularly visit. The most popular websites are Google (76%), YouTube (62%), Facebook (61%), Hotmail (53%) and Bebo (25%).

The most popular radio stations are Spin 103.8FM (39%), FM104 (31%) and 2FM (28%). A large number of respondent's parents/guardians read The Irish Times at 55%, while 38% read the Irish Independent.

Media that respondents consider effective for advertising university courses are websites (57%), radio (24%), posters on buses/luas/dart (23%), billboards (15%) and bus shelters (14%).

Schools Liaison Activities 2008/09

The Admissions Liaison Officer co-ordinates a wide range of school liaison activities in order to promote Trinity's undergraduate courses. In 2008/09 these activities included:

(a) Regional Careers Conventions and School Visits

A number of major careers conventions were organised by the Institute of Guidance Counsellors (IGC), while second level schools also organised a number of smaller nationwide events. All of the main third-level institutions attended these events, and they present the best opportunity to meet large numbers of potential students and to distribute Trinity's undergraduate prospectus (19,000 were distributed in this way). In 2008/09 College was represented at 27 events nationwide.

The Admissions Liaison Officer also visited 43 second-level schools and hosted two second-level school visits to College. During which a detailed presentation was given about College and its undergraduate courses.

Some of College's schools and disciplines were also involved in the school liaison activities:

- The Schools of Chemistry and Physics and the Discipline of Microbiology hosted groups of transition year students in their laboratories.
- The School of Physics also collaborated with the School of Mathematics to host an Open Day in November 2008.
- Representatives from the Discipline of Computer Science (which has its own dedicated student recruitment officer):
 - o visited 20 second-level schools and a number of careers fairs,
 - o distributed promotional materials to 18 other schools.
 - held five workshops for transition year students, at which 112 students from 36 schools attended.
 - facilitated laboratory tours for second-level students.
- The School of Engineering was represented at a number of nationwide events which promoted engineering courses.
- The School of Nursing and Midwifery also visited a small number of second-level schools.

(b) College Prospectus and other applications materials

The undergraduate prospectus is listed as the most important source of information about

Trinity's courses by new entrants. 50,000 printed copies were distributed, while many more were
downloaded from the Admissions Office website.

(c) Admissions website

Trinity College's website was ranked, by new entrants, as the second most important source of information on Trinity's undergraduate courses. The Admissions website contains detailed descriptions of all undergraduate courses, which are updated annually, provides links to schools' and disciplines' individual websites, and offers information on how to apply to Trinity and specific course entrance requirements. Potential students may also download the undergraduate prospectus, as well as the Extramural, Afternoon, Evening and Weekend course brochure.

(d) College Open Day

College Open Day is ranked as the third most important source of information on Trinity by new entrants with 63% having attended. Open Day 2008 took place on Wednesday, 10th December 2008. Guidance Counsellors and final year students from all second-level schools in Ireland were invited to attend. It is estimated that in excess of 7,000 potential undergraduate students, parents and Guidance Counsellors attended. Many prospective mature students and a number of students from Northern Ireland and other EU countries also attended. A series of presentations were given covering College's undergraduate courses, and attendees also had the opportunity to meet staff and current students at the individual course stands.

(e) Links with Guidance Counsellors

Guidance Counsellors are ranked as the fourth most important source of information by new entrants and, as such, are regarded to be a vital link to potential students. Communications with Guidance Counsellors in 2008/09 included:

- 1. a direct mailing, enclosing copies of the undergraduate prospectus, to all Guidance Counsellors, in the 32 counties, highlighting changes to Trinity's courses,
- 2. attendance at the careers events organised by the IGC (see section (a)),
- 3. participation in the six autumn meetings for Guidance Counsellors hosted by the Central Applications Office (CAO),
- 4. advertisements in the Guidance Counsellors magazine (Guideline), in the IGC annual yearbook and diary, and in the literature for the IGC annual conference.

The Admissions Office also attended the IGC's AGM in March 2009 and sponsored the opening evening.

III. STUDENT POPULATION

In total, there were 16,215 registered students in 2008/09 (15,716 in 2007/08). Of these, approximately, 80% were from the Republic of Ireland, 11% from other EU countries, 4% from North and Central America and 4% from other parts of the world and 1% from other European (non-EU) countries. In 2008/09, 61% of the student population was female and 39% was male. Eleven thousand and nine (11,009) students were registered on undergraduate programmes, and 5,206 (32%), on postgraduate programmes. See Tables B1 and B2 on page B1 for further detail.

In previous senior lecturer reports data on geographic distribution of students were derived from home address: this Report derives data on geographical distribution from student nationality.

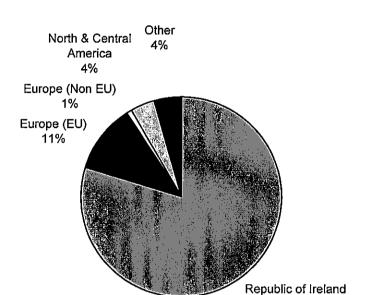

Figure 8: Geographical distribution of student population 2008/09

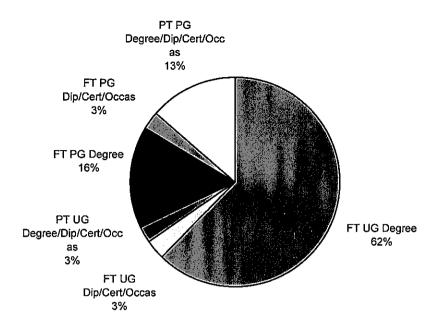

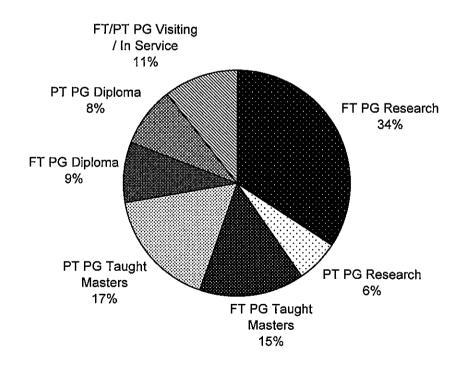

Figure 10b: Percentage of postgraduate students by category 2008/09

IV. ACADEMIC STAFF

New Academic Appointments

The College's Strategic Plan 2003-2008 identified the quality of academic staff as one of the College's major strengths. During the academic year 2008/09, 102 new academic appointments were made as illustrated below in Table 5. Of the 102 appointments made, 7 were to Chairs, 4 were to Associate Professorships, 1 to a Senior Lectureship, 6 to Lecturers/Registrars and 84 to Lectureships.

Of those appointed, 80% (62% in 2007/08) held doctoral degrees and a further 19% (34% in 2007/08) held at least one postgraduate or professional qualification of equivalent standing below doctoral level (6% are in Lecturer/Registrar positions who have higher professional medical qualifications). One percent (1%) held primary degrees only at the date of appointment (4% in 2007/08).

In 2008/09 42% (40% in 2007/08) of appointments were permanent and 58% (60% in 2007/08) were on a contract basis. Doctoral degrees were held by 93% of those appointed to permanent positions (87.5% in 2007/08).

See tables C1(a),C2(a) and C3(a) on page C1 in the appendices for further data on appointments in 2008/09. (Comparative data available for 2007/08 on table C1(b) – C3(b)).

Permanent	Contract of Indefinite Duration	5-year contract	4-year contract	3-year contract	2-year contract	Temporary*	Lecturer/ Registrar	Total
			•	2008/09				
43	4	6	4	12	9	18	6	102
42%	4%	6%	4%	12%	9%	18%	6%	100%
		·	l .	2007/08			<u> </u>	
48	3	6	0	13	1	43	6	120
40%	3%	5%	0%	11%	1%	36%	5%	100%

Table 8: New academic appointments 2008/09 and 2007/08

Staff / Student Ratios

Staff/Student ratios in 2008/09 ranged from 1:14 in the Faculty of Engineering, Mathematics and Science, 1:15 in the Faculty of Health Sciences, to 1:20 in the Faculty of Arts, Humanities and Social Sciences. The overall College ratio was 1:17 (1:16 in 2007/08).

Staff/Student ratio calculations for 2008/09 do not include postgraduate research students who have completed their studies but who were on the live register for thesis, examination only, and the School of Education's Continuing Professional Development and Second Level Support Service students.

Further details are provided in tables C4(a) – C4(e) on page C4-C9.

V. ACADEMIC PROGRESS

Junior Freshman Students Successfully Completing the Year

The percentage of full-time Junior Freshman degree students who successfully completed the year in 2008/09 averaged 91% across College. These data are based on annual, supplemental and special examination results and are calculated on the basis of the number of students passing examinations against the number of students registered as at the HEA census date of 1st March 2009, and therefore expected to present for examination in Trinity Term (and includes students offbooks who were taking examinations). In interpreting data on completion rates it should be noted that in courses with low student numbers, a small number of failures produces a very low percentage completion rate. Junior Freshman completion rates of 75% or less are found in three courses, namely, Early and Modern Irish, Germanic Languages and Manufacturing Engineering with Management Science (see Table D1 in the Appendices). Directors of Teaching and Learning (Undergraduate) normally investigate the reasons for high Junior Freshman non-completion rates in particular areas and report to the Undergraduate Studies Committee. The most commonly cited reasons for completion rates lower than 75% include students being admitted to a low preference course and lower than average minimum entry points. Many disciplines have taken measures to improve the completion rates in their programmes, and these include revisions to the curriculum and the provision of extra tuition for students experiencing academic difficulties.

Students Off-books

In 2008/09 a total of 313 undergraduate students were off-books compared to 336 in 2007/08 and 293 in 2006/07. The principal grounds cited for being off-books in 2008/09 were personal at 33% and medical at 28%. These were also the principal ground for allowing students to go off-books in 2007/08.

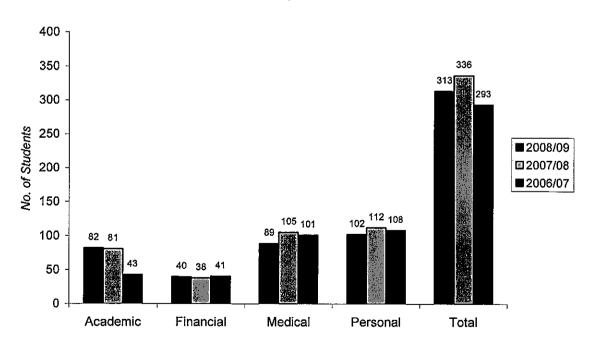

Figure 11: Reasons for students going off-books 2008/09, 2007/08. 2006/07

Examinations

During the 2008/09 academic year the Examinations Office organised approximately 74,839 examination sittings.

Table 9: Breakdown of Examination Sittings ^

Examination Session	2008/09	2007/08	2006/07
Annuals	60,283	57,022	55,919
Supplementals	4,100	4,060	3,880
Specials	115	79	50
Term Tests	7511	8,142	6,682
Foundation Scholarship	2351	2,168	1,904
Others *	479	322	179
Totals:	74,839 🦙 😘	71,793	68;614

[^] Examination sittings = number of students x number of examination papers sat

Examinations were scheduled across campus in venues which included the Arts Building, Goldsmith Hall, Graduate Memorial Building, Examination Hall, Regent House, Museum Building, Åras an Phiarsaigh, Lower and Upper Luce Halls as well as several rooms owned by disciplines and laboratories. Examinations were also scheduled in the Colleges of Education and, for the ninth year, in the RDS (Royal Dublin Society). For the first time the Marino Institute of Education, which previously housed only examinations relating to Education, was used as a general examination venue during a two-week period.

Three hundred and thirty-six (336) students who registered with the Disability Service required special arrangements for their annual examinations in 2009 (276 in 2008). Separate timetables were prepared for each of these students according to their specific requirements as advised by the Disability Service.

Two hundred and eighteen (218) postgraduate students were employed for invigilation duties during the 2009 annual examination session, representing a 33% increase on 2008 numbers (164 in 2008). This increase is due to an increase in the number of annual examination sittings and in the number of special examinations for students with disabilities. Additional invigilators were employed to supervise the students registered with the Disability Service who are accommodated in special and/or separate venues. All invigilators receive detailed instructions on their responsibilities each year and are required to attend a training meeting. The Examinations Office, the Junior Dean and the Director of the Health Service also provided instructions relevant to examination activities.

The Undergraduate Studies Committee at its meeting in October 2009 approved six new annual examinations durations ranging from one hour to three and a half hours, commencing the academic year 2009/10. See Appendix J for further details.

Based on undergraduate annual examination results, 714 students were awarded first class book tokens (782 in 2008).

^{*} Others = Music Entrance Test, Matriculation / HPAT

Courts of First Appeal and Academic Appeals

The Court of First Appeal convenes to consider appeals on matters of academic progress arising out of examinations or other academic circumstances where a student case:

- (i) is not adequately covered by the ordinary regulations of the College; or
- (ii) is based on a claim that the regulations of the College were not properly applied in the applicant's case; or
- (iii) represents an ad misericordiam appeal.

If an application to a Court of First appeal is unsuccessful, a student may take their case to the College Academic Appeals Committee on the same grounds as listed above.

A greater number of Appeals are normally processed following the supplemental examination session where Courts of Examiners have prohibited students from proceeding to the next year of their course. There has been a steady increase in the number of courts of first appeal in all faculties over the period 2006/07 to 2008/09 and of academic appeals at college level after supplemental examinations. See tables 10(a) and 10(b) below.

Table10(a): Number of cases coming to Courts of First Appeal

First Court of Appeals						
	2008/09		2007/08		2006/07

Foundation Scholarship Examination

A total of 321 students (out of 484 applicants) presented for the Foundation Scholarship examination in 2009 (305 presented out of 482 applicants in 2008). Eighty-three (83) Foundation and Non-Foundation Scholarships were awarded in 2009 (71 in 2008). This represents 26% of those presenting for the examination. Forty-one (41) Scholarships were awarded to females (49%) and 42 to males (51%). Details of Scholarships awarded by course are given in Table D2 on page D3 in the appendices.

External Examiners

External Examiners play a crucial role in ensuring the quality of degree programmes and best practice in examining. A total of 151 (151 in 2007/08) external examiners were appointed to examine undergraduate programmes in 2008/09, of whom 118 (comprising 78%) have submitted their annual report to the Senior Lecturer. Ninety-one percent of external examiners are from Ireland or the United Kingdom.

For more detailed data please refer to Table D3 on page D4 in the appendices.

Commencements, Firsts and Gold Medal Awards

In the 2008 calendar year, 29 commencement ceremonies were held during which 3,986 (4,177 in 2007) degrees were conferred (2,572 primary degrees and 1,414 higher degrees). For more detail see Table D4 on page D5 in the appendices.

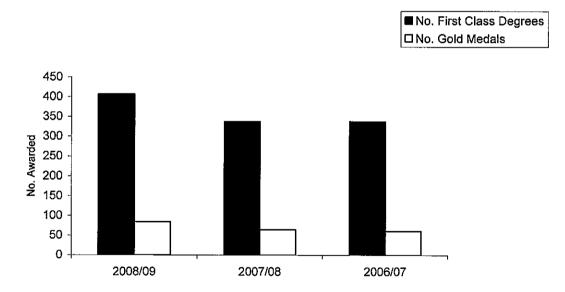

A total of 406 students received first class honors (primary) degrees in 2008/09 (337 in 2007/08). Of these, 85 were awarded Gold Medals (65 in 2007/08).

See Appendix G for the gold medal eligibility criteria.

Distribution of Grades achieved at Degree Examinations 2009

In 2008/09, 17.8% (14.8% in 2007/08) of students achieved a first class result at their degree examination, 53% (53% in 2007/08) achieved a result in the second class first division, and 20% (22% in 2007/08) obtained a result in the second class second division. The award of a first class honor degree ranges from 0% to as high as 80% (Double Diplome in Engineering) across courses.

Table 11: First Class honor degree distribution per faculty

Faculty	2008/09	2007/08	2006/07
Arts Humanities & Social Sciences	18.8%	15.1%	14.8%
Engineering, Mathematics & Science	26.7%	20.7%	19.3%
Health Sciences	8.8%	10%	8%
Multi-Faculty	15.4%	10.7%	14%
College Total	17.8%	14.8%	14.1%

Table D5 on page D6 gives summary data for the last five years and information by course for the year 2008/09 is given in Table D6 on pages D7-D8.

Diploma and Certificate Award Ceremonies

In the 2008 calendar year, 11 diploma / certificate award ceremonies were held during which 99 certificates, 162 diplomas, 126 higher diplomas, and 933 postgraduate diplomas were awarded (1320 awards in total). Table 12 below includes certificates of achievement in Contemporary Living and in pre university Foundation Studies.

Table 12: Diploma and Certificate Awards 2008

COURSE TYPE	AWARD TYPE	In person	In absentia	TOTAL
Undergraduate	Certificate	94	5	99
	Diploma	143	19	162
Postgraduate	Higher Diploma	111	15	126
	Diploma	605	328	933
TOTAL		953	867	1320

VI. NEW UNDERGRADUATE COURSE DEVELOPMENTS

The following courses were approved for delivery in 2009/10:

Table 13: Courses approved for delivery in 2009/10

Course	NO OF REGISTERED STUDENTS *	QUOTA	
		Min	Max
UNDERGRADUATE			
Degree			
Faculty of Arts, Humanities and Social Sciences			
B.A. Ancient and Medieval History and Culture	21		15
LL.B. Law and Business	27		25
LL.B. Law and Political Science	24		20
Bachelor in Deaf Studies	24		20
Faculty of Health Sciences			
B.Sc. Human Health and Disease	25		25
Faculty of Engineering, Mathematics and Science			
B.A. Earth Sciences	15		12
Multi-Faculty			
B.A. Business and Computing	31		32
B.A. Political Science and Geography	20		20
Total Undergraduate Degree	187		169

^{*} Please note that student numbers are provisional as data was collected during registration period October 2009

Note: The B.Sc Human Nutrition and Dietetics was reviewed in 2007/08 and this review recommended a joint degree award in conjunction with Dublin Institute Technology to commence for 2009/10 new entrants.

VII. UNDERGRADUATE ACADEMIC DEVELOPMENTS

Academic Year Structure

At its meeting on 22nd October 2008 the Board approved a necessary amendment to the College Statutes in the run up to the implementation of the new term structure commencing in September 2009. Over the course of the year, decisions affecting teaching and examining were taken by Council. These included designation of the seventh week in each teaching term as a study week, and the requirement that student workload, in the form of ECTS credits, should be evenly distributed across both Michaelmas and Hilary terms. Arrangements proposed by professional schools for teaching and examining outside the formal teaching terms were also approved.

Other changes necessitated by the change to term structure included revised dates for supplemental examinations and student registration, a revised schedule of commencements ceremonies, and scheduling of the College's Open Day during teaching term.

Foundation Scholarship

In November 2008, Council approved the recommendations of the Working Group on Scholarship, which proposed a number of significant changes to the Foundation Scholarship examination.

The recommendations approved, effective from 2009/10, were as follows:

- (i) A separate examination for the award of Scholarship rather than awarding Scholarship on the basis of performance in the annual SF examination should be retained.
- (ii) Under the new Academic Year Structure, the most appropriate time for a Scholarship examination would be in a 1 or 2 week period in early January, before the start of Hilary teaching term. Thus it would be possible to announce the new Scholars on Trinity Monday.
- (iii) At the start of each academic year, the Vice Provost's Office / Senior Lecturer's Office should issue a statement (via email) to undergraduates outlining the history and ethos of Scholarship and explaining the qualities to which potential candidates should aspire.
- (iv) The Scholarship examination should be primarily oriented towards Senior Freshman students, though open to undergraduate students, as before.
- (v) Exemption from the annual Senior Freshman examination should no longer apply, regardless of performance in the Scholarship examination.
- (vi) In the context of complete separation of the Scholarship and Senior Freshman annual examinations, the Scholarship examination should be significantly shorter than heretofore and still be a searching examination to choose students of exceptional ability. It seems that an examination of three to four papers amounting to eight to nine hours of written examination, with contribution from appropriate continuous assessment, may be sufficient. However, for each degree course it will be necessary to specify the Scholarship examination in terms of academic scope and taught courses covered, subject to an appropriate level of College oversight.
- (vii) There needs to be greater comparability, in terms of duration, level of difficulty, academic scope and stringency of assessment, of the Scholarship examination across disciplines. Those responsible for the Scholarship examination in each discipline/course of study should provide a statement explaining how their examination requirements succeed in identifying the qualities associated with Scholarship. The Central Scholarship Committee should have oversight of the Scholarship examination with the aim of maintaining comparability across College.

It was subsequently agreed that, from 2009/10, the Foundation Scholarship examination will take place in January in the two weeks preceding the start of the Hilary teaching term (Calendar weeks 19 and 20).

The Broad Curriculum (www.tcd.ie/Broad Curriculum)

The academic year 2008/09 saw a drop in the number of students completing the Broad Curriculum from the high of 599 (2007/08) to 451. In 2008/09 the thirteen courses, spanning a range of subjects in the arts, humanities, social and earth sciences attracted students from most undergraduate programmes in College. This included a new course 'Language, Mind and Society' provided by the School of Linguistic Speech and Communication Sciences, while the course on 'Art and Society' provided by the School of Histories and Humanities did not run. The courses are designed to promote breadth of reading at undergraduate level, are aimed primarily at students in the Senior Freshman and Junior Sophister years, and are taught over the Michaelmas and Hilary terms. Details of the course registrations by 'home' faculty of students and retention rates are set out in Table E1 and Table E2 in Appendix E.

All cross-faculty courses are centrally administered by the Vice-Provosts Office (including registrations, course changes and withdrawals, processing and publication of marks), while course content, teaching and assessment are the responsibility of the relevant discipline(s).

In 2008/09, 80% of undergraduate degree programmes (including individual subjects within the Two-Subject Moderatorship) provided for students to gain full academic credit in their end-of-year result by substituting a cross-faculty course for an element of the main study programme.

The credit weighting of Broad Curriculum cross-faculty courses and language modules was revised from 6 down to 5 ECTS credits in 2007/08 in line with the Council decision of June 2006. In addition, the following was approved by Council in May 2008:

Effective from 2008-09, all students taking a BC course, including the BC language modules, where they are permitted by their home course regulations will obtain the associated credits within their 60 ECTS workload and have their BC mark incorporated within their end-of-year overall result, and the School offering the Broad Curriculum course will be assigned the corresponding FTSE/ARAM credit.

This means that all the students taking the Broad Curriculum courses in 2008/09 were doing so on a substitution basis only. In order to accommodate the requirement that these courses could be substituted for credit within the total 60 ECTS credits permitted for each course year, schools provided 5-credit options for students not wishing to take Broad Curriculum modules.

Achieving full integration of the Broad Curriculum together with the ECTS credit system in line with College policy has meant that all students' course choices are factored into the calculation of the annual full-time student equivalents (FTSE), thereby providing a mechanism for the allocation of resources to disciplines. This should facilitate disciplines in continuing their Broad Curriculum cross-faculty courses following the end of the seed-funding period.

Language Modules

The Centre for Language and Communication Studies (CLCS, School of Linguistic, Speech and Communication Sciences) has, since 1993, offered language modules to students who do not study a language as part of their degree course. The CLCS language modules are open to (i) all undergraduate students as an extracurricular option, and (ii) are also available to undergraduate students as part of the Broad Curriculum programme. Where course substitution is permitted, students may substitute a language module instead of, or in addition to, a cross-faculty course. The CLCS language modules are fully administered and taught by the CLCS, with information available both on CLCS website and on the Broad Curriculum website.

Language modules in French, German, Italian, Spanish, Irish and Turkish were available in 2008/09. The objectives of the modules are (i) to develop students' communication skills for purposes of study, travel or work experience abroad during their undergraduate years, and (ii) to enhance their academic qualifications, vocational prospects, and potential for future mobility.

In 2008/09, thirty-five students successfully completed a module in French, thirty-two in German, sixteen in Spanish, fifteen in Irish, fourteen in Italian, and seven in Turkish.

Website

Extensive amendments were made to the Broad Curriculum website during 2007/08 to reflect the new substitution regulations and to move towards greater integration of the language modules. All credit regulations listed on the site now give up-to-date information for both cross-faculty courses and language modules. In 2008/09 students were able to download application forms for language modules from the website, the language modules will be included in the online application process from the academic year 2009/10.

Developments in 2008/09

A condition of the philanthropic funding received for the Broad Curriculum initiative was that the receiving disciplines/schools would continue to offer the cross-faculty courses without additional resources after the initial five-year period. This five-year period expired in September 2007 in the case of five Broad Curriculum lectureships; special funding for the remaining seven posts expired from the end of the 2008/09 academic year, depending on the launch dates of individual cross-faculty courses.

A new cross-faculty course (Language, Mind and Society), as mentioned above, was run by the Centre for Language and Communication Sciences (CLCS) for the first time in 2008/09. The Undergraduate Studies Committee also approved a proposal for a cross-faculty course, Science, Technology and Society, developed by the Science Gallery. It is hoped that this will encourage other disciplines to offer new Broad Curriculum cross-faculty courses or open up existing modules as cross-faculty courses in order to offer students the widest possible choice of elective modules.

The Bologna Process (The Bologna Desk)

Learning Outcomes

The development and use of learning outcomes at programme and module levels is required by the Higher Education Authority in furtherance of the implementation of the National Qualifications Framework and, by extension, of the broader objectives of the Bologna Process. Following a decision of the University Council in March 2008, a College-wide project to draft and publish formal statements of student learning outcomes for all undergraduate and postgraduate programmes got under way in Michaelmas term 2008, with the aim of having first draft programme and module outcomes in place by the end of the 2008/09 academic year. Learning outcomes for programmes and modules will be published and in use from the 2010/11 academic year. The project is supported by funding from the Strategic Innovation Fund 2, and is coordinated and facilitated by the Bologna Desk in conjunction with the Centre for Academic Practice and Student Learning (CAPSL).

While certain Schools had some prior experience of moving to an outcomes-based approach, for example in relation to professional accredited programmes, for the majority of academic staff, and for the institution as a whole, learning outcomes constituted a new and challenging paradigm. Information, guidance and support were offered in various forms including written guidelines, web-based resources, a series of interactive workshops, and presentations by guest speakers. Draft outcomes were reviewed at near-weekly meetings by a 'triage' group (comprising project coordinators from the Bologna Desk and CAPSL). On the basis of this review, advice and feedback were given to the authors. In a number of areas, the triage group met directly with programme directors and or committees to discuss in greater detail how the learning outcomes concept might apply in the particular disciplinary area and with reference to local course structures and other local circumstances. While the overall goal of having at least first draft learning outcomes for programmes and modules in place by the end of 2008/09 may have been overly-ambitious, very significant progress has been made and it is clear that there has been extensive and real engagement with the process right across College.

Joint Degrees

A Working Group was set up in Michaelmas term 2008 to develop a policy proposal on the award of joint degrees and the procedures and protocols to approve and implement them. The Working Group was chaired by the Registrar, and membership included the Senior Lecturer and Dean of Graduate Studies and representatives from the three Faculties. The June 2005 report to Council from a previous Working Party on Joint Degrees provided a useful starting point. The Working Group met on eight occasions over the course of the 2008/09 academic year, and its report, approved by Council on 3rd June 2009, proposed detailed criteria and protocols for the establishment of joint programmes and joint degrees.

Subsequently, at its meeting on 24th June 2009, Council approved the award of a joint University of Dublin and Dublin Institute of Technology B.Sc. degree award with honors classified for graduates of the jointly taught course in Human Nutrition and Dietetics, in respect of which, a revised curriculum was also approved by Council. Subject to approval by the University Senate, the new joint degree will be awarded upon graduation to students admitted to the programme from September 2009.

Diploma Supplement

The European Diploma Supplement (EDS) Project - undertaken by the Management Information Systems (MIS) section of the College's Information Systems Services in conjunction with the Student Administration System (SAS) Support Unit of the Office of the Vice-Provost and in consultation with the Bologna Desk - is concerned with database development designed to make possible on a single document the merger of data from the College's student records file, module data from the timetable system (CMIS), examination marks at the module level, and other detailed information about the degree/diploma awarded to the individual graduand. It is envisaged that the Project will support the data requirements of Diploma Supplement issue in the short term, pending the implementation of an integrated student administration system in the context of the College's developing eStrategy.

The design and guidelines for use of the Diploma Supplement in Ireland are overseen by the Diploma Supplement Steering Group under the auspices of the National Qualifications Authority of Ireland.

Implementation of the National Framework of Qualifications (NFQ)

Work has been continuing to clarify the Framework level and draft learning outcomes for national awards in Education, notably the former Higher Diploma in Education (provisionally placed at Level 9), the concurrent honors Bachelor in Education awards (such as TCD's Bachelor in Music Education which is placed at Level 8), and the Higher Diploma in Education (Primary) which has no provisional placing as yet. At a more general level, the Irish Universities Association Registrars' Group maintains oversight in relation to NFQ developments.

Trinity College continued its participation in the National Qualifications Authority of Ireland/Irish Universities Association Framework Implementation Network (FIN) which is chaired by Professor John Scattergood of the TCD Bologna Desk and comprises representatives from all the universities and their associated colleges. A report from the FIN, dealing with issues around the design of programmes, the articulation of associated learner competences, and the assessment of learning outcomes, is due to be published by the end of 2009.

Undergraduate Student Retention

In 2005 a study commenced that tracked the status of all new entrants to first year of all undergraduate degree programmes as they progressed through their studies. This study charted the progress of the 2001/02, 2002/03, 2003/04, and 2004/05 new entrant cohorts at course level. Retention refers to all students who are retained within College, and this includes students who transfer to another course and students who go off-books. The Academic Secretary prepared a report based on this study for the Planning Group which was subsequently discussed at the University Council.

This retention study shows that overall approximately **15.4%** of new entrant students do not complete their undergraduate studies at Trinity College. The study shows that the majority of students who withdraw from College do so while they registered as Junior Freshman students. On average across the four cohorts studied, 10.5% do not complete first year (i.e. they do not progress to second year of their studies); 3.6% do not complete second year; 1.2% do not complete third year, and 0.1% do not complete fourth year.

Over the four years studied, 62% of new entrants were female and 38% were male. The percentage of registered female students who did not complete their studies was 14% compared with 17.5% for males. Of the 2,451 new entrants to undergraduate degrees at Trinity in 2004/05, 380 students did not complete their studies. Seventeen percent (17%) of students from Dublin City and Council did not complete; this compares to 11% from Connaught, and 14% from Munster and Ulster. Regarding academic ability, students with lower points on entry are slightly more likely not to complete than students on higher points. The study also shows that of those who withdrew, 53% had received their first preference course choice.

Trinity studies as well as national and international studies on retention show that the main reason cited for non-completion of a course relates to students having made the wrong course choice. Secondary reasons relate to lack of student and social integration, inability to cope with stress and to form relationships, commitment to one's course, poor educational preparedness, and the quality of the educational experience. International retention comparisons show Ireland at 85%, UK at 78% and the USA at 54%.

Council at its meeting of the 24th June 2009 approved the recommendations of the Report on Student Retention at Trinity College (see Appendix H for full details).

Access Plan 2009-2013

The Higher Education Authority requires that third level institutions develop access plans, and a working group, chaired by the Senior Lecturer was established in Michaelmas term 2008 to develop Trinity's Access Plan. The Plan includes College's policy on equity of access, an account of the College's present position regarding access, including the number of students enrolled from key access groups, existing resources and personnel dedicated either directly or indirectly to access issues, and an account of current activities through which the admissions policy on access is implemented. The National Plan for Equity of Access to Higher Education 2008-2013 sets out specific sectoral targets to be achieved by 2013. Facilitating access to third-level education involves a process of partnership between government and third-level institutions. The meeting of institutional targets is dependent on the meeting by Government of the commitments made in the *National Plan for Equity of Access*. Council approved the following targets subject to adequate resources being available at both an institutional level and at a student level.

- 22% entrance rates according to key access criteria
- 13% new entrance rates by under-represented socio-economic groups
- 11% new entrants in Engineering, Mathematics and Science
- 10% increase in students with a disability (excluding specific learning difficulties)

See Appendix I for information on other recommendations approved by Council.

APPENDICES

APPENDIX A - APPLICATIONS AND ADMISSIONS 2009

1. APPLICATIONS

In reviewing 2009 admissions data, Council is invited to note the following points:

- A total of 65,071 applicants applied for Level 8 courses in Irish higher education institutions through the CAO, representing an increase of 7.2% on the 2008 application figures.
- Trinity continued to attract a substantial proportion (11%) of first preference applications in the CAO system.
- In 2009, 17,288 applicants mentioned TCD as one or more of their CAO course preferences (15,748 in 2008) an increase of 9.8%.
- The number of first preference applications to Trinity College was 7,292 representing an increase of 8% on the 2008 figures (6,726 in 2008). The College's overall ratio of first preference applications to quota was 2.6:1 (2.5:1 in 2008).
- The term 'eligible applications' refers to applications that satisfy the matriculation requirements of the university, and, where appropriate, course requirements. There is a significant difference in the ratio of eligible applications to quota and the ratio of all applications to quota. The data shown in Tables A3-A6 provide this information. The overall ratio of eligible first preference applications to quota was 1.7:1.
- In 2009, A Level results were not published in the same week as Leaving Certificate results
 resulting in places to be held back in Round 1. Offers to A Level candidates were made in
 Round 2. This resulted in a slight overfilling of quotas on some courses. In addition the
 offer/acceptance season was shortened by two weeks due to the introduction of the new
 academic year structure.
- There were eight new undergraduate degree courses offered in 2009 Ancient and Medieval History and Culture; Business and Computing; Earth Sciences; Human Health and Disease; Law and Business; Law and Political Science, Political Science and Geography, Deaf Studies. All of these courses filled their quota.
- Courses in Science (TRO71) and Business, Economic and Social Studies (BESS) which have large quotas (340 and 236 respectively) continued to maintain a strong sectoral position. Points for BESS remained similar to 2008 levels but the minimum entry level for Natural Sciences rose to 440 points from 415 in 2008. The Engineering quota of 170 places was filled but the points dropped from 445 to 405.
- The new selection criteria for entry to undergraduate Medicine were implemented this year. In addition to presenting the Leaving Certificate examination (or equivalent) applicants also sat the HPAT-Ireland admissions test. Leaving Certificate points and test scores were combined and applicants ranked on the basis of the combined score. Applicants were required to present college and course matriculation in one sitting. This resulted in an overall drop in the number of students achieving high points in 2009 as the numbers repeating the Leaving Certificate to gain admission to medicine in 2009 were significantly reduced. In 2008, candidates presenting with 535 points together with a HPAT score were admitted to Medicine in TCD. Under the new scheme Leaving Certificate points range from 535 to 600.
- Four hundred and forty-one (441) EU new entrants achieved 560 points or higher in the Leaving Certificate or equivalent examination and were awarded an Entrance Exhibition. They represent 16% of the 2009/10 Junior Freshman class (24% in 2008).
- In 2009 there were 681 applications for admission under the Mature Student Dispensation Scheme (729 in 2008) and 112 mature students registered (133 in 2008).
- Tables A8 and A9 show the percentage trend of acceptances to Round 1 offers from 2005 to 2009. The percentages range from 55% to 100% and can show substantial variance from year to year. It is important to note that 2009 cannot be directly compared with other years as A Level offers were issued in Round 2.
- 69% of registered CAO students achieved 475+ points, and 37% achieved 525+ (Table A13 page A23).

Figure A1: Total number of CAO applications to full-time undergraduate degree courses in TCD (all preferences and first preferences) 2009, 2008, 2007

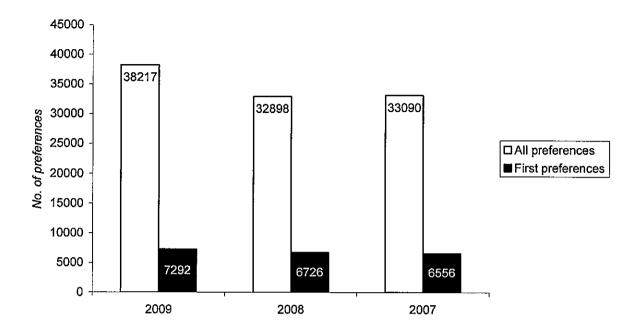

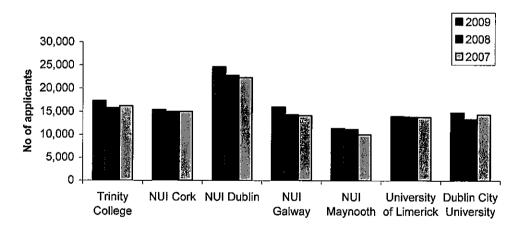

Figure A2: Total number of CAO applicants to all universities 2009, 2008, 2007

In 2009 the total number of CAO applicants to Trinity College was 17,288 compared to 15,748 in 2008 and 16,207 in 2007. There are up to 10 preferences on each application form and applicants may apply to more than one institution. Therefore, the figure 17,288 refers to the number of applicants who indicated a preference for one or more courses in Trinity College.

The total number of applications to courses (all preferences) in Trinity College was 38,217 in 2009 compared to 32,898 in 2008 and 33,090 in 2007. In 2009, the ratio of applications (all preferences) to quotas ranged from 1.1 in TSM Early Irish to 51.4:1 in TSM Psychology. The overall College ratio was 13.5:1 (12.3:1 in 2008).

2009 20 **■**2008 18 **2007** 16 14 12 10 8 6 4 2 0 Arts, Humanities & Engineering, Health Sciences Multi-Faculty Social Sciences Mathematics & Science

Figure A3: Ratio of CAO applications (all preferences) to quota 2009, 2008, 2007

Further detail is given on Tables A1 and A2 on pages A6-A7.

The ratio of first preference applications to quota, a more revealing indication of demand for College places, is shown in Figure 1, page 2 in the main text and Tables A5 and A6 on pages A11-A12

2. ADMISSIONS

The Admissions Office processes all applications to undergraduate courses in the university. These are categorised as (a) CAO applications, (b) direct entry applications, (c) applications from visiting students, and (d) non-EU direct entry applications to full-time degree programmes.

a) CAO Applications

Tables A5 and A6 on pages A11-A12 portray the relationships between course quotas, first preference applications and numbers registering for CAO courses. In comparing the numbers of students registered with course quotas it must be noted that achieving an exact match through several rounds of CAO offers and acceptances is a delicate and indeterminate process.

b) Direct Entry Applications

Table A1(a) on page A5 details the number of EU and non-EU direct applications to the Admissions Office, together with the ratio of applications to quota and number of registered students for direct entry courses. SOCRATES students are included in this category.

c) Applications from Visiting Students

The Admissions Office processed 276 applications from one-year and one-term SOCRATES/Visiting students (see Table A3 on page A5) in 2009. These applications are from EU students.

d) Non-EU Direct Entry Applications

Five hundred and eighty-seven (587) non-EU direct applications were processed from students seeking admission to Medicine (774 in 2008) and 54 from students seeking admission to Dental Science (36 in 2008).

In addition, the Admissions Office processed 286 non-EU applications for full-time undergraduate degree programmes other than Medicine and Dental Science (353 in 2008).

In 2009, a total of 3,553 new entrants registered on undergraduate courses in Trinity College, compared to 3,327 in 2008.

Table A7: Total number of CAO applicants* to universities, DIT, other ITs, Colleges of Education and private colleges
(all preferences) 2009, 2008, 2007

	2009	2008	2007
<u>Universities</u>			
Trinity College	17,288	15,748	16,207
NUI Cork	15,405	14,933	15,021
NUI Dublin	24,691	22,811	22,322
NUI Galway	16,037	14,327	14,167
NUI Maynooth	11,353	11,152	10,012
University of Limerick	13,932	13,838	13,769
Dublin City University	14,787	13,347	14,318
Total	113,493	106,156	105,816
Dublin Institute of Technology	16,368	16,144	16,515
Other Institutes of Technology (ITs)	52,438	47,665	46,490
National College of Art and Design	820	1,028	1,036
Colleges of Education	15,289	14,694	13,433
Private Colleges**	12,846	7697	8,953

Source: Central Applications Office

^{*}There are up to 10 preferences on each application form and applicants may apply to more than one institution.

^{**} This category includes Colleges with some courses eligible for the Government undergraduate fee remission scheme

Table A8 (a): Number of students admitted under the Mature Students Dispensation Scheme by Faculty 2009 – 2005

	2009	2008	2007	2006	2005
Number of applicants	681	729	750	748	798
Number of places offered	169	198	157	155	179
Number of stud	dents regis	tered by Fa	culty:		
Arts, Humanities & Social Sciences	58	60	51	51	66
Engineering, Mathematics & Science	14	27	15	16	11
Health Sciences	19	19	33	30	34
Multi-faculty	21	27	27	26	37
Total students registered	112	133	126	123	148

Table A8 (b): Number of mature student applications, offers and students registered in Nursing

	muranig				
	2009	2008	2007	2006	2005
Number of Nursing applications	1392	1207	1468	1601*	1102
Number of places offered	92	92	132	168	101
Number of students registered in Nursing	68	66	113	93	72

^{*}This increase is due to the introduction of two new courses: Bachelor in Midwifery and Childrens' & General Nursing Integrated

Table A8 (c): Profile of Undergraduate Mature Students

Category of Student	Arts, Humanities & Social Sciences	Engineering, Mathematics & Science	Health Sciences	Multi-Faculty
Mature students with previous degrees	10	1	11	3
Mature students without previous degrees	54	8	10	15
Number of mature students registered in Nursing*			68	
TOTAL	64	9	89	18

^{*} Applications for this route are processed by the Nursing Career Centre, therefore Trinity does have access to information concerning the attainment of previous degrees.

Table A9 (a): Profile of undergraduate new entrants by key access criteria per faculty 2009/10

Category of Student	Arts, Humanities & Sodial Sciences	Mathematics & Science	Health Sciences	MultiFaculty	Totals

Staff figures include:

Clinical Med

Obstetrics & Gynaecology Physiology Psychiatry

Public Health & Primary Care

Clinical Microbiology Nursing & Midwifery Surgery

Pharmaceutical Sciences Pharmacy and

Includes one Senior Lecturer in Neuroscience funded from HEA Expert Skills Programme & one Lecturer in Neuroscience, funded from HEA Expert Skills programme Includes 0.5 FTE joint with St. Patrick's Hospital and 0.5 FTE joint with, and fully funded by, the CMH & one lecturer funded in full by Medical School non-EU fees Includes 0.5 Senior Lecturer for M.Sc in Health Services Mgmt Includes one Lecturer in AMINCH, funded by School of Medicine fee income account, and one Lecturer on 3-year contract replacing vacancy occurring in Associate Professor post. Includes 2 Lecturers funded from external sources and two Lecturer/Co-Ordinators for M.Sc in each of Global Health & Health Services Management 0.25 Lecturer/Registrar charged in from AMINCH & 0.5 lecturer/registrar joint with Coombe Hospital

Includes one Lecturer funded by School of Medicine account and one Lecturer funded from Diagnostic Service income Includes one Lecturer in AMINCH funded by School of Medicine account

Includes 1 FTE Lecturer invoiced in from HSE (Central Mental Hospital) (M. Brennan), 0.5 FTE Lecturer invoiced in from St. Francis's Hospice (K. Connaire) and 0.5 FTE Lecturer invoiced Includes 7 Clinical Nurse Tutors calculated at an FTE of 0.75 each on basis of working 9/12ths annually and 2 Clinical Tutors year-round at FTE of 1 each Excludes Lecturers currently absent on Career Breaks.

in from St. James's Hospital (Anna Watson)

includes Dr Sheridan as 0.5 FTE and excludes Dr. Mariusz Kamionka, wholly funded from external sources

Staff figures include:

Classics:

Includes one Senior Lecturer funded by Leventis Foundation. Includes Walsh Family Lectureship. Includes one Senior Lecturer and one Lecturer for the Centre for Research in Irish Art History History of Art: History:

Includes one Broad Curriculum Lecturer and one Lecturer funded from self-financing MPhil programme in Modern Irish History and one Lecturer funded from an external benefaction. Includes Dr Crawford Gribben, joint appointment with School of English (each charged 50%) Includes Chair of Contemporary Irish History Includes one Senior Lecturer currently funded by AP

G&WS

Faculty of Arts, Humanities and Social Sciences

Inludes one Associate Professor transferred from ITE. Senior Lecturers figure includes Dr. Jeffrey Kallen transferred from CSLS, and one Senior Lecturer transferred from ITE also includes 1 Lecturer funded from SIF monies

Chair funded from a benefaction currently vacant. Includes one Temporary Lecturer in lieu of vacancy in the Chair of Drama ncludes 2 Lecturers each at 0.5 FTE (Andrew Johnstone and Orla Flanagan)

ncludes 0.5 Senior Lecturer joint with History funded from SIF monies. Includes one Temporary Lecturer in lieu of vacant Chair

Includes 1 FTE for Thomas Brown Lectureship, funded from a benefaction. Chair of Early Irish, part-funded from a benefaction

includes two Lecturers based in Belfast, invoiced in from ISE Trust, and one Lecturer whose working hours have been reduced, by request, to 50% time for a period of five years. Excludes one temporary Lecturer, 50% supporting Head of School and 50% replacing Professor Barkhoff during his tenure of the office of Registrar

Ecumenics

<u> 3erman</u>

Drama Music English Russian

Includes 0.6 FTE for Director MBA Programme, 0.5 FTE for Director of Master's programme in International Business, 0.41 Adjunct Professor (E.P. O'Neill) and one Broad Curriculum Lecturer funded from a Benefaction. Professors - Includes Chair of International Business and Chair in International Business & Development, and half-time Visiting Professorship. Includes one Associate Professor for self-financing course joint with IMI Excludes 3.5 Belfast-based Lecturers funded in full by ISE Trust **Business Studies**

Includes Chair of Childhood Research, held in Children's Research Centre and funded from a benefaction. Includes Chair of Cognitive Neuroscience, part-funded from a benefaction Includes 2 Senior Lecturers funded from self-financing courses. Includes 7 Lecturers and 1 Clinical Coordinator funded from self-financing courses Psychology.

includes 2 FTE Lecturers in respect of Teaching Assistants. Includes two Lecturers funded from benefaction and one Lecturer funded from self-financing M.Sc. Programme and one SIF funded Lecturer. Excludes Lecturers paid from self-financing activity accounts. Economics

includes one Broad Curriculum Lecturer funded from a Benefaction. Includes one Part-time Lecturers = 0.5 FTE in lieu of vacant Chair includes two Lecturers funded from self-financing courses, and one SIF funded Lecturer Political Science Philosophy:

includes Dr. Ronit Lentin as 1 FTE (not now included in Part-time conversions to FTE). Includes one Lecturer replacing Dr. Evelyn Mahon following transfer to School of Social Work & Social Policy. Includes 0.5 FTE Lecturer in Globalisation joint with Geography, funded from Broad Curriculum benefaction. Sociology

Includes 2 Lecturers for self-financing MSW Programme and one Lecturer for self-financing Addiction Studies Programme. Also includes one Lecturer funded by Department of Health, 0.5 Lecturer invoiced in from Department of Justice and 0.5 Lecturer funded by M.Sc in Applied Social Studies. Excludes supernumerary Lecturer B. Cullen Social Work & Socii Includes one Senior Lecturer in each of self-financing programmes Addiction Studies and Child Protection & Welfare.

Excludes DAAD-sponsored Fachlektor and MOPS Lecturer, both included in part-time FTE a¥ V

Staff figures include:

Computer Science

Excludes two Professors currently funded by SFI; and 0.6 of Professor Jane Grimson who is seconded for three days each week to HIQA through to 2011. Excludes one Associate Professor currently seconded to SFI Project to July 2009

Includes one Lecturer in lieu of Associate Professor seconded to SFI (see 2 above). Includes 2 Lecturers in respect of IT in Education.

Excludes two Research Lecturers wholly funded from Research Account; and one Lecturer currently on Career Break

Also excludes temporary Lecturer appointed to replace Professor Carol O'Sullivan during her Deanship of Graduate Studies. (Roberts) and not replaced in current year and one Lecturer on extended sick leave (G. Stephens, now on Prolonged

includes the McNamara Chair; one Lecturer funded by the Departmental Pay account

Includes Chair of Neural Engineering

Electronic & Electrical

Civil Engineering

Includes two Lecturers for self-financing Engineering with Management course, includes Professor Prendergast, excludes temporary replacement for Professor Prendergast Includes 0.5 FTE for Professor Ciona O'Farrelly, joint with Clinical Medicine Biochemistry & Immunology Mechanical Engineering

Senior Lecturer - Includes Hitachi Senior Lecturer, funded from a Benefaction. Includes 1 Senior Lecturer for Neuroscience and 1 Senior Lecturer for Immunology

Includes 1 Lecturer for Immunology.

Professors - Excludes Professor Senge, currently funded by SFI to 31/12/2009. Demonstrators - Includes 0.07 FTE in respect of Science of Materials Figure for Demonstrators includes 0.14 FTE in respect of Biology Teaching Centre, and 0.08 FTE in respect of Neuroscience Demonstrators

Demonstrators include 0.06 FTE in respect of Maths Methods

Chemistry

Maths Botany:

Zoology: Physics Senetics

Includes 0.17 FTE in respect of Director of Biology Teaching Centre

Associate Professors figure excludes Stokes Professor (Hegner) funded by SFI. Lecturers figure excludes Stokes Lecturers (Drs Krstic and Zhang) funded by SFI Includes 0.34 FTE in respect of Director of Biology Teaching Centre

Senior Lecturers include 0.17 FTE in respect of Director of Biology Teaching Centre Demonstrators includes 0.10 FTE in respect of Biology Teaching Centre

Senior Lecturers includes 0.17 FTE in respect of Director of Biology Teaching Centre

Microbiology

Demonstrators inlcudes 0.46 FTE in respect of Biology Teaching Centre

Appendix F

Revised Academic Year Structure, with effect from 2009/10

The new academic year structure (YS3) recommended by the Working Group on Modularisation and Academic Year Structure was approved in principle by Council on 27th June 2007 and by Board on 4th July 2007 subject to a further proposal being brought forward in 2007/08 regarding its implementation and associated details. Following further consultation with Schools in Michaelmas term 2007 in relation to the detail of teaching terms, revision and examination periods, it was agreed to reduce the Revision period from 3 to 2 weeks and to lengthen the annual examination period by 1 week to 4 weeks. The amended YS3 model is shown below.

Cal. Wk	Dates 2009/10	Outline Structure of Academic Year	Notes
1	31-Aug-09		Statutory Term (Michaelmas) begins 2 weeks earlier than at present to
2	07-Sep-09	Supplemental Examinations	fit in + 2 teaching weeks & +1 reading week before Christmas. Supplemental exams require 2 weeks as at present.
3 4	14-Sep-09 21-Sep-09	PG Registration UG New Entrant Registration/Freshers Week	
5	28-Sep-09	Teaching/Week il Registration continuing studs	Michaelmas Lecture term begins 2 weeks earlier than at present
6	05-Oct-09	Treschille Week 2 Registration continuing styris	Michael College Colleg
7	12-Oct-09	Treading (Week 8)	
8	19-Oct-09	rreaching (Week 8) rreaching (Week 4)	
9	26-Oct-09	Treaching Week 6	
10	02-Nov-09	Treachtan Week 6	
11	09-Nov-09	iileachting)Week 7	
12	16-Nov-09	ireaching Weak 8	
13	23-Nov-09	Teaching Week 9	
14	30-Nov-09	Teaching Week 9 Treaching Week 10	
15	07-Dec-09	reaching Weak 1/1

40		Marking/Courts of Examiners/Results	
41		Marking/Courts of Examiners/Results	
42	14-Jun-10	Marking/Courts of Examiners/Results	
43	21-Jun-10	Courts of First Appeal/Academic Appeals	
44			Statutory (Trinity) Term ends
45		Postgraduate dissertations/theses / Research 1	Research period: 8 weeks as at present between end of statutory
46		Postgraduate dissertations/theses / Research 2	(Trinity) term and commencement of statutory (Michaelmas) term. This
47		Postgraduate dissertations/theses / Research 3	period is also used for writing up Masters dissertations and research
48		Postgraduate dissertations/theses / Research 4	theses due for submission in September. Also vacation period for staff.
49 50		Postgraduate dissertations/theses / Research 5	
50 51		Postgraduate dissertations/theses / Research 6	
51 52		Postgraduate dissertations/theses / Research 7	
02	29-Aug-10	Postgraduate dissertations/theses / Research 8	

Notes:

- 1. Easter Sunday 2010 falls on 4th April. Between 2010-2025, the earliest date for Easter is 27 March and the latest date is 24 April.
- 2. With Trinity Week moving forward into March/April, planning will be needed to ensure that Trinity Monday does not coincide with Easter Monday.

Category 7: Overall mark of 80% and above		
* with permission to carry one subject at between 60% and 69%		

Appendix H

Undergraduate Student Retention

Council at its meeting of the 24th June 2009 approved the following recommendations on retention.

- (i) All courses should review their undergraduate Prospectus entries and make sure that these realistically describe the course and expectations. Entries should provide web links to course handbooks, especially first year handbooks, and programme and module learning outcomes should be articulated and published. Descriptions of courses in the undergraduate Prospectus should be accessible to young adults and school-leavers, and Schools should seek input from current students on the course description when reviewing entries for the Prospectus.
- (ii) The Admissions Office should seek input from Second Level Guidance Teachers on the type and level of course information that College should make available for second-level students.
- (iii) Each School should review and update their website to ensure ease of access to course descriptions for prospective applicants.
- (iv) In order to reduce the number of withdrawals due to wrong course choice, College/Schools should consider:
 - a. Recruiting student ambassadors to visit second-level schools
 - b. Organising discipline-specific open days
 - Posting vidcasts/podcasts of lectures, practicals, etc. on School website.
- (v) Each course should have mechanisms in place that alert the course coordinator / committee that a first year student is experiencing difficulties and may be at risk of dropping out. Non attendance at tutorials or laboratories or failure to complete a project/essay should prompt a response from the course. Exiting procedures in respect of non-satisfactory returns could be a basis for early detection. These should be web-based.
- (vi) Students S As a significant number, relatively speaking, of withdrawals appear to take place earlier in the year, College tutors should make contact with their Junior Freshman tutees in week 5 or 6 and again after the Christmas break to check how they are progressing.
- (vii) Students in receipt of free fees must re-register in February. Students not eligible for free fees should also be required to re-register to ascertain total first year withdrawals. First year students who do not complete second registration should be contacted directly to ascertain reasons for withdrawing. These data should be made available to Schools and considered annually by the Undergraduate Studies Committee.
- (viii) Each course should have a Year Head responsible for Junior Freshman students.
- (ix) The new student administration system (as part of eStrategy) should facilitate the tracking and monitoring of student progression and should interface with student supports information systems to enable the production of accurate management information reports on retention and non-completion.
- (x) Student learning and personal supports services should be integrated, and College should build on existing services and especially models of good practice.
- (xi) Orientation and induction programmes should develop approaches to assist students build relationships and these activities should be facilitated by Schools/courses, Students' Union, Student Services and Supports, Clubs and Societies.
- (xii) College/Schools should develop and support 'peer assisted learning' and 'peer mentoring' programmes.
- (xiii) Existing quality improvement and assurance processes should be further developed taking a more integrated approach to:
 - a. teaching and staff development,
 - b. student learning and academic & student supports,
 - staff development and technology enhanced learning.

Appendix H

- d. curriculum reform/review and programme/module evaluations,
- e. academic workload and quality of student experience.
- (xiv) Schools should conduct student evaluations of modules, and provide feedback to students and address any substantive issues arising.
- (xv) All courses should plan to retain a minimum of 90% of new entrants, and retention should be reviewed each year at School and Faculty Executive meetings.
- (xvi) Funding should be made available to support both 'peer assisted learning' and 'peer mentoring'.
- (xvii) Tutor chambers, especially in areas where there is a high Junior Freshman attrition rate, should be reduced, and such tutors should be supported to provide social outings for their Junior Freshman tutees, for example, Commons early in the academic year.
- (xviii) Faculty Deans should provide support to Schools to increase retention on courses.
- (xix) College should create sufficient student accommodation capacity to offer accommodation to all new entrants.
- (xx) All courses should put in place a progression mechanism for level 7 graduates from other third level institutions, and these should be activated if places become available in years 3 and 4 of an undergraduate course.

The Academic Secretary should prepare an annual progress report on the implementation of the above recommendations for consideration by the Undergraduate Studies Committee.

Appendix I

College Access Plan 2009-13

Council at its meeting of the 6th May 2008 noted the Access Plan 2009-2013 and approved the following recommendations:

- (i) The College should continue to work with the HEA and with other third-level institutions to refine definitions of target groups and improve processes of Access Data Collection.
- (ii) The Access Data collection should be integrated into College's e-Strategy.
- (iii) Pre-Entry Activities: the collaborative initiatives, such as the Inner City Access Programme (ICAP), between TCD and DIT should be sustained and developed.
- (iv) Progression Alternative Admissions Routes: College should enter into meaningful engagement with FETAC with a view to developing suitable courses to assist disadvantaged students to enter undergraduate courses in mathematics, engineering and science.
- (v) Progression Alternative Admissions Routes: Research should be undertaken to look at the feasibility of reviewing Trinity College Dublin's admissions policy in terms of varying the matriculation requirements for undergraduate courses in mathematics, science and engineering, specifically for candidates who are eligible to apply to College through modified points schemes. Matriculation requirements for these candidates could be reduced to consist of the required grade in three or four leaving certificate subjects most directly pertinent to the area of study.
- (vi) Existing extra mural course offerings (part-time, evening and weekend) be considered as a starting point for the provision of accredited life-long learning with a view towards developing targets for such provision.
- (vii) New and existing extra mural courses should be considered in the context of community outreach in line with College's commitment for greater engagement with society.
- (viii) College should consolidate existing on-line supports and undertake an investigation of the possible provision of additional on-line supports.
- (ix) College should demonstrate the importance attached to access by facilitating its inclusion as an acknowledged element in staff training and development.
- (x) Schools should make provision for the role of an academic access liaison contact within the School. This role can be in the creation of a post of Academic Liaison Officer or by adding the functions to the responsibilities of an existing post holder in the School (e.g. the Director of Teaching and Learning or Head of Discipline). The staff member with this responsibility should sit on the School Executive. The functions of the Academic Liaison Officer or staff member responsible for the role include:
 - Raising awareness of access issues and activities
 - Providing a clear point of contact within academic units for those working in the access area
 - Bringing perspectives relating to access to Schools' considerations of curricular reform.

Appendix J

Range of examination durations

09/12/2009

Current 13 examination durations	Total number of events in 2007/ 2008	Total number of events in 2008/ 2009	Proposed 6 examination durations	Revised number of 08/09 events within the new range of examination durations (for comparison)
60 minutes= 1 hour	15	17	1 hour	17
75 minutes = 1 hour 15 min	16	20		
80 minutes = 1 hour 20 min		100	1-hour 30 min	66
90 minutes = 1 hour 30 min	₹ 17 ₹ î	45		
105 minutes = 1 hour 45 min	-	2	2 hours	264
120 minutes = 2 hours	245	262		
135 minutes ≓ 2 hours 15 min	2	4 ***	2 hours 30 min	6
150 minutes = 2 hours 30 min	795.24 75.34 76.24	2		
180 minutes = 3 hours	864	866	3 hours	869
190 minutes = 3 hours 10 min	3	3		
195 minutes = 3 ; hours 15 min	7	6	3 hours 30	
210 minutes = 3 hours 30 min	5	7	min	13
225 minutes = 3 hours 45 min				
	Events: 1179	Events: 1235		Events: 1235

Proposed new durations have resulted from applying the rounding up/down formula to the current range as follows:

- From 15 min past the hour (inclusive) to 15 min to the hour (exclusive) rounding to half the appropriate hour
- From 15 min to the hour (inclusive) to 15 min past the hour (exclusive) rounding to the appropriate full hour

Summary:

- 1) The minimum examination duration is 1 hour
- 2) The maximum examination duration is 3 hours 30 min
- 6 examination durations allowed: 1 hour, 1 hour 30 min, 2 hours, 2 hours 30 min, 3 hours, 3 hours 30 min
