Why take this New Minor Subject?

Russian is the first language of nearly 150 million people; it is spoken by more than 260 million people around the world and is one of Europe’s most important languages. Russia is a significant force in present-day geopolitics and a major player in the global economy, with ties both to Europe and to Asia, and beyond. Russian writers, musicians and artists have made a considerable contribution to European culture; Russian history has helped shape Europe as we know it today: Exploring Russia’s past and present helps understand the interaction between Europe’s eastern and western traditions.
