death in WPW have been reported by Wellens and include male sex, high adrenergic tone (e.g. sporting activities) and other electrophysiological criteria. The European Society of Cardiology recommends full investigation, including electrophysiological studies, in all asymptomatic people with Wolff-Parkinson-White Syndrome prior to participation in competitive sports.

TSMJ Scholarship Winners 2008

Congratulations to

Donal Bailey
and

Sinead Jennings

who were awarded last year’s TSMJ Scholarships on the basis of extracurricular excellence.

These awards were kindly sponsored by St. James’s Hospital Medical Board Fund and the AMNCH Medical Board Fund.
