Engage, Innovate, Inspire

Monday Night Higher Level Maths Grinds - Leaving Cert

Description:

Our Maths grinds are delivered by Horst and Ciaran from the Irish Maths Teachers Association. They run a Monday night revision programme exclusively for students from Trinity Access schools. Each session is focused on a particular topic from the Higher Level Maths Leaving Cert syllabus. Usually they are delivered on the main TCD campus, this year they will be delivered by zoom.

These sessions provide opportunities for students to gain additional tuition. We ask students to pay 10 - 15 euro to encourage buy-in and retention. These sessions hope to start in mid-November to encourage students to retain their higher level subject.

Duration:
This is an 8-week course with one session per week, LC student. Students will participate in a one-hour online session. The links and reminders for these sessions will be sent to the students via email.

Commitment from Schools:
In order to participate in the programme, schools would need to commit to the following;
- A linked teacher to liaise with the programme facilitator and to ensure students sign up
- Encourage students to sign themselves up via social media/emails to Year Heads/Maths teachers
- Remind students to attend as these grinds happen outside of school hours
- There is no minimum or maximum number of participants for JC or LC Grinds
- As the programme is currently facilitated online, students would need access to devices
- Students must pay a small fee between 10-15 euro to begin the course, which is mainly to encourage buy-in and to keep high retention rates

Sessions:
7:45 - 8:45 pm (online session): this is an interactive lecture-style session for HL, Leaving Cert students. LC students are asked to use their past paper for the duration of the Monday Night grinds programme.

All sessions will have a Trinity Access student ambassador in attendance to take the register and monitor student engagement on zoom.
